The House amendment contained a provision (sec. 1009(a)) that would permit the Secretary of Defense to enter into contracts with firms to provide relocation assistance to members of the armed forces relocating from one geographic area to another.

The Senate bill contained no similar provision.

The Senate recedes with an amendment striking the authority to enter into such contracts and instead directing the Secretary of Defense to provide a report on the potential utilization of such services.

Amortization period for parking facilities for house trailers and mobile homes (sec. 809(b))

The House amendment contained a provision (sec. 1009(b) that would increase the amortization period for parking facilities for house trailers and mobile homes from 15 years to 25 years.

The Senate bill contained no similar provision.

The Senate recedes.

Cost of unaccompanied personnel housing for members of the uniformed services (sec. 809(c))

The House amendment contained a provision (sec. 1009(c)) that would exempt military personnel from the requirement to pay the reasonable rental cost for unaccompanied housing while on a permanent change of station move or on temporary duty orders.

The Senate bill contained no similar provision.

The Senate recedes.

Food cost for certain enlisted members (sec. 810(a))

The House amendment contained a provision (sec. 1010(a)) that would eliminate the surchage for meals sold in military messes for enlisted members in pay grades E-1 through E-4 and members of their immediate families.

The Senate bill contained no similar provision.

The Senate recedes with an amendment limiting eligibility for exemption from the surcharge to the spouses and dependent children of enlisted members in pay grades E-1 through E-4.

Report on issuing food stamp coupons to households of members stationed outside the United States (sec. 810(b))

The House amendment contained a provision (sec. 1010(c)) that would direct the Secretary of Defense to submit a report to the Congress on the feasibility of having the Department of Defense issue food stamp coupons to households of service members stationed outside the United States.

The Senate bill contained no similar provision.

The Senate recedes.

Reporting on child abuse (sec. 811)

The House amendment contained a provision (sec. 1011) that would direct the Secretary of Defense to request each state to provide reports on known or suspected instances of child abuse and neglect involving the child of a member of the armed forces.

The Senate bill contained no similar provision.

The Senate recedes.

Housing availability (sec. 812(a))

The House amendment contained a provision (sec. 1012(a)) that would require the Secretary of Defense to submit a report to Congress on the availability and affordability of off-base housing for members of the armed forces and their families.

The Senate bill contained no similar provision.

The Senate recedes.

Study on need for assistance to dependents entering new secondary schools (sec. 812(b))

The Senate bill contained a provision (sec. 926(h)) to require the Secretary of Defense to submit a report making recommendations for any administrative and legislative changes necessary to assist families whose children must transfer to schools with different graduation requirements.

The House amendment contained similar provisions (sec. 1012(b) and 1161(e)).

The House recedes.

LEGISLATIVE PROVISIONS NOT ADOPTED

Operation of child care facilities

The Senate bill contained a provision (sec. 926(e)) that would direct the Secretary of Defense to provide for the operation of child care facilities on military installations on a 24-hour basis, if necessary to meet mission requirements.

The House amendment contained no similar provision.

The Senate recedes.

The conferees direct the Secretary of Defense to conduct a study and evaluate the need for operating child care facilities on military bases on a 24-hour basis when necessary to meet mission requirements and to provide a report on his findings to the Committees on Armed Services of the Senate and House of Representatives no later than December 1, 1985. The report should include a description of the kinds of mission requirements that would necessitate 24-hour care coverage, the number of military installations that would need this service could estimated the cost of the plan.

Reimbursement for food at child care facilities overseas

The House amendment contained a provision (sec. 1010(b)) that would require the Secretary of Defense to provide payments to military child care facilities overseas for costs of food and food preparation comparable to payments provided by the Secretary of Agriculture to child care facilities in the United States under section 17 of the National School Lunch Act.

The Senate bill contained no similar provision.

The House recedes.

TITLE IX—PROCUREMENT POLICY REFORM AND OTHER PROCUREMENT MATTERS

PART A—PROGRAM MANAGEMENT MATTERS

LEGISLATIVE PROVISIONS ADOPTED

Allowable costs (sec. 911)

The Senate bill contained a provision (sec. 702) that would require the Secretary of Defense to issue regulations clarifying the types of cost that would be allowable under defense contracts. It would specify 14 categories of cost that are to be considered generally unallowable. The contractor would be penalized in an amount equal to the cost submitted, plus interest, the first time an unallowable cost is submitted. The contractor would be penalized an additional amount equal to two times the amount of the cost submitted if costs of the same type are submitted repeatedly or if a proposal contained numerous unallowable costs. The contractor would be subject to the criminal penalties established in 18 U.S.C. 287 and the civil penalties established in 31 U.S.C. 3729 (the False Claims Acts) for submitting a cost that the contractor did not actually incur.

The House amendment contained a provision (sec. 801) that would prohibit by statute the submission by a contractor of costs in 10 specified categories, and any other costs which the Secretary of Defense so specified. It would require the Secretary of Defense to clarify its regulations regarding numerous additional categories of costs. In addition, a contractor would be required to certify that all costs submitted in its proposal were allowable.

Under the House amendment a contractor would be assessed a fine equal to the amount of any expressly unallowable cost, plus interest, or $10,000, whichever is greater. If a contractor continued to submit a cost that had previously been disallowed, the penalty would be double the amount of the cost submitted, plus interest, or $10,000, whichever is greater.

In the event a contractor submits an unallowable cost, knowing it to be unallowable, the contractor would be subject to a fine in an amount up to $500,000 and up to five years imprisonment, and an individual would be subject to a fine in an amount up to $250,000 and up to five years imprisonment.

The House amendment would strengthen accountability in negotiating settlement of costs by requiring that each item questioned by the auditor be dealt with individually and not as part of a lump sum agreement. It would also require that the regulations state that if a contractor failed to submit proof that its costs were allowable, the cost could not be negotiated and must be disallowed. In addition, it would require that the regulations maintain that a cost disallowed under one cost principle not be submitted under another cost principle.

The House amendment would require the establishment of a mandatory rotation policy for all administrative contracting officers and that the contract auditor be present, to the maximum extent practicable, at all negotiations on allowability of costs.

The House amendment would require a reduction in the rate a contractor is paid for its current year overhead by an amount equal to the amount questioned by the auditors in the previous year and would apply the cost principles established pursuant to this section to subcontracts and firm fixed-price contracts for which cost and pricing data are required pursuant to the Truth in Negotiations Act.

The Senate recedes to the House with an amendment as follows: (1) providing that, with respect to those costs which are stated by law as unallowable, the Secretary of Defense may make appropriate definitions, limitations, exclusions and qualifications as part of regulations to be issued to implement this section; (2) clarifying what information is necessary to satisfy the requirement to resolve each item of questioned cost and the level of resolution; (3) adding the requirement that the certification be to the "best knowledge and belief" of the certifying official; (4) amending the requirement that a contractor submit adequate documentation or the cost will be disallowed regardless of the merits of the cost, by providing that a contracting officer may not settle an item of questioned cost unless the auditor has reviewed the contractor's supporting documentation; (5) deleting the prohibition that a cost disallowed under one cost principle may not be submitted under another cost principle; (6) deleting the requirement that provisional rates be based on costs questioned; (7) amending the minimum penalty for submission of an unallowable cost by providing that its application is discretionary and increasing the penalty for the second submission of such a cost to three times the amount of the cost submitted, as well as increasing the fine for the knowing submission of an unallowable cost, if such submission resulted in violation of the criminal False Claims Act, to $1 million for defense contractors; (8) clarifying the application of the cost principles to subcontracts; (9) limiting the application of this section to contracts which are other than fixed-price contracts without price incentives; and (10) deleting the statutory prohibition on use of corporate aircraft.

The conferees agreed that although they were strongly in favor of stating as a matter of public policy that certain costs would not be allowable on government contracts, an absolute statutory prohibition on certain categories of costs might be unworkable. The conferees were concerned that circumstances might exist that would warrant the recovery of costs that could possibly fall within these categories. Accordingly, the conferees agreed to a provision that would authorize the Secretary of Defense to develop by regulation appropriate definitions, exclusions, limitations, and qualifications.

The conferees deleted, as well, the detailed limitations and exclusions contained in the House bill relating to the allowability of certain types of aircraft travel. The conferees intend, however, that in drafting the regulations relating to first class air travel, the Secretary of Defense not provide significant limitations or exclusions beyond those necessary to provide that a contractor be reimbursed for expenses exceeding standard commercial fare if travel by standard fare would: require travel at unreasonable hours; excessively prolong travel; result in overall increased costs that would offset potential savings; or would not meet physical or medical needs of the person traveling.

In publishing the appropriate regulations with respect to travel by privately owned aircraft, the conferees further direct the Secretary of Defense to consider whether: travel by such aircraft is specifically required for contract performance or otherwise specifically authorized under the con-

tract; travel by common carrier is impractical; the travel is performed for business purposes and requires the use of such aircraft. The need for and use of such aircraft should in any case be fully documented and justified.

The conferees, after much discussion, also deleted the House provision which would have required that provisional rates be reduced by the amount of the costs questioned by the auditor in the latest year settled rather than the amount ultimately disallowed. The conferees agreed that other incentives, such as the monetary and criminal penalties already in the bill, would sufficiently ensure that contractors did not submit unallowable costs. The conferees noted, however, that this provision might provide an additional incentive to contractors to settle their indirect accounts in a timely manner and otherwise ensure that a contractor never receives payments for indirect costs in an amount in excess of that to which it is ultimately entitled, as occurred in at least one case. The conferees also included a provision to permit the government to collect interest if such circumstances occur. Accordingly, the conferees direct that the Secretary of Defense review this proposal and provide a report to the Committees on Armed Services of the Senate and the House of Representatives, within 90 days of the enactment of this act, on the effect such proposal might have if enacted.

The conferees discussed at length the need for the indirect cost settlement process to reflect the actual amount of costs associated with disputed issues in the defense contract auditor's review that are paid. The previous practice of aggregating a large amount of disputed costs and reaching a bottom line negotiated settlement is not satisfactory, since neither the government nor the contractor understand what has been allowed after the settlement occurs. Though the provision in the conference report does not require the government and the contractor to agree on a rationale for full or partial payment or for disallowance, it does require that the settlement show the amount of individual questioned costs that are paid with respect to all categories of costs designated in the report of the defense contract auditor as questioned.

Multiple sources for major defense acquisition programs (sec. 912)

The Senate bill contained a provision (sec. 603) that would require the Secretary of Defense to prepare and submit to Congress an acquisition plan that would provide for the establishment and maintenance of two or more production sources for system integration and for major subsystems to be purchased by the United States under major defense acquisition programs when the establishment of such sources would: increase competition and likely result in reduced overall costs for such program; not result in unacceptable delays; and otherwise be in the national security interests of the United States. If the acquisition plan would not require the establishment and maintenance of two sources, the Secretary of Defense would be required to state the reasons, including any cost estimates or other material, which formed the basis of the Defense Secretary's conclusion that establishment and maintenance of two or more sources is not required.

The House amendment contained a provision (sec. 811) that would require the Secretary of Defense to submit, not later than submission of the budget, a plan for competition for all major defense acquisition programs and major subsystems of those programs during full-scale development as well as production. If the Secretary of Defense determines that competitive alternative sources of supply would not otherwise be available, the Secretary of Defense would be required to provide in the plan for the award of contracts so as to provide and maintain at least two sources of supply. In so doing the Secretary of Defense would be required to award a majority of the effort to the offeror whose proposal is most advantageous to the United States, while providing the other contractor or contractors enough of the work to enable them to compete effectively for future purchases.

Under the House amendment, the Secretary of Defense would be authorized to waive the requirement if awarding multiple contracts would materially increase the total cost of the program or unreasonably delay its completion. The Secretary of Defense would be required to provide the rationale and supporting documents for such a waiver to the Committees on Armed Services of the Senate and the House of Representatives.

For purposes of determining whether there are alternative sources of supply, the requirement for competition would be satisfied even though the contractors do not produce identical systems, as long as both systems perform similar functions and complete effectively with each other.

The Senate recedes with an amendment making the following substantive changes: (1) providing new criteria for waiving the requirement to ensure there are competitive alternative sources during full-scale development of a covered system; (2) deleting the provision relating to how contract efforts should be awarded to ensure that two sources are available; (3) deleting the provision prohibiting the use of Competition in Contracting Act (CICA) exemptions one and seven; and (4) deleting the prohibition on the authority of the Secretary of Defense to waive the requirement to establish competitive alternative sources available if the secretary has already waived the requirement with respect to systems valued at 50 percent of the value of all the major defense acquisition programs initiated subsequent to fiscal year 1986.

The conferees considered at length the 50 percent limitation on the waiver authority. The Senate conferees remained adamant that, while not objecting to the purpose of the provision, they would not agree to an arbitrary limit on the exercise of the Secretary's authority for the following reasons: a lack of information regarding the appropriate level of multiple sourcing for the major systems subject to this act, and the inflexibile nature of a percentage ceiling in law.

The Senate conferees were also concerned that once the 50 percent level has reached, the Secretary of Defense would be required to maintain more than one source even if it would increase the total program cost or unreasonably delay completion of the program. However, a number of the conferees agreed that the waiver authority should not be used for more than 50 percent of the dollars subject to this act. If it appears that the Secretary has not complied with the intent of this section, the Committees on Armed Services of the Senate and the House of Representatives will reconsider the issue of applying a dollar-value limitation on the Secretary's waiver authority.

The conferees agreed to retain a House provision requiring the Secretary of Defense to report on any changes to the acquisition strategy. It is not intended that a report be provided for minor or insignificant changes, but rather only those that substantively affect whether or not multiple sources will be available for future acquisitions.

The conferees agreed to the deletion of the House provision limiting the use of the Competition in Contracting Act exemptions from competitive procedures. The requirement in this section to ensure that competitive alternative sources are available in the full-scale development and production of major weapons system is separate and distinct from the requirement in 10 U.S.C. 2304 to use competitive procedures in awarding government contracts. It is clearly the intent of Congress that the Department of Defense is not authorized by the section on multiple sourcing to waive the requirement to ensure that competitive alternative sources are available simply because the item or service is available from only one source. Waivers may be granted under this provision only for those reasons specifically identified in this section.

Although the conferees agreed that the House language on award procedures to be followed when awarding more than one contract, was inappropriate for inclusion in statute, they expect these procedures to be followed. In particular, the conferees intend that in order to comply with the provisions of this section, the Secretary of Defense must ensure that the amount of work awarded to each contractor in order to maintain that contractor as a competitive alternative source throughout the life of the program, is sufficient to enable that contractor to continue to compete effectively for any production contract.

Finally, although the conferees deleted the words "unreasonable delay" and "materially increase" from the waiver authorization, the conferees intend that in order to satisfy the threshold for waiving the provisions of this section the Department of Defense must present convincing evidence that the establishment of a second source would in fact result in a material, not insignificant increase in the cost of the total program or an unreasonable delay of program completion.

Minimum percentage of competitive procurements (sec. 913)

The House amendment contained a provision (sec. 807) that would require the Department of Defense to increase the total percentage dollar value of contracts it awards competitively by 5 percent per year up to a rate of 70 percent. If the department fails to reach that goal, it must report to the Committees on Armed Services of the Senate and the House of Representatives, not later than 90 days after the end of the fiscal year, explaining why the department failed to meet the goal.

The Senate bill contained no similar provision.

The conferees were in full agreement with the purpose of this provision and support the objective encompassed in the provision. The conferees also recognize that the Department of Defense has already made substantial progress in increasing competition and is presently competing approximately 43 percent (by dollar amount) of its procurements. The conferees also aware that approximately 28 percent of the department's procurement dollars are awarded as follow-on contracts for systems that were originally competed. The conferees believe that the goals established in the House amendment

are reasonable targets, though they recognize that both figures were established without specific analysis of the opportunities to increase competition at this time or in the future in the services. However, the Senate conferees refused to agree to any percentage of dollars being set as a goal for competition because of the arbitrary nature of any number (percentage of dollars which must be competed). The conferees did agree to a provision that the Secretary of Defense must, in an annual report to Congress, establish a goal for the total value of contracts entered into competitively for the coming year and summarizing the department's accomplishments in meeting their goal for the previous year.

Regulations to control prices that may be paid for spare parts (sec. 914)

The Senate bill contains a provision (sec. 703) that would require the Department of Defense to report to the Committees on Armed Services of the Senate and the House of Representatives, not later than 90 days after the date of enactment of this act, on the specific actions taken by the Department of Defense to address the management problems associated with excessively priced spare parts because of overspecification, uneconomic order quantities, failure to purchase directly from the actual manufacturer, noncompetitive purchases, and excessive contractor profits.

The conferees note that the Secretary of Defense has failed to comply with the relevant portions of federal law requiring that the issue regulations by April 19, 1985, regarding the allocation of overhead by defense contractors in the pricing of spare parts (see section 1245 of Public Law 98-473). In numerous instances, the Department of Defense has urged the Congress to withhold the enactment of legislation which in the Defense Department's view is overly detailed. The Department of Defense has requested in such instances that it be given the opportunity to address these issues through the administrative process. However, if the Department of Defense is unable to comply with the time frames established by statute, the Congress will have no alternative other than expanding the scope of its legislative action. With regard to the present failure to comply with the law, the conferees believe that the subject matter of section 1245 is of the highest priority, and the Secretary of Defense should ensure that the regulations called for by section 1245 are issued immediately.

The House recedes with an amendment making minor technical changes to the amendment and clarifying that the authority to issue regulations to address these matters does not supersede the responsiblity for issuing regulations required by last year's authorization bill.

Should-cost analyses (sec. 915)

Provisions in the Senate bill (sec. 604) and the House amendment (sec. 1207) contained similar language relating to the performance of "should-cost" analyses. Should-cost analyses are a technique used to evaluate ongoing production programs by sending in a government team to evaluate the contractor and to identify inefficiencies in the contractor's management and operation. Should-cost analyses provide, for example, information the government needs to evaluate a contractor's assertions that costs cannot be reduced, thus assisting government negotiators in arriving at the best price for the government and motivating the contractor to reduce labor hours, overhead, etc.

The Senate provision would require that the Secretary of Defense perform a should-cost analysis on all new major defense acquisition programs where there is no competition within the first four years of production. The House amendment requires the Secretary of Defense to submit a plan annually to Congress for the performance of should-cost analyses for all major weapon systems, explaining in each case why he is or is not planning to conduct a should-cost analysis for that system.

Although should-cost analyses can provide a significant return on investment, they are not cost effective in all circumstances because of the expertise and resources needed to accomplish them. The conferees concluded that the House provision would allow the Department of Defense to utilize its resources where they will provide the most significant return, but ensure that Congress has adequate oversight of their use. The conferees believe, however, that the Secretary of Defense should conduct cost analyses in situations where: (1) there is a continuing sole source procurement of the system in question; (2) the system is in a stable production mode; (3) there are substantial quantities of the system programmed for procurement in subsequent fiscal years; (4) the work to be performed is sufficiently well defined to permit an effective analysis of what production of the system by the contractor should cost; and (5) major changes in the program are not likely. The conferees believe that these analyses will materially assist program managers in the Department of Defense in the negotiation of the most favorable price for the government on major weapon systems.

The Senate recedes with an amendment adding the requirement that the provision apply to major defense programs for which funds for initial production are first appropriated for fiscal years after 1986.

Limitations on progress payments (sec. 916)

The House amendment contained a provision (sec. 1119) that would preclude the payment of progress payments until after the work for which payment is made is accomplished and in accordance with a schedule of payments commensurate with the established cost of accomplished work of acceptable quality. The House provision would also require that, with respect to contracts for which the terms were not definite, progress payments could not be made for more than 80 percent of the work accomplished.

The Senate bill contains no similar provision.

The Senate recedes with an amendment. Under the provision agreed upon by the conferees, the Secretary of Defense would ensure that progress payments under contracts which provide for such payments are commensurate with work that has been accomplished. There is a further clarification that such work would meet the standards of quality established in the contract.

The conferees believe that progress payments should relate to work that is accomplished under a contract. The accomplishment of work does not necessarily mean that a certain percentage of physical progress has been made, since the conferees recognize that contract performance may involve a number of steps (including ordering materials, preparation of tooling, employee training) that do not result in any tangible deliverable or in physical progress. These actions are nevertheless "work" under the terms of the section and are obviously essential steps in contract performance. It is the conferees' intention that contractors be able to receive progress payments under such circumstances. In addition, the conferees recognize that an essential ingredient for entitlement to progress payment is work meeting the quality standards established under the contract.

Cost and price management in defense procurement (sec. 917)

The Senate bill contained a provision (sec. 615) that would require proposed and negotiated Bills of Labor to be recorded for each prime contractor and each associate contractor manufacturing an item or providing routine testing.

The Bill of Labor would reflect the contractor's computation of the work required to manufacture and test the items and must include a statement of the current industry engineering standard hour for the work to be performed. The standard may not deviate from the time standards derived from commercially available predetermined time standards widely used in the United States.

The House amendment contained an almost identical provision (sec. 812) which differs only in that the contracts covered by the section are limited to those contracts subject to the provisions of section 2306(f) of title 10, chapter 141.

The Senate recedes.

This provision is intended to require no new additional information from contractors, only that contractors provide to the Department of Defense information they already gather and correlate. The Department of Defense has indicated that this legislative requirement will necessitate the development of new systems and procedures for recording data related to defense contracts. Because no implementation date is specified, it is understood that these requirements apply to negotiated major system contracts and the major subcontracts entered into after the date of enactment of this legislation. In addition, it is recognized that regulations implementing this language must, in accordance with Public Law 98-577 and Public Law 98-525, be published for public comment for at least 30 days prior to their implementation.

The conferees are extremely concerned about the impact of this provision due to the lack of Congressional hearings and considerable controversy regarding its effectiveness. The conferees therefore direct that the Department of Defense evaluate all provisions of the legislation and indicate to Congress where any adjustments are appropriate. The Department of Defense should keep the committee informed of their activities, plans, successes, and difficulties as they proceed. A full report on implementation status is to be provided to the committees by March 31, 1986.

Contracted advisory and assistance services (sec. 918)

Congressional oversight of contracted advisory and assistance services has been difficult in part due to the lack of recognition of the expanded role of services in the development, production, and maintenance of various weapons, communications, and logistics systems, and to the lack of precise definitions of the various types of Department of Defense services provided under contract by sources in the private sector.

Section 614 of the Senate bill and section 1102 of the House amendment would require that each of the military departments establish an accounting procedure to aid in the identification and reporting of expenditures for services identified as contracted advisory and assistance services. Both provi-

sions would also require the Secretary of Defense to prescribe regulations, within six months of the enactment of the act, describing the services which are to be included in the category defined as contracted advisory and assistance services and reported in budget exhibits to the Congress. The definitions and budget exhibits would have to identify separately those services which are in direct support of a weapon system and are essential to the development, production or maintenance of the system.

Both the Senate bill and the House amendment recognize that the inclusion of services in direct support of a weapon system, which services are already identified in the budget for that system, may be impacted by efforts to control the proliferation of all contracted advisory and assistance services which may be necessary. Accordingly, the respective provisions in each bill require separate reports on amounts of services that are in support of the defense policy and management process (contracted advisory and assistance services) and those services that are specific to the development, production, and operational effectiveness of a programmed weapon system and its support systems (system services and support). The Secretary of Defense has been directed to prepare definitions of the Services involved in these categories.

Currently, there are numerous definitions of services considered to be in the category of contract advisory and assistance services. The Federal Procurement Data System (FPDS) report on services includes 13 different categories which a contracting officer may designate when executing a contract for services, whereas the budget exhibits which the Department of Defense presently submits to Congress include reports on four differently defined categories. The Senate bill includes these 13 categories as categories to be considered by the Department of Defense in establishing its regulations. The House amendment contained no similar provision.

The differences between the FPDS and the Department of Defense budget exhibits categories are appropriate because they are geared to different objectives. However, the differences should be closely examined and reconciled to the maximum extent possible. In addition, the Department of Defense must establish a system which provides a clear accounting of actual expenditures in each of the categories to be reported to Congress.

The conferees believe that this process of defining the services involved in Contracted Advisory and Assistance Services (CAAS) and system services and support should enable the Defense Department to present information and data on its management of services provided by contractors in a manner which will provide each of the services, the Secretary of Defense, and Congress with a uniform system for recording CAAS expenditures and projected spending.

Revision and extension of procurement technical assistance cooperative agreement program (sec. 919)

Section 608 of the Senate bill and section 1118 of the House amendment contain provisions that would authorize certain amounts in assistance to state, local and private non-profit organizations which would establish programs to provide procurement technical assistance to companies attempting to bid on defense contracts. Under the Senate provision the Department of Defense may agree to fund not more than one-half of the cost of running a center, but never in excess of $150,000.

The Senate bill would authorize the expenditure of $3 million in each of fiscal years 1986 and 1987 for the program but would make no other changes to current law.

The House amendment would modify existing law to delete a requirement that 75 percent of the money be awarded to existing centers and would authorize the Department of Defense to pay up to three-fourths of the financial cost of a program, but not to exceed $150,000 for an applicant in a "distressed area" as defined in the House amendment.

The conferees believe centers should compete against each other for the funds authorized under this section based on the merits of their program. After a center is established and its effectiveness known, the community should absorb its cost and Department of Defense funds should be used for the establishment of other centers. However, because applicants had competed this year relying on the provision in existing law that in fiscal year 1986, 75 percent of the authorized funds would be awarded to existing programs, the conferees agreed to maintain, for both fiscal years 1986 and 1987, the existing 75/25 split on funding for the first $3 million. The conferees also agreed to adopt the House formula for distribution of funds in fiscal year 1986 and fiscal year 1987 for funds in excess of $3 million in accordance with the House provision requiring that funds be distributed initially in equal amounts to each Defense Contract Administration Services region. The conferees further agreed to authorize $5 million in fiscal year 1986 and $6 million in fiscal year 1987 for the entire program.

PART B—PROCUREMENT PERSONNEL MATTERS

LEGISLATIVE PROVISIONS ADOPTED

Conflict of interest (sec. 921-923)

Both the House and Senate bills contain provisions (sec. 607 and sec. 810, respectively) limiting the activities of Department of Defense employees with respect to post-government employment. The Senate bill would provide that employees (O-4 or GS-11 and above) report contacts with a contractor regarding future employment possibilities and disqualify themselves from any actions relating to that contractor. It would also strengthen the reporting requirement for Department of Defense personnel who leave the government and go to work for a defense contractor.

The House bill would place an absolute two-year prohibition on employment by a defense contractor of any employee who had significant responsibilities for a procurement function with respect to that contractor or any of its subsidiaries or affiliates. It would also require a contractor to submit annually a report on those persons in its employ who held positions in the Department of Defense in the previous two years. Violation of the prohibition would result in a $10,000 fine and up to one year's imprisonment for the person accepting such compensation; a fine in an amount of $100,000 or three times the compensation paid if a contractor knowingly violates the prohibition; and a fine of $10,000 for failure of a company to file the required reports.

The House receded with an amendment which would add a new provision to the Senate bill prohibiting Presidential appointees who act as a primary government representative in the negotiation or settlement of a government contract from accepting employment from that contractor within two years after the termination of such activities. If that person knowingly violates this ban, the person would be subjected to a $5,000 fine and up to one year's imprisonment and the contractor employing the individual would be subject to liquidated damages of $50,000.

Management of Department of Defense procurement personnel (sec. 924)

The Senate bill contained a provision (sec. 605) that would require the Secretary of Defense to issue regulations to establish minimum requirements for the education, training and experience of program managers. At a minimum, all program managers assigned after June 1987 would have to have attended a program management course and, after June 1989, have had at least eight years' total experience in the acquisition, support and maintenance of weapon systems, at least four years of which were spent on assignments in the major procurement commands of the services.

After July 1990, the Secretary of Defense would also be prohibited from assigning any officer to a position of brigadier general or higher in those commands unless they have met those requirements.

In addition, the Department of Defense would be required to develop a training course for quality assurance personnel of not less than four weeks' duration and send all government quality assurance personnel to the course within six months of their assignment. These provisions could be waived only by the Secretary of the military department.

The House amendment contains no similar provision.

The House recedes with an amendment reducing from four years to two the requirement for experience in the major procurement commands of the services.

Assignment of principal contracting officers (sec. 925)

The House amendment contained a provision (sec. 804) that would require the rotation of principal and corporate administrative contracting officers at least once every five years. The Secretary of Defense would be authorized to waive that provision if in the public interest and such reasons were stated in writing and available to the public.

The Senate bill contained no similar provision.

After extensive discussion of this provision the conferees agreed that the Senate would recede with an amendment requiring the Secretary of Defense to develop a policy regarding the mobility and regular rotation of principal administrative contracting officers.

The Senate conferees were concerned that they had not had the opportunity to hold hearings on this issue, and were unwilling to agree to a specific policy of five-year rotation without further review. The conferees also expressed a concern regarding the designation of positions, noting that principal administrative contracting officers and corporate administrative contracting officers are terms of art unique to the Air Force. It is the intent of the conferees that the positions addressed by the regulations include equivalent positions in the other departments and the Defense Logistics Agency.

LEGISLATIVE PROVISION NOT ADOPTED

Compliance officers for debarred or suspended firms

The House amendment contained a provision (sec. 809) requiring the Secretary of

Defense to appoint an independent compliance officer to monitor the ongoing contracts of contractors suspended or debarred from receiving awards of Defense Department contracts and to report on any fraudulent or criminal activities by the contractor.

The Senate bill contained no similar provision.

The House recedes.

Although the conferees have deleted the House provision, the conferees expect the Secretary of Defense to use present contract administration capabilities to perform such a monitoring function.

PART C—FALSE CLAIMS, DEBARMENT, BURDEN OF PROOF AND RELATED MATTERS

LEGISLATIVE PROVISIONS ADOPTED

Increased penalties for false claims in Defense procurement (sec. 931)

The Senate bill contained a provision (sec. 704) that would increase the maximum fine that may be imposed on a contractor submitting a false claim related to a contract with the Department of Defense to $1 million under section 287 of title 18, and under section 3729 of title 31, an amount equal to three times the amount of the damages sustained by the government, the costs of the civil action and $2,000.

The House amendment contained no similar provision.

The House recedes.

Prohibition on felons convicted of defense contract-related felonies and penalty on employment of such persons by defense contractors (sec. 932)

The House amendment contained a provision (sec. 1182) that would prohibit an employee who had been indicted for fraud or any other felony relating to a Department of Defense contract from working on or supervising Department of Defense contracts. If convicted, the individual would be suspended from employment with or contracting for the Department of Defense for not less than one year or more than five years.

The House amendment also contained a provision (sec. 1214) that would make it unlawful for a defense contractor to knowingly and willingly allow any person convicted of fraud, or any felony arising out of a defense contract, to perform any service (including service on its Board of Directors) for a defense contractor. If in violation of this section, the contractor would be fined $500,000.

The Senate bill contained no similar provision.

The conferees believed that an absolute statutory ban with respect to an employee who has not been convicted, but only indicted, would deny the employee due process. They were also concerned that a ban on those persons being employed in any capacity would interfere with criminal rehabilitation programs. In addition, the conferees did not want to indicate any limit on the length of time a convicted employee might be barred from working on defense contracts. The Senate accordingly recedes with an amendment deleting both the prohibition as it applies to indicted employees, and the 5-year limitation. The amendment also limits the prohibition to employees acting in a management or supervisory capacity, and combines sections 1182 and 1214 in the House bill into one section.

Burden of proof in government contract dispute resolution (sec. 933)

Under existing law and practice once a contractor proves that it has incurred a cost that would be incurred by a prudent person in the conduct of competitive business, the cost is presumed to be reasonable unless the Department of Defense proves otherwise. Both the Senate bill and the House amendment would change this presumption.

The Senate bill contained a provision (sec. 609) that would require in proceedings before a Federal court or the Armed Services Board of Contract Appeals, that the contractor bear the burden of proof for establishing that general and administrative costs for which it seeks reimbursement are reasonable.

The House amendment contained a similar provision (sec. 802) that would place the burden on the contractor to establish that all indirect costs submitted for reimbursement are reasonable and allowable.

The conferees adopted the Senate provision, but have made the burden of proof applicable to all indirect costs of a contractor.

Reimbursement, interest charges, and penalties for overpayments (sec. 934)

The Senate bill contained a provision (sec. 723) that would require in subsection (1) that a contractor reimburse the government and pay interest on the amount of any expressly unallowable costs paid by the government. Subsection (2) of the provision would also make a contractor liable to the government for the amount which any price was increased by reason of the submission of inaccurate, incomplete or noncurrent cost or pricing data, plus interest computed from the date payment was made by the government to the time the government is reimbursed. Subsection (3) would provide that interest due the government under the Defense Production Act be at the rate established by the Secretary of the Treasury under Public Law 92-41.

The House amendment contained a provision similar to subsection (1) requiring the payment of interest on expressly unallowable costs from the date on which the cost was questioned. The House amendment contained no similar language with respect to subsections (2) and (3).

The House recedes with an amendment deleting subsection (1), which is addressed in section 911 of this act, and modifying subsection 2 of the Senate provision to provide that a contractor be assessed interest on any amount required to be reimbursed by the government, as well as a penalty in an amount equal to the overcharge if the submission of inaccurate, incomplete or noncurrent data was knowingly made. Subsection (3) of the Senate bill has been retained in its original form.

Subpoenas of defense contractor records (sec. 935)

The Senate bill contained a provision (sec. 613) that would authorize the director of the defense contract audit agency to require by subpoena, the production of any book, paper, statement, record, information, account, writing or other document of a contractor or subcontractor furnishing property or services to the Department of Defense if the director is entitled to have access to such documents under applicable provisions of statute, regulation or a contract.

The House amendment contained a similar provision (sec. 803) which would give the Secretary of Defense the authority to subpoena any books, documents, papers or records of a contractor that are needed by the secretary for purposes of the examination of records clause, 10 U.S.C. 2313(a), or the Truth in Negotiations Act, 10 U.S.C. 2306(f). The House amendment would require that the Secretary delegate this authority to the director of the defense audit agency and authorized the Secretary to delegate the authority to any presidential appointee in the Department of Defense. This authority could not be redelegated.

The Senate recedes to the House with an amendment deleting the authority to grant the subpoena power to anyone other than the director of the defense contract audit agency, adding a requirement that the Secretary report on an annual basis on the exercise of the authority, and deleting the word "any" preceding books, documents, papers or records. The conferees considered this word superfluous and do not intend, by its deletion, to affect the meaning of the provision.

This provision is not intended to expand the scope of books, documents, papers or records to which the defense contract audit agency presently has access, but rather to provide the director of the agency with an enforcement mechanism if a contractor does not make such books, documents, papers or records readily available. The conferees believe that the subpoena power should be used sparingly, and generally only when alternative investigatory methods have proven inadequate to obtain the materials that are sought. In addition, it should be used only in the performance of the functions and purposes ascribed to the contract audit agency.

PART D—REPORTS

LEGISLATIVE PROVISIONS ADOPTED

Report on prohibition on including general and administrative overhead expenses in the computation of contractor profits (sec. 951)

The Senate bill contained a provision (sec. 903) that would require the Secretary of Defense to study and report on the feasibility and desirability of prohibiting defense contractors from including general and administrative costs in the computation of Department of Defense contract profits.

The House amendment has no similar provision.

The House recedes.

Report on use of independent cost estimates for major defense acquisition programs (sec. 952)

The Senate bill contained a provision (sec. 907) that would require that the Secretary of Defense submit a report to the Committees on Armed Services of the Senate and the House of Representatives not later than April 1, 1986, on the continued use of independent cost estimates in the programming, budgeting and selection process for major defense acquisition programs, including an assessment of the extent to which such estimates were adopted in making decisions regarding the fiscal year 1987 budget.

The House amendment contains no similar provision.

The House recedes.

General Accounting Office study of feasibility of civilian defense acquisition agency (sec. 953)

The House amendment contained a provision (sec. 806) that would require a General Accounting Office (GAO) study on the feasibility of the creation of an agency outside the Department of Defense (DOD) to perform all procurement functions for DOD, and a plan for transition to such an agency.

The Senate bill contained no similar provision.

The Senate recedes with an amendment to indicate that the Comptroller General must provide a report concerning the advantages and disadvantages of establishing a

separate procurement agency, either within or outside the Department of Defense, and deleting the requirement to report on how the transition for such an agency would be accomplished. The Senate conferees argued that to require a report on how a transition might be accomplished prior to a Congressional determination whether such a system would be advantageous or not was premature. The amendment would clarify that the intent of Congress is to obtain a factual report with no recommendation from GAO on the desirability of such a change.

Report on suspension and debarment of defense contractors (sec. 954)

The House amendment contained a provision (sec. 808) that would require the Secretary of Defense, in cooperation with the Inspector General, to prepare and report to Congress on the actions taken by the Secretary to implement the recommendations contained in the report of the Inspector General dated May 1984.

The Senate bill contained no similar provision.

The Senate recedes.

Report on the use of competitive procedures under section 8(a) set-aside program (sec. 955)

The House amendment contains a provision (sec. 1137) that would require the Secretary of Defense and the Administrator of the Small Business Administration to submit a joint report to the Committees on Armed Services of the Senate and the House of Representatives on the feasibility of providing for the use of competitive procedures for contracts awarded by the Department of Defense under the set-aside program established under section 8(a) of the Small Business Act.

The Senate bill contained no similar provision.

The Senate recedes an amendment that would require the Department of Defense and the Small Business Administration separately to develop and report on their recommendations.

Report on efforts to increase defense contract awards to Indian-owned businesses (sec. 956)

The House amendment contained a provision (sec. 1138) that would require the Secretary of Defense to report on Department of Defense efforts to increase awards to Indian-owned and tribally-owned businesses in accordance with the Memorandum of Understanding between the Department of Defense and the Small Business Administration, and to include in the report, to the maximum extent practicable, data regarding the number of value of prime contracts awarded such businesses in fiscal years 1984 and 1985.

The Senate bill contained no similar provision.

The Senate recedes.

LEGISLATIVE PROVISIONS NOT ADOPTED

Commission on defense procurement

The Senate bill contained a provision (sec. 612) that would establish a presidential commission to review existing analysis of Department of Defense procurement and report to the President and to the Congress on ways to eliminate waste, fraud and abusive practices, and to improve the organization and management, in the Department of Defense procurement process.

The House amendment contained no similar provision.

The President's appointment of the Presidential Blue Ribbon Commission on Defense Management makes enactment of this provision redundant.

Accordingly, the Senate recedes.

Charges for solicitation packages

The House amendment contained a provision (sec. 1173) that would require the Secretary of Defense to establish a test program in each of the military departments and in the Defense Logistics Agency to require the charging of a fee for copies of solicitation packages.

The Senate bill contained no similar provision.

The conferees agreed that it is inappropriate to require a test program at this time since the Department of Defense already has the authority to charge, or require refundable bonds, for solicitation packages. The department may wish to consider using this authority in appropriate solicitations where charging fees or requiring a reimbursable bond for solicitation packages will not have an adverse impact on competition.

However, the conferees recognize the tremendous expense to the government for reproducing copies of solicitations and technical data packages to requestors who have no intention of bidding on the contract. Consistent with the strong Congressional support for increased competition for all government contracts, the conferees strongly urge the Department to review appropriate methods to ensure that it does not provide unnecessary numbers of bids sets.

The House recedes.

PART E—TECHNICAL AMENDMENTS

LEGISLATIVE PROVISIONS ADOPTED

Technical corrections to federal procurement law (sec. 961)

The House amendment contained a provision (sec. 1171) that would make a number of minor changes to various Federal procurement laws necessitated by changes made by the Competiton in Contracting Act of 1984. The House provisions would exempt from the requirement to justify in writing use of a sole-source exemption to purchase of brand-name commercial items purchased for resale in commissaries and ships stores, and would preserve an exception from section 2304 of title 10, United States Code, contained in the NATO Mutual Support Act.

The Senate bill contained no similar provision.

The Senate recedes.

TITLE X—MATTERS RELATING TO ARMS CONTROL

LEGISLATIVE PROVISIONS

LEGISLATIVE PROVISIONS ADOPTED

Policy on compliance with existing strategic offensive arms agreements (sec. 1001)

Section 958 of the Senate bill would urge that the United States vigorously pursue the resolution of concerns regarding Soviet compliance with existing arms control agreements. In addition, this provision would urge the United States to refrain through December 31, 1986, from undercutting existing strategic offensive arms agreements to the extent that the Soviet Union does and provided the Soviet Union actively pursues an arms reduction agreement in the Nuclear and Space Arms negotiations. The provision specifically indicated that nothing in this policy was to be construed as preventing proportionate responses to Soviet violations or as establishing a precedent for continuing the policy beyond December 31, 1986.

This provision would also require the President to submit to Congress a report providing: (1) a projection and comparison of United States and Soviet strategic weapons dismantlements that would be required over the next five years if the United States and the Soviet Union were to adhere to a policy of not undercutting existing strategic arms control agreements; (2) a projection and comparison of likely United States and Soviet strategic offensive force inventories over the next five years assuming a termination at the end of 1985 of the current no-undercut policy; (3) an assessment of possible Soviet political, military and negotiating responses to the termination of the United States no undercut policy; (4) recommendations regarding the future of United States interim restraint policy. Finally, the provision would call on the President to consider carefully the consequences of changes in current policy, to consult with Congress before making any changes, and to propose the necessary measures if he finds and reports to Congress that the Soviets have violated the provisions of any strategic arms agreement and that such violations impair or threaten the security of the United States.

The House amendment contained no similar provision.

The conferees agree to amend this provision in two respects. The date of submission for the report was changed from September 1, 1986 to February 1, 1986 in order that the report be available for the use of Congress during hearings on the fiscal year 1987 defense authorization bill. In addition, the conferees agreed to require the report to contain a range of projections and comparisons to fulfill report requirements (1) and (2). By requiring a range of force projections, the conferees recognize that uncertainties exist in our ability to predict United States and Soviet policy decisions yet to be made, as well as each side's technical capabilities to deploy future strategic forces.

The House recedes with an amendment.

Annual report on Soviet compliance with arms control commitments (sec. 1002)

Section 906 of the Senate bill would require the President to report annually to Congress his findings regarding the Soviet Union's compliance with its arms control commitments in classified and unclassified versions.

The House amendment contains no similar provisions.

The House recedes.

Arms control verification capabilities (sec. 1003)

The Senate bill contained a provision (sec. 956) that would direct the President to provide for an interagency study on the present status U.S. and Soviet verification capabilities with the purpose of determining possible avenues of cooperation between the United States and the Soviet Union in the development of capabilities not subject to national security restrictions for verification of compliance with arms control agreements.

The House amendment contained no similar provision.

The House recedes with an amendment.

Sense of Congress relating to United States-Soviet negotiations on reductions in nuclear arms (sec. 1004)

The Senate bill contained a provision (sec. 925) that would express the sense of the Congress that the President of the United States and the General Secretary of the Communist Party of the Soviet Union should meet at the earliest practical time to

discuss major issues in United States/Soviet relations, including the realization of mutual, equitable, and verifiable reductions in nuclear arms.

The House amendment contained no similar provision.

The House recedes with an amendment. The amendment declares that, in view of the planned November 19 meeting between the two leaders, the President and the General Secretary should be commended for their willingness to meet.

U.S.—Soviet military exchange visits (sec. 1005)

The Senate bill contained a provision (sec. 304) authorizing an exchange visit program between high ranking military and civilian defense officials of the United States and the Soviet Union, making available $100,000 from funds authorized in Title III to support these visits in fiscal year 1986.

The House amendment contained no similar provision.

The House recedes.

Report on nuclear winter findings and policy implications (sec. 1006)

The House amendment contained a provision (sec. 1134) that would require the Secretary of Defense to continue to participate in any interagency study on the environmental and biological effects of nuclear war and the implications that such effects have for the strategy and policies of the United States. The Secretary would be required to submit a report not later than March 1, 1986, containing his findings and assessments to the Committees on Armed Services of the Senate and House of Representatives. In addition, the Secretary would be required to submit annual reports during each subsequent year through the year 1990.

The Senate bill contained no similar provision.

The Senate receded with an amendment that would extend the participation of the Secretary of Defense in any interagency study on the effects of nuclear war and require a report to the Committees on Armed Services not later than March 1, 1986. The conference compromise extends the requirements of section 1107 of the Department of Defense Authorization Act, 1985 (Public Law 98-525) for one year and deletes the requirement for subsequent annual reports that was contained in the House amendment.

Report on the military implications of Soviet treaty violations

The Senate report (S. Rept. 99-41), accompanying S. 1160, the Department of Defense Authorization bill for fiscal year 1986, contained a requirement for the Secretary of Defense to report to the Committees on Armed Services of the Senate and House of Representatives on the military implications of Soviet treaty violations. This report was to address both policy and programmatic responses, including possible weapons system developments and procurements, designed to redress the implications of Soviet non-compliance for U.S. national security. This report was to be provided to the Committees by July 15, 1985.

The conferees are aware that this date has passed without enactment of a fiscal year 1986 Defense Authorization bill, and that the Secretary of Defense has been asked to report to the President on this matter by November 15, 1985. Therefore, the conferees agreed to change the date on which this report is due to January 15, 1986.

The conferees attach a high priority to these efforts to assess the military implications of Soviet treaty violations. This change in the reporting date should provide an opportunity for the Secretary of Defense to complete work on and provide his report to the President, and then submit to the Committees on Armed Services a report informed by the analyses and results of the Defense Department's response to Presidential asking.

LEGISLATIVE PROVISIONS NOT ADAPTED

Monitoring and verification of Soviet mobile ICBMs

The Senate bill contained a provision (sec. 946) concerning monitoring and verification of Soviet mobile ICBMs.

The House amendment contained no similar provision.

The Senate recedes.

Arms control verification technology

The Senate bill contained a provision (sec. 947) that would require a report on arms control verification technology.

The House amendment contained no similar provision.

The Senate recedes.

Study of measures to enhance crisis stability and control.

The House amendment contained a provision (sec. 1191) that would direct the Secretary of Defense to study measures to reduce the likelihood of nuclear weapons use by contributing to crisis stability and control capabilities, including specific consideration of ten measures.

The Senate bill contained no similar provision.

The House recedes.

The conferees agreed that the United States should continue its policy of developing and improving its procedures and capabilities for crisis prevention and management. The conferees also agreed that continued work to reduce the risk of a nuclear war occurring due to accident or miscalculation should have high priority in the area of crisis prevention and management.

TITLE XI—MATTERS RELATING TO NATO

LEGISLATIVE PROVISIONS

LEGISLATIVE PROVISIONS ADOPTED

Limited authority to exceed permanent ceiling on United States forces assigned to NATO (sec. 1101)

The Senate bill contained a provision (sec. 902) that would authorize the Secretary of Defense to exceed the permanent ceiling on U.S. forces assigned to NATO by not more than one-half of one percent in a fiscal year for the purpose of achieving sound management in the rotation of service personnel to and from NATO.

The House amendment contained no similar provision.

The House recedes.

North Atlantic Treaty Organization (NATO) cooperative projects (sec. 1102)

Section 948 of the Senate bill would authorize the President to enter into agreements with the North Atlantic Treaty Organization (NATO) for cooperative armaments projects. Such projects would be jointly managed, described in written agreements and undertaken to further alliance rationalization, standardization and interoperability. To carry out such projects, the Secretary of Defense would be permitted on a case-by-case basis, subject to certain reporting requirements, to require subcontracts to be awarded to particular subcontractors and to waive certain laws prescribing contract procedures and United States preference requirements. The House amendment did not contain a similar provision.

The House recedes with amendments.

The first amendment would provide that those provisions pertaining to various sections of the Arms Export Control Act (22 USC 2751) would be repealed upon the enactment of the fiscal year 1986 International Security and Development Cooperation Act. The Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the United States Senate have legislative jurisdiction over the Arms Export Control Act.

The second amendment would delete the provision pertaining to the reciprocal waiver of custom and other duties. Revenue legislation must originate in the House of Representatives and is under the jurisdiction of the Committee on Ways and Means of the House of Representatives and the Committee on Finance of the United States. The conferees believe that the Secretary of Defense already has authority to waive such duties for cooperative projects entered into under the authority of this section.

Also, the conferees wish to clarify the authority provided for the disposal of certain property without regard to United States property disposal law. The conferees understand that such disposal would only occur with jointly acquired property. Property acquired exclusively by the United States would be subject to the property disposal laws of the United States. Proceeds generated from the disposal of such property would be treated in a manner consistent with current law and policy.

TITLE XII—DEPARTMENT OF DEFENSE MANAGEMENT

PART A—MANAGEMENT OF FACILITIES AND DEFENSE ORGANIZATION

LEGISLATIVE PROVISIONS ADOPTED

Annual selected acquisition report (sec. 1201)

The House amendment contained a provision (sec. 1111) that would specify the information that the Secretary of Defense is to provide to the Committees on Armed Services of the Senate and the House of Representatives in the Selected Acquisition Reports (SARs).

The Senate bill contained a provision (sec. 920) that also would specify the information to be contained in the annual Selected Acquisition Reports. The Senate bill also would require the Secretary of Defense to resubmit the December 1984 SARS in accordance with the format and content of the December 1983 SARs.

The Senate recedes, and the conferees agree that the Department of Defense will include a full life-cycle cost analysis only for those programs where that information is developed on an ongoing basis. The conferees direct the Secretary of Defense and the Secretaries of the military departments to submit to Congress, with the Department of Defense fiscal year 1987 budget, comments and recommendations for improving the acquisition reporting process required under section 139a of title 10, United States Code. The comments and recommendations shall consider, in particular, improving the utility of the reports for both the Congress and senior Department of Defense management personnel.

Additionally, the conferees direct the Comptroller General of the United States and the Director of the Congressional Budget Office also to submit to Congress their comments and recommendations for

improving the reporting process required under section 139a of title 10, United States Code.

Base closures and realignments (sec. 1202)

The Senate bill contained a provision (sec. 722) that would provide the Secretary of Defense or the Secretary of the military department concerned streamlined legal procedures to close or realign a base when the Federal budget is in deficit. It further authorized one billion dollars to accomplish that purpose.

The House amendment contained no similar provision.

The House recedes with an amendment that would eliminate the advance public notice required by the Secretary of Defense when an installation is a candidate for closure or realignment; require that all base closure or realignment proposals be submitted to the Committee on Armed Services of the Senate and the House of Representatives as a part of the annual budget request; and require that no irrevocable action to implement the closure or realignment could be taken until the expiration of 30 legislative days or 60 calendar days, whichever is longer.

Under the amendment, the base closure and realignment proposal submitted to the Congress would contain an evaluation of the fiscal, local economic, budgetary, environmental, strategic and operational consequences of such action.

The amendment would only be applicable to closure of bases with more than 300 civilians authorized to be employed and to realignments involving a reduction by more than 1,000, or by more than 50 percent, in the number of civilian personnel authorized to be employed at bases with more than 300 authorized civilian employees.

The conferees further agreed to a provision that would make explicit the authority of the Secretary to obtain architectural and engineering services under section 2807 of title 10 and to use funds that would otherwise be available to effect the closure or realignment after the notice period has expired.

The conference agreement provided no additional authorization for appropriation to carry out the provisions of the section and its effect is not contingent on a Federal budget deficit.

Demonstration project to test the use of a certain computer system in military hospitals (sec. 1203)

The House amendment contained a provision (sec. 1116) requiring the Secretary of Defense to conduct a demonstration project for the purpose of testing the use in military hospitals of the Veterans' Administration decentralized management computer system. The House amendment:

(1) required that the demonstration project begin on December 1, 1985; include six military hospitals, two each from the Army, Navy, and Air Force; and include a demonstration of all components of the Veterans' Administration system.

(2) provided for Veterans' Administration assistance in the demonstration, if requested by the Secretary of Defense.

(3) required a report by the Secretary of Defense assessing the myriad Veterans' Administration system as compared to the centralized medical computer system plan by the Department of Defense.

(4) restricted the Secretary of Defense from entering into a contract for the procurement of a centralized computer system until he had evaluated the results of the demonstration project.

(5) required that the Comptroller General report to Congress his evaluation of the conduct of the demonstration project by the Department of Defense.

The Senate bill contained no similar provision.

The Senate recedes with an amendment.

The Senate conferees objected to the size, scope, and attachment cost of the demonstration project. In addition, the Senate conferees insisted that the demonstration project should not delay the on-going Department of Defense competitive acquisition process leading to the procurement of a hospital computer system.

The House conferees agreed that the demonstration project could involve fewer hospitals provided that all available modules in use in the Veterans' Administration computer system were tested at their current functional level. The House conferees also agreed that none of the provision should result in delaying the Department of Defense medical computer acquisition but insisted that the Comptroller General be accorded an opportunity to report, and Congress be given a subsequent opportunity to react, before key decisions are made at two milestones.

Accordingly, the conferees agreed to the following changes contained in the Senate amendment.

The size, scope, and structure of the demonstration project would be modified. The number of military hospitals in the demonstration test would be reduced from six to two, and the starting date for the demonstration would be delayed from December 1, 1985 to March 1, 1986. The March Air Force Base hospital, which previously tested part of the Veterans' Administration system, would be designated as one demonstration site. The Secretary of Defense would be required to select a significantly larger non-Air Force hospital for the second demonstration site to ensure that capabilities of the Veterans' Administration hospital computer system to handle a large military medical facility is demonstrated. Additional changes covering the demonstration project would require that "all available" components, instead of "all" components, be included in the demonstration project. This change is intended to require the Department of Defense to use all components that are in use by the Veterans' Administration and available to the Department of Defense at the time the demonstration begins. Finally, the conferees intend that the components of the Veterans' Administration computer system be used "at their current functional level." The conferees further intend this language to signify that the decentralized character of the Veterans' Administration computer system should not be altered by the Department of Defense in structuring and conducting the demonstration project.

The conference agreement would also alter the reports required by Congress and the restrictions on proceeding with acquisition of a Department of Defense hospital computer system. In addition to the House requirement for a report on whether the demonstration project is carried out in accordance with the instructions, the Comptroller General would be required to evaluate the results of the demonstration project to include whether the Veterans' Administration decentralized computer system would be more suitable for the Department of Defense than a centralized computer system. The Comptroller General would also be required to evaluate the process followed by the Department of Defense in acquiring the hospital computer system.

The Secretary of Defense would be restricted from proceeding at key milestones in the Department of Defense hospital acquisition process until sixty days after he submits the report to Congress required in the original House language. Moreover, the Secretary would be similarly restricted from proceeding until the applicable reports by the Comptroller General required in the amendment have been submitted to Congress. To avoid delaying the acquisition process, these restrictions would no longer be effective after June 1, 1986 and July 1, 1987, respectively, dates consistent with the planned Department of Defense milestones.

The conferees, in adding to the report requirements and restrictions, intend to ensure that the Department of Defense conducts a fair, fully competitive acquisition process and an unbiased demonstration project, evaluated objectively on the basis of physician and other users' experience. Moreover, the conferees agree that the Department of Defense should proceed to acquire a military hospital computer system as expeditiously as possible. To this end, the Comptroller General should make every effort to avoid delaying the acquisition process, on the one hand, and the Department of Defense must give its full cooperation to the Comptroller General to ensure that this report can be rendered in a timely fashion. Any delay in reports by the Comptroller General attributable to problems in obtaining information from the Department of Defense could be considered by the conferees as a basis for revisiting the issues addressed in this section in the fiscal year 1987 Defense authorization bill.

Repeal of the transfer of Department of Defense overseas schools (sec. 1204)

The Senate bill contained a provision (sec. 910) that would repeal the scheduled transfer of the Department of Defense Dependents' Schools (DoDDS) to the Department of Education.

The Senate provision would also place the Advisory Council on Dependents' Education in the Department of Defense with the following membership: (1) the Secretaries of Defense and Education, or their designees, who would be co-chairmen of the council; (2) 12 individuals appointed jointly by the 2 Secretaries; and (3) a representative of each of the 2 Secretaries. The 12 individuals appointed jointly by the 2 Secretaries would include representatives of professional employee organizations, school administrators, parents of students and 1 student. Individuals appointed to the council from professional employee organizations would be designated by those organizations. The council would be required to meet at least two times a year.

The Senate provision would require each local school advisory committee to include one non-voting member to represent the interests of the organization recognized as the exclusive bargaining representative of the school's employees. This non-voting member would be designated by the bargaining organization.

The Senate provision would require the Secretary of Defense to consult with the Secretary of Education on the educational programs and practices of the Department of Defense Dependents' Schools.

The House amendment contained no similar provision.

The House recedes.

With regard to the groups from which the Secretary of Defense and the Secretary of Education are to jointly appoint 12 members to the Advisory Council, the conferees intend that professional employee organizations include teacher unions. The conferees also emphasize that the Advisory Council should actually meet at last two times a year (as this section requires).

The conferees have received complaints that it is difficult for the public to obtain copies of the defense dependents' education system's annual budget request to Congress. The conferees believe that this material should be readily available to the public.

Authority of the Department of Defense to enroll certain children in overseas schools (sec. 1205)

The Senate bill contained a provision (sec. 919) that would clarify the authority of the Department of Defense Dependents' Schools (DoDDS) to educate the following categories of overseas students: (1) children of employees of U.S. government agencies other than the Department of Defense; (2) children of U.S. government contractors; (3) children of employees of Department of Defense non-appropriated funds activities; and (4) if the Secretary of Defense determines it in the national interest, the children of other U.S. citizens and foreign nationals.

The Senate provision would require children enrolled under this new authority to pay tuition at a rate that would at least defray the average cost of the children's education.

The House amendment contained no similar provision.

The House recedes.

In order to clarify the differences between this new authority and existing authorities, the conferees note that section 921 of title 20, United States Code, requires the Secretary of Defense to provide a free public education for the dependents of overseas military personnel and civilian employees of the Department of Defense paid from appropriated fund activities. For children enrolled under section 921, the Department of Defense must request funds for facilities, teachers, supplies and other resources.

A second authority under which other categories of children may be enrolled in the overseas schools is provided by section 923 of title 20. Under this authority, children ineligible to be enrolled under section 921 may be educated only to the extent that excess physical space, teachers, supplies, and other resources are already available to educate them. The Department of Defense may not take the cost of educating these children into account in requesting funds for additional facilities, teachers, supplies and other resources.

With regard to the new authority created by the Senate provision, the conferees emphasize that it is not to be used to justify construction to expand exisiting facilities or the construction of new facilities. However, the Department of Defense may take the cost of educating children enrolled under this new authority into account in requesting for teachers, supplies, and other resources.

Headquarters staff (sec. 1206)

The Senate bill contained a provision (sec. 531) that would freeze the total number of military and civilian pesonnel assigned to perform management headquarters activities or management headquarters support activities in a Defense agency or military department at the same number assigned to those activities as of September 30, 1985, and would limit the number of military and civilian personnel assigned to the Office of the Secretary of Defense as of September 30, 1986, to 1,765.

The Houe amendment contained no similar provisions.

The House recedes.

Report on organizational structure of the military health care system (sec. 1207)

The House amendment contained a provision (sec. 1131) that would require the Secretary of Defense to submit a report to Congress containing a plan for revising the organizational structure of the military health care delivery system in order to streamline the resource allocation process, improve the quality of medical care, reduce the cost of health care, and enhance medical readiness. The provision would require the Secretary of each military department and the Joint Chiefs of Staff to carry out independent studies, the results of which would be submitted with the report of the Secretary.

The Senate bill contained no similar provision.

The Senate recedes.

Annual report on Guard and Reserve equipment (sec. 1208)

The House amendment contained a provision (sec. 1112) that would require the Secretary of Defense to provide additional information in the annual Guard/Reserve equipment report that is submitted to the Congress.

The Senate bill contained no similar provision.

The Senate recedes.

Moratorium on exchange franchise agreements (sec. 1209)

The Senate bill included a provision (sec. 944) requiring a moratorium on constructing commercial franchise businesses on military installations.

The House amendment contained no similar provision.

The House recedes to the Senate with an amendment changing reporting dates and requirements, deleting the prohibition of operating more than one commercial franchise per military installation and restricting the moratorium only to the United States.

Initial operating capability for Air Force Shuttle Operations and Planning Complex (sec. 1210)

Section 1117 of the House amendment would direct the Secretary of the Air Force to place the highest priority on achieving specified initial operating capability (IOC) dates for the Shuttle Operations and Planning Complex (SOPC) of the Consolidated Space Operations Center (CSOC), Colorado Springs, Colorado and submit a report to the respect Committees on Armed Services on how those dates would be met. The Senate bill contained no similar provision.

The Senate recedes with an amendment.

Provision of green salt to contractors for production of conventional ammunition (sec. 1211)

The House bill contained a provision (sec. 1180) that would permit the Secretary of the Army to loan uranium tetrafluoride (green salt) to a contractor for the production of conventional ammunition. The Senate bill contained no similar provision.

In determining whether adequate quantities are available for the purpose of making the certification required, the Secretary of the Army is to take into account whether a good faith effort has been made by firms that possess supplies of uranium tetrafluoride to make available uranium tetrafluoride to industrial firms that lack their own source of uranium tetrafluoride. The conferees intend that in administering this provision the Secretary of the Army ensure that no firm derives an undue competitive advantage.

The Senate recedes with an amendment.

Contracts for certain educational services (sec. 1212)

The Senate bill contained a provision (sec. 905) providing that, in any portion of the procurement process for on-base postsecondary education services for military personnel, civilian personnel, and their dependents, an accredited institution authorized to award associate degrees may not be discriminated against or precluded from offering courses within its scope of authority solely because it does not have the authority to award a baccalaureate degree. In addition, the offering of such educational services could not be limited to a single academic institution except that duly constituted personnel at the military installation level would be permitted to take necessary actions to avoid unnecessary duplication of course offerings. The provision would apply to contracts for services entered into after April 1, 1985.

Finally, the provision would direct the Comptroller General to study the educational needs of members of the armed forces stationed overseas and the most cost-effective and feasible means of meeting those needs and to provide a report to the Congress on his findings and recommendations not later than September 1, 1986.

The House amendment contained a similar provision (sec. 805) providing that, in contracting for off-duty postsecondary educational services, the Secretary of Defense and the Secretaries of the military departments may not discriminate against non-baccalaureate-degree-granting institutions. The provision would be applicable to contracts entered into, amended, or renewed on or after the date of enactment of this Act.

With respect to avoidance of unnecessary duplication, the conferees intend that the Secretary of Defense will promulgate guidelines and standards for the regulation of course offerings to avoid unnecessary duplication, which will be uniform for all the armed services and which will take into account the demographics of individual installations.

Responsibility for controlling unnecessary duplication of courses should be exercised at the installation level consistent with the purpose of this provision of ensuring service members, to the maximum extent feasible, choice among the providers of these educational services. The conferees do not expect this authority to be used to deny an educational institution the authority to offer an individual course which is an integral component of a specified curriculum.

It is not the intent of the conferees to require more than one educational provider for any program on any base or installation where only a single qualified provider desires to offer such a program. The conferees further find that the preference afforded in-state institutions for programs conducted within the United States, as set forth in Department of Defense Directive 1322.8, is consistent with this provision.

With respect to the types of procurement covered, the conferees intend that the provisions of this section apply to all aspects of the procurement process, including solicita-

tions, contracts, basic agreements, memoranda of understanding and any other agreements entered into between any of the military services and any educational institution for the provision of the educational services described in this section.

With respect to the General Accounting Office study, in conducting the study called for in this section, the Comptroller General should examine how best to meet the educational needs of military personnel, Department of Defense civilian employees and their dependents consistent with ensuring choice of and diversity in educational offerings and providers, competition among qualified educational institutions, and the most reasonable cost to the individual participants.

With respect to the effective date, the conferees intend that this provision apply to contracts first entered into after April 1, 1985. This would permit existing options for the extension of contracts entered into before that date to be exercised by the affected military service. However, no new contracts or renewals of contracts expiring on or after April 1, 1985, would be permitted except as they conform to the provisions of this section.

PART B—PERSONNEL MANAGEMENT

LEGISLATIVE PROVISIONS ADOPTED

Counterintelligence polygraph program (sec. 1221)

The Senate bill contained a provision (sec. 904) that would prohibit the use of any funds for the purpose of implementing certain paragraphs of Department of Defense Directive 5210.48 dated December 24, 1984, relating to polygraph examinations, except for the continuation of the test program authorized by the Department of Defense Authorization Act for fiscal year 1985. The provision further provided that the total number of persons examined under the test program in fiscal years 1985 and 1986 may not exceed 3,500. It also required a report by December 31, 1986 on the conduct of the program and, at the request of the Department of Defense, established a continuing polygraph research program and authorized $590,000 to carry out the program. Finally, the provision explicitly excepted any individuals assigned to the Central Intelligence Agency or National Security Agency or any individual applying for a position at the National Security Agency.

The House amendment contained a provision (sec. 1199) that would require the Secretary of Defense to institute a program of couterintelligence polygraph examinations for military, civilian and contractor personnel of the Department of Defense, military departments, and the Armed Forces whose duties involve access to classified information. The House provision would require a polygraph examination before a person is granted access to information within a special access program and aperiodically thereafter. It would also permit the Secretary of Defense to require a polygraph examination of anyone who has access to classified information before granting access to such information and aperiodically thereafter.

The conferees agreed to authorize the Secretary of Defense during fiscal years 1986 and 1987 to implement a program of counterintelligence polygraph examinations for military and civilian personnel of the Department of Defense and personnel of defense contractors whose duties include access to classified information at the level of Top Secret or classified information within special access programs established under section 4.2(a) of Executive Order 12356. This program would be based upon the current Department of Defense Directive 5210.48. The conferees recognize that the provisions of that directive set out the situations in which the polygraph may be employed and establish safeguards for those persons who are required to submit to a polygraph examination. That directive is viewed by the conferees as a sincere effort to protect the rights of the individual while permitting the Department of Defense to utilize the polygraph in the protection of its most sensitive information.

The conferees also agreed that during fiscal year 1986 no more than 3,500, and during fiscal year 1987 no more than 7,000 counterintelligence polygraph examinations may be administered. Although the conferees recognize that the polygraph is a very useful tool in counterintelligence investigations, they also recognize that the lack of polygraph operators in the Department of Defense would limit the number of examinations to the total of 10,500 authorized in fiscal years 1986 and 1987.

The conferees also agreed to require the reports described in the Senate provision. Not later than December 31, 1985, the Secretary of Defense shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report on his plans to expand the use of polygraph examinations in the Department of Defense. Not later than December 31, 1986, the Secretary shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report on polygraph examinations administered by or for the Department of Defense during fiscal year 1986.

The conferees further agreed to the provision in the Senate bill establishing a polygraph research program to support polygraph activities of the Department of Defense. The Secretary of Defense would be required to submit to the Committees on Armed Services of the Senate and the House of Representatives, not later than December 31 each year, a report on the results of that program during the preceding fiscal year. A sum of $590,000 would be authorized to be appropriated for fiscal year 1986 to carry out the research program.

The conferees agreed that this section does not apply to (1) an individual assigned or detailed to the Central Intelligence Agency or to any expert or consultant under contract to that Agency; (2) an individual employed by or assigned to the National Security Agency, or expert or consultant under contract to that Agency, or employee of a contractor of that Agency or an individual applying for a position in that Agency; or (3) an individual assigned to a space where sensitive cryptologic information is produced, processed, or stored.

Reduction in security clearance backlog (sec. 1222)

The House amendment contained a provision (sec. 1206) requiring the Secretary of Defense to achieve a 25 percent reduction in the backlog of reinvestigations of individuals holding security clearances of top secret and above in fiscal year 1986 and would authorize $25 million for that purpose. If the Secretary determined that he was not able to achieve a 25 percent reduction in the security clearance reinvestigation backlog in fiscal year 1986, section 1206 would require that he submit a report to Congress outlining what additional resources and requirements would be necessary to reduce the backlog by 50 percent by the end of fiscal year 1987.

The Senate bill contained no similar provision.

The conferees agreed to eliminate the requirement that the Secretary of Defense achieve a 25 percent reduction in the security clearance reinvestigation backlog in fiscal year 1986 and instead make that level of reduction a goal he should strive to attain. In addition, the conferees agreed to require that the $25 million authorized to reduce the security reinvestigation backlog to be used only for that purpose. Finally, the conferees agreed to require that the Secretary of Defense report to Congress on his efforts to reduce the backlog and that additional resources and requirements that would be necessary to achieve a 50 percent reduction by the end of fiscal year 1987.

The Senate recedes with amendments.

Independent criminal investigations (sec. 1223)

The House amendment contained a provision (sec. 532) that would direct the Secretaries of the Navy and Air Force to issue regulations providing the Naval Investigative Service (NIS) and the Air Force Office of Special Investigations (OSI) authority to initiate and conduct criminal investigations on the authority of their director or commander, such authority to be as similar as practicable to the procedures used in the Army.

The Senate bill contained no similar provision.

The Senate recedes with an amendment.

In this section, it is the intention of the managers to strengthen the investigative arms of the Navy and Air Force so that high-ranking officers will not be able—in reality or perception—to interfere with criminal investigations.

The managers expect the new regulations to make clear that OSI and NIS elements will be able to determine what investigative actions are appropriate for all criminal allegations, whether reported to them or developed on their own. These elements would be required to keep their host commands informed unless doing so would compromise an investigation. The managers envision NIS and OSI as autonomous and not subject to the directions of local commanders or other officials below the level of the service staff for operational purposes.

This is not to say that giving autonomy to the investigators eliminates all problems. Generals and admirals, being the senior executives in their military organizations, get a lot of attention—both positive and negative. High rank should not spare an officer from scrutiny; neither should it subject him to trivial investigations. Because the idea is to keep rank from skewing the investigative process, care must be taken to avoid either extreme.

The conferees do not intend that command accountability for the maintenance of good order and discipline be in any way lessened by this initiative. Indeed, although a command request would no longer be necessary to permit an investigation, it would still be sufficient to mandate one.

Establishment of minimum age with respect to the purchase and consumption of alcoholic beverages on military installations (sec. 1224)

The House amendment included a provision (sec. 1178) that established, with several exceptions, the minimum age on military installations as that established by the State in which the installation is located.

The Senate bill contained no similar provision.

The Senate recedes with an amendment authorizing certain exemptions for installations located within 50 miles of another state, Mexico or Canada, and requires a report concerning the feasibility of allowing the sale of low alcohol beverages, and on the effects such sales might have on the incidence of driving under the influence of alcohol on military installations by military personnel.

Cost savings cash awards (sec. 1225)

The Senate bill contained a provision (sec. 942) that would—

(a) affirm Congressional support for the elimination of fraud, waste, and mismanagement in the Federal government as well as for the protection of employees who report such incidents of abuse;

(b) restructure Federal employee grievance resolution procedures with regard to the role of the Office of the Special Counsel;

(c) extend the authority to pay Federal employees cash awards for disclosing fraud, waste, and abuse; and

(d) authorize the payment of cash awards for service members for similar disclosures made after September 30, 1984.

The House bill contained a provision (sec. 1196) that would authorize the payment of cash awards for cost savings disclosures to employees of the Department of Defense only.

The House recedes with amendments 1) eliminating the section concerning Congressional affirmations, 2) eliminating the section concerning Federal employee grievance resolution procedures and the Office of the Special Counsel; and 3) eliminating the requirement that this provision apply to disclosures made by members of the armed services only after September 30, 1984, and providing instead that payments under this provision may be made only after September 30, 1985.

LEGISLATIVE PROVISION NOT ADOPTED

Conditions on the procurement of alcoholic beverages on military installations

The House amendment included a provision (sec. 1177) that would require Department of Defense installations to procure all alcoholic beverages from sources within the State in which the installations are located.

The Senate bill contained no similar provision.

The House recedes.

PART C—CONTRACTING-OUT FOR PERFORMANCE OF CERTAIN FUNCTIONS

LEGISLATIVE PROVISIONS ADOPTED

Contracting out core logistics functions (sec. 1231)

The House amendment contained a provision (sec. 309) that would clarify the intent of section 307 of the Defense Authorization Act, 1985 (Public Law 98-525) by specifying that core logistics functions include the personnel performing depot maintenance and distribution of mission essential materiel at specified logistics activities.

The Senate bill contained no similar provision.

The conferees agreed to an amendment to modify the House provision by deleting "distribution" and limiting the statutorily specified core logistics functions to those involving the depot maintenance of mission essential materiel and specified logistics activities.

The Senate recedes with amendment.

Contracting out firefighters and security guards (sec. 1232)

The House amendment contained a provision (sec. 1121) that would extend for two years the existing prohibition on the contracting out of firefigher and security guard functions currently performed by Federal civilian employees. This section would also require a report to Congress from the Secretary of Defense and the U.S. Fire Administrator assessing the benefits and risks of contracting out firefighting and security guard functions within the Department of Defense.

The Senate bill contained no similar provision.

The conferees agreed to an amendment extending the prohibition on contracting out firefighters and security guards for one year.

The Senate recedes with amendment.

Contracting-out (sec. 1233 and sec. 1234)

The Senate bill contained a provision (sec. 721) that would remove all statutory restrictions on the Secretary of Defense to contract out functions performed by civilian employees in accordance with the procedures set forth in Office of Management and Budget (OMB) Circular A-76 when the Secretary determines that it would be cost effective and in the best interest of the national defense.

The House amendment contained no similar provision.

The conferees agreed to amend section 502 of the Department of Defense Authorization Act, 1981 (Public Law 96-342) by increasing the threshold for the performance of full cost studies from 10 to 40 or fewer Department of Defense civilian employees. The conferees also agreed to increase the threshold from 50 to 75 civilian employees for a report on the potential economic affect on the employees, on the local community and Federal government affected by the contracting of a function. Finally, the conferees agreed to direct the Secretary of Defense to promote contracting out in accordance with law where it is cost effective and in the best interests of national security.

The House recedes with amendments.

LEGISLATIVE PROVISIONS NOT ADOPTED

Ceiling on contracting out

The House amendment contained a provision (sec. 1183) that would limit funding for functions to be converted to contract in fiscal year 1986 in accordance with the provisions of OMB Circular A-76 to fiscal year 1985 levels except for mandatory wage increases and new contracts legally binding on September 30, 1985.

The Senate bill contained no similar provision.

The House recedes.

Report on contracting out

The House amendment contained a provision (sec. 1204) that would require an annual report by the Secretary of Defense comparing the actual and projected costs of functions converted to contract performances in accordance with procedures of OMB Circular A-76. Section 1204(b) raises the conversion cost differential from 10 to 15 percent for functions within the Department of Defense subject to cost comparisons in accordance with OMB Circular A-76.

The Senate bill contained no similar provision.

The House recedes.

PART D—ECONOMY AND EFFICIENCY

LEGISLATIVE PROVISIONS ADOPTED

Overtime for Federal contractor employees (sec. 1241)

The Senate bill contained a provision (sec. 713) that would exempt Department of Defense contractors from the requirements of the Walsh-Healey Act (41 U.S.C. 35) to pay an employee an overtime rate of pay for work done in the performance of a Department of Defense contract after completing more than 8 hours of work in any one day. The section similarly modified section 102 of the Contract Work Hours and Safety Standards Act (40 U.S.C. 328). However, the Senate bill made no change in the provisions of those statutes requiring the contractor to pay an employee an overtime rate of pay for work done in the performance of the contract after completing 40 hours of work in any one week. The provision would be applicable to all contracts entered into or carried out on or after October 1, 1985.

The House amendment contained no similar provision.

The conferees agreed to incorporate the provisions of the Senate bill, S. 1105 (Federal Contractor Employees Flextime Act), ordered reported by the Senate Committee on Labor and Human Resources, which makes the above described provisions applicable to all government contracts. The amendment would be effective on January 1, 1986.

The House recedes with amendments.

Monroney Act (sec. 1242)

The Senate bill contained a provision (sec. 712) that would amend section 5343(d)(2) of title 5, United States Code, to prohibit the Department of Defense from establishing wage schedules and rates for prevailing rate employees of the Department of Defense on the basis of a survey of wage rates paid for comparable positions in other than the local wage area. The section would further provide that the rate of pay of a prevailing wage rate employee employed by the Department of Defense on the day before the date of enactment of this Act may not be reduced because of this amendment.

The House amendment contained no similar provision.

The House recedes.

LEGISLATIVE PROVISIONS NOT ADOPTED

Amendments to Davis-Bacon Act

The Senate bill contained a provision (sec. 711) that would exempt the Department of Defense from the provisions of the Davis-Bacon Act (40 U.S.C. 276a(a), for all construction under $1 million and would codify certain Department of Labor regulations implementing that Act.

The House amendment contained no similar provision.

The Senate recedes.

TITLE XIII—TECHNICAL AMENDMENTS AND CLERICAL AMENDMENTS

Elimination of certain statutory gender-based distinctions (sec. 1301)

The House amendment contained a provision (sec. 1141) that would eliminate certain gender-based distinctions in statute.

The Senate bill contained no similar provision.

The Senate recedes.

Technical amendments relating to benefits for certain Defense Intelligence Agency personnel (sec. 1302)

The House amendment contained a provision (sec. 1142) that would make technical,

codifying, and conforming amendments relating to benefits for certain Defense Intelligence Agency personnel.

The Senate bill contained no similar provision.

The Senate recedes.

Clerical amendments (sec. 1303)

The House amendment contained a provision (sec. 1143) that would make certain technical, codifying, and conforming amendments to titles 10 and 37, United States Code.

The Senate bill contained no similar provision.

The Senate recedes..

Clerical amendments to federal procurement law (sec. 1304)

The Senate bill contained a provision (sec. 610) that would redesignate numerous sections in chapter 138, title 10, to accommodate the addition of several new sections on defense procurement and correct the present dublication of section numbers.

The House amendment included a similar provision (sec. 1172) that also includes technical corrections to section designations and typographical errors in other provisions of law.

The Senate recedes.

TITLE XIV—GENERAL PROVISIONS

PART A—FINANCIAL MATTERS

LEGISLATIVE PROVISIONS ADOPTED

Transfer authority (sec. 1401)

The House amendment contained a provision (sec. 1101) that would permit the transfer of an authorization made available in the fiscal year 1985 Defense Authorization Act to any other authorization made available in the Act only upon determination by the Secretary of Defense that such a transfer would be in the national interest. The authority to transfer could only be used to provide authorization for higher priority items than the items from which authorization was transferred and could not be used to provide authorization for an item that was denied authorization by the Congress. The Secretary of Defense would be required to promptly notify the Congress of transfers. Transfer of an authorization between budget activities of a major Operation and Maintenance account could be made without regard to the above mentioned limitations. The total amount of transfers would be limited to $2 billion.

The Senate bill contained no similar provision.

The Senate recedes.

Authorization of transfers for fiscal year 1985 pay supplemental (sec. 1402)

The House amendment contained a provision (sec. 1107) that would authorize the transfer of funds appropriated to the Department of Defense that remain available for obligation and are no longer required for the programs for which they were originally appropriated to operations and maintenance and personnel accounts in fiscal year 1985 to fund civilian and military pay raises.

The Senate bill contained no similar provision.

The Senate recedes.

Special Defense Acquisition Fund (sec. 1403)

The Senate bill (sec. 901) authorized $1 billion for the capitalization of the Special Defense Acquisition fund. The House amendment contained no similar authorization.

The House recedes.

Revisions to defense budget plan (sec. 1404)

The Senate bill contained a provision (sec. 616) that would require the Secretary of Defense to submit a report by September 15, 1985 containing adjusted five year defense plans. Each adjusted plan would begin in fiscal year 1986. One plan would be based on an aggregate budget level that included no growth over the official projection of inflation and the other plan would be based on a aggregate budget level that included three percent growth each year over the official projection of inflation. A listing of the procurement plan for each major defense acquisition program would be required for each adjusted five year defense plan.

The House amendment contained a provision (sec. 1103) that would require a similar report within 90 days of enactment.

The conference agreement would require the report setting out two revised defense budget plans to be submitted by the Secretary of Defense within 60 days after the date of enactment. The revised plans, for fiscal year 1987-1990, would be based on enacted authorizations for fiscal year 1986 and would, in one case, be based on a zero real growth budget level and in the second case, on a three percent real growth budget level. An annual procurement plan for each of the years for each major defense acquisition program would be required for each revised plan.

The conferees believe that the military departments cannot maintain program stability without realistic projections for future budgetary resources. The conferees also question the affordability of planned new starts because of unrealistic projections of future resources.

The conferees intend that the adjusted plans are to be constrained to the 3 percent and zero percent real growth rates only in the aggregate and not at the appropriation or budget activity level. The conferees expect the Department of Defense to adjust spending priorities within various accounts and activities at alternate aggregate funding levels as is the normal practice. The requirement for alternative plans is not intended to prejudice the department's deliberations on the fiscal year 1987 budget.

Two-year budget cycle for the Department of Defense (sec. 1405)

The Senate bill contained a provision (sec. 909) that would require that the President include in the budget submitted to the Congress for fiscal year 1988 a single proposed budget for the Department of Defense and related agencies for fiscal years 1988 and 1989. Thereafter, the President would be required to submit a two-year budget for the Department of Defense and related agencies every other year.

Section 909 of the Senate bill would also require that the Secretary of Defense submit a report by July 1, 1986 to the Committees on Armed Services of the Senate and House of Representatives containing the Secretary's views on:

(1) The advantages and disadvantages of operating the Department of Defense and related agencies on a two-year budget cycle.

(2) The Secretary's plans for converting to a two-year budget cycle.

(3) A description of any impediments, statutory or otherwise, to converting the operations of the Department of Defense and related agencies to a two-year budget cycle beginning with fiscal year 1988.

The House amendment contained a provision (sec. 1169) requiring that an identical report be submitted by the Secretary of Defense by January 15, 1986.

The conferees agreed that the report should be submitted by April 1, 1986.

The House recedes with an amendment.

The conferees believe that a biennial budget for the Department of Defense would substantially improve DOD management and congressional oversight. Although preferable to subject all Federal spending to a two year budget, the conferees believe that beginning with the DOD budget is important.

Report on budgeting for inflation (sec. 1406)

The Senate bill contained a provision (sec. 950) that would require the Secretary of Defense to submit a report to Congress by September 1, 1985 containing:

(1) an explanation of the disposition of funds that are not required for the purpose for which they were appropriated because inflation was lower than anticipated;

(2) a description of an alternative budget system for the Department of Defense under which amounts necessary for inflation during a fiscal year would be appropriated by the Congress at the end of the fiscal year;

(3) recommendations for procedures which would effectively implement an alternate budget system; and

(4) a discussion of advantages and disadvantages of instituting an alternate budget system.

The House amendment contained a provision (sec. 1104) that would require the Secretary of Defense to submit a report to Congress within 90 days of the date of enactment. The report would differ from the report required in the Senate bill only in that the alternative budget system would address only the procurement and research and development accounts, where funds are available for obligation for more than one year.

The conferees agreed that the report should be submitted 60 days after the date of enactment and that only procurement and R&D accounts need be addressed.

The Senate recedes with an amendment.

Report of unobligated balances (sec. 1407)

The Senate bill contained a provision (sec. 930) that would require the Secretary of Defense to submit quarterly reports to the Committees on Armed Services of the Senate and House of Representatives containing an estimate of funds available for obligation in excess of the amounts required to carry out programs for which the funds were appropriated. The report would also include any program cost increase as a result of higher than projected inflation.

The House amendment contained a provision (sec. 1106) that would require identical reports, but would require that the reports be submitted with the President's budget, with the April Budget Update, and with the Mid-Session Budget Review.

The Senate recedes.

Special foreign currency program (sec. 1408)

The Senate bill contained a provision (sec. 914) that would authorize $2.1 million for the purchase of foreign currencies to pay expenses incurred in carrying out RDT&E programs of the Department of Defense.

The House amendment contained no similar provision.

The House recedes.

PART B—CHEMICAL WEAPONS

LEGISLATIVE PROVISIONS ADOPTED

Limitation on binary chemical munitions program (sec. 1411)

The House amendment contained a provision (sec. 119) that would prohibit the obligation or expenditure of any funds for the procurement or assembly of binary chemical

munitions or for the establishment of production facilities for such munitions until September 30, 1987. This restriction would be lifted 60 days after that date provided the President certified that (1) an international treaty concerning chemical weapons to which the United States was a party had not been concluded and (2) conditions concerning performance specifications, safety, the accelerated destruction of the existing U.S. stockpile of unitary chemical munitions, storage, transportation and other matters had been satisfied, including a requirement that the North Atlantic Council of NATO had formally agreed that existing unitary chemical munitions currently stored in Europe would be replaced with binary chemical munitions.

Funding for the binary chemical munitions program in the Senate bill was not subject to any conditions. The Senate bill contained a provision (sec. 932) that would require a report from the President not later than October 1, 1986 describing the results of consultations with the allies on a number of subjects related to NATO's chemical deterrent posture, including defensive protection measures against chemical attack and efforts to achieve an equitable and efficient burdensharing within NATO with regard to deterring the use of chemical weapons in Europe.

The Senate agreed to recede to the House with an amendment. Under this amendment, no funds could be obligated or expended for the procurement or assembly of binary chemical munitions or for the establishment of production facilities for such munitions until the President had certified that the United States, in cooperation with the Supreme Allied Commander, Europe (SACEUR), had developed a plan under which U.S. binary chemical munitions can be deployed under appropriate contingency plans to deter chemical weapons attacks against the United States and its allies and has consulted with NATO members on this plan.

The amendment further provides that no final assembly of complete binary chemical munitions can occur until 60 days after October 1, 1987 and only then if specified conditions dealing with performance, safety, accelerated destruction of current stocks, storage and transportation are satisfied.

The amendment also expresses the sense of the Congress that existing unitary chemical munitions currently stored in the United States and European member nations of NATO should be replaced by modern, safer binary chemical munitions. Lastly, the amendment includes the report required by section 932 of the Senate bill.

The following table summarizes the conferees recommendations with respect to the Binary Munitions Production Program.

Binary Munitions Summary
($ in millions)

Service/Item	Fiscal Year 1986 Request	H.R. 1872 As Passed	S. 1160 As Passed	Conference
155mm Projectile (687)	$ 21.7	$ 21.7	$ 21.7	$ 21.7

(1) $8.0 million involves military construction and is subject to action on the Fiscal Year 1986 Military Construction Authorization Act.

Destruction of existing stockpile of lethal chemical agents and munitions (sec. 1412)

Section 1186 of the House amendment prescribed the terms and conditions for the destruction of the existing United States stockpile of lethal chemical agents and munitions in conjunction with the acquisition of binary chemical weapons. Destruction of the stockpile is to be completed by September 30, 1994 except under specified circumstances. The Secretary of Defense is directed to develop and submit a comprehensive plan for such destruction by March 15, 1986. The Senate bill contained no similar provision.

The Senate recedes with a technical amendment.

Report concerning the testing of chemical warfare agents (sec. 1413)

Section 1129 of the House amendment would require the Secretary of Defense to submit a report within 90 days of the enactment of the fiscal year 1986 defense authorization act on certain factors associated with the siting of test facilities for diluted or undiluted chemical warfare agents. The Senate bill contained no similar provision.

The Senate recedes.

LEGISLATIVE PROVISION NOT ADOPTED

Study and plan for the destruction of chemical agents and munitions

Section 1115 of the House amendment would require the Secretary of Defense to conduct a study for the purpose of developing a comprehensive plan for the destruction of the existing stockpile of lethal chemical agents and munitions before such destruction occurs.

The study would include consideration of new technology and the feasibility of establishing a national destruction site within or outside the continental United States. The study findings would be submitted to the Committees on Armed Services and Appropriations of the Senate and the House of Representatives.

The prohibition against destruction of existing stocks would not apply to the destruction or continued storage of certain chemical munitions that have been declared by the Secretary of the Army to be obsolete and to have no military value.

The Senate bill contained no similar provision.

The House recedes.

PART C—MATTERS RELATED TO SPECIFIC PROGRAMS

LEGISLATIVE PROVISIONS ADOPTED

Enhanced drug interdiction assistance (sec. 1421)

The House amendment contained a provision (sec. 1187) that would permit assignment of members of the armed forces to assist drug enforcement officials in drug searches, seizures, or arrests outside the land area of the United States under certain limited circumstances.

The Senate bill contained no similar provision.

The conferees recognized it was desirable to involve the military resources of the United States more directly in the ongoing efforts to interdict drug smuggling into the United States. However, the conferees were concerned about granting civil law enforcement powers to the Armed Forces. Moreover, they noted that direct military participation in law enforcement could necessitate the training of certain military personnel in civilian law enforcement procedures, and that any member of the military services who directly assisted in drug searches, seizures, or arrests would be liable to be called to testify in criminal court, removing that person from the performance of regular military duties.

Under current law and practice, Navy ships have been deployed when possible with personnel from 15-person Coast Guard Tactical Law Enforcement Teams (TACLETS), or 8-person Coast Guard Law Enforcement Detachments (LEDETS), onboard. TACLETS and LEDETS are special multi-purpose units that can be deployed as boarding-party detachments aboard Navy ships. These teams and detachments conduct boarding of suspect vessels and related drug interdiction activities from Navy vessels in the same manner as they do from Coast Guard vessels. These Coast Guard members have the training and authority to carry out civilian law enforcement procedures, including search, seizure, or arrest. In the course of their regular duties, they give testimony in court on their law enforcement activities.

The conferees recognize that assignment of members of the Coast Guard on-board Navy vessels has had beneficial results in the Federal drug interdiction program. However, personnel shortages within the Coast Guard have prevented the assignment of sufficient Coast Guard personnel to naval vessels at sea in drug interdiction areas. Navy resources could be better utilized for drug interdiction purposes if more Coast Guard personnel were available to serve in this capacity.

Accordingly, the Senate recedes with an amendment providing for the mandatory assignment of Coast Guard personnel on each naval vessel at sea in a drug interdiction area for the purpose of drug interdiction and other law enforcement activities. The identification of drug-interdiction areas shall be made by the Secretary of Defense in consultation with the Attorney General, and shall include areas in which activities involving the smuggling of drugs into the United States are suspected.

The number of Coast Guard personnel needed to provide a law enforcement presence for each surface naval vessel is authorized to be added to the Coast Guard active duty strength for fiscal year 1986. The Coast Guard has testified that 500 additional members would be needed to fulfill this mission. $15,000,000 would be authorized for appropriation for the Department of Defense for fiscal year 1986 to carry out the purpose of this section. Funds so appropriated shall be transferred to the Secretary of Transportation only for the additional personnel authorized.

Because of the unique collaboration between the Coast Guard and the Navy in the TACLET program, the conferees deemed it appropriate expressly to authorize the use of Navy O&M funds for this specific activity. Nothing in this section is intended to abrogate the intent of Congress (in enacting chapter 18 of title 10 in 1981) that Department of Defense assistance to civilian law enforcement agencies is subject to reimbursement to the extent that reimbursement is otherwise required by the Economy Act.

Establishment, operations and maintenance of drug law enforcement assistance organizations of the Department of Defense (sec. 1422)

The Senate bill contained a provision (sec. 306) authorizing reserve unit participation in support of civilian law enforcement drug interdiction operations.

The House amendment contained a similar provision (sec. 305).

The House receded with an amendment clarifying overall military direction of the interdiction effort.

The conferees agreed that command, control, and coordination of the reserve components' contribution to the overall drug interdiction mission should reside in a special operations headquarters element. The House provision (sec. 305) would require that the function be performed by a reserve Special Operations Wing.

The Senate bill contained no similar provision.

The Senate concluded that the existing active Air Force First Special Operations Wing might provide a more efficient, effective and capable structure for direction of the diverse units to be utilized. Accordingly, the conferees agreed that the resolution of whether direction of the interdiction effort should be allocated to the First Special Operations Wing, or a Special Operations Wing (Reserve) headquarters (to be established) should be at the discretion of the Secretary of Defense.

The conferees intend that interdiction support be provided using existing units, aircraft, personnel and other resources. However, the conferees are aware that creation of a reserve special operations wing headquarters element may be necessary if the Department of Defense decides not to utilize the First Special Operations Wing. Also, new reserve detection and surveillance units may be organized using the department's aircraft intended for dedicated peacetime support for Customs Air Operations interdiction activities.

The conferees further agreed that in order for the wing headquarters element to effectively command, control or coordinate reserve component units' interdiction operations, it should be the focal point for liaison with the National Narcotics Border Interdiction System and other civilian law enforcement entities in the receipt and exchange of mission support requests and narcotics intelligence.

Military cooperation information program for civilian law enforcement officials. (sec. 1423)

The Senate bill contained a provision (sec. 931) that would require the Attorney General, in consultation with the Secretary of Defense, to conduct briefings for state and local law enforcement personnel about Federal assistance in drug enforcement.

The House amendment contained no similar provision.

The House recedes.

Study on the use of the E-2 aircraft for drug interdiction purposes (sec. 1424)

The House amendment contained a provision (sec. 1170) that would require a study to be conducted evaluating Naval Reserve E-2 aircraft in the drug interdiction role.

The Senate bill contained no similar provision.

The Senate recedes with an amendment deleting reference to the Naval Reserve, permitting the study to be conducted utilizing Navy active force E-2 aircraft.

Strategic bomber programs (sec. 1425)

Section 915 of the Senate bill would restrict the obligation of funds in the Defense Authorization Act for research, design, demonstration, development, or procurement of more than 100 B-1B aircraft. The House amendment contained no similar provision.

Section 921 of the Senate bill expressed the sense of Congress that stealth technologies should be developed as rapidly as possible, that the B-1B aircraft procurement should be terminated after acquisition of 100 aircraft, and that none of the funds authorized for the advanced technology bomber and advanced cruise missile should be used for any other purpose. The House amendment contained no similar provision.

The conferees agree to incorporate both section 915 and section 921 into a new section.

The House recedes.

Restrictions on certain nuclear programs (sec. 1426

Restriction on funding for MX warhead

The House amendment contained a provision (sec. 1210) that would enact permanent law restricting use of funds for production of W-87 warheads in excess of the numbers required to arm the number of MX missiles authorized for deployment plus the number of warheads determined by the President to be necessary for quality assurance and reliability testing. The Senate bill contained no similar provision. The Senate recedes.

Report on the employment of the Standard missile

The Senate bill at section 953 contained a provision that would restrict the use of all funds associated with the nuclear version of the Standard missile (SM-2(N)), both in the Department of Defense and in the Department of Energy, until the Secretary of the Navy submits a detailed report to the Committees on Armed Services of the Senate and the House of Representatives on the requirements, proposed utilization, release procedures, conventional alternatives, previous studies, deployment, impact on fleet air defense, and plans for other nuclear air defense weapons. The House amendment at section 1211 contained a similar provision with minor drafting differences.

The House recedes.

Report on requirements for special nuclear materials

The House amendment contained a provision (sec. 1213) that would require a joint report by the Secretaries of Defense and Energy after consultation with the Joint Chiefs of Staff and the Director of the Arms Control and Disarmament Agency detailing the military requirements for special nuclear materials through the year 1991. This report would be provided to the Committees on Armed Services of the Senate and the House of Representatives not later than March 1, 1986. The Senate bill contained no similar provision. The Senate recedes.

LEGISLATIVE PROVISION NOT ADOPTED

Prohibition on funding for small atomic demolition munition

Section 1212 of the House amendment would prohibit the use of funds authorized for the Department of Energy national security programs for the development engineering, production engineering, or production of this munition. In fact, no such authorization was requested by the Department or contained in either the Senate bill or the House amendment. The House recedes.

PART D—MISCELLANEOUS REPORTING REQUIREMENTS

LEGISLATIVE PROVISIONS ADOPTED

Extension of time for submission of reports and authorization of appropriations for the commission on merchant marine and defense (sec. 1431)

Section 908 of the Senate bill contained a provision that would amend section 1536 of the Department of Defense Authorization Act, 1985 (Public Law 98-525) by extending by one year the dates upon which the reports of the Commission on Merchant Marine and Defense are required to be submitted; by authorizing appropriations for operation of the commission for fiscal years 1986, 1987, and 1988; and by extending the availability of such appropriations through September 30, 1988.

Section 1125 of the House amendment would also amend and extend the reporting dates of the commission, conditioning the extended dates on the date that appropriations are made available for the operation of the commission. The House amendment woud not extend the time periods for authorization of appropriations or availability of appropriations.

The conferees agreed to the extension of reporting dates as in the House amendment and to extend to September 30, 1988 the availability of appropriations under section 1536(i) of the Department of Defense Authorization Act, 1985 (Public Law 98-525).

The Senate recedes with an amendment.

Report on shipbuilding and repair base (sec. 1432)

Section 1126 of the House amendment would require the Secretary of the Navy to report by January 31, 1986 to the Committees on Armed Services of the Senate and House of Representatives on the results of a study of the relationship between price competition and mobilization capability in naval shipbuilding and repair.

The Senate bill did not contain a similar provision.

The Senate recedes. The conferees note that as a result of recent competitive procurement decisions the future of some important shipyards is in doubt, including the Quincy Shipyard. The conferees believe that the facilities and trained labor force at these shipyards form an important part of the United States industrial mobilization base. Therefore, the conferees direct the Secretary of the Navy to include in the report required by this section an assessment of possible options for maintaining the facilities and the trained labor force associated with Quincy and similarly situated shipyards.

Nuclear reactor components for SSN-21 class submarines (sec. 1433)

Section 1127 of the House amendment would require that funds appropriated pursurant to an authorization in this Act could not be obligated for the design or construction of nuclear reactor components for the SSN-21 class submarine until the Secretary of the Navy submits to the Committees on Armed Services to the Senate and House of Representatives a report on the industrial base for the design and construction of nuclear components for the SSN-21 class submarine. The report would include an evaluation of the cost effectiveness of increasing the number of firms actively employed in the design and construction of nuclear reactor components.

The Senate bill did not contain a similar provision.

The conferees agreed that not more than one-half of the funds appropriated pursuant to authorizations of appropriations in this Act for the design or construction of nuclear reactor components for the SSN-21 class submarine may be obligated until the Secretary of the Navy submits the report described above.

The Senate recedes with an amendment.

Aircraft fuel conservation report (sec. 1434)

The House amendment contained a provision (sec. 1198) that would direct the Secretary of Defense to establish, within 90 days of the enactment of this act, a fuel conservation program to reduce the use of fuel by military aircraft during takeoffs and other situations without lowering safety standards. The provision would also require the Secretary of Defense to report to Congress regarding the establishment of this program within 90 days of the enactment of this Act.

The Senate bill contained no similar provision.

The conferees agreed to delete the requirement for the Secretary of Defense to establish fuel conservation program but directed him to submit a report, within 90 days of the enactment of this Act, on fuel conservation efforts by the Department of Defense since 1981 to reduce the use of fuel by military aircraft.

The Senate recedes with amendment.

Report concerning Poseidon class submarine to be dismantled (sec. 1435)

The House amendment contained a provision (sec. 1132) that would require the President to submit a report to the Congress within thirty days of enactment with respect to:

(1) the feasibility and legality of transferring to the United Kingdom the ownership of an Poseidon class submarine proposed to be dismantled;

(2) the feasibility of converting a Poseidon class submarine into a SSN-type submarine or a SSGN-type submarine; and

(3) the feasibility of using a Poseidon class submarine as a training platform.

The Senate bill contained no similar provision.

The conferees agreed to a provision that would require the Secretary of Defense to submit a report to Congress by December 15, 1985 that would assess the feasibility of:

(1) converting a Poseidon class submarine into a SSN- or SSGN-type submarine; and

(2) using a Poseidon class submarine as a training platform. The Senate recedes with an amendment.

Report and demonstration project concerning the sale of certain United States meat in military commissaries overseas (sec. 1436)

The House amendment included a provision (sec. 1128) that would require the Secretary of Defense to study the feasibility of selling U.S. meat in six European commissaries. The results of the test would be reported to Congress one year after enactment of the Act.

The Senate bill contained no similar provision.

The Senate recedes.

Report on retention of the basic point defense missile system (BPDMS) (sec. 1437)

Section 1133 of the House amendment would require the Secretary of the Navy to report to the Committees on Armed Services of the Senate and House of Representatives on the removal of BPDMS from naval amphibious vessels. Section 1133 would also provide that no BPDMS system could be re-

moved from a naval amphibious vessel until the report was submitted.

The Senate bill did not contain a similar provision.

The Senate recedes.

Report on retirement benefits of Philippine Scouts (sec. 1438)

The House amendment contained a provision (sec. 1135) that would direct the Secretary of the Army to study the disparity between the pay received by members of the Philippine Scouts during World War II and the pay received by other members of the United States Army and to submit a report on his findings and conclusions to the Committees on Armed Services of the Senate and the House of Representatives.

The Senate bill contained no similar provision.

The Senate recedes.

Study for espionage penalty (sec. 1439)

The House amendment included a provision (sec. 1194) that would direct the Secretary of Defense to study the desirability of reinstating the dealth penalty for the civilian crime of espionage.

The Senate bill contained no similar provision.

The Senate recedes.

Study of import of foreign export subsidies (sec. 1440)

Section 918 of the Senate bill would require the Secretary of Defense to conduct a study of the impact that foreign export subsidies have had on the U.S. defense industrial base. The report is to include contracts where foreign contractors have received subsidies for commodities purchased. No similar language was contained in the House amendment.

The House recedes with an amendment.

Report on expenditures for tactical missiles for training purposes (sec. 1441)

The Senate bill contained a provision (sec. 939) that would require the Secretary of Defense to report to the Congress concerning expenditures for tactical missiles used for training purposes.

The House amendment contained no similar provision.

The House recedes.

Report on feasibility of drug testing prospective recruits (sec. 1442)

The Senate bill contained a provision (sec. 922) that would direct the Secretary of Defense to report on the feasibility of a program to test prospective recruits for drug abuse.

The House amendment contained no similar provision.

The House recedes.

LEGISLATIVE PROVISIONS NOT ADOPTED

Report concerning ability of United States industries to serve United States defense needs

The House amendment contained a provision (sec. 1136) that would require the Secretary of Defense to report on the ability of U.S. industries to meet the production needs of the Department of Defense.

The Senate bill contained no similar provision.

The House recedes.

Report on United States defense expenditures in the Far East

The House amendment contained a provision (sec 1139) that would require the Secretary of Defense to report on U.S. defense expenditures in the Far East, Japanese defense expenditures, and the effect increases in Japanese defense expenditures would have on U.S. defense expenditures in the Far East.

The Senate bill contained no similar provision.

The House recedes.

PART E—MISCELLANEOUS PROVISIONS

LEGISLATIVE PROVISIONS ADOPTED

Introduction of U.S. Armed Forces into Nicaragua (sec. 1451)

Section 1200 of the House amendment would provide that funds appropriated to the Department of Defense may not be obligated or expended for the purpose of introducing U.S. Armed Forces into Nicaragua for combat unless the Congress has declared war or enacted specific authorization for such introduction, or such introduction is necessary to meet a clear and present danger of hostile attack upon the United States, its territories or possessions or its allies, or to meet a clear and present danger to, and to provide necessary protection for, the U.S. Embassy, U.S. Government personnel, or U.S. citizens, or to respond to hijacking, kidnaping, or other acts of terrorism involving citizens of the United States or its allies. Moreover, section 1200 would provide that its provisions would not apply if MIG aircraft, or other aircraft of similar design or capability, or nuclear missiles or any other nuclear weapons are introduced into Nicaragua. Finally, section 1200 would provide that nothing in the section would invalidate any provision of the War Powers Resolution or any authority of the United States to act under the provisions of the Inter-American Treaty of Reciprocal Assistance.

The Senate bill contained no similar provision.

The Senate recedes with an amendment that would provide that it is the sense of Congress that United States armed forces should not be introduced into or over Nicaragua for combat. The amendment also provides that nothing in this section is to be construed as affecting the authority and responsibility of the President or Congress of the United States under the Constitution, statutes, or treaties of the United States in force.

Protection against terrorism (sec. 1452)

The House amendment included a provision (sec. 1174) that would authorize the President to protect U.S. military personnel through necessary and appropriate anti-terrorism and counter-terrorism measures.

The Senate bill contained no similar provision.

The Senate recedes with an amendment expressing the sense of Congress.

Readiness of Special Operations Forces (sec. 1453)

The House amendment contained a provision (sec. 1202) that would express a sense of the Congress that the revitalization of the special operations forces of the Armed Forces should be pursued as a matter of the highest priority. The Sente bill contained no similar provision.

The Senate receded with an amendment, the explanation of which is found in Title I of this Joint Statement of the Managers, in the section entitled "Special Operations Forces".

Use of excess personal property for humanitarian purposes (sec. 1454)

The House bill contained a provision (sec. 311) that would provide authority for the Secretary of Defense to authorize the use of excess and donated supplies by the Department of Defense for the purpose of nonlethal assistance.

The Senate bill contained no similar provision.

The Senate recedes with an amendment to provide authority for the Secretary of Defense to make available for humanitarian relief excess personal property of the Department of Defense, as defined in applicable DoD regulations. However, the conferees believed that such authority should be applied on a world-wide basis.

The conferees agreed that the distribution of humanitarian relief supplies was the responsibility of the Department of State and the conferees did not want to create a new foreign aid or refugee assistance program in the Department of Defense. Therefore, the Senate amendment specified that such excess Department of Defense property be transferred to and distributed by the Department of State. The amendment also established reporting requirements on the disposition of such property. In adopting these provisions, the conferees agreed that the Department of Defense should conduct an active and vigorous inventory of such property and effect its transfer to the Department of State in an expedited fashion.

The conferees agreed that nothing in section 1454 constituted authority to engage in any activity which, if carried out as an intelligence activity by the Department of Defense, would require a finding under section 662 of the Foreign Assistance Act, as amended, or notice to the Intelligence Committees under section 501(a) of the National Security Act of 1947.

Encouragement of construction in U.S. shipyards of combatant vessels for U.S. allies (sec. 1455)

Section 110 of the House amendment contained a provision that would direct the Secretary of the Navy to take the necessary steps to ensure that U.S. shipyards are not inhibited by the Navy from providing diesel submarine combat systems to allied nations and to encourage those U.S. yards not currently building nuclear submarines to construct diesel-electric submarines for allied use. Section 110 would further provide that no procurement funds authorized and appropriated for the U.S. Navy submarine program for fiscal year 1986 could be obligated or expended until the Secretary of the Navy reports to the Congress that no such inhibiting actions are being taken, especially with respect to providing combat systems or submarine construction for South Korea and Israel. Section 110 would also provide that no procurement funds authorized and appropriated for fiscal year 1986 could be obligated or expended for upgrading a foreign shipyard to build diesel-electric submarines until the Secretary of the Navy reports to the Congress that diesel-electric submarines could not be built in the United States without having a negative effect on the construction of U.S. nuclear submarines.

The Senate bill did not contain a similar provision.

The conferees agreed that the Secretary should encourage U.S. shipyards to construct warships for our allies subject only to the safeguarding of sensitive warship technology. The conferees also agreed that the Secretary of the Navy should take such steps as necessary to ensure that no effort is made by the Department of the Navy to inhibit, delay, or halt the provision of any U.S. naval system to our allies subject to approval of such system for export, unless approval of such system for export is withheld to safeguard sensitive U.S. warship technology. Further, the conferees agreed that the

Secretary should encourage U.S. industries to participate in the construction of warships—including diesel submarines—outside of the United States where opportunities arise subject to the safeguarding of sensitive warship technology. The Secretary is to take steps to ensure that whenever practicable, at least fifty-one percent of such construction, by dollar value, would be provided by U.S. industries.

Defense industrial base for textile and apparel products (sec. 1456)

Section 1175 of the House amendment would direct the Secretary of Defense to monitor and submit annual reports assessing and making recommendations on the defense industrial base for textile and apparel products. The Senate bill contained no similar provision.

The Senate recedes.

Technology transfer (sec. 1457)

The House amendment contained a provision (sec. 1193) that would amend chapter 139 of title 10, United States Code. The amendment would authorize the Secretary of Defense to encourage the transfer of technology between the Department of Defense and other government and private agencies consistent with national security objectives.

The Senate bill contained no similar provision.

The Senate recedes with an amendment.

Civil Air Patrol (sec. 1458)

The House amendment contained a provision (sec. 1164) that would amend section 9441(b) of title 10, United States Code, relating to the Civil Air Patrol. The provision would grant discretionary authority to the Secretary of the Air Force to authorize reimbursement to the Civil Air Patrol for costs incurred for the purchase of certain items of equipment.

The Senate bill contained no similar provision.

The Senate recedes.

National Science Center for Communications and Electronics (sec. 1459)

The Senate bill contained a provision (sec. 917) that would establish a national center dedicated to communications and electronics.

The House amendment contained a similar provision (sec. 1181).

The House recedes with an amendment.

Limitation on receipt of gratuities at shipbuilding milestone ceremonies (sec. 1461)

Section 1167 of the House amendment would limit to $100 the value of gifts that Federal officers, Federal employees, and Members of Congress could receive either directly or indirectly incident to their attendance at or participation in a shipbuilding milestone ceremony. The limitation on receipt of gifts "directly or indirectly" extends to member of the immediate family of the Federal officers, Federal employees, or Members of Congress.

The Senate bill did not contain a similar provision.

The Senate recedes.

Authority to lease Air Force helicopters to the State of California (sec. 1463)

Section 923 of the Senate bill would authorize the lease of 12 UH-1F helicopters to the Department of Forestry of the State of California for the purpose of fighting forest fires. The House amendment contained no similar provision.

The House recedes.

Establishment of travel offices or acquisition of travel services (sec. 1464)

The House amendment contained a provision (sec. 1192) that would express the sense of Congress that in the procurement of offical travel services the Secretary of each military department should provide for free and open competition among commercial travel agencies, scheduled airline traffic offices (SATO's) and other entities which provide such services.

The Senate bill contained no similar provision.

The conferees agreed, in adopting the House provision, that although competitive procurement of official travel services was in the best interests of the United States government, that certain features of the current SATO system were valuable and should be carried forward in the promulgation of any new Defense or military department implementing directives and regulations.

Accordingly, the conferees directed that the Office of the Secretary of Defense shall, in oversight of the service Secretaries' competitive bidding procedures for the establishment of travel offices or acquisition of travel services, ensure that such activities in the aggregate shall retain the overall capabilities to support the operation of the "War Air Service Program", and a "Contingency Response Program", irrespective of the character of the travel services vendor providing service at each individual base, camp or station. Results of such oversight activities are to be provided to the Committees on Armed Services of the Senate and House of Representatives concurrent with the submission of the President's fiscal year 1989 Defense authorization request.

The Senate recedes.

American stage equipment for United States patriotic events (sec. 1465)

The House amendment contained a provision (sec. 1197) that would express the sense of Congress that performing groups in the Armed Forces should use domestically manufactured entertainment support items at patriotic events in the Capitol building, on the Capitol grounds, and at all Federal buildings, unless there is no domestically manufactured item of comparable quality and price.

The Senate bill contained no similar provision.

The Senate recedes.

Sale of certain recordings of United States Air Force Band (sec. 1466)

The Senate bill contained a provision (sec. 940) that would authorize the commercial sale of the United States Air Force Band concert recorded at Salt Lake City, Utah, on April 18 and 19, 1985.

The House amendment contained a similar provision (sec. 1179).

The Senate recedes.

LEGISLATIVE PROVISIONS NOT ADOPTED

Industrial fund capitalization program

The Senate bill contained a provision (sec. 912) that would amend section 2208(j) of title 10, United States Code, to remove the statutory floors on funding for the industrial fund capitalization program at 4 percent in fiscal year 1986 and 5 percent in fiscal year 1987.

The House amendment contained no similar provision.

The Senate recedes.

Recruits' basic skills deficiencies studies

The Senate bill contained a provision (sec. 933) that would authorize a study of problem areas that may contribute to the expansion and additional costs of the Army's program to counter deficiencies in the basic skills of its recruits. This study would be conducted by a commission that would additionally conduct a full and complete study of the causes of illiteracy.

The House amendment contained no similar provision.

The Senate recedes.

Lieutenant Colonel Harry L. Skryock

The Senate bill contained a provision (sec. 937) that would provide increased survivor benefits under the Survivor Benefit Plan to the widow of Lieutenant Colonel Harry L. Shryock, USAF (Ret.).

The House amendment contained no similar provision.

The Senate recedes.

Local procurement connected with American military bases in the Philippines

Section 938 of the Senate bill would express the sense of the Senate that the United States should increase its purchases of goods and services for American military bases in the Philippines from the local Philippine economy to the maximum extent feasible.

The House amendment contained no similar provision.

The Senate recedes.

Prohibition on certain transfers to foreign governments

The House amendment contained a provision (sec. 1113) that would prohibit technical data packages for large caliber weapons from being transmitted to any foreign government. The Senate bill contained no similar provision.

The House recedes.

Depot-level maintenance of ships homeported on west coast

Section 1114 of the House amendment contained a provision that would require that not less than one-half of depot-level maintenance workload for naval vessels scheduled, as of May 8, 1985, to be carried out in Japan during fiscal years 1986, 1987, and 1988 be carried out in the United States.

The Senate bill contained no similar provision.

The House recedes.

Contracting requirements

Section 1185 of the House amendment would require 10 percent of all Department of Defense procurement, research and development, and Department of Energy military nuclear program contracts to be awarded to minority businesses, historically minority colleges and universities, and minority institutions. The Senate bill contained no similar provision.

The House conferees agreed to recede to the Senate with the understanding that hearings would be held by the Senate Armed Services Committee on the proposal in conjunction with consideration of the fiscal year 1987 defense authorization request.

Education of high school students residing at West Point

The House amendment contained a provision (sec. 1190) that would authorize the Department of Defense to enter into an arrangement under section 6 of the Act of September 30, 1950, with the Highland Falls-Fort Montgomery School District in New York. In this arrangement, the Department of Defense would contract with the

school district for the education of high school students residing at West Point.

The Senate bill contained no similar provision.

The House recedes.

The conferees remain concerned over the long-standing financial difficulties of the Highland Falls-Fort Montgomery School District and other similarly situated public school systems. However, the conferees believe that the Executive Branch already has the authority necessary to enter into the type of arrangement envisioned by the House provision. In addition, there are other administrative actions that the Executive Branch could take to alleviate these impact aid problems. Therefore, the conferees anticipate that the Department of Defense and the Department of Education will promptly cooperate in developing long-term solutions to the problems of the Highland Falls-Fort Montgomery School District and other similarly-situated school systems.

Prohibiting the Department of Defense and the Central Intelligence Agency from providing assistance to the Nicaraguan resistance forces

The House amendment contained a provision (sec. 1209) to prohibit humanitarian assistance to the Nicaraguan Resistance Forces from being provided by the Department of Defense or the Central Intelligence Agency.

The Senate bill contained no similar provision.

The House recedes.

TITLE XV—DEPARTMENT OF ENERGY NATIONAL SECURITY PROGRAMS

PART A—PROGRAM AUTHORIZATIONS

The Senate incorporated its action on the fiscal year 1986 authorization request for Department of Energy National Security programs into Division C of S. 1160, the National Defense Authorization Act for Fiscal Year 1986. The Senate bill would authorize appropriations in the total amount of $7,637,710,000, a reduction of $321,000,000 from the request of $7,958,710,000.

The House incorporated its action on this request into Title IX of S. 1160, as amended, the Department of Defense Authorization Act, 1986. The House amendment would authorize appropriations for fiscal year 1986 in the total amount of $7,718,124,000, a reduction of $240,586,000 below the requested amount of $7,958,710,000.

The conferees agreed to an authorization of $7,684,305,000, a reduction of $274,405,000 from the requested amount.

For purposes of comparison, the budget request, the provisions of the Senate bill, the provisions of the House amendment, and the conference agreements on the differences are itemized in the following table. Unless otherwise noted in the body of this report, reductions from the requested amounts are due to budgetary constraints.

Fiscal Year 1986 Department of Energy National Security Programs

[Amounts in millions of dollars]

Program	FY 1986 Authorization Request	S.1160 House Amendment	S.1160 Senate Bill	Conference	Change from Request
Total DOE Operating Expenses	6187.022	6147.356	6062.022	6138.237	-48.785
Total DOE Plant Construction Expenses	1291.301	1115.661	1115.301	1098.961	-192.340

The reports by the respective Houses on the bills containing the National Defense Programs of the Department of Energy for fiscal year 1986 contained details on the budget request and policy guidance and requirements with regard to many aspects of the programs. Unless modifying language is included in this statement of managers, the report language, to include guidance, recommendations and requirements, included in both the report of the House of Representatives (H. Rept. 99-81) and of the Senate (S. Rept. 99-41) is concurred in by the conferees.

OPERATING EXPENSES (SEC. 1511)

Operating expenses, weapon activities (sec. 1511(2))

Research and development

Both the Senate bill and the House amendment contained $850.3 million for weapons research and development. The Senate, however, would allocate $10.0 million of this amount for conventional weapons research and development by the three national weapons laboratories—Sandia National Laboratories, Livermore National Laboratory and Los Alamos National Laboratory. The conferees agree that the national weapons laboratories possess unique capabilities that can be utilized in the development of conventional weapons that are not readily available at other facilities. The conferees, therefore, adopt the Senate position.

Inertial confinement fusion

The budget request contained no discrete amount for the inertial confinement fusion (ICF) program. The department had planned to allocate $70.0 million from the weapon research and development program for this purpose during fiscal year 1986.

The Senate bill and House amendment contained $145.0 million for operating expenses for ICF. The House amendment also apportioned operating expenses among three ICF subprograms: glass laser research, gas laser research, and pulsed power research.

The conferees recommend authorization of $145.0 million for ICF operating expenses and $10.0 million for capitol equipment.

The coinferance allowance for Inertial Confinement Fusion (ICF) research represents a reduction in this important program from the level of effort authorized in prior years. The reason for this reduction, as explained in both the Senate and House reports on this legislation, is the overall constraint placed on the defense budget while research requirements are increasing. The conferees recognize that a decreased authorization level for ICF will require some programmatic changes and will challenge management of the department in the maintenance of the robust program that the Congress has supported for many years.

The conferees believe that such a robust program is possible within the $155.0 million authorized if these funds are efficiently apportioned in consonance with goals established for the ICF program, and according to the technical merit and expected contribution that the various participants in the program can make toward achieving those goals.

As directed by the fiscal year 1985 Department of Energy Authorization Act, the President has appointed a Technical Review Panel to review the ICF program, its accomplishments, goals and future direction. Although this panel has not yet submitted a report, its report is expected to provide valuable assistance to DOE's ICF management team and to the Congress in providing for future authorizations, funding and an organizational structure for the program.

For the above reasons, the conferees recommend the retention of the ICF program as a distinct program from weapons research and development, but do not endorse the allocation of operating expenses between the three major subprograms as in prior years. Not later than October 1, 1985, the Secretary of Energy is directed to report to the Committee on Armed Services of the Senate and House of Representatives, his plan and rationale for apportionment of these funds.

Production and surveillance

The budget request contained $1,942.4 million for weapons production and surveillance activities. The Senate bill contained $1,862.4 million for this purpose. The House amendment would authorize $1,893.419 million. Because of budgetary constraints, the conferees recommend authorization of $1,887.4 million for weapons production and surveillance—a reduction of $55.0 million from the requested amount. The conferees are aware that this reduction may result in delays or curtailment of one or more weapons production programs.

Program direction

Section 3101 of the Senate bill would authorize $63.7 million for program direction activities. Section 911 of the House amendment would authorize $98,700,000 for program direction activities as requested, which included $48,845,000 for community assistance payments under the provisions of section 91 of the Atomic Energy Act of 1954, as amended, known as the Atomic Energy Community Act of 1955.

The difference of $35,000,000 is due to section 932 of the House amendment, which would authorize a one-time final liquidation payment in that amount to the Oak Ridge, Tennessee area communities to terminate their eligibility for any future community assistance payments.

The conferees agreed to authorize the sum of $98,700,000, including the one-time final payment to the Oak Ridge communities, with the condition enumerated in Section 1532, namely, that no funds may be obligated for this purpose until the Department of Energy provides to the Committees on Armed Service of the Senate and House of Representatives a copy of an executed contract for a final financial settlement. Furthermore, the Secretary must report to Congress on the need for further payments under the Atomic Energy Community Act of 1955 not later than February 1, 1986.

Operating expenses, verification and control technology (sec. 1511(3))

The Senate bill would authorize $93.475 million for verification and control technology, an addition of $10 million to expand research in this area both in basic technologies and in novel concepts. The Senate bill also directed a set-aside of $2 million for Argonne National Laboratory to establish a new office to carry out verification technology programs. The House amendment would authorize $83.475 million but contained no set-aside provision.

The House recedes with an amendment authorizing $90.975 million for verification and control technology. The Senate recedes on the set-aside for Argonne National Laboratory.

The conferees understand that all of the nuclear weapons laboratories and the Argonne National Laboratory have submitted proposals to the Department of Energy for the pursuit of verification technology. Subject to the availability of appropriations, the conferees recommend that the Department of Energy consider all of these proposals on their merits.

Operating expenses, nuclear materials production (sec. 1511(4))

Processing of nuclear materials

Section 911 of the House amendment would authorize $502,445,000, and would allocate $74.8 million for the Special Isotope Separation (SIS) program and $26.0 million for the Plasma Separation Process (PSP) program. In addition, section 912 of the House amendment would authorize $8.0 million to initiate the design of the SIS plant (project 86-D-148). The Senate bill would authorize $488,145,000, and contained no similar provision. The conferees recommend authorization of $493,145,000 for this activity, the allocation of $74.8 million for SIS operating expenses, and the approval of project 86-D-148.

It is the intent of the conferees that the Secretary of Energy provide by February 1, 1986 a management plan for the SIS program to the Committees on Armed Services of the Senate and the House of Representatives establishing firm timelines for completion of the production facility authorized by project 86-D-148. This report should address the cost, schedule, siting, and management, to include how SIS technology is to be transferred from the National Laboratory to the operating contractor.

Supporting services

Both the Senate bill and the House amendment would authorize $256,575,000 for supporting services. The conferees recommend authorization of $256.575 million and the allocation of $26.0 million of that amount to the Plasma Separation Process. The House report (H. Rept. 99-81) directs that at least $22,000,000 of that amount be for PSP process development.

Enriched material

The conferees agreed to authorize $208,900,000 for uranium enrichment, a reduction of $50.0 million from the requested amount. A total of $32.0 million of the reduction is associated with work in progress charges; the remainder is due to budgetary constraints.

Operating expenses, defense waste and byproduct management (sec. 1511(5))

The Senate bill would authorize $395,122,000 for defense waste and byproduct management. The House amendment would authorize $395,037,000 for this purpose.

The conferees recommend $395,037,000, of which $271,000,000 is for interim waste management. The conferees are pleased that the Secretary of Energy will conduct experiments to demonstrate the qualification of actual glass waste and production canisters from the Defense Waste Processing Facility at the Waste Isolation Pilot Plant. High level waste will be removed after the completion of the qualification experiments.

PLANT AND CAPITAL EQUIPMENT (SEC. 1512)

Project 86-D-104, strategic defense facility, Sandia National Laboratory

The conferees agree to authorize $8.0 million to begin this facility, with $4.0 million from amounts authorized for Department of Energy defense programs, and $4.0 million from funds authorized for the Strategic Defense Initiative in accordance with the letter dated June 20, 1985 from the Director, Strategic Defense Initiative Organization to the Deputy Assistant Secretary of

Energy. The conferees expect that the $83.8 million total cost of this facility will be shared in some equitable way between the Department of Energy and the SDIO.

Project 86-D-105, instrumentation systems laboratory

Authorization for this project, denoted 86-D-132 in the Senate bill, is contained in both the Senate bill and the House amendment.

Project 86-D-130, tritium loading facility

The Senate bill would authorize $5.0 million for the initial design of this $120.0 million facility. The House amendment contained no similar provision.

The conferees agreed to an authorization of $5.0 million and direct that the Department of Energy reexamine the scope and cost of this facility before beginning construction, and should report to the Armed Services Committee whether, upon reconsideration, the conservative reinforced concrete design and extensive new instrumentation are both necessary and affordable. In particular, the department should explain whether costs can be avoided by using new equipment included in recent improvements to the existing tritium loading facility under projects 84-D-112, 82-D-107, and 82-D-109, which will be available when the existing facility is decommissioned.

Project 86-D-131, environmental remedial action

The Senate bill contained authorization for an $808 million project for environmental remedial action at Lawrence Livermore Laboratory. The House amendment contained no similar provisions. The conferees agreed that funding for this remedial action would be more appropriately included under operating expenses. Accordingly, the Senate recedes on the construction project, and the conferees agreed that the authorization for weapons activities operating expenses of $3.519 billion, an increase of $13.8 million over the department's request, is adequate for purposes of accomodating environmental remedial action.

Project 85-D-105, combined device assembly facility

The Senate bill would authorize $19.2 million to begin construction of this $75.0 million project. The House amendment contained no similar provision; the House report (H. Rept. 99-81, p. 277) expressed concern about the costs and scope of the project.

The conferees agreed to recommend authorization of $7.0 million for initial construction, but to direct the Department of Energy to present to the Committees on Armed Services a conceptual design for a project of significantly reduced size and scope that will still meet the requirements of safety and security.

Project 86-D-148, special isotope separation plant (site undesignated)

The House amendment would authorize $8.0 million to begin this facility. The Senate bill contained no similar provision. The Senate recedes.

Capital equipment

The conferees agreed to recommend authorization of $479,387,000 for capital equipment, including $267,750,000 for weapons activities, $10,000,000 for inertial confinement fusion, $123,440,000 for materials production, and $29,000,000 for naval reactors development.

Chroma laser upgrade

The conferees note that one of the participants in the Inertial Confinement Fusion program has submitted a $4.6 million proposal to upgrade a chroma laser to support the lead laboratory glass laser program.

Because the conferees could not agree on the technical merits of this proposal, the conferees request that the Technical Review Group on Inertial Confinement Fusion, appointed pursuant to section 1633 of the Department of Defense Authorization Act of 1985, review the chroma laser upgrade proposal and provide their findings to the Department of Energy by January, 1986. If this review concludes that the chroma laser upgrade is cost effective, then the conferees recommend that the Secretary of Energy fund the proposal.

PART B—RECURRING GENERAL PROVISIONS

LEGISLATIVE PROVISIONS ADOPTED

Reprogramming (sec. 1521)

The Senate bill contained a provision (sec. 3121) that would permit the Secretary of Energy to reprogram funds authorized with notification of the appropriate committees of Congress. The House amendment contained a provision (sec. 921) that would permit such reprogramming after the appropriate committees of Congress had expressed no objection.

The Senate recedes.

Limits on general plant projects (sec. 1522)

Section 3122 of the Senate bill and section 922 of the House amendment would establish limits on general plant projects.

The House recedes to the Senate limit of $1.2 million for projects authorized under this title.

Limits on construction projects (sec. 1523)

The Senate bill contained a provision (sec. 3123) that would prohibit the start of a construction project under certain conditions unless the Secretary of Energy submits a detailed report to the appropriate committees of Congress. The House amendment contained a nearly identical provision (sec. 923) that would allow construction to begin as long as the appropriate committees of Congress have posed no objection.

The Senate recedes.

Authority for construction design (sec. 1525)

Section 925 of the House amendment would set limits for advanced planning and engineering design for construction projects. The Senate bill contained no similar provision. The Senate recedes.

Availability of funds (sec. 1527)

The provisions in the Senate bill (sec. 3127) and the House amendment (sec. 929) contained minor drafting differences. The House recedes.

Adjustment for pay increases (sec. 1528)

The House amendment contained a provision (sec. 928) that would authorize increased appropriations for program direction, if necessary, for increases in federal employee salaries and benefits. The Senate bill contained no similar provision. The Senate recedes.

PART C—PROGRAM REVISIONS AND MISCELLANEOUS PROVISIONS

LEGISLATIVE PROVISIONS ADOPTED

General reduction (sec. 1531)

Section 931 of the House amendment would reduce authorizations by $32.28 million of which $10.0 million would be derived from reductions in procurement of automatic data processing equipment, $14.0 million for identified management savings and $8.2 million from a proposed rescission of prior year funds. The Senate bill contained no similar provision. The Senate recedes.

Community assistance payments (sec. 1532)

Section 932 of the House amendment would authorize the Secretary of Energy to obligate $4,133 million for a final lump sum financial settlement of future payments under the Atomic Energy Community Act with respect to the Oak Ridge, Tennessee communities. It would further require a report to Congress on future payments to other communities and would require an executed contract from the Oak Ridge communities. The Senate bill contained no similar provision. The Senate recedes.

Improvements to DOE building at Oak Ridge, Tennessee (sec. 1533)

The House amendment contained a provision (sec. 933) that would authorize obligations of not more than $5 million from funds otherwise available to DOE to renovate an existing DOE building at Oak Ridge, Tennessee if the Secretary of Energy determines that renovation is required for research projects to support the Strategic Defense Initiative. This provision contains no new authorization. The Senate bill contained no similar provision. The Senate recedes.

Prohibition of use of funds for certain purposes (sec. 1534)

The House amendment contained a provision (sec. 934) that would prohibit the use of funds appropriated pursuant to this act for eight purposes, including influencing Congress, entertainment and gifts.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment conforming this provision to the language in section 911 relating to Department of Defense contracts. Although the Secretary of Energy is directed to promulgate regulations and is authorized to establish appropriate definitions, exclusions, limitations and qualifications to the list of items for which costs may not be submitted on Department of Energy contracts for defense-related programs, the conferees direct that to the maximum extent practicable such regulations be consistent with those promulgated by the Secretary of Defense. The conferees recognize that there may be instances where, because of the nature of the Department of Energy's contractual relations with laboratories others, regulations implementing this section may be different from those established by the Department of Defense. In the event the Secretary of Energy proposes to establish different criteria than that proposed by the Secretary of Defense, the Secretary of Energy shall provide a report to the Committees on Armed Services of the Senate and the House of Representatives explaining the need for the difference in the treatment of such costs.

Technical amendments (sec. 1535)

Section 935 of the House amendment would correct an erroneous reference contained in the fiscal year 1985 authorization act pertaining to DOD defense programs. The Senate bill contained no similar provisions. The Senate recedes.

TITLE XVI—OTHER GENERAL PROVISIONS

PART A—CIVIL DEFENSE

LEGISLATIVE PROVISIONS ADOPTED

The President's budget request included $119.125 million for civil defense. The Senate bill contained a provision (sec. 4101) that would authorize $119.125 million. The House amendment contained a provision

(sec. 701) that would authorize $141.425 million.

The conferees agreed to an authorization of $130.0 million.

The conferees are concerned about an apparent lack of focus and direction in the current civil defense program. This situation is manifested in the funding emphasis on state and local civil disaster programs, which while meritorious, is a questionable use of national defense budget resources; and in the uncertain policy implications of increased strategic defense emphasis on the civil defense program.

The conferees, therefore, direct the Administration to conduct, as a matter of priority, an extensive and thorough review of national civil defense objectives, policies, and programs. A report of the findings should be submitted to the committees on Armed Services of the Senate and House of Representatives by March 3, 1986 to provide a basis for decision on the civil defense program for fiscal year 1987 and beyond.

PART B—NATIONAL DEFENSE STOCKPILE

LEGISLATIVE PROVISIONS ADOPTED

Funding for National Defense Stockpile (sec. 1611)

The Senate bill contained a provision (sec. 802) that would provide that 30 percent of the net proceeds from the Naval Petroleum Reserves during fiscal year 1986 be deposited to the National Defense Stockpile Transaction Fund.

The House amendment contained a similar provision (sec. 1165(a)) for fiscal year 1986 and thereafter.

The House recedes

Prohibition of reductions of Stockpile Goals (sec. 1612)

The House amendment contained a provision (sec. 1165(c)) that would prohibit the President before October 1, 1986, from lowering the goals for strategic and critical materials in the stockpile below those in effect on October 1, 1984.

The Senate bill contained no similar provision.

The Senate recedes.

Study of loss of production capacity of critical ferroalloy products (sec. 1613)

The Senate bill contained a provision (sec. 924) that would provide for a study by the Department of Defense of the effect on the defense industrial base of the loss of all domestic ferroalloy productive capacity.

The House amendment contained no similar provision.

The House recedes.

LEGISLATIVE PROVISIONS NOT ADOPTED

Authorizing disposal of excess stockpile materials.

The Senate bill contained a provision (sec. 801) that would authorize disposal of specific quantities of 21 materials currently in excess of stockpile requirements.

The House amendment contained no similar provision.

The Senate recedes with the understanding that disposal authority contained in section 902 of Public Law 98-525, the Department of Defense Authorization Act for 1985, remains current and is adequate for fiscal year 1986. In the coming months, the Committees on Armed Services of the Senate and the House of Representatives will be reviewing the issues associated with the National Defense Stockpile including the adequacy of disposal authority and acquisition policy.

Raising the Transaction Fund ceiling on disposal authority

The House amendment contained a provision (sec. 1165(b)) that would increase the unobligated balance permitted in the National Defense Stockpile Transaction Fund to $250 million to provide for the orderly management of the fund. Section 903 of Public Law 98-525 provides that materials may not be sold if the unobligated balance exceeds $100 million after October 1, 1986.

The Senate bill contained no similar provision.

Consistent with the conference agreement on deposit of receipts, the Senate recedes with an amendment that would limit the unobligated balance to $100 million after October 1, 1987.

PART C—OTHER MATTERS

LEGISLATIVE PROVISIONS ADOPTED

Support for the Selective Service System (sec. 1621)

The House amendment contained a provision (sec. 1166) expressing the sense of the Congress that the President should recognize by proclamation the contribution of young men to the success of the peacetime registration program.

The Senate bill contained no similar provision.

The Senate recedes with technical amendments.

Selective service registration requirement (sec. 1622)

The Senate bill contained a provision (sec. 927) stating that anyone born since 1960 and required under law to have registered with the Selective Service System who has failed to so register should be ineligible for employment in any executive agency.

The House amendment contained no similar provision.

The House recedes with four amendments. The amendments state that non-registration must be knowing and willful, require that the burden of proof for judging whether non-registration is knowing and willful falls upon the job applicant, call for a report on the feasibility of extending the employment restriction to those born before 1960, and require a study of the relative costs and benefits of corroborating registration on a spot check or on an individual basis.

Authority to provide Coast Guard commandant residence-to-work transportation provided other service chiefs (sec. 1623)

The House amendment contained a provision (sec. 1162) that would authorize the provision of residence-to-work transportation provided other service chiefs to the Commandant of the Coast Guard.

The Senate bill contained no similar provision.

The Senate recedes.

Acceptance of certain volunteer services (sec. 1624)

The House amendment contained a provision (sec. 1163) that would authorize the Commandant of the Coast Guard to accept voluntary services in military museums and family support programs.

The Senate bill contained no similar provision.

The Senate recedes.

Authority to exempt certain physicians at the United States Soldiers' and Airmen's Home from reductions in retired pay (sec. 1625)

The Senate bill contained a provision (sec. 532) that would authorize the Governor of the United States Soldiers' and Airmen's Home to grant two exceptions from the dual compensation provisions of section 5532 of title 5, United States Code, if necessary to recruit or retain well-qualified physicians for the home.

The House amendment contained no similar provision.

The House recedes.

Management of military records maintained by the National Archives and Records Administration (sec. 1626)

The Senate bill contained a provision (sec. 945) expressing the sense of Congress that the Archivist of the United States should appoint an advisory committee to study the management of military records by the National Archives and Records Administration and to make recommendations to the Archivist on ways to improve the management and maintenance of such records in order to enhance public access. In addition, the provision would require that the Archivist transmit to the Congress a report outlining 5-year, 10-year, and 20-year plans to improve military records management.

The House amendment contained no similar provision.

The House recedes with an amendment providing that the study will be conducted by the Archivist rather than by an advisory committee, and directing the Archivist to submit a single report to the Congress outlining a plan for improving military records management.

Robert C. Byrd honors scholarship program (sec. 1627)

The Senate bill contained a provision (sec. 949) that would rename the Federal Merit Scholarship Program the "Robert C. Byrd Honors Scholarship Program."

The House amendment contained no similar provision.

The House recedes.

National Guard stamp (sec. 1628)

The Senate bill contained a provision (sec. 929) expressing the sense of the Senate that the Postal Service issue a stamp in 1986 commemorating the 350th anniversary of the National Guard.

The House amendment contained no similar provision.

The House recedes.

LEGISLATIVE PROVISION NOT ADOPTED

Employment of local residents

The Senate bill contained a provision (sec. 941) that would require employment of local residents in high unemployment states not contiguous with any other state, or any contract awarded under chapter 137 of title 10 that is for construction or services to be performed in those states.

The House amendment contained no similar provision.

The Senate recedes.

From the Committee on Armed Services on all provisions:

LES ASPIN,
MELVIN PRICE,
WM. L. DICKINSON,

From the Committee on Armed Services on all provisions except sections 711, 713, 933 and 949 of the Senate bill and modifications committed to conference:

CHARLES E. BENNETT,
SAMUEL S. STRATTON,
BILL NICHOLS,
DAN DANIEL,
G.V. MONTGOMERY,
BEVERLY BYRON,
NICHOLAS MAVROULES,

EARL HUTTO,
G. WILLIAM WHITEHURST,
FLOYD SPENCE,
MARJORIE HOLT,
ELWOOD H. HILLIS,
ROBERT BADHAM,
BOB STUMP,
JIM COURTER,

As additional conferees, from the Permanent Select Committee on Intelligence, solely when differences regarding intelligence related activities are under consideration:

LEE H. HAMILTON,
LOUIS STOKES,
DICK CHENEY,

From the Committee on Education and Labor, solely for the consideration of sections, 711, 713, 910, 919, 933, 949, 2136 and 2137 of the Senate bill and section 1190 of the House amendment and modifications committed to conference:

AUGUSTUS F. HAWKINS,
WILLIAM D. FORD,
DALE E. KILDEE,
AUSTIN J. MURPHY,
W. L. CLAY,
PAT WILLIAMS,
JIM JEFFORDS,
BILL GOODLING,
THOMAS E. PETRI,
STEVE BARTLETT,

Managers on the Part of the House.

ALAN J. DIXON,
JOHN GLENN,

Managers on the part of the Senate.

AUTHORIZING THE SECRETARY OF DEFENSE TO PROVIDE FOR AN IMPROVED UNITED STATES/SOVIET DIRECT COMMUNICATION LINK FOR CRISIS CONTROL

Mr. PRICE. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the Senate joint resolution (S.J. Res. 108) authorizing the Secretary of Defense to provide to the Soviet Union, on a reimbursable basis, equipment and services necessary for an improved United States/Soviet Direct Communication Link for crisis control, and ask for its immediate consideration.

The Clerk read the title of the Senate joint resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Illinois?

Mr. HENRY. Mr. Speaker, reserving the right to object, I would like to give an opportunity to the gentleman to explain the nature of the Senate joint resolution.

Mr. PRICE. Mr. Speaker, will the gentleman yield?

Mr. HENRY. I yield to the gentleman from Illinois.

Mr. PRICE. Mr. Speaker, for several years now, the Congress has been in the forefront of efforts to devise measures to improve the containment and control of nuclear weapons, and to reduce the risk that conflict could ever arise as a result of accident or misunderstanding.

This upgrade, which was agreed by the United States and the Soviet Union in July 1984, will add a facsimile capability to the Direct Communications Link, or "Hotline." It will allow the United States and Soviet heads of government to exchange messages more rapidly than they can with the existing teletype and for the first time to send graphic materials over the Hotline. The increase in the speed of communication and ability to send pictures and maps could be especially critical in future crises.

We are particularly pleased that the Congress provided the impetus for this important addition to our national crisis prevention capability. In the 1983 Department of Defense Authorization Act, we directed the Secretary of Defense to conduct a full and complete study and evaluation of possible initiatives for improving the containment and control of the use of nuclear weapons, particularly during crisis. We specifically directed that the report address, among other measures, as improved Hotline for crisis control. This legislation results from that study.

The July 1984 agreement provides that the United States will sell to the Soviet Union at cost the equipment necessary to install and maintain the improved Hotline. This equipment will include, in addition to facsimile machines, microprocessor systems to ensure the privacy of communications so necessary to the delicate task of summit-level communications between the United States and the Soviet Union to avert misinterpretation or miscalculation in crisis or emergency.

The U.S. Government examined each component of the new Direct Communications Link system in the context of applicable transfer of technology regulations, and determined that its sale for this purpose was entirely consistent with current U.S. law and policy regarding trade with the U.S.S.R. There is a great deal of difference between selling the U.S.S.R. this equipment for specific purpose of improving our bilateral urgent communications network. The United States will continue to review the sales of other high technology on a case-by-case basis, consistent with our Cocom obligations and our existing strategic trade controls.

The Congress has an important opportunity now to show our continued support for United States-Soviet measures to reduce the risk of war by speedily enacting the attached proposed legislation authorizing the Secretary of Defense, as the executive agent for the Hotline, to provide to the U.S.S.R. the equipment and services required for the upgrade.

We hope you will agree that we have no greater responsibility than to prevent nuclear war from ever occurring. With prompt passage of this bill, we can take one step in that direction.

Mr. HENRY. Mr. Speaker, I thank the gentleman for his explanation, and I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Illinois?

There was no objection.

The Clerk read the Senate joint resolution, as follows:

S.J. RES. 108

Whereas section 1123(a) of the Department of Defense Authorization Act, 1983 (Public Law 97-252), directed the Secretary of Defense "to conduct a full and complete study and evaluation of possible initiatives for improving the containment and control of the use of nuclear weapons, particularly during crises";

Whereas the Congress directed that the same study should address several specific measures for building confidence between the United States and the Soviet Union, including an improved Direct Communications Link for crisis control;

Whereas the Secretary of Defense responded to that congressional mandate with a report entitled "Report to the Congress on Direct Communications Links and Other Measures to Enhance Stability" in which the Secretary proposed several improvements to existing United States-Soviet mechanisms for the prevention and resolution of crises, including the addition of a facsimile capability to the United States/Soviet Union Direct Communications Link;

Whereas the President of the United States presented the recommendations of the Secretary of Defense to the Government of the Soviet Union in May 1983;

Whereas the United States and the Soviet Union commenced negotiations on bilateral communications improvements in August 1983, and on July 17, 1984, concluded the exchange of Notes Between the United States of America and the Union of Soviet Socialist Republics Concerning the Direct Communications Link Upgrade in which the two governments agreed to add a facsimile capability to the Direct Communications Link;

Whereas the Congress endorses that agreement and remains committed to all possible measures to facilitate the resolution of international crises and to limit the danger of conflict;

Whereas the Secretary of Defense is responsible for the installation, maintenance, and operation of the Direct Communications Link equipment for the United States; and

Whereas the Exchange of Notes between the United States of America and the Union of Soviet Socialist Republics Concerning the Direct Communications Link Upgrade provides that the United States Government will provide to the Union of Soviet Socialist Republics, at cost, the equipment and serv-

ices necessary for the Soviet Union part of the improved Direct Communications Link: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the Secretary of Defense may provide to the Soviet Union, as provided in the exchange of Notes Between the United States of America and the Union of Soviet Socialist Republics Concerning the Direct Communications Link Upgrade, concluded on July 17, 1984, such equipment and services as may be necessary to upgrade or maintain the Soviet Union part of the Direct Communications Link agreed to in the Memorandum of Understanding between the United States and the Soviet Union signed June 20, 1963. The Secretary shall provide such equipment and services to the Soviet Union at the cost thereof to the United States.

SEC. 2. (a) The Secretary of Defense may use any funds available to the Department of Defense for the procurement of the equipment and providing the services referred to in the first section.

(b) Funds received from the Soviet Union as payment for such equipment and services shall be credited to the appropriate account of Department of Defense.

The Senate joint resolution was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

□ 1410

SENATOR JOHN C. STENNIS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Mississippi [Mr. MONTGOMERY] is recognized for 5 minutes.

● Mr. MONTGOMERY. Mr. Speaker, I want to share with my colleagues the news of a very special event which will take place in my congressional district on Saturday, August 3. Kemper County, MS, will honor its most famous resident on that day—Senator JOHN C. STENNIS.

It has been an honor for me to work with Senator STENNIS in Washington for the past two decades. He has served with dignity and distinction, and in the finest tradition of a southern gentleman. The strong and steady leadership he has provided has been an asset not only for the State of Mississippi, but the entire Nation.

Senator STENNIS is the dean of the other body, serving there for 38 years, the third longest tenure in American history. He has achieved stature as one of this country's greatest statesmen and has been a trusted adviser to Presidents from both political parties. But during that time, he has never forgotten his roots. He has always counted on the people back home for strength and advice.

There is no greater tribute, in my opinion, than to be honored by your hometown folks—the people who know you best. I can think of no one more deserving.

Mr. Speaker, I know my colleagues from both sides of the aisle join with me in sending our best wishes and admiration to Senator JOHN STENNIS on this very special day.●

EULOGY FOR ANNE MARY WATSON

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Illinois [Mr. ANNUNZIO] is recognized for 5 minutes.

● Mr. ANNUNZIO. Mr. Speaker, I rise to call to the attention of my colleagues a eulogy that was delivered in memory of Anne Mary Watson by Edward F. McElroy, director of special events for radio stations WJJD-WJEZ in Chicago.

Anne Watson was an outstanding citizen and a dedicated employee of the First National Bank of Chicago for 42 years. She had been senior account executive in the women's banking department prior to her retirement in 1983.

Ms. Watson passed away on July 7 and was buried on Wednesday, July 10, from St. Cletus Catholic Church in La Grange, IL. She is survived by her sister and a host of friends who greatly admired her and her many achievements.

The text of the eulogy delivered by Mr. McElroy follows:

ANNE MARY WATSON

The good Lord has spoken today, and He has said to one Anne Mary Watson, "Come little darling, come follow Me." Those are the words that those who surrounded this lovely woman heard for so many years as she gave so much of herself to these people that were seeking her dedicated devotion and the First National Bank of Chicago.

We find ourselves here today, which those of us of the Catholic faith recognize as the holy sacrifice of the Mass, but in Webster's dictationary there is another word called "mass." It is defined as relating to the mass of people. It also says "participating in or effecting a large number of individuals."

In all my years in radio, TV work, mc'ing and being toastmaster of thousands of affairs, I never knew a person who constantly contributed so much joy to so many people. The world of banking is considered a very serious business, and a big business, but when you went into the First National Bank of Chicago and you were within a hundred yards of one Anne M. Watson, you felt that you were in the "world of fun." I remember so well when she worked with our good friends, Walter Clow and Carl Kirstberg, and then she moved up to West Madison Street. I can see her today waving out to me, and hundreds of others as they passed by. Then, I didn't know if she got into trouble or not, but there I found her distributing luggage, and I found myself one of those recipients only because "Miss Joy" of the First National Bank had set up shop.

The women of Chicago and Cook County got the break of their lives when "tender Anne" became the senior account executive in the women's banking department. At first, I could not visualize how these women, most of them being at the age of seventy or over, would take to this new executive in a place that would be quieter than where we are today, but maybe it was something that had to be, for these "ladies of money" to have a bombshell of fun and laughter in their wealthy lives. Yes, it happened; our Anne took the place by storm.

I can remember many times, when I stopped by the bank just to have an audience with this loved one of ours.

I also remember going to that wild Christmas party that women's banking held last year. I walked 6 blocks in the rain because I knew our Anne would be there, and I had not seen her since she retired. I knew she had been sick, but, at no time, did this "lady of fun and laughter" ever tell me of her physical problems. How grateful I am today that I saw her, and will always remember her as a real "stand-up act" for everyone around that could reap the joy of life.

Will you ever forget that luncheon that was held in her honor upon her 42 years of dedicated and loyal service to the First National Bank of Chicago. Never before, and never again, will such a luncheon ever be held for anyone who has contributed so much service to people, who at times seemed so lost. But, once they got into the hands of this "lovely lady," they entered the world of ease and comfort.

Yes, Dear Anne, we no longer will see you, the one we loved and respected so much, but it would be completely impossible to ever forget you. I think you have been what many of us might have envied to be; a person created by God to serve and give your life to so many people in this world of ours.

In closing, as they say in the holy sacrifice of the Mass, Pax. Also, may I say, and I hope it is appropriate here and I mean no wrong, as Anne would say, "Hi honey! I'll see you later."●

CONFERENCE REPORT ON H.R. 2577

Mr. WHITTEN submitted the following conference report and statement on the bill (H.R. 2577) making supplemental appropriations for the fiscal year ending September 30, 1985, and for other purposes:

CONFERENCE REPORT (H. REPT. No. 99-236)

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 2577) making supplemental appropriations for the fiscal year ending September 30, 1985, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its amendments numbered 1, 12, 13, 20, 22, 24, 27, 28, 31, 33, 38, 39, 42, 46, 47, 48, 52, 54, 64, 67, 68, 69, 74, 81, 82, 83, 89, 90, 94, 95, 97, 98, 99, 100, 103, 107, 108, 115, 116, 118, 119, 120, 122, 123, 124, 125, 126, 127, 137, 138, 139, 140, 141, 142, 144, 146, 152, 154, 162, 175, 177, 181, 186, 187, 188, 189, 190, 192, 195, 196, 197, 205, 207, 212, 213, 225, 226, 228, 229, 233, 242, 245, 251, 254, 265, 275, 276, 277, 278, 279, 280, 281, 283, 284, 285, 291, 293, 294, 295, 323, 325, 327, 328, 329, 332, 335, 338, and 339.

That the House recede from its disagreement to the amendments of the Senate numbered 26, 30, 44, 49, 53, 55, 59, 85, 101, 104, 105, 114, 117, 151, 158, 165, 169, 171, 172, 174, 176, 191, 206, 208, 209, 215, 220, 221, 231, 232, 237, 239, 250, 252, 255, 259, 269, 270, 282, 287, 292, 296, 297, 298, 301, 302, 303, 308, 309, 311, 312, 313, 314, 315, 316, 317, 318, 320, 322, 326, 333, 336, and 337, and agree to the same.

Amendment numbered 18:

That the House recede from its disagreement to the amendment of the Senate numbered 18, and agree to the same with an amendment, as follows:

In lieu of the matter proposed by said amendment insert:

AGRICULTURAL MARKETING SERVICE

MARKETING SERVICES

And the Senate agree to the same.

Amendment numbered 19:

That the House recede from its disagreement to the amendment of the Senate numbered 19, and agree to the same with an amendment, as follows:

In lieu of the sum named in said amendment insert: *$700,000*; and the Senate agree to the same.

Amendment numbered 25:

That the House recede from its disagreement to the amendment of the Senate numbered 25, and agree to the same with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment, insert: *$17,000,000*; and the Senate agree to the same.

Amendment numbered 34:

That the House recede from its disagreement to the amendment of the Senate numbered 34, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert: *$7,000,000*; and the Senate agree to the same.

Amendment numbered 66:

That the House recede from its disagreement to the amendment of the Senate numbered 66, and agree to the same with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment insert: *September 30, 1987*; and the Senate agree to the same.

Amendment numbered 72:

That the House recede from its disagreement to the amendment of the Senate numbered 72, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert: *$12,781,000*; and the Senate agree to the same.

Amendment numbered 76:

That the House recede from its disagreement to the amendment of the Senate numbered 76, and agree to the same with an amendment, as follows:

Restore the matter stricken by said amendment amended as follows:

In lieu of the sum named in said amendment insert: *$1,000,000*; and the Senate agree to the same.

Amendment numbered 79:

That the House recede from its disagreement to the amendment of the Senate numbered 79, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert: *$4,134,000*; and the Senate agree to the same.

Amendment numbered 88:

That the House recede from its disagreement to the amendment of the Senate numbered 88, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert: *$2,879,000*; and Senate agree to the same.

Amendment numbered 161:

That the House recede from its disagreement to the amendment of the Senate numbered 161, and agree to the same with an amendment, as follows:

Restore the matter stricken by said amendment, amended as follows:

In lieu of the sum named in said amendment insert: *$4,000,000*; and Senate agree to the same.

Amendment numbered 163:

That the House recede from its disagreement to the amendment of the Senate numbered 163, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert: *$20,000,000*; and Senate agree to the same.

Amendment numbered 218:

That the House recede from its disagreement to the amendment of the Senate numbered 218, and agree to the same with an amendment, as follows:

Restore the matter stricken by said amendment, amended as follows:

In lieu of the sum named by said amendment insert: *$20,000,000*; and Senate agree to the same.

Amendment numbered 238:

That the House recede from its disagreement to the amendment of the Senate numbered 238, and agree to the same with an amendment, as follows:

In lieu of the matter inserted by said amendment, insert the following:

For an additional amount for "Rehabilitation services and handicapped research", for activities under 130 of the Rehabilitation Act of 1973, $715,000.

And the Senate agree to the same.

Amendment numbered 240:

That the House recede from its disagreement to the amendment of the Senate numbered 240, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment, insert the following:

For an additional amount to carry out the Carl D. Perkins Vocational Education Act, $100,000,000 for basic grants under title II.

And the Senate agree to the same.

Amendment numbered 266:

That the House recede from its disagreement to the amendment of the Senate numbered 266, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment, insert: *$650,000*; and the Senate agree to the same.

Amendment numbered 267:

That the House recede from its disagreement to the amendment of the Senate numbered 267, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment, insert: *$2,100,000;* and the Senate agree to the same.

Amendment numbered 305:

That the House recede from its disagreement to the amendment of the Senate numbered 305, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert: *$254,825,000*; and the Senate agree to the same.

Amendment numbered 306:

That the House recede from its disagreement to the amendment of the Senate numbered 306, and agree to the same with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment insert: *$112,854,000*; and the Senate agree to the same.

Amendment numbered 324:

That the House recede from its disagreement to the amendment of the Seante numbered 324, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert: *$7,000,000*; and the Senate agree to the same.

The committee of conference report in disagreement amendments numbered 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 21, 23, 29, 32, 35, 36, 37, 40, 41, 43, 45, 50, 51, 56, 57, 58, 60, 61, 62, 63, 65, 70, 71, 73, 75, 77, 78, 80, 84, 86, 87, 91, 92, 93, 96, 102, 106, 109, 110, 111, 112, 113, 121, 128, 129, 130, 131, 132, 133, 134, 135, 136, 143, 145, 147, 148, 149, 150, 153, 155, 156, 157, 159, 160, 164, 166, 167, 168, 170, 173, 178, 179, 180, 182, 183, 184, 185, 193, 194, 198, 199, 200, 201, 202, 203, 204, 210, 211, 214, 216, 217, 219, 222, 223, 224, 227, 230, 234, 235, 236, 241, 243, 244, 246, 247, 248, 249, 253, 256, 257, 258, 260, 261, 262, 263, 264, 268, 271, 272, 273, 274, 286, 288, 289, 290, 299, 300, 304, 307, 310, 319, 321, 330, 331, 334, 340, and 341.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 2577) making supplemental appropriations for the fiscal year ending September 30, 1985, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report:

TITLE I

CHAPTER I

DEPARTMENT OF AGRICULTURE

OFFICE OF THE SECRETARY

Amendment No. 1: Deletes Senate language which provided a rescission of $69,000 for the Office of the Secretary.

DEPARTMENTAL ADMINISTRATION

(RESCISSION)

Amendment No. 2: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert the following:

DEPARTMENTAL ADMINISTRATION

(RESCISSION)

Of available funds under this head, for budget and program analysis, $7,000; for personnel, finance and management, operations, information resources management, equal opportunity, small and disadvantaged business utilization, and administrative law judges and judicial officer, $42,000; making a total of $49,000, are rescinded pursuant to section 2901 of the Deficit Reduction Act of 1984.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement rescinds $49,000 for Departmental Administration instead of $149,000 as proposed by the Senate.

AGRICULTURAL RESEARCH SERVICE

(RESCISSION)

Amendment No. 3: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which provides a rescission of $1,000,000 for the Agricultural Research Service.

COOPERATIVE STATE RESEARCH SERVICE

Amendment No. 4: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate regarding the relocation of the Fort Stanton Experiment Station in order to make room for a new Ruidoso airport.

Amendment No. 5: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert the following:

For an additional amount for graduate fellowship grants under section 1417 of Public Law 95-113, as amended (7 U.S.C. 3152), $2,000,000, to remain available until expended.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement adopts the Senate language but provides that the appropriation remains available until expended.

Amendment No. 6: Reported in technical disagreement., The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert the following:

For an additional amount for a grant to Mississippi State University to conduct a program for and to promote research excellence in the area of warmwater aquaculture, including such lands, buildings, and equipment as may be necessary to carry out the program, $3,500,000, including $700,000 made available by Public Law 98-473 which shall be transferred to and merged with this appropriation, to remain available until expended, and to be matched by an equal non-Federal share.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement adopts the Senate language but adds the proviso that the $3,500,000 shall include the $700,000 appropriated for this project under Public Law 98-473 and be matched by a like amount from non-Federal sources.

Amendment No. 7: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert the following:

For an additional amount for a grant to the University of Kansas for the evaluation and transfer of remote sensing applications to agricultural users, $200,000.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement appropriates $200,000 to the University of Kansas for a grant for the evaluation and transfer of remote sensing applications to agricultural users as proposed by the Senate but deletes the U.S. Code citation. This program will further strengthen the work now underway at USDA in remote sensing applications and will be done in cooperation with the State agricultural experiment station.

ANIMAL AND PLANT HEALTH INSPECTION SERVICE

(INCLUDING RESCISSION)

Amendment No. 8: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which adds the subheading "(Including Rescission)".

Amendment No. 9: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which provides an appropriation of not to exceed $19,000,000, including the restoration of funds borrowed from various APHIS accounts by the Secretary, to conduct a grasshopper control program. The conferees have been advised that the Administration has no objection to the restoration of funds needed to fulfill the Department's commitment.

Amendment No. 10: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which provides a rescission of $400,000 for the Animal and Plant Health Inspection Service.

ECONOMIC RESEARCH SERVICE

(INCLUDING RESCISSION)

Amendment No. 11: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which adds the subheading "(Including Rescission)".

Amendment No. 12: Deletes Senate language which specified that funding for a study to be done by the Economic Research Service shall be from within available funds.

Amendment No. 13: Deletes Senate language which directed the Secretary to conduct a study on marketing initiatives.

Amendment No. 14: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which an amendment as follows:

In lieu of the matter stricken and inserted by said amendment, insert the following: *"$500,000, to remain available until expended".*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement appropriates $500,000 as proposed by the House instead of "at a cost not to exceed $500,000" as proposed by the Senate, and provides that the funds will remain available until expended.

The net effect of the conference agreement on amendments 12-14 is to provide $500,000 for a study on the impact of embargoes as proposed by the House, to remain available until expended. The Senate language proposed that two studies be done out of available funds at a cost not to exceed $500,000.

Amendment No. 15: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which provides a rescission of $50,000 for the Economic Research Service.

STATISTICAL REPORTING SERVICE

(INCLUDING RESCISSION)

Amendment No. 16: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which adds the subheading "(Including Rescission)".

Amendment No. 17: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which provides a rescission of $100,000 for the Statistical Reporting Service.

AGRICULTURAL MARKETING SERVICE

MARKETING SERVICES

Amendment No. 18: Inserts a paragraph heading for the Agricultural Marketing Service, Marketing Services as proposed by the Senate, but deletes Senate subheading "(Including Rescission)". The House bill did not include this account.

Amendment No. 19: Appropriates $700,000 for the egg products inspection program instead of $850,000 as proposed by the Senate. The House bill contained no similar provision.

Amendment No. 20: Deletes Senate language which provided a rescission of $150,000 for the Agricultural Marketing Service.

PACKERS AND STOCKYARDS ADMINISTRATION

(RESCISSION)

Amendment No. 21: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which provides a rescission of $85,000 for the Packers and Stockyards Administration.

AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE

Amendment No. 22: Restores House language which provides that effective May 1, 1985, the Agricultural Stabilization and Conservation Service may not close any State or county office. The conferees agree that the House language shall not prevent

the Department of Agriculture from conducting a study on improvements in program management, program delivery, and common support activities, which shall be reported to the Congress.

COMMODITY CREDIT CORPORATION

REIMBURSEMENT FOR NET REALIZED LOSSES

Amendment No. 23: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert the following:

None of the funds provided for fiscal year 1985 in this or any other Act shall be available to restrict the authority of the Commodity Credit Corporation to lease space for its own use or to lease space on behalf of other agencies of the Department of Agriculture when such space will be jointly occupied.

Notwithstanding any other provision of this Act, the amount appropriated by this Act for the Commodity Credit Corporation, reimbursement for net realized losses, shall be $2,935,790,000.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement adopts the Senate language which provides that the authority of the Commodity Credit Corporation to lease space shall not be restricted and reduces the reimbursement for net realized losses for CCC by $1,000,000,000 to reflect enactment of the Urgent Supplemental (Public Law 99-71) approved July 24, 1985.

OFFICE OF RURAL DEVELOPMENT POLICY

Amendment No. 24: Restore House language which provides that $209,000 of the funds appropriated to the Office of Rural Development Policy shall remain available until September 30, 1986.

FARMERS HOME ADMINISTRATION

SALARIES AND EXPENSES

Amendment No. 25: Appropriates $17,000,000 for salaries and expenses of the Farmers Home Administration as proposed by the House instead of $16,866,000 as proposed by the Senate.

The conference agreement also deletes House language which required the Farmers Home Administration to determine on a case-by-case basis which borrowers were unable to continue making payments of principal and interest due to circumstances beyond their control and, once qualified, the Secretary was required to suspend payment of principal and interest and forego foreclosure. The conferees delete this language in view of 7 U.S.C. 1981a, which gives the authority to the Secretary to defer payment of principal and interest and forego foreclosure where appropriate. The conferees will expect the Secretary to utilize this authority.

LOAN PROGRAMS

Amendment No. 26: Adds "upon request of the borrowers," as proposed by the Senate to the House language which requires the Farmers Home Administration to set loan interest rates at the lower of the rate in effort at either the time of loan approval or loan closing.

RURAL ELECTRIFICATION ADMINISTRATION

Amendment No. 27: Deletes Senate language which provided a rescission of $100,000 for the Rural Electrification Administration.

SOIL CONSERVATION SERVICE

Amendment No. 28: Deletes Senate language which provided a rescission of $2,000,00 for the Soil Conservation Service.

FOOD AND NUTRITION SERVICE

CHILD NUTRITION PROGRAMS

Amendment No. 29: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert the following:

CHILD NUTRITION PROGRAMS

Upon request to the Secretary of Agriculture, any school district receiving all cash or all letters of credit in lieu of commodities under the school lunch program on January 1, 1985, shall continue to receive all cash in lieu of commodities or all letters of credit in lieu of commodities through December 31, 1985. Such school districts shall receive bonus commodities in the same manner as such commodities are made available to any other school district participating in the school lunch program.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement provides that, upon request to the Secretary of Agriculture, any school district receiving all cash or all letters of credit in lieu of commodities under the school lunch program on January 1, 1985, shall continue to do so through December 31, 1985, and that such school districts shall receive bonus commodities in the same manner as any other school district. The conference agreement extends the arrangement for cash or letters of credit in lieu of commodities until December 31, 1985. This action will allow the legislative committees of Congress time to work their will, now that the cash/letter of credit ("CLOC") study has been completed.

FEEDING PROGRAM FOR WOMEN, INFANTS AND CHILDREN [WIC]

Amendment No. 30: Deletes House language regarding the availability of 1985 funds for the WIC program. An official budget request for the remainder of the funds was transmitted from the President to the Congress on June 7, 1985, making the House language unnecessary.

FOOD STAMP PROGRAM

Amendment No. 31: Deletes Senate language which proposed the subheading "(Including Rescission)".

Amendment No. 32: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which allows publicly operated community health centers to redeem food stamps for their residents who would otherwise be eligible for food stamps were they not living in those centers.

Amendment No. 33: Deletes Senate language which proposed a rescission of $5,000,000. The conferees are aware that the cost of printing food stamps will be somewhat less than originally estimated; however, these funds will be needed for other program costs.

TEMPORARY EMERGENCY FOOD ASSISTANCE PROGRAM

Amendment No. 34: Appropriates $7,000,000 instead of $4,270,000 as proposed by the House and $10,000,000 as proposed by the Senate, for the temporary emergency food assistance program.

Amendment No. 35: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert the following:

to remain available through March 31, 1986: Provided, That the Secretary of Agriculture shall review the reported condition of the "street people" and other disadvantaged people in cities and counties throughout the Nation, including those reported in Tunica County, Mississippi, and report to the House and Senate Committees on Appropriations his recommendations for correcting or improving the situation which exists

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The net effect of the conference agreement for amendments 34 and 35 is to provide $7,000,000 to be available through March 31, 1986 for the Temporary Emergency Food Assistance Program. In addition, the conference agreement also requires the Secretary of Agriculture to report to the House and Senate Committees on Appropriations regarding actions to correct and improve the situation of the "street people" and other disadvantaged people in various cities and counties throughout the Nation, including Tunica County, Mississippi.

NATIONAL COMMODITY PROCESSING PROGRAM

Amendment No. 36: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which extends the national commodity processing program through June 30, 1986.

FOREIGN AGRICULTURAL SERVICE

(RESCISSION)

Amendment No. 37: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which provides a rescission of $100,000 for the Foreign Agricultural Service.

CHAPTER II

DEPARTMENT OF COMMERCE

GENERAL ADMINISTRATION

Amendment No. 38: Appropriates $992,000 as proposed by the House instead of $369,000 as proposed by the Senate. The Conferees agree that the funds provided are for the conversion of the Department's payroll and personnel systems to a standardized computer-based system.

BUREAU OF THE CENSUS

PERIODIC CENSUSES AND PROGRAMS

Amendment No. 39: Deletes a rescission of $791,000 that was proposed by the Senate.

ECONOMIC DEVELOPMENT ADMINISTRATION

ECONOMIC DEVELOPMENT ASSISTANCE PROGRAMS

Amendment No. 40: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate that appropriates $30,730,000 for projects in New Hampshire, South Carolina and Oregon.

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

OPERATIONS, RESEARCH, AND FACILITIES

Amendment No. 41: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following:

OPERATIONS, RESEARCH, AND FACILITIES

For an additional amount for "Operations, research, and facilities", $126,100,000, to remain available until expended.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement includes $125,000,000 for the fiscal year 1985 and fiscal year 1986 expenses associated with the commercialization of the LANDSAT system; $500,000 for the refurbishment of the manned undersea research laboratory AEGIR; and $600,000 for NOAA's share of research in support of the United States/Canada Pacific Salmon Treaty. The conferees have not approved funding of a study of State and Federally funded salmon hatcheries in the States of Washington, Oregon, and Idaho.

Amendment No. 42: Deletes language proposed by the Senate regarding the availability of funds for commercialization of the LANDSAT system. The conferees have been informed by the National Oceanic and Atmospheric Administration and the National Aeronautics and Space Administration that NOAA's total launch and conversion costs for two satellites will not exceed $44,900,000 in 1985 dollars. On that basis, the conferees have not included language in the bill proposed by the Senate concerning this matter.

FISHERMEN'S GUARANTY FUND

Amendment No. 43: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which appropriates $2,500,000 to compensate U.S. commercial fishing vessel owners who have entered into guaranty agreements for certain losses and costs caused by the seizure and detention of their vessels by foreign countries claiming oceanic rights not recognized by the United States.

FISHERIES LOAN FUND

Amendment No. 44: Deletes House language, as proposed by the Senate, that would have rescinded $1,550,000 for loan-making purposes.

NATIONAL BUREAU OF STANDARDS

SCIENTIFIC AND TECHNICAL RESEARCH AND SERVICES

Amendment No. 45: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert the following:

NATIONAL BUREAU OF STANDARDS

SCIENTIFIC AND TECHNICAL RESEARCH AND SERVICES

(RESCISSION)

Of available funds under this head, $500,000 are rescinded pursuant to section 2901 of the Deficit Reduction Act of 1984.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees intend that none of the funds appropriated for fiscal year 1985 shall be used toward the planning or construction of a Cold Neutron Research Hall.

GENERAL PROVISION

Amendment No. 46: Deletes a general provision inserted by the Senate concerning forgiveness of Economic Development Administration repayment requirements for the Fairley Group Building located in the Pike Place Market, King County, Washington.

The conferees are sympathetic to the current situation in King County, Washington with regard to this matter. The Congress is currently considering legislative options for the revision and continuation of the Economic Development Administration. The conferees expect EDA and the Department of Commerce to delay the pay back provision related to the sale of the Fairley Group Building until May 15, 1986 so that special hearings might be held and a legislative solution might be devised to address this situation.

RELATED AGENCIES

DEPARTMENT OF TRANSPORTATION

MARITIME ADMINISTRATION

OPERATIONS AND TRAINING

Amemdment No. 47: Restores a hearing proposed by the House and Stricken by the Senate, and deletes a heading inserted by the State.

Amendment No. 48: Deletes language proposed by the Senate that would have rescinded $888,000 of fiscal year 1985 appropriations.

The conferees intend that the use of the $888,000 proposed by the Administration for rescission in 1985 pursuant to the Deficit Reduction Act of 1984 be used to make the *Santa Mercedes* ready for use as an appropriate replacement training vessel for the Massachusetts Maritime Academy. The additional amount will enable the Academy to realize some essential and important elements of maritime education and to improve training capacity aboard the vessel. The conferees understand that the ship is now without a single classroom and navigation laboratory and that some areas of the ship, such as the number four Hold cannot be utilized at all, since they do not meet U.S. Coast Guard requirements. The conferees are also aware that although the vessel is Federally-owned, the Academy has committed some of its own resources and has acquired by gift and purchase, a variety of equipment for educational and training purposes which cannot be installed due to the inability to use the number four Hold. The additional funds provided through this action will enable the Maritime Administration to provide access to and bring the number four Hold up to Coast Guard requirements so that it may be utilized to provide subminimal classroom space and a multi-use navigational laboratory, and to provide a crane for the foredeck Hold, which is presently unusable.

The conferees are agreed that the funds appropriated in the 1984 Supplemental Appropriations Act (Public Law 98-396) for the acquisition and preconversion costs of a training vessel for the State University of New York should be obligated as soon as possible in accordance with the statutory language contained in that Act.

GENERAL PROVISION

Amendment No. 49: Deletes a general provision proposed by the House prohibiting the funds in this or any other Act from being used for the enforcement of any rule with respect to the repayment of construction differential subsidy for the permanent release of vessels from the restrictions in section 506 of the Merchant Marine Act.

The conferees are aware that the Congress is currently considering a legislative solution that will deal with this matter. In addition, there is a court case pending regarding the legal aspects of the rule promulgated by the Department of Transportation on this issue. The conferees encourage the Secretary of Transportation and the Maritime Administration to delay enforcement of this rule for the balance of this fiscal year or until the pending U.S. District Court decision has been rendered and there is an opportunity in September to adopt the pending legislative solution, whichever is sooner. The conferees express no opinion with respect to the merits of the law suit.

FEDERAL COMMUNICATIONS COMMISSION

SALARIES AND EXPENSES

Amendment No. 50: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which authorizes the Federal Communications Commission to utilize not to exceed $5,000,000 out of appropriations for fiscal years 1986 and 1987 to relocate its Fort Lauderdale, Florida monitoring station within the State of Florida, subject to certain conditions and considerations.

INTERNATIONAL TELECOMMUNICATIONS SATELLITE SERVICE

The House and Senate reports were not in agreement regarding the issue of international telecommunications satellite service. Since both bodies acted, but prior to the completion of the Conference, the FCC acted on the pending applications. (Three Commissioners voted in favor, and two withheld their vote.) Some Members of Congress are disturbed by this. The Conferees strongly believe that the following agreed-upon language provides essential guidance to the Commission and the Executive Branch. It should be followed.

Regarding the provision of international telecommunications satellite service, the Conferees strongly believe that the Executive Branch or the FCC, in any action, shall endeavor to avoid significant economic harm to Intelsat.

In addition, with regard to this issue, the Conferees agree on the following:

1. Presidential Determination No. 85-2 properly balances the U.S. commitment to Intelsat with our commitment to develop a competitive international telecommunications marketplace. In addition, the Executive Branch and the FCC shall fully implement and enforce the criteria in that Presidential Determination. Moreover, the FCC shall not award construction permits without adopting appropriate measures and guidelines to enforce the Presidential Determination.

2. The FCC, in considering applications for alternative international satellite systems, shall be neutral and shall not show a predilection or bias to any application.

3. The U.S. should support the continued provision of telephone service by Intelsat to developing countries at affordable rates.

4. The U.S. should support Intelsat's ability to compete fully and fairly in all new international telecommunications services, including supporting Intelsat's ability to price competitively and fairly on services not provided before August 1, 1985.

More specifically, if the President has not found the modification to Article 5(d) of the Intelsat Agreement to be not in the national interest, the U.S. shall support such modification so that Intelsat may price competitively and fairly, provided that Intelsat has adopted measures to ensure prices are cost-based and not predatory, including the re-

lease of information on revenues, costs, and allocation of such costs.

5. In the event the Secretary of State decides to proceed after an unfavorable consultation pursuant to the Intelsat Agreement or in the event the President decides to alter the Presidential Determination, a tentative decision along with the rationale for such decision shall be sent to the Congress and a final decision shall not be made until the Congress has had 45 calendar days to review the tentative decision and the accompanying rationale.

SMALL BUSINESS ADMINISTRATION

SALARIES AND EXPENSES

Amendment No. 51: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the Senate amendment with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following ".".

(TRANSFER OF FUNDS)

For an additional amount for "Salaries and Expenses," $2,400,000 for disaster loan making and servicing activities to be derived by transfer from the "Disaster Loan Fund"

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

These funds are provided for additional disaster loan making and loan servicing requirements of the Small Business Administration.

BUSINESS LOAN AND INVESTMENT FUND

Amendment No. 52: Appropriates $27,601,000 for additional capital for the Business Loan and Investment Fund as proposed by the House and stricken by the Senate.

DEPARTMENT OF JUSTICE

GENERAL ADMINISTRATION

WORKING CAPITAL FUND

Amendment No. 53: Deletes language proposed by the House and stricken by the Senate that would have rescinded all funds made available for the Working Capital Fund in Public Law 98-411.

UNITED STATES PAROLE COMMISSION

Amendment No. 54: Appropriates $100,000 as proposed by the House and stricken by the Senate.

LEGAL ACTIVITIES

Salaries and Expenses, General Legal Activities

Amendment No. 55: Appropriates $574,000 as proposed by the Senate instead of $874,000 as proposed by the House.

The conferees are agreed that the report requested of the Department of Justice in S. Doc. 99-82 on computer reservation systems owned by commercial airlines should be submitted to the House and Senate Committees on Appropriations, the Senate Committee on Commerce, Science and Transportation, and the House Committee on Public Works and Transportation.

Salaries and Expenses, United States Attorneys and Marshals

Amendment No. 56: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the Senate amendment which inserts the words "Transfer of Funds and" in a center heading.

Amendment No. 57: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following:

For an additional amount for "Salaries and Expenses, United States Attorneys and Marshals", $12,103,000, and in addition $3,000,000 to be derived by transfer from the "Working Capital Fund", both amounts to remain available until September 30, 1986.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees are agreed that of the total amount provided, not to exceed $1,674,000 shall be available for fiscal year 1985 for 280 positions for the United States Attorneys for increased workload related to the enactment of the Comprehensive Crime Control Act of 1984 and the Bankruptcy Amendments and Federal Judgeship Act 1984. These positions shall be used as follows:

Comprehensive Crime Control Act—36 attorneys and 126 support (92 paralegals for fine collections and 34 clericals).

Judgeship Act—59 attorneys and 59 support (49 clerical and 10 administrative).

The conferees note that the Department of Justice has only recently begun to implement the many provisions of the Comprehensive Crime Control of 1984, which was enacted in the Fiscal Year 1985 Continuing Resolution. The conferees also note that many of the new judgeships established by the Bankruptcy Amendments and Federal Judgeship Act of 1984 have not yet been filled and that the anticipated increase in workload of the United States Attorneys as a result of this legislation has not yet fully materialized. Therefore, the conferees are agreed that the House and Senate Committees on Appropriations should further review these matters before making final decisions on funding levels for the United States Attorneys for fiscal year 1986 to ensure that the resources provided to carry out this new legislation are fully justified.

The conferees are agreed that not to exceed $902,000 shall be available for fiscal year 1985 for 152 positions for the United States Attorneys to enhance Federal drug law enforcement. These positions shall be used as follows:

Drug initiative—70 attorneys and 82 support (62 clerical and 20 paralegals)

The conferees are agreed that any funds provided in this amendment, not obligated during fiscal year 1985 shall carryover and be available for obligation during fiscal year 1986 to "annualize" the cost of the additional positions provided.

Fees and Expenses of Witnesses

Amendment No. 58: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the Senate amendment which inserts the words "and Rescission" in a center heading.

Amendment No. 59: Appropriates $800,000 as proposed by the Senate instead of $1,300,000 as proposed by the House.

Amendment No. 60: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the Senate amendment which adds language authorizing a payment of not to exceed $25,000 to the estate of victims killed as a result of crimes committed by persons who were in the Federal witness protection program if such crimes were committed within two years after protection was terminated, notwithstanding any limitations contained in part (a), Section 3525, title 18 United States Code.

Amendment No. 61: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the Senate amendment which rescinds $309,000 pursuant to section 2901 of the Deficit Reduction Act of 1984.

FEDERAL BUREAU OF INVESTIGATION

SALARIES AND EXPENSES

Amendment No. 62: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which appropriates $1,500,000.

Amendment No. 63: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows: In lieu of the word "expended" in said amendment, insert: *"September 30, 1986."*.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 64: Deletes language proposed by the Senate which would have extended the availability of $35,000,000 for automated data processing and telecommunications until September 30, 1986.

DRUG ENFORCEMENT ADMINISTRATION

SALARIES AND EXPENSES

Amendment No. 65: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows: In lieu of the sum stricken and inserted by said amendment insert: *"$20,000,000, to remain available until September 30, 1986"*.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees are agreed that not to exceed $17,900,000 shall be available for fiscal year 1985 for 476 positions and purchase of equipment to enhance the following programs of the Drug Enforcement Administration: organized crime drug enforcement task forces; State and local task forces; cannabis eradication; overseas security and investigations; and equipment enhancements.

IMMIGRATION AND NATURALIZATION SERVICE

SALARIES AND EXPENSES

Amendment No. 66: Provides language extending the availability of certain funds for construction until September 30, 1987 instead of September 30, 1986 as proposed by the Senate and instead of until expended as proposed by the House.

FEDERAL PRISON SYSTEM

NATIONAL INSTITUE OF CORRECTIONS

Amendment No. 67: Deletes a rescission of $894,000, proposed by the Senate, pursuant to section 2901 of the Deficit Reduction Act of 1984.

OFFICE OF JUSTICE PROGRAMS

JUSTICE ASSISTANCE

Amendment No. 68: Deletes a center heading proposed by the Senate.

Amendment No. 69: Deletes a rescission of $2,031,000, proposed by the Senate, pursuant to section 2901 of the Deficit Reduction Act of 1984.

LEGAL SERVICES CORPORATION

Amendment No. 70: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following:

For an additional amount for a grant for the establishment of a clinical program to supplement the services of local Legal Services grantees at Drake University School of Law in Des Moines, Iowa, $4,000,000, to remain available until expended.

The purpose of the above grants is to fund two University Centers which will provide legal clinics to supplement the civil legal services of Legal Services Corporation grantees, demonstrate how such legal clinics can be operated to benefit both law students and recipients, and conduct continuing legal education courses and seminars to encourage and prepare practicing attorneys for pro bono services. Under each such clinical program, no recipient shall receive legal services who would be disqualified by law or regulation from receiving such service from a Legal Services Corporation grantee.

$3,000,000 of each such grant shall be available to the governing body of the University to establish an endowment fund to provide income to support such a program on a continuing basis. Such endowment shall be held in a trust which dedicates the income exclusively to fulfilling the purposes above stated and shall be subject to audit by the General Accounting Office for the sole purpose of determining that all funds have been accounted for or used for such purposes. If either such grantee elects to discontinue the program established under this section, the corpus of the endowment trust shall revert to the Treasury of the United States and the document accepting the grant shall provide for such reversion.

The balance of the funds in each grant shall be made available to the grantee for facilities, equipment, and other costs actually incurred in establishing such a clinical program, and the application for the grant shall require only such information and supporting material as is reasonably necessary to assure that such funds will be used exclusively for the purposes described herein.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Grants are provided to fund two University Centers for the delivery of legal services and educational programs which will supplement those provided by Legal Services grantees. The grantees are two accredited law schools which have demonstrated an interest in providing such services and have had some experience in setting up and operating a modest program. The number of eligible recipients for the services of Legal Services grantees far exceeds the number they can properly service with the resources available or likely to become available in the forseeable future and these two legal clinics should demonstrate an additional method of supplementing such service. Also, experience in this program should encourage law school graduates to provide more pro bono services, and seminars conducted by the centers will encourage and help prepare practicing attorneys for pro bono services.

The source materials needed to handle many of the legal problems of low income citizens and the information which would be valuable in developing and implementing a clinical program at a law school which would serve such purposes is presently very limited. It is expected that the two centers funded under this bill will contribute significantly to the development of such resources for use nationwide and will encourage others to establish such a program.

The facilities provided to implement this program should include interview offices which are easily accessible to recipients, including the elderly and disabled.

The limitations upon those eligible to receive the services from grantees of the Legal Services Corporation have been established by law in authorization and appropriations bills and it is anticipated that there will be changes from time to time in these limitations. The grantees hereunder are not to be prohibited from serving anyone the Legal Services Corporation grantees are not prohibited from serving, but likewise, they are to be prohibited from providing legal services which are prohibited by law for Legal Services Corporation grantees. The conferees see no difficulty in these grantees adjusting to any changes that may be made from year to year in the same way that Legal Services Corporation grantees adjust to such changes.

The Legal Services Corporation is the conduit or vehicle designated to carry out the purposes of this section of the bill and the Corporation shall do so as quickly as possible and without unnecessary or complicated paperwork requirements. The conferees expect that the application and the documents of acceptance under which the grantees agree to comply with the purposes of this legislation will be brief and not require the employment of additional personnel or consultants by the Legal Services Corporation, and that there will be no delay attributed to drafting such documents.

These grants shall not affect the eligibility of other institutions in these states to receive funds from the Legal Services Corporation.

Amendment No. 71: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which adds language amending certain provisions in Public Laws 98-166 and 98-411 to permit the Members of the Board of Directors of the Legal Services Corporation to be reimbursed for expenses for official travel and other official purposes.

DEPARTMENT OF STATE

ADMINISTRATION OF FOREIGN AFFAIRS

SALARIES AND EXPENSES

Amendment No. 72: Transfers $12,781,000 from "Contributions to International Organizations" instead of $13,779,000 as proposed by the House and $11,781,000 as proposed by the Senate.

The conferees are agreed that not more than $1,000,000 of the total amount provided for security in this appropriation account in this Act shall be available only for security projects at the most highly threatened posts of the United States Information Agency.

Amendment No. 73: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which requires the Secretary of State to report to the appropriate committees of Congress on the obligation of security funds every 30 days from the date of enactment of this Act.

ACQUISITION, OPERATION, AND MAINTENANCE OF BUILDINGS ABROAD

Amendment No. 74: Appropriates $167,579,000 as proposed by the House instead of $170,579,000 as proposed by the Senate.

The conferees agree that the Department of State shall undertake a study of the feasibility of moving the activities of the Arms Control and Disarmament Agency, which are currently housed in leased space in Geneva, into the present chancery building of the United States mission, and moving unclassified activities of the mission into the leased space, presently occupied by the Arms Control and Disarmament Agency. The Department of State shall submit the results of this study to the House and Senate Appropriations Committees no later than September 1, 1985.

Amendment No. 75: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the Senate amendment with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following:

: Provided, That notwithstanding any other provision of law

(a) The Secretary of State shall not permit the Soviet Union to occupy the new chancery building at its new embassy complex in Washington, D.C., or any other new facilities in the Washington, D.C. metropolitan area, if the Soviet Union fails to provide prompt and full reimbursement to the United States for damages incurred as a result of the construction of the new U.S. embassy in Moscow, in an amount to be determined by agreement between the U.S. and U.S.S.R. or in the event of disagreement by the decision of an international arbitral tribunal as created pursuant to the contract for construction between the U.S. and the U.S.S.R.

(b) Within 30 days after the enactment of this Act the Secretary of State shall initiate actions to begin the international arbitration process, which is provided for in the embassy construction agreement between the U.S. and the U.S.S.R., in order to resolve all U.S. claims against the U.S.S.R. for damages arising from delays in the construction of the new U.S. embassy complex in Moscow.

(c) In the event the amount of reimbursement provided to the U.S. under paragraph (a) by the U.S.S.R. is less than the amount of funds expended from this account for damages arising from delays at the site of the new U.S. embassy complex in Moscow that are determined by the Secretary of State to be the responsibility of the U.S.S.R., the Secretary of State shall submit to the Appropriations Committees of the House of Representatives and the Senate a detailed report explaining the reasons that the Secretary has accepted such arrangements and the financial costs to the U.S. of doing so.

(d) The Secretary of State may suspend the restrictions in paragraph (a) in the national security interests of the U.S. if he certifies to Congress that a substantial number of the claims described therein are settled and that resolution of any remaining claims is proceeding in a satisfactory manner. If the Secretary exercises the authority under this paragraph, he shall report to the Appropriations Committees of the House of Representatives and the Senate every six months concerning progress on resolution of any outstanding claim

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

EMERGENCIES IN THE DIPLOMATIC AND CONSULAR SERVICE

Amendment No. 76: Appropriates $1,000,000 instead of $2,000,000 as proposed by the House and stricken by the Senate. The conferees strongly recommend that the Secretary of State give the most serious consideration to allocating a portion of these funds for a reward for information

leading to the release of the seven American hostages being held illegally in Lebanon.

INTERNATIONAL COMMISSIONS

INTERNATIONAL FISHERIES COMMISSIONS

Amendment No. 77: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the Senate amendment with an amendment as follows: In lieu of the sum proposed in said amendment, insert: *"$1,200,000".*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

OTHER FISHERMEN'S PROTECTIVE FUND

Amendment No. 78: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the Senate amendment which appropriates $1,000,000, to remain available until expended.

RELATED AGENCIES

ARMED CONTROL AND DISARMAMENT AGENCY

ARMS CONTROL AND DISARMAMENT ACTIVITIES

Amendment No. 79: Appropriates $4,134,000 instead of $4,321,000 as proposed by the Senate and $3,946,000 as proposed by the House.

Amendment No. 80: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which inserts language that increases from $28,000 to $38,000 the funds available in fiscal year 1985 for official representation purposes.

BOARD FOR INTERNATIONAL BROADCASTING

GRANTS AND EXPENSES

Amendment No. 81: Restores appropriation language and an appropriation of $13,753,000 that was proposed by the House and stricken by the Senate.

Amendment No. 82: Deletes the word "Notwithstanding" which was proposed for insertion by the Senate.

Amendment No. 83: Deletes the phrase "until September 30, 1986" which was proposed by the House and stricken by the Senate.

Amendment No. 84: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which earmarks $2,275,000 for upgrading the security of the RFE/RL installations.

Amendment No. 85: Deletes the words "Radio Free Europe/Radio Liberty" which were proposed by the House and stricken by the Senate.

Amendment No. 86: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate that deletes from the fiscal year 1985 Appropriation Act a provision which placed certain restrictions on the payment of engineering consultant fees.

COMMISSION ON SECURITY AND COOPERATION IN EUROPE

SALARIES AND EXPENSES

Amendment No. 87: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed, insert the following:

COMMISSION ON SECURITY AND COOPERATION IN EUROPE

SALARIES AND EXPENSES

For an additional amount for "Salaries and expenses", $75,000, to remain available until expended.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

UNITED STATES INFORMATION AGENCY

SALARIES AND EXPENSES

Amendment No. 88: Rescinds $2,879,000 instead of $3,879,000 as proposed by the House and $433,000 as proposed by the Senate.

The conferees are agreed that none of the $1,000,000 available for obligation in this appropriation account as a result of the conference agreement, nor any other funds available to the United States Information Agency shall be used for security projects. Funds for this purpose have been appropriated to the Department of State in this Supplemental Appropriations Act.

Amendment No. 89: Deletes language proposed by the Senate which would have stated that the rescission in Amendment No. 88 is pursuant to section 2901 of the Deficit Reduction Act of 1984.

EDUCATIONAL AND CULTURAL EXCHANGE PROGRAMS

Amendment No. 90: Provides language extending the availability of $3,800,000 for the pilot Central American Undergraduate Scholarship program until September 30, 1986 as proposed by the House instead of January 30, 1986 as proposed by the Senate.

Amendment No. 91: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the Senate amendment with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following: *"; and for an additional amount under this head, $9,000,000, to remain available until September 30, 1986".*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees are agreed that of the total amount provided, not to exceed $800,000 shall be available for the pilot Central American Scholarship Program to increase the amount available per student to approximately $32,000 so that the Agency may have the flexibility to conduct a comprehensive pilot program with 143 students for two years, as originally proposed. Under no circumstances should the Agency increase the students in this pilot program beyond this number.

The conferees are also agreed that $1,975,000 of the total amount provided in this amendment shall be available for the second year of graduate studies for 108 Fulbright scholars from Central America and $3,222,000 shall be available for two year funding for 90 Fulbright scholars from Central America which were included in the fiscal year 1986 budget request. In addition the conferees are agreed that the remaining $3,003,000 shall be available to accelerate the funding of the Agency's traditional exchange programs (Fulbright, Humphrey, Private Sector and International Visitor Programs) for which funds were requested in the fiscal year 1986 budget.

Amendment No. 92: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the Senate amendment with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following:

For an additional amount under this head to promote the development of an independent media service by the Afghan people and to provide for the training of Afghans in media and media-related fields, $500,000, to remain available until September 30, 1986: Provided, That the Director, with the Secretary of State, shall report to the appropriate committees of Congress on the obligation of these funds 60 days from the date of enactment of this Act.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees understand that the Administration may consider the submission of a future budget request for an additional $500,000 for this project. The conferees are agreed that not to exceed a total of $1,000,000 in Federal funds, including the $500,000 provided in this Supplemental Appropriations Bill, shall be made available for the project, and that any funding required beyond this total amount shall be provided by sources in the private sector. The conferees are further agreed that the United States Information Agency should consider such organization as the Friends of Afghanistan in awarding a grant for carrying out this project, and that the Agency should expedite its procedures for awarding a grant for this project so that the project can begin as soon as possible.

Amendment No. 93: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which appropriates $500,000 for the Private Sector Exchange Programs for the model Chinese-American Development Student Exchange Program at Tufts University as authorized by the Mutual Educational and Cultural Exchange Act, as amended.

ACQUISITION AND CONSTRUCTION OF RADIO FACILITIES

Amendment No. 94: Appropriates $6,648,000 as proposed by the House and stricken by the Senate.

THE JUDICIARY

COURTS OF APPEALS, DISTRICT COURTS, AND OTHER JUDICIAL SERVICES

Defender Services

Amendment No. 95: Appropriates $21,992,000 as proposed by the House instead of $17,575,000 as proposed by the Senate.

General Provision

Amendment No. 96: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which inserts a general provision to permit the obligation of funds provided in this Act for a 3.5 percent pay increase for Federal judges. Pursuant to section 140 of Public Law 97-92, an affirmative act of Congress is required to provide judges with the same costs-of-living pay increases as provided to other Federal employees.

Report on Withdrawal from Compulsory Jurisdiction of the World Court

Amendment No. 97: Deletes language proposed by the Senate which would have required the President, 60 days before notifying the United Nations of the intent of the United States to withdraw its acceptance of the compulsory jurisdiction of the International Court of Justice concerning a certain dispute, to transmit a report to the Speaker

of the House and the President of the Senate stating his reasons for such notification.

Amendment No. 98: Deletes language proposed by the Senate which would have prohibited funds in this Act for being used directly or indirectly for activities against the government of Nicaragua which have not been authorized by or pursuant to law and would place the United States in violation of its obligations under the Charter of the Organization of American States, to which the United States is a signatory, or under international law as defined by treaty commitments agreed to, and ratified by, the Government of the United States.

The conferees are agreed that the Government of the United States shall fully carry out its obligations under the Charter of the Organization of American States, to which the United States is a signatory, and shall also carry out its obligations under international law as defined by treaty commitments agreed to, and ratified by, the Government of the United States.

CHAPTER III

DEPARTMENT OF DEFENSE—MILITARY

OPERATION AND MAINTENANCE

OPERATION AND MAINTENANCE, NAVY

Amendment No. 99: Restores language proposed by the House which provides $1,500,000 from available funds to pay for the expenses of the Commission on Merchant Marine and Defense.

Amendment No. 100: Deletes identical language proposed by the Senate and restored in amendment number 99 concerning the expenses of the Commission on Merchant Marine and Defense.

PROCUREMENT

AIRCRAFT PROCUREMENT, NAVY

Amendment No. 101: Deletes the heading "(Transfer of Funds)" inserted by the House.

Amendment No. 102: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment, insert the following:

Aircraft Procurement, Navy 1983/1985" ($129,000,000);

Aircraft Procurement, Navy 1984/1986" ($21,200,000); and

Aircraft Procurement, Navy 1985/1987" ($89,800,000);

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 103: Allocates $240,000,000 from available funds as proposed by the House instead of $38,400,000 as proposed by the Senate for the modification of A-6E aircraft.

Amendment No. 104: Deletes the provision to transfer funds to the "Aircraft Procurement, Navy, 1985/1987" appropriation as proposed by the House, and makes funds available for obligation as proposed by the Senate.

Amendment No. 105: Deletes language proposed by the House which would have provided that the funds allocated for the modification of A-6E aircraft should have been subject to the enactment of authorizing legislation.

The conferees recommend $240,000,000 be made available from previously appropriated funds for aircraft procurement in order to proceed with the unbudgeted development and production of replacement wings for A-6E combat aircraft. The House recommended a transfer of these funds from the fiscal year 1982 shipbuilding appropriation and the Senate recommended $38,400,000 be available from aircraft procurement funds in the current year to cover nonrecurring and start up costs for the program.

Rather than provide funding by transfer from shipbuilding resources, the conferees determined it is more appropriate to utilize funds already available within aircraft procurement appropriations. Although planned for fiscal year 1986, the Navy has expressed confidence that the full $240,000,000 will be obligated in fiscal year 1985 for development and initial wing production. The conferees have identified sources of funds from fiscal years 1983, 1984 and 1985 which shall be available for the program. To avoid reappropriation, the expiration dates of appropriations remain in effect in accordance with existing law. Therefore funds available from fiscal year 1983 aircraft procurement shall expire on September 30, 1985, fiscal year 1984 funding expires on September 30, 1986, and resources identified from fiscal year 1985 expire on September 30, 1987.

The conferees understand no additional appropriation will be required in fiscal year 1986 beyond that currently budgeted for this program. The Navy will be expected to budget for full program costs in the future.

The following table specifies the fiscal year and program funding which will be made available for the A-6 rewing program:

Program	
Fiscal year 1985:	*Amount*
F/14 aircraft	$6,500,000
TH-57 aircraft	2,000,000
AH-1T aircraft	600,000
E2-C modifications	6,000,000
Power plant changes	2,800,000
F/18 modifications	1,700,000
OV-10 modifications	2,100,000
RF-4 modifications	2,000,000
Common ECM/ALR-67	35,000,000
Aircraft industrial facilities	16,100,000
Reimbursables	15,000,000
Fiscal year 1984:	
AV-8B	9,000,000
Reimbursables	5,000,000
A-4 modifications	5,900,000
Power plant changes	1,300,000
Fiscal year 1983:	
AV-8B aircraft	18,000,000
A-6 aircraft	7,000,000
P-3 aircraft	6,000,000
E-2 aircraft	4,000,000
H-2 helicopter	6,000,000
C-2 aircraft	6,000,000
T-34 aircraft	8,000,000
A-7 modifications	13,000,000
OV-10 modifications	1,000,000
H-53 modifications	8,000,000
E-2 modifications	11,000,000
Power plant changes	1,000,000
E-14 modifications	2,000,000
H-1 modifications	5,000,000
EC-130 modifications	7,000,000
Common ECM/ALR-67	12,000,000
Reimbursables	14,000,000

SHIPBUILDING AND CONVERSION, NAVY

(TRANSFER OF FUNDS)

Amendment No. 106: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which transfers $6,240,000 to the United States Coast Guard for polar icebreaker repair from "Shipbuilding and Conversion, Navy, 1981/1985".

MINUTEMAN EXTENDED SURVIVABLE POWER [MESP]

The conferees agree to the Senate's recommendation that funding for this program be identified in the fiscal year 1987 budget submission for the entire Minuteman force.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, AIR FORCE

Amendment No. 107: Deletes language proposed by the Senate which would have made $3,800,000 available for the simplified munitions lift trailer program. The conferees agree the proposed language is not required since adequate funding is available for this program for which competitive selection was mandated by section 112 of the Department of Defense Authorization Act, 1985 (Public Law 98-525; 98 Stat. 2507).

TACTICAL DIRECTED ENERGY

The conferees concur in the direction of the Senate to provide $2,500,000 in funding available under Navy exploratory development to supplement the Tactical Directed Energy line. These funds are to be used solely for the completion of two Navy pulsed power technology products, the rail gap switch and the wide area corona plasma cathode.

HUMANITARIAN ASSISTANCE FOR NICARAGUAN DEMOCRATIC RESISTANCE

Amendment No. 108: Deletes language proposed by the Senate which would have provided $38,000,000 for humanitarian assistance for the Nicaraguan Democratic Resistance. This issue is addressed in the Foreign Assistance chapter under amendment number 154.

ENHANCED SECURITY COUNTERMEASURES CAPABILITIES

Amendment No. 109: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter inserted by said amendment, insert the following:

ENHANCED SECURITY COUNTERMEASURES CAPABILITIES

To the Director of Central Intelligence, for the enhancement of security countermeasures capabilities, $35,000,000, to remain available until September 30, 1986, to be allocated by the Director of Central Intelligence among the National Security Agency, the Central Intelligence Agency, the Federal Bureau of Investigation, the Department of State, and any other agency that the Director of Central Intelligence may determine, such funds to be expended exclusively for the purpose of improving security countermeasures capabilities at United States Embassies and other facilities abroad in accordance with a plan to be developed by the Director of Central Intelligence in conjunction with the National Security Agency, the Central Intelligence Agency, the Federal Bureau of Investigation, the Department of State, the National Security Council and any other agency that the Director of Central Intelligence may determine and submitted to the Appropriations and Intelligence Committees of the Congess by September 1, 1985.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees agree that more effective action is required to counter potential security compromises at U.S. government instal-

lations abroad. The conferees further agree to make $35,000,000 available to expedite implementation of such a program.

Although the funds are being provided to the Director of Central Intelligence (DCI) because of the expertise within the intelligence community, the conferees expect these additional resources to be allocated, as appropriate, across the federal agencies involved. In addition, the conferees agree that prior to obligation of these funds, the appropriations and authorizing committees must receive a comprehensive plan to effectively combat the compromising of sensitive material at U.S. government installations abroad. The plan should detail the total amount of funding available from all sources to achieve its objectives. The activities to be carried out with these funds shall not infringe on the State Department's traditional role for providing overall and physical security at those facilities for which it is responsible.

GENERAL PROVISIONS

Amendment No. 110: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which amends section 8070 of the Department of Defense Appropriations Act, 1985 (Public Law 98-473) to clarify the justification required by the Department of Defense to enter into a lease, charter or similar agreement for vessels, aircraft and vehicles for periods in excess of eighteen months.

Amendment No. 111: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which prohibits the Navy from adding an interport differential factor to ship overhaul, repair or maintenance contract proposals.

CHAPTER IV

DEPARTMENT OF DEFENSE—CIVIL

DEPARTMENT OF THE ARMY

CORPS OF ENGINEERS—CIVIL

Amendment No. 112: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment, insert the following:

For an additional amount for the prosecution of river and harbor, flood control, shore protection, and related projects authorized by laws; and detailed studies, and plans and specifications, of projects (including those for development with participation or under consideration for participation by State, local governments, or private groups) authorized or made available for selection by law (but such studies shall not constitute a commitment of the Government to construction), to remain available until expended, $48,000,000 for "Construction, general" and $800,000 for "Flood control, Mississippi River and Tributaries, Arkansas, Illinois, Kentucky, Louisiana, Mississippi, Missouri, and Tennessee"; of which $7,800,000 shall be derived from the Inland Waterways Trust Fund; except that the Secretary of the Army acting through the Chief of Engineers is authorized and directed to proceed with planning, design, engineering, and construciton of the following projects substantially in accordance with the individual report describing such project as reflected in the Joint Explanatory Statement of the Committee of Conference accompanying the Conference Report for H.R. 2577: Ardsley, New York; Atchafalaya Basin Floodway System, Louisiana; Baltimore Harbor and Channels, Maryland and Virginia; Barnegate Inlet, New Jersey; Bassett Creek, Minnesota; Bonneville Navigation Lock, Oregon and Washington; Clear Creek, Texas; Cleveland Harbor, Ohio; Colorado River and tributaries, Boggy Creek and Austin, Texas; Cowanesque Lake modification, Pennsylvania; Dade County, Florida (north of Haulover Beach Park); Des Moines Recreational River and Greenbelt, Iowa; Eight Mile Creek, Arkansas; Ellicott Creek, New York; Fairfield Vicinity Streams, California; Freeport Harbor, including relocation of North Jetty, Texas; Gallipolis Locks and Dams, Ohio and West Virginia; Geneva-on-the-Lake, Ohio; Gulfport Harbor, Mississippi; Jonesport Harbor, Maine; Kahoma Stream, Hawaii; Kill Van Kull Channel, Newark Bay Channel, New York and New Jersey; Liberty State Park Levee and Seawell New Jersey; Little Dell Lake, Utah; Locks and Dam 26, Illinois and Missouri (Second Lock), including environmental management along the Upper Mississippi River Basin; Merced County Streams, California; Mississippi River Ship Channel, Gulf to Baton Rouge, Louisiana; Missouri National Recreational River, Nebraska and South Dakota; Mobile Harbor, Alabama; Moriches Inlet, New York; Norfolk Harbor, Virginia; Parker Lake, Oklahoma; Pearl River, Slidell, St. Tammany Parish, Louisiana; Port Ontario Harbor, New York; Richmond Harbor, California; Richmond local protection project, Virginia; Sacramento River Deep Water Ship Channel, California; Savannah Harbor Widening, Georgia; Tampa Harbor Branch Channels, including East Bay Channel maintenance, Florida; Virginia Beach Streams, Canal No. 2, Virginia; William Bacon Oliver Lock and Dam, Alabama: Provided, That none of the funds herein appropriated may be expended to undertake such projects except under terms and conditions acceptable to the Secretary of the Army, (or under terms and conditions provided for in subsequent legislation when enacted into law) as shall be set forth in binding agreements with non-Federal entities desiring to participate in project construction. Each such agreement shall include a statement that the non-Federal entities are capable of and willing to participate in project cost-sharing and financing in accordance with terms of the agreement. At such time as the Secretary has executed a formal binding agreement and has determined that the non-Federal entities' financing plan demonstrates a reasonable likelihood of the non-Federal entities' ability to satisfy the terms and conditions of the agreement, the Secretary shall initiate construction at a project in accordance with such agreement: Provided further, That the funds appropriated herein shall lapse on June 30, 1986, if the agreement required herein for that project has not been executed: Provided further, That where construction of a comprehensive project for flood control and improvement of a multi-state region described in this paragraph has commenced prior to the date of enactment of this Act, new or additional non-Federal cost-sharing shall not be required for any part of such comprehensive project, and where construction of such a project has begun prior to the date of enactment of this Act, all elements or features of the comprehensive project shall be considered to be part of that project: Provided further, That the initiation of inland waterways projects identified for planning, design, engineering, and construction in this Act may be funded from sums available in the Inland Waterways Trust Fund, established by the Inland Waterways Revenue Act of 1978 (title II of Public Law 95-502) notwithstanding the second sentence of section 204 of such Act.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement includes the following new construction starts proposed by the Administration and unbudgeted projects:

Ardsley, NY.—Ardsley, New York, authorized in 1976 under Section 201 of the 1965 Flood Control Act, is located on the Saw Mill River approximately 5 miles upstream from the junction of the Saw Mill and Hudson Rivers in the Village of Ardsley, Westchester County, New York. The project consists of constructing 426 feet of levees, 1,003 feet of flood wall, and 342 feet of concrete flume and would afford protection to both retail and commercial establishments as well as two industrial plants.

Atchafalaya Basin, LA.—The Atchafalaya basin project, authorized in 1928, is one of the main stem components of the Mississippi River and tributaries project. Through a system of levees, channels, and control works, the basin serves as a floodway to carry up to one-half of the Mississippi River flood flows. Physically, the Atchafalaya River basin project is about 60 percent complete. An important element of the plan involves the purchase of approximately 48,000 acres of land from willing sellers to be used as a natural wildlife area and funds are provided for that purpose. (Report of the Chief of Engineers, February 28, 1983.)

Baltimore Harbor and Channels, MD and VA.—Baltimore Harbor is situated at the head of the navigable portion of the Patapsco River, approximately 172 miles north of the Virginia Capes entrance to Chesapeake Bay. The project lies in Baltimore City and Anne Arundel and Baltimore Counties in Maryland, and Northampton and Accomack Counties in Virginia. The proposed improvement, authorized by the River and Harbor Act of 1970, would provide for a uniform main channel, 50 feet deep and generally 800 or 1,000 feet wide, through the Chesapeake Bay from the Virginia Capes to Fort McHenry in the Port of Baltimore. Depths of 50, 49, and 40 feet would be provided in the branch channels of Curtis Bay, Northwest Branch-East Channel, and Northwest Branch-West Channel, respectively.

Barnegat Inlet, New Jersey.—The existing project was authorized by the Rivers and Harbors Act of 1935 and modified by the Rivers and Harbors Acts of 1937 and 1946. Barnegat Inlet is located on the Atlantic Coast of New Jersey in Ocean County, approximately 32 miles northeast of Atlantic City. It lies partially in the municipality of Barnegat Light Borough and partially in Island Reach Beach State Park. The project consists of constructing a new, parallel, 4,270 foot rubble mound south jetty and dredging a channel 10 feet deep, 300 feet wide, and 11,300 feet long. The project modification would reduce shoaling in the immediate area of the inlet entrance enabling the navigation project to functon in a fully suitable and safe manner.

The Chief of Engineers determined that this project could be technically and legally classified as a design deficiency. Due to this design deficiency, the project has not worked as projected and, in fact, has created a hazard to navigation resulting in the loss

of eight lives last year. The project shall be funded accordingly.

Bassett Creek, MN.—The project, authorized in the 1976 Water Resource Development Act, is located in Hennepin County, Minnesota, and consists of structural and nonstructural flood control measures. Structural measures consist of six small control structures to temporarily impound floodwaters and a new tunnel to replace the existing tunnel, outletting Bassett Creek to the Mississippi River. Flood damages presently average $2,054,000 annually. The recommended project would provide flood protection of 222 residences and 18 industries and an indeterminate number of commercial and industrial developments in Minneapolis. The project would prevent approximately $3,298,000 in average annual flood damages.

Bonneville navigation lock, Oregon and Washington.—This project is located at Bonneville Lock and Dam, 40 miles east of Portland, OR. The proposed project would provide for construction of a new lock, 86 feet wide, 675 feet long and at least 15 feet deep. The horizontal dimensions are the same as the seven existing upstream locks. The navigation problems at Bonneville Lock, including lockage delays and damages from accidents, occur due to the restricted size of the lock chamber, hazardous approaches and constricted Columbia River Channel, Waterborne commerce, which is expected to increase to 13 million tons per year, will equal or exceed the lock capacity by 1988. (Report of the Board of Engineers for Rivers and Harbors, December 5, 1978.)

Clear Creek, TX.—Clear Creek lies about midway between the two metropolitan centers of Houston on the north and Galveston-Texas City on the south. The stream is boudned by Harris, Galveston, Fort Bend, and Brazoria Counties. It empties into Clear Lake and then flows into the west side of Galveston Bay. The project provides for enlargement and rectification of the existing Clear Creek Channel from the upper end of Clear Lake at mile 3.8 to improved channel mile 26.05, a distance of approximately 22 miles, and an additional outlet with a gated structure from Clear Lake to Galveston Bay. The project, authorized by the Flood Control Act of 1968, would provide flood protection for a rapidly developing residential and commercial area, a suburb of Houston.

Cleveland Harbor, Ohio.—The harbor, located at the City of Cleveland, Cuyahoga County, is on the southern shore of Lake Erie. The Federal project was constructed for and is currently maintained exclusively for deep-draft commercial navigation. Harbor modifications are necessary to accommodate the new generation of bulk freighters, measuring 1,000 feet by 105 feet, with carrying capacities of 60,000 tons at various depths of 28 to 32 feet. The proposed harbor modification, consists of deepening and widening the east entrance and approach channels, deepening the east basin channel, and disposing of dredge material in an existing disposal site as described in the Report of the Board of Engineers for Rivers and Harbors dated January 22, 1985, including bulkheading and other necessary repairs at pier 34 and approach channels and necessary protective structures for mooring basins for transient vessels in the area south of pier 34 and including such modifications as may be recommended by the Chief of Engineers at a cost not to exceed $36,000,000. The existing dredged material containment site known as site 14 may be used for the containment of excavated material from construction of the project.

Colorado River and Tributaries, Boggy Creek at Austin, TX.—This is a local protection project for flood control and recreation. The plan of improvement consists of a concrete trapeziodal channel on Boggy Creek beginning just above Webberville Road and extending downstream about 2.2 miles to just below Jain Lane. The Boggy Creek watershed has a history of severe flooding caused primarily by intense local thunderstorms. In October 1960, the maximum flood of record, 9 inches of rain fell forcing 200 flood plain residents to evacuate their homes. Over 12 homes were destroyed. The total damages caused by the maximum known flood were $2.5 million and a recurrence of this flood using October 1984 price levels and 1984 conditions of development would cause $12.4 million in damages. Since then, flooding has occurred seven times. Flooding in November 1974, May 1975, and May and July 1979 caused property damages estimated at $2 million, $2.4 million, and $1 million, respectively, at October 1984 price levels. (Report of the Chief of Engineers, January 19, 1981.)

Cowanesque lake modification, Pennsylvania.—The modification of the existing project for water supply is authorized by the Flood Control Act of 1958 and would be accompiished under the discretionary authority of the Chief of Engineers. The existing project is located in Tioga County, Pennsylvania, on the Cowanesque River approximately 2.2 miles above its confluence with the Tioga River at Lawrenceville, Pennsylvania. The Cowanesque River is a tributary in the Chemung River Basin. The proposed modification for water supply would enable two electric utility companies to meet their consumptive use make-up needs during drought conditions.

Dade County, North of Haulover Beach Park, FL.—Dade County is located on the Atlantic Ocean near the southern tip of the Florida Peninsula. The existing Federal beach erosion control and hurricane protection project extends north along the Atlantic coast of Dade County 9.3 miles from Government Cut to Bakers Haulover Inlet, thence north from Bakers Haulover Inlet 1.2 miles to the north boundary of Haulover Beach Park. The combined effect of wind, waves, and tides amplified during storm conditions has resulted in erosion and lowering of the beach profiles and recession of the shoreline. At a large number of locations along the shoreline, erosion has undermined, or threatened to undermine, shorefront structures. Recession of the shoreline is causing the loss of valuable property and at many locations placing seawalls under direct wave attack. There is now little or no protective and recreational beach during periods of high tides in certain reaches of the commerically developed strip and in the north section of Golden Beach. The recommended plan provides for protection and nourishment of 2.5 miles of beach shore north of Haulover Beach Park and for extension of the period of Federal participation in the cost of nourishing the existing Dade County project from 10 years to the life of the project. (Report of the Chief of Engineers, December 27, 1983.)

Des Moines Recreational River and Greenbelt, IA.—The project will provide central Iowa and the City of Des Moines with environmental protection of scarce river bottom timberlands and greatly enhance opportunities for recreation. The project is for the development, operation, and maintenance of a recreation and greenbelt area on, and along the Des Moines River, Iowa, between the point at which the Des Moines River is intersected by United States Highway 20 to the point downstream at which relocated United States Highway 92 interesects the Des Moines River. The project shall include, but not be limited to: (1) the construction, operation, and maintenance of recreational facilities and streambank stabilization structures; (2) the operation and maintenance of all structures constructed before the date of authorization of this project (other than any such structure operated and maintained by any person under a permit or agreement with the Secretary) within the area described in the Des Moines Recreational River and Greenbelt Map and on file with the Committee on Public Works and Transportation of the House of Representatives; (3) such tree plantings, trails, vegetation, and wildlife protection and development and other activities as will enhance the natural environment for recreational purposes; and (4) the prohibition or limitation by the Secretary of the killing, wounding, or capturing at any time of any wild bird or animal in such areas as may be directed by the Secretary.

In carrying out the project described in subsection (a) of this section, the Secretary may acquire by purchase, donation, exchange, or otherwise land and interests therein, as the Secretary determines are necessary to carry out such project. If the Secretary purchases any land or interest therein from any State or local agency, he shall not pay more than the original cost paid by such State or local agency for such land or interest therein. No land or interest therein may be acquired by the United States to carry out such project without the consent of the owner and nothing herein shall constitute an additional restriction by an owner upon the use of any land or any interest therein which is not owned by the United States.

An advisory committee shall be established for consultation with the Department of the Army and shall include: (A) five persons appointed by the Governor of Iowa; (B) two persons appointed by their respective board of supervisors to represent each community within the study area; (C) one person appointed by the Mayor of the City of Des Moines and one additional person appointed by the mayor of each other incorporated municipality within whose boundaries a portion of such recreation area lies; and (D) three employees or officials of the Corps of Engineers.

Eight Mile Creek, AR.—The project is located in northeast Arkansas and includes portions of Greene and Craighead Counties in the vicinity of Paragould, Arkansas. The plan of improvement consists of channel enlargement on 11.4 miles of streams. This includes 8 miles of channel improvement in the agricultural area below Paragould to provide a 3-year level of protection and 3.4 miles of channel improvement to provide a 100-year level of protection to the urban area of Paragould.

During the last 40 years, major floods in the basin have been reported every 4 to 12 years. One of the most recent floods to occur in the Eight Mile Creek basin was in April 1973, when 6.77 inches of rain fell in 16 hours. About 3,000 persons were forced from their homes and the ensuing damages to homes and businesses were estimated by local officials to be $3,600,000. (As contained in House Document 98-210.)

Ellicott Creek, NY.—The project consists of about 2.1 miles of channel widening and deepening, including the enlargement of the existing diversion channel in Ellicott Creek Park and about 2.1 miles of diversion channels outside the existing creek channel. The project, authorized by the Flood Control Act of 1970, as amended by Public Law 97-128, is needed to reduce flood damages in the lower Ellicott Creek basin. The downstream portion of the Ellicott Creek basin is subject to frequent flooding. The March 1960 flood inundated about 20 acres in the city and town of Tonawanda and flooded about 3,200 acres in the town of Amherst. The flood problem has become more acute in recent years due to increased development activity which includes the Amherst campus of the State University of New York at Buffalo. The project would prevent approximately $2,063,000 average annual flood damages.

Fairfield Vicinity Streams, CA.—The project, authorized in 1970 under Sec. 201 of the 1965 Flood Control Act, is located in and in the vicinity of, the city of Fairfield, Solano County, California. The project consists of improvements to five streams and provides for channel enlargement and construction on Ledgewood, Laurel, and McCoy Creeks and the diversion of three creeks. The project would provide flood protection to about 3,900 acres of land in and adjacent to the City of Fairfield that is now subject to frequent and damaging flood inundations. The present value of improvements in the project flood plain is $240,000,000. Since 1940, Fairfield has been growing at a rate greatly exceeding that of Solano County, the State of California, or the United States. It is estimated that by 2028 the flood plain will be 91 percent converted to residential and other urban uses. Future developments will compound the current flood problems; repetition of the December 1965 flood, the maximum flood of record, would cause damages of about $1,950,000 all preventable by the project.

Freeport Harbor, TX.—The project is in Brazoria County 47 miles southwest of Galveston. The plan of improvement provides for widening, deepening, and realigning the existing Freeport Harbor project, including turning basins, to provide for an enlarged channel with project depths of 47 feet in the entrance channel in the Gulf of Mexico, 45 feet in the jetty channel and inside main channel, and 36 feet in the Brazos Harbor Channel. The project also provides for relocation of the north jetty of the entrance channel, a 500-foot extension to the relocated north jetty, rehabilitation of the south jetty, and public use facilities at the jetties. The narrow 200-foot wide jetty channel, sharp curves at the inner end of the jetty channel and at the upper end of Brazosport turning basin, all contribute to inadequate conditions for safe navigation by deep-draft traffic. Because of these hazards, deep-draft vessel movements are restricted to one-way traffic, and, with inadequate project depth, vessels are often light-loaded and some of the large vessels will not call at Freeport. (Flood Control Act of 1970.)

Gallipolis locks and dam, West Virginia and Ohio (Ohio River).—Gallipolis is situated in the middle Ohio Valley at River Mile 279.2, about 14 miles downstream from the mouth of the Kanawha River in West Virginia and about 30 miles upstream from the City of Huntington, West Virginia. The new locks would be in Mason County, West Virginia; the abutment of the dam is in Gallia County, Ohio. The proposed plan of improvement includes construction of two new locks and canal bypassing the existing dam. Also, the existing dam would be rehabilitated. Construction of the project will permit safe and efficient transportation through the project. Reduced delays and transportation costs will benefit directly and indirectly the economy of the Nation. (Report of the Chief of Engineers, April 8, 1982, as supplemented by the Chief of Engineers Report of August 13, 1983.)

Geneva-on-the-Lake, OH.—The project, located on Lake Erie, between Fairport and Ashtabula Harbors, was authorized by a Senate and House Committee Resolution in December 1970 under Section 201 of the Flood Control Act of 1965. Principal project features include 1,350 feet of rubblemound breakwaters in Lake Erie, an entrance channel 9 feet, 730 feet in length and 100 feet wide, 0.5 acre mooring area, 6 feet deep service channels, recreational fishing facilities and a wetland mitigation plan to replace 4.2 acres of wetlands lost due to harbor construction. The project will provide benefits to permanently based boats and transient boaters as a harbor of refuge.

Gulfport Harbor, MS.—The project is located on Mississippi Sound, and arm of the Gulf of Mexico, about 44 miles west of Pascagoula Harbor, Miss., and 78 miles east of New Orleans, La. The existing project consists of: a channel 32 feet deep, 300 feet wide, and about 8 miles long across Ship Island Bar; a channel 30 feet, 220 feet wide, and about 11 miles long through Mississippi Sound; an anchorage basin at Gulfport 30 feet deep, 1,320 feet wide, and 2,640 feet long. Modifications of the project would provide for deepening and widening the existing ship channel to 36 by 300 feet in Mississippi Sound and 38 by 400 feet in the Gulf of Mexico with necessary changes in the channel alignment and in the entrance to the anchorage basin needed for reasonably safe and unrestricted navigation. (Report of the Chief of Engineers, Jan. 16, 1978, except that the Chief of Engineers is authorized to construct the project in the most cost-effective and environmentally acceptable manner.)

Jonesport Harbor, ME.—Jonesport Harbor, authorized in 1976 under section 201 of the 1965 Flood Control Act, is located on the Atlantic Ocean at the north side of Moosabec Reach in Washington County, Maine, about 190 miles northeast of Portland, Maine, and about 40 miles southwest of the Canadian border at Eastport, Maine. The project provides for a breakwater 1,200 feet in length; a 15 acre anchorage composed of 9 acres, 6 feet deep, and 6 acres, 8 feet deep; and an entrance channel 100 feet wide and 8 feet deep. The basic need in Jonesport Harbor is for a protected anchorage to adequately and safely accommodate the local fishing fleet.

Kahoma Stream, HI.—The project, authorized in 1976 under section 201 of the 1965 Flood Control Act, is located in the town of Lahaina on the west coast of the island of Maui, Hawaii. The plan of improvement provides for construction of 5,415 feet of concrete trapezoidal channel, a debris basin, a revetted outlet, and three bridges. Flood damages in the Kahoma Stream basin result from inadequate capacity of the channel and bridge openings, restrictive bends in the stream, and high velocity flows. The greatest flood on record occurred on May 13, 1960, with an estimated peak flow of 7,750 cfs and with damages of $320,000 at the time. Presently there are 360 homes, 18 condominiums, 280 commercial establishments, two shopping centers, several small businesses, and a sugar processing plant in the Kahoma Stream flood plain. The area to be protected comprises about 291 acres with a total estimated value of approximately $300,000,000 for land and improvements.

Kill Van Kull Channel, Newark Bay Channel, New York and New Jersey.—Kill Van Kull and Newark Bay are segments of New York Harbor essentially located between Staten Island, New York and Bayonne, New Jersey. The project provides for deepening the existing Federal channels in the Kill Van Kull and Newark Bay to 45 feet, widening these channels at selected points, and dredging a turning basin at Port Elizabeth, New Jersey. The Kill Van Kull and Newark Bay waterways serve the world's largest container port with more than 13 million tons of high value cargo handled annually. (Report of the Chief of Engineers dated 14 December 1981.)

Liberty State Park levee and seawall, New Jersey.—The State of New Jersey's plan for Liberty State Park will transform a decaying open space into a new and useful waterfront area. Opposite two national monuments, the park will offer public access to the waterfront and new recreational activities at the center of the New Jersey-New York metropolitan region. The project authorized by the Water Resources Development Act of 1976, is located in Jersey City, Hudson County, N.J., directly opposite the Statue of Liberty and Ellis Island in upper New York Bay. The proposed plan of improvement consists of excavation, landfill, placement of an armored sand levee, and construction of two pedestrian walkways spanning the unfilled areas. It extends 1.5 miles in a crescent alignment from the shoreline south of the Railroad Maritime Terminal to the north side of Black Tom Channel.

Little Dell Lake, UT.—The project authorized by the 1968 Flood Control Act and the 1976 Water Resources Development Act, is located on Dell Creek, a tributary of Parleys Creek, about 8 miles east of Salt Lake City, Utah. The plan of improvement provides for the constructon of a dam 253 feet high, creating a lake with a gross capacity of 30,000 acre-feet for flood control, municipal and industrial water supply, recreation, and fish and wildlife. The plan includes facilities for diversion of water from Emigration Creek and from Parleys Creek. The lake would be operated in conjunction with the existing Mountain Dell Reservoir on Parleys Creek for flood control and water supply. The project would provide flood protection against snowmelt flooding in the 13th South Street area in Salt Lake City, now subject to periodic damaging flood inundations from overflow of an underground conduit system that carries flow from Red Butte, Emigration, and Parleys Creeks; and would reduce flood peaks along the main stem of the Jordan River through the city of Salt Lake and downstream of the city. Floods of April-May 1952 and May 1983 caused estimated damages in urban areas of $2.6 million and $10 million, respectively. Under current conditions of development and prices, the 1952 flood damages would amount to about $105,000,000, most of which would be preventable by the project.

Locks and Dam No. 26. IL and MO Second Lock, Including Environmental Management.—Appropriations of funds for both Lock and Dam 26 (second lock) and environmental management of the upper Mississippi River system, ensures the coordinated de-

velopment and enhancement of the system as both a nationally significant ecosystem and a nationally significant commercial navigation system.

It is the Committee's intent that initial planning and design of the navigation and environmental improvements are to be undertaken simultaneously on equal fiscal footing, to the extent practicable and engineeringly feasible. This process represents a commitment to the balanced use, development and protection of the river resources recommended for the management of the upper Mississippi River system in pending authorizing legislation.

This advance engineering and design work provides for the timely construction of the recommended project. Furthermore, it provides a like amount to the Secretary of the Army, including sums for use by transfer to the Secretary of the Interior, for initial activities related to programs for long-term resource monitoring, habitat rehabilitation and enhancement, recreation improvements and studies, traffic monitoring, and computerized inventory and analysis. It is the intent of Congress to implement such programs so that significant progress can be made in advance of navigation capacity expansion resulting from the use of the new locks at Lock and Dam 26.

Locks and Dam No. 26, second lock, would be located adjacent to the Lock and Dam 26 (replacement) in the Mississippi River at Madison County, IL, and St. Charles County, MO, River mile 200.8 above the mouth of the Ohio River in the vicinity of Alton, IL, approximately 2 miles downstream from the existing Locks and Dam 26. Locks and Dam No. 26 are strategic to the movement of commodities up and down the Mississippi and Illinois Rivers. Any disruption of the single-lock operation could bring shipping to a halt. A second lock, 600 feet in length, would be capable of keeping traffic moving and minimizing delays that could result during routine maintenance or as a result of unexpected emergencies that could occur in the main lock. In addition, the second lock would increase the capacity to pass traffic on the river. (Report of the Upper Mississippi River Basin Commission, January 1982.)

Merced County Streams, CA.—The project authorized by the 1970 Flood Control Act, is located in Merced County in the vicinity of the city of Merced, Calif., on the streams draining from the Mariposa County foothills of the Sierra Nevada into Merced County. The plan of improvement provides for construction of two new dams and modification of one existing dam, approximately 33.4 miles of levee, and channel improvement on Bear, Cottonwood, Fahrens, and Black Rascal Creeks. The project will provide flood protection to residential, commercial, and agricultural lands within and adjacent to the city of Merced and Castle Air Force Base. The population of Merced County was 90,440 in 1960, increased to 154,200 by 1984, and is expected to reach 177,000 by 2000. Rapid urbanization is increasing the severity of serious flooding problems that exist along the streams draining from the Sierra Nevada into Merced County.

Mississippi River Ship Channel, Gulf to Baton Rouge, LA.—The project is located in the southeastern portion of Louisiana below Baton Rouge, consisting of the Mississippi River and its outlets to the Gulf of Mexico. The project will provide more efficient deep-draft navigation access to the New Orleans and Baton Rouge reaches of the Mississippi River via Southwest Pass by enlarging the existing channel to a project depth of 55 feet and enlarging the adjacent channel along the left descending bank in New Orleans Harbor to a 40-foot depth, a turning basin at Baton Rouge, and training works in the passes to reduce maintenance. (Report of the Chief of Engineers April 9, 1983.)

Missouri National Recreational River, NE and SD.—The project, authorized under Sec. 707 of the National Parks and Recreation Act of 1978 (P.L. 95-625), is located on the Missouri River between Gavins Point Dam, South Dakota, and Ponca State Park, Nebraska. The project consists of the development of this reach of the river to protect and enhance the qualities which resulted in its being classified as a National Recreational River under the Wild and Scenic River System. These qualities include scenic, recreational, fish and wildlife, and cultural values. Erosion control is essential to protect these qualities. Under a Department of the Army-Department of Interior Cooperative Agreement, the Corps of Engineers is responsible for construction and maintenance of bank stabilization work and appropriate recreational development. Designation as a Recreational River will preserve outstanding and important scenic values and will provide additional opportunities for river access and recreation use. The project would provide for 563,000 general visitor days for recreation and 187,000 visitor days for fish and wildlife recreation, annually. Erosion control, consisting of river management techniques designed to preserve the existing environment, would at the same time preserve high bank flood plain lands.

Mobile Harbor, AL.—Mobile Harbor is in southwestern Alabama at the junction of Mobile River and Mobile Bay. The harbor serves Mobile and an extensive portion of the United States. The southern end of Mobile Bay opens into the Gulf of Mexico. The proposed improvement provides for deepening the existing main ship channel from 40 feet to 55 feet. Current problems attending navigation relate to efficiency of operation, maneuveing difficulties, and higher transportation costs which result from the need to use smaller and/or light-loaded vessels in serving the port. Changes in both vessel characteristics and commodity movements indicate that modifications to the harbor are necessary to maintain efficient, safe and economical operations. (Report of the Chief of Engineers, Nov. 18, 1981.)

Moriches Inlet, N.Y.—Moriches Inlet is an opening through the narrow, sandy barrier beach on the south shore of Long Island which separates the Atlantic Ocean from a series of interconnected bays. The inlet is in Suffolk County and is 80 miles by water east of the Battery, New York City. The project, authorized by the 1960 River and Harbor Act, provides for an entrance channel 10 feet deep and 200 feet wide from the Atlantic Ocean to Moriches Bay, and an inner channel 6 feet deep and 100 feet wide from the bay to the Long Island Intercoastal Waterway. The U.S. Coast Guard notifies mariners that conditions at Moriches Inlet are extremely hazardous and that navigation of the inlet is considered unsafe at any time. The plan of improvement would provide adequate and safe access for boats. Also, the project would provide refuge and reduce storm damages to vessels.

Norfolk Harbor, VA.—The project is located in Hampton Roads, VA., a 25-square mile natural harbor serving the ports of Norfolk, Newport News, Portsmouth, Chesapeake, and Hampton, VA. The recommended project for deepening the main channels from 45 to 55 feet and other channels to lesser depths, along with construction of fixed mooring anchorage areas. Hampton Roads is natural roadstead of 25 square miles forming one of the finest natural harbors in the world. Domestic and foreign commerce in the port amounted to over 59,000,000 tons in 1979. The movement of this volume of waterborne commerce, together with the presence of major naval facilities, has made Hampton Roads one of the Nation's leading ports. (Report of the Chief of Engineers, Nov. 20, 1981.)

Parker Lake, OK.—The project would be located on Muddy Boggy Creek, Coal County, Oklahoma, about twenty miles east of Ada, Oklahoma. The improvement consists of an earthfill dam, a gated outlet works for flood control and water supply, and a 600-foot wide spillway. The dam would be about 2,000 feet long with a maximum height of about 100 feet above the steambed. The lake created would have a total storage capacity of 237,000 acre-feet, consisting of 115,400 acre-feet for flood control, 114,650 acre-feet for water supply, and 6,950 acre-feet for sediment reserve. The recommended project includes a wildlife mitigation plan that provides for management of 4,250 acres of land for wildlife purposes. (Report of the Chief of Engineers, May 30, 1980.)

Pearl River, Slidell, St. Tammany Parish, LA.—The City of Slidell and other communities in St. Tammany Parish, Louisiana, have experienced three floods of record since 1979 resulting from high stages on the Pearl River. In April 1983, record stages occurred, devastating numerous businesses and as many as 1,000 homes causing over $100,000,000 in damages. Investigations being finalized by the Corps of Engineers indicated that a number of measures could reduce flood damage, including channel modifications, levees, drainage structures and bridge modifications.

Flood damage relief is critically needed in this—the fastest growing area of Louisiana. The Corps of Engineers is directed to expedite measures to reduce this flooding problem and within available funds is directed to undertake such structural and nonstructural measures as deemed feasible to prevent flood damage to communities in the Pearl River Basin, St. Tammany Parish, Louisiana. (Draft Report of the District Engineer, Vicksburg, dated March 1985.)

Port Ontario Harbor, NY.—The Port Ontario Harbor, located on Lake Ontario in Oswego County at the mouth of the Salmon River was authorized as one of 21 harbors-of-refuge for shallow-draft vessels to create a chain of refuge harbors along the Great Lakes shoreline. In addition, the authorized project provides for additional smallboat activities. The project consists of two breakwaters, an entrance channel 8 feet deep and an inner channel 6 feet deep. A public wharf is to be constructed by local interests on the south side of the Salmon River at Selkirk Shores State Park in the vicinity of Pine Grove. (1945 River and Harbor Act).

Richmond Harbor, CA.—The project is located in the northeastern portion of San Francisco Bay in Contra Costa County adjacent to the city of Richmond. The plan of improvement provides for widening existing channels; enlargement of existing turning basin; construction of a new turning basin; and deepening of all channels and basins to 41 feet from the currently existing depths of 35 feet. Growth of foreign and coastwise

shipments and the introduction of larger vessels in the world fleet have rendered the existing 35 foot deep channels and turning basin at Richmond Harbor inadequate and inefficient for modern transportation needs. Maneuvering of vessels is restricted and the channels are too shallow for larger containerships and other vessels which must await high tide to navigate. Due to long delays and the hazard of grounding, efficient cargo movement is impaired. (Report of the Chief of Engineers, August 8, 1982.)

Richmond, VA local protection project.—The project is located in the City of Richmond and is bordered on the north by Henrico County and on the south by Chesterfield County. The James River flows directly through Richmond separating its business district into the Shockoe Creek area on the north bank and the South improvement provides for construction of Flood walls and levees to protect against a flood 15.4 feet above the March 1936 flood, or 6.4 feet above the June 1972 flood, on both sides of the river in downtown Richmond. (As contained in House Document 98-178.)

Sacramento River Deep Water Ship Channel, CA.—The project area extends from Avon in Suisun Bay to Collinsville and in the existing Sacramento River deep water ship channel from Collinsville to the Port of Sacramento, Calif. The recommended project consists primarily of deepening to 35 feet the Suisun Bay and existing Sacramento River deep water ship channel from New York Slough to the Port of Sacramento, and the Avon to New York Slough reach to 35 feet which will be accomplished under the San Franscisco Bay to Stockton project. Problems and needs associated with waterborne transportation in the existing Sacramento River deep water channel results from inadequate waterways and related facilities to accommodate vessels currently using the channel, thus causing inefficiencies and unsafe conditions. (Report of the Chief of Engineers, Nov. 20, 1981.)

Savannah Harbor Widening, GA.—The existing project is located in Chatham County, Georgia on the South Atlantic Coast, 75 miles south of Charleston Harbor, South Carolina, and 120 miles north of Jacksonville Harbor, Florida. The recommended plan provides for modification of the harbor by widening the navigation channel between the present upstream limit of the 500-foot channel (Fig Island Turning Basin) and the Kings Island Turning Basin from 400 to 500 feet, a distance of 5.6 miles. The increased density of shipping traffic in the upper harbor is creating a serious shipping hazard due to the narrowness of the channel. Because of the restrictions of this narrow channel, vessel speeds must be reduced. This results in increased transit time and costs for those vessels which must navigate this portion of the harbor. Since 93 percent of the vessels that call at Savannah Harbor enter this portion of the harbor, the speed reduction affects most of the harbor's commerce. (Report of the Chief of Engineers, dated December 19, 1978.)

Tampa Harbor Branch Channels, including East Bay Channel Maintenance, FL.—Tampa Harbor is located about midway along the Gulf Coast of Florida, in Tampa and Hillsborough Bays. The Gulf entrance is about 330 miles southeast of Pensacola Harbor and 220 miles north of Key West Harbor. The Branch Channels project, authorized by the River and Harbor Act of 1970, consists of deepening Hillsborough Bay Cut D, Sparkman Channel, Port Tampa Channel, and existing turning basins at the entrance to Ybor Channel and at Port Tampa. The city's terminals and port facilities serve as the commercial hub for this region with highway and railway networks extending through and beyond the tributary area. Waterborne commerce of the area passes through the terminals of Tampa Harbor in both foreign and domestic movements. Total volume through the port represents about one-half of the total volume through all deepwater ports in the State. Commerce on the Branch Channels was about 13 million tons in 1982 for petroleum products and sulphur, and is estimated to exceed 35 million tons by 2030. East Bay Channel and the terminal area it serves is located in the northeast section of Tampa Harbor between Hillsborough and McKay Bays. The authorized Federal project for East Bay includes an entrance channel and an extension along the eastern shore of the bay, 2,500 feet long, 300 feet wide, and 43 feet deep. In 1966, the Tampa Port Authority dredged a part of East Bay not in the authorized Federal project to a depth of 34 feet. The selected plan consists of providing Federal maintenance of a channel about 5,500 feet long, 300 feet wide, and 34 feet deep, extending northward from the authorized East Bay Channel, terminating in an irregularly shaped turning basin at that same depth. The City of Tampa is one of Florida's largest industrial and distribution centers for an area with a radius of over 100 miles, which includes Hillsborough and 16 adjacent counties. Commodities moving through East Bay consist primarily of general cargo and phosphate products. The high shoaling rate in East Bay has restricted the size of vessels that can use the waterway and terminal facilities. There is a need for continued dredging to maintain adequate channel depths for existing and future vessel traffic. (Report of the Chief of Engineers, dated January 25, 1979.)

Virginia Beach streams, canal No. 2, Virginia.—The project is located within the corporate limits of the City of Virginia Beach, Virginia. The City consists of 255 square miles of primarily low flat terrain, with about 75 percent of the area below elevation 15 feet mean sea level. In the Canal No. 2 watershed, the flow of water during flood situations is retarded by the exsting channel, and by constrictions of flow at bridges over the waterway. During periods of high runoff, the existing canal cannot satisfactorily drain storm waters away from the developed portions of the area. Consequently, direct flooding from excessive water levels in the existing canal causes the adjacent development to suffer damage. In addition, flood conditions in the canal proper retard lateral flow from storm sewers and open drainage ditches. (Section 201 of the 1965 Flood Control Act.)

William Bacon Oliver Lock and Dam, AL.—Oliver Lock and Dam is located at mile 388 on the Black Warrior-Tombigbee (BWT) Waterway at Tuscaloosa, AL. The existing lock has dimensions of 95′ x 460′. A new lock is proposed at a site 2,700 feet downstream of the existing Oliver Lock. The new lock would be on the opposite bank, have a lift of 28 feet, and chamber dimensions of 110′ x 600′. The chief reason for delay at Oliver is the chamber size, since it does not accommodate the typical tow size used on the waterway. A standard barge is 35′ x 195′ and is typically made up in a 6-barge tow which has to break into sections to lock through Oliver. Oliver is the only lock in the BWT system with dimensions not equal to 110′ x 600′. The maneuvering involved, plus the long locking time, causes a line to build at the lock, including delays. The new lock would accommodate the typical 6-barge tow with a single lockage significantly reducing delays. (Report of the Chief of Engineers, Spetember 26, 1984.)

Amendment No. 113: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate regarding the South Metropolitan Atlanta Region, Georgia study.

Amendment No. 114: Deletes language regarding the Red River Basin Comprehensive Study and the Arkansas River and Tributaries, South Central and Southeast Areas of Oklahoma Comprehensive Study as proposed by the House.

The conferees are aware that the Great Salt Lake has reached its highest level since 1873. The lake has risen nearly 12 feet since 1981 and has caused an estimated $130,000,000 damage to surrounding private and public property. To date, total State and local expenditures for flood damage control measures exceed $143,000,000. The Committee recognizes that while expenditures to date by the Government on this problem have not been large, sizable future Federal expenditures may be required in order to protect facilities and areas around the lake.

In order to determine the Federal interest, the Committee directs the U.S. Army Corps of Engineers to conduct reconnaissance studies around the lake with emphasis on the Bear River, Rose Park, Jordan River, the lake shore west of Corrine and Bountiful cities, and the areas to be affected by west desert pumping. Such studies should be conducted promptly during 1985 using available funds.

The conference agreement include $100,000 for the Corps of Engineers to begin a study of the flooding problems in Smithtown, NY.

Amendment No. 115: Deletes rescission proposed by the Senate.

Amendment No. 116: Restores language proposed by the House and stricken by the Senate regarding land acquisition at inland navigation projects.

Amendment No. 117: Earmarks $15,000,000 for construction of the Elk Creek Lake, Oregon project as proposed by the Senate. Funds are made available until expended consistent with existing law (31 U.S.C. 1301(c)(1), (2)).

The conferees have no objection to the Corps proceeding with the Town Bluff hydroelectric project as proposed, with the understanding that the project can be undertaken under existing law and authorities.

Within available funds, the conferees direct the Corps of Engineers to initiate construction of the small boat navigation harbor at Zippel Bay in Minnesota in accordance with the Detailed Project Report dated March 1984.

The conferees note that the Corps of Engineers has recently released funds for construction of a small flood control project in the City of Argyle, Minnesota, under circumstances which have raised questions as to whether the City must pay approximately $123,000 for certain road relocation and ramp raising costs. In the past, these costs have not been considered to be a non-Federal responsibility for projects authorized under section 205 of the Flood Control Act of 1948. The conferees direct that the Corps constuct the project with the costs of the road relocation and ramp raisings to be borne by the Federal Government.

Amendment No. 118: Deletes rescission proposed by the Senate.

FLOOD CONTROL AND COASTAL EMERGENCIES

Amendment No. 119: Appropriates $25,000,000 for flood control and coastal emergencies as proposed by the House instead of $10,000,000 as proposed by the Senate.

Amendment No. 120: Deletes rescission proposed by the Senate.

OPERATION AND MAINTENANCE, GENERAL

Amendment No. 121: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment, insert the following:

For an additional amount for "Operation and Maintenance, General", to remain available until expended, $2,600,000 with which the Corps of Engineers is directed to construct recreation facilities (including a recreation lake) at Sepulveda Dam, California.

Within available funds, the Secretary of the Army is directed to use $400,000 to operate and maintain additional streambank stabilization structures in accordance with Section 707 of Public Law 95-625.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 122: Deletes rescission proposed by the Senate.

GENERAL PROVISIONS.

Amendment No. 123: Restores language proposed by the House and stricken by the Senate amending Section 105 of Public Law 98-360.

Amendment No. 124: Restores language proposed by the House and stricken by the Senate regarding the Langdon Park, Wilmette, Illinois project.

Amendment No. 125: Restores language proposed by the House and stricken by the Senate regarding the Sardis Lake, Oklahoma project.

Amendment No. 126: Restores language proposed by the House and stricken by the Senate relating to facilities for the United States Army Engineer District, Walla Walla, Washington.

Amendment No. 127: Deletes language proposed by the Senate relating to facilities for the United States Army Engineer District, Walla, Walla, Washington.

Amendment No. 128: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which amends Section 44 of the Water Resources Development Act of 1974 regarding the use of lands by the Mountrail County Park Commission, Mountrail County, North Dakota.

Amendment No. 129: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate authorizing the Corps of Engineers to transfer townsites at Fort Peck, Montana; Riverdale, North Dakota; and Pickstown, South Dakota, to local municipal entities.

Amendment No. 130: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter stricken and inserted by said amendment, insert the following:

The Secretary of the Army, acting through the Chief of Engineers, is authorized and directed to construct, operate, and maintain a sediment retention structure near the confluence of the Toutle and Green Rivers, Washington, with such design features and associated downstream actions as are necessary, in accordance with the Feasibility Report of the Chief of Engineers dated December 1984. The total non-Federal contribution toward payment of project costs shall be as set forth in such report.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 131: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter stricken and inserted by said amendment, insert the following:

Funds appropriated to the United States Army Corps of Engineers in the "Energy and Water Development Appropriation Act, 1985", Public Law 98-360, for the purpose of compensating certain landowners who have experienced damages as a result of drawdown operations of the Liddy Dam in Montana shall be expended to evaluate and award compensation for erosion or other damages of leveed and unleveed tracts of land in Kootenai Flats, Boundary County, Idaho, resulting from power of flood control drawdown operations at Libby Dam, Montana: Provided, That such evaluation and compensation of claims shall be based solely on the drawdown of water from Libby Dam for flood control, power operations, or other authorized purposes: Provided further, That compensation paid pursuant to this provision shall not exceed $1,500,000.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

In regard to Public Law 98-360, Libby Dam in Montana, and lands downstream in Kootenai Flats, Boundary County, Idaho, concerning the evaluation and awarding of compensation for damages caused by power drawdown, flood control or authorizing purposes, all pertinent claims which have been previously denied shall be reinstated and reevaluated in accordance with the standards set out in this Act.

DEPARTMENT OF THE INTERIOR

BUREAU OF RECLAMATION

Amendment No. 132: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment, insert the following:

For an additional amount for the Department of the Interior, Bureau of Reclamation, "Construction program", for the design and construction of the Animas-La Plata Project, Colorado and New Mexico; Buffalo Bill Dam Project, Wyoming; Boulder Canyon Project, Arizona and Nevada; and the Headgate Rock Project, Arizona, to remain available until expended, $14,300,000; of which $1,000,000 shall be available for transfers to the Upper Colorado River Basin Fund as authorized by section 5 of the Act of April 11, 1956 (43 U.S.C. 620d): Provided, That of the total appropriated, the amount for program activities which can be financed by the Reclamation Fund may be derived from that Fund: Provided further, That of the total appropriated, $8,300,000 is appropriated pursuant to the Snyder Act (25 U.S.C. 13), to be expended by the Bureau of Reclamation for the purpose of designing and initiating construction of the Headgate Rock Hydroelectric Project, Arizona: Provided further, That none of the funds herein appropriated may be expended to undertake such projects except under terms and conditions acceptable to the Secretary of the Interior as shall be set forth in binding agreements with those non-Federal entities desiring to participate in project construction. Each such agreement shall include a statement that the non-Federal entitles are capable of and willing to participate in project cost-sharing and financing in accordance with terms of the agreement. At such time as the Secretary has executed a formal binding agreement and has determined that the non-Federal entities' financing plan demonstrates a reasonable likelihood of the non-Federal interest's ability to satisfy the terms and conditions of the agreement, the Secretary shall initiate construction at a project in accordance with such agreement: Provided further, That the funds appropriated herein shall lapse on June 30, 1986, if the agreement required herein for that project has not been executed.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 133: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate providing for the rehabilitation of the A Canal of the Klamath Project.

The conferees agree with the Senate Report language regarding the use of available funds to undertake studies to evaluate the extent to which hydroelectric dams and pump storage facilities can be used to manage environmental concerns along the Colorado River.

Within available funds, the conferees direct the Bureau of Reclamation to utilize $100,000 for the High Mountain Aquifer study in Colorado.

Amendment No. 134: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate relating to the costs associated with the enlargement of a portion of the WEB pipeline.

Amendment No. 135: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate directing that $10,400,000 of available funds be used by the Secretary of the Interior to fulfill certain water rights obligations authorized in Public Law 98-530.

Amendment No. 136: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate providing specific dates for completion of the preferred site selection and environmental impact statements for the Hooker Dam or alternative in New Mexico.

Amendment No. 137: Deletes rescission proposed by the Senate.

Amendment No. 138: Deletes rescission proposed by the Senate.

INDEPENDENT AGENCIES

TENNESSEE VALLEY AUTHORITY

Amendment No. 139: Restores language proposed by the House appropriating $5,000,000 for the Tennessee Valley Authority. This amendment provides $5,000,000 to the Tennessee Valley Authority for a main water transmission line at Bristol, Tennessee, in the vicinity of the Authority's Boone Lake, as proposed by the House. The confer-

ees agree that this project does not constitute a precedent for this type of activity by the TVA.

Amendment No. 140: Deletes rescission proposed by the Senate. The conferees agree, that in view of the emergency situation caused by recent extensive damage to a major boiler at TVA's National Fertilizer Development Center, the $1,538,000 of TVA appropriations proposed by the Senate for rescission shall instead be used by TVA to assist in making the necessary repairs to that boiler and restore it to operating condition.

DEPARTMENT OF ENERGY

Amendment No. 141: Restores language proposed by the House and stricken by the Senate and deletes language proposed by the Senate concerning construction of an electrical transmission line.

In Public Law 98-360, Congress authorized the Secretary of Energy to participate in the construction of additional transmission facilities necessary to allow mutually beneficial power sales between the Pacific Northwest and California. The Secretary has participated in the development of a plan for construction, operation, and use of a third 500-kV AC transmission line from the Pacific Northwest to California as described in a memorandum of understanding for the California-Oregon transmission project dated December 19, 1984. After a public hearing on the plan, the Secretary approved the memorandum of understanding with conditions which he felt were necessary to protect the United States and all interested persons not party to the memorandum of understanding. In a letter dated May 4, 1985, the Department of Energy, through its Acting General Counsel, clarified the conditions established by the Secretary. On May 14, 1985, the signatories to the memorandum of understanding accepted the Secretary's conditions, as clarified by the Department's letter, as the basis for proceeding with the plan for construction, operation, and use of the new line.

The conferees have reviewed the memorandum of understanding as approved, conditioned, and clarified by the Department of Energy (the memorandum). The conferees conclude that the plan for construction, operation, and use of the new line in accordance with the memorandum will permit power sales between the Pacific Northwest and California and that those sales will be of significant benefit to both regions and in the public interest. Furthermore, construction in northern California of the new line will, without any expenditure of Federal funds, increase Federal revenues through increased sales of power by the Bonneville Power Administration.

It is the conferees' intention that nothing in this act or the memorandum shall affect the authority of the Bonneville Power Administration in any way and particularly with respect to wholesale power rates, transmission rates, or regulation of access to federally controlled transmission facilities. This intent is reflected in the exchange of correspondence between Senator Mark Hatfield (letter dated January 31, 1985) and Secretary of Energy Donald Hodel (letter dated February 4, 1985). The conferees have also included bill language which clearly states that such authorities remain unaffected by the act.

The plan for construction, operation, and use of the new line has gone through extensive public review and the conferees believe it is consistent with the Federal Power Act, and that act's underlying goals and policies. Accordingly, to the extent that the memorandum or mutually agreed upon contractual provisions which implement the memorandum are subject to review and approval by the Federal Energy Regulatory Commission, they should not be modified so as to change the plan and should be reviewed in an expeditious manner.

Amendment No. 142: Deletes language proposed by the Senate prohibiting the Federal Energy Regulatory Commission from assessing annual charges on certain irrigation facilities.

Amendment No. 143: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate transferring prior year appropriations from Uranium Supply and Enrichment to the Geothermal Resources Development Fund.

Amendment No. 144: Deletes rescission proposed by the Senate.

Amendment No. 145: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate rescinding $8,280,000 of funds appropriated for Atomic Energy Defense Activities.

Amendment No. 146: Deletes rescission proposed by the Senate.

The conferees agree with Senate report language concerning use of $2,700,000 to complete a double-wall steam generator provided that no further Federal funds will be available for this project and that only CFBR termination or civilian nuclear research funds be used.

The conferees agree with Senate report language dealing with the use of $200,000 to test the use of feedlot waste at a Federally supported biofuels energy facility. The conferees agree with Senate report language directing the Department of Energy to reprogram $2,500,000 to maintain the schedule on the Mod-5 wind turbine and expect the Department to proceed expeditiously to assure this occurs. The conferees concur with the Senate direction regarding the uranium supply and enrichment program and expect the Department to assure that a smooth transition takes place that provides to the maximum extent possible for employee placement activities, technology transfer and documentation of efforts in centrifuge research and development. The conferees agree with the Senate report language regarding Miles City, Montana.

CHAPTER V

FOREIGN ASSISTANCE

DEPARTMENT OF STATE

INTERNATIONAL ORGANIZATIONS AND PROGRAMS

(BY TRANSFER)

Amendment No. 147: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter stricken and inserted by said amendment, insert the following:

$3,600,000 to be derived by transfer from the "Economic Support Fund" for Lebanon as provided in Public Law 98-63: Provided, That these funds shall be available only for the International Atomic Energy Agency: Provided further, That no funds shall be obligated after the date of enactment of this Act for the International Atomic Energy Agency unless the Secretary of State determines and so reports to the Committees on Appropriations that Israel is not being denied its right to fully participate in the activities of that Agency, including the rights, privileges or benefits that that Agency accords to all of its members

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees agree to transfer $3,600,000 in funds for the International Atomic Energy Agency instead of $5,686,000 as proposed by the House and $2,843,000 as proposed by the Senate. The transfer is to be derived from available Economic Support Funds for Lebanon.

The conferees also agree to include language proposed by the Senate that the transferred funds cannot be obligated unless the Secretary of State determines and reports to the Appropriations Committees that Israel is not being denied its right to participate in the activities of the International Atomic Energy Agency, including rights, privileges or benefits that the IAEA gives to all of its members.

BILATERAL ECONOMIC ASSISTANCE

AGENCY FOR INTERNATIONAL DEVELOPMENT

POPULATION, DEVELOPMENT ASSISTANCE

Amendment No. 148: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate. The Senate amendment specifies that the President is to determine whether any organization or program should be prohibited from receiving population development assistance because they support or participate in the management of a program of coercive abortion.

The conferees agree with the Senate position that this issue is of such significance that the determination should be made by the President of the United States. Further the conferees agree that if this responsibility is delegated, it is expected that the responsibility for making the required determination would, if delegated, be delegated only to the Secretary of State.

The conferees also agree that if the language in this provision prevents the use of population funds earmarked for a program they should be reprogrammed for other population programs consistent with the provision.

Amendment No. 149: Reported in technical disagreement. The managers on the part of the House will offer a notion to recede and concur in the amendment of the Senate. The Senate amendment adds programs of involuntary sterilization to the House language prohibiting the use of funds to any organization or program which supports or participates in the management of a program of coercive abortion.

The conferees agree that if the application of the amended provision prevents the use of population funds otherwise earmarked for a program or activity, such funds may be reprogrammed for other population programs that are consistent with this provision.

ECONOMIC SUPPORT FUND

Amendment No. 150: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter stricken and inserted by said amendment, insert the following:

$2,258,000,000: Provided, That of the funds provided by this paragraph $250,000,000 shall be made available, and shall remain available for obligation for Jordan until September 30, 1987, only in accordance with the schedule of availability set forth in sec-

tion 402(a)(1) and section 402(a)(2) of this Act: Provided further, That of the funds provided in this paragraph for Jordan, not more than 33⅓ percent may be disbursed before September 30, 1985; not more than 50 percent may be disbursed before March 31, 1986; not more than 66⅔ percent may be disbursed before September 30, 1986; and, not more than 85 percent may be disbursed before March 31, 1987: Provided further, That notwithstanding any other provision of law, funds provided in this Act for Jordan, if not utilized for programs, projects, or other activities in Jordan, must be returned to the United States Treasury: Provided further,

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The amendments to the Senate language are technical in nature and clarify that the funds for Jordan are available through Fiscal Year 1987 and correct a section number that was referenced in the Senate language.

The conferees agree that the $250 million provided for Jordan is a one time emergency supplemental that is needed to provide for urgent economic problems and to encourage further progress in Middle East Peace initiatives.

Amendment No. 151: Deletes House language requiring the submission of an official supplemental request for Economic Support Funds for Israel, Egypt and the Middle East Regional Program, as proposed by the Senate. The Administration has now forwarded a supplemental for these areas.

Amendment No. 152: Deletes language proposed by the Senate which required that $750 million in Economic Support Funds for Israel be disbursed within 30 days of enactment of the Supplemental.

The conferees agree that the Administration is to move quickly to disburse funds that Israel needs to meet its most urgent economic needs and to provide assistance on a responsible and timely basis.

Amendment No. 153: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter stricken and inserted by said amendment, insert the following:

funds provided by this paragraph shall be made available notwithstanding section 10 of Public Law 91-672: Provided further, That the funds provided by this paragraph for Israel and Egypt shall be made available as cash grant transfers: Provided further, That not less than the Egyptian pound equivalent of $50,000,000 generated from funds made available by this paragraph, or from any other source, shall be deposited into the Trust Funds established by the Trust Account Agreement of 1980 to be used for United States' supported programs in Egypt pursuant to the United States-Egypt Economic, Technical and Related Assistance Agreements of 1978 which provide for local currency requirements for programs of the United States in Egypt to be made available to the United States in the manner requested by the Government: Provided further, That prior to depositing funds into the Trust Fund, the Secretary of State shall notify the Appropriations Committees of both Houses of the Congress fifteen days in advance as to how the endowment is to be managed, where the funds will be deposited, the interest rate to be secured, and the procedures to be used in establishing, operating, and disbursing endowment funds: Provided further,

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees agree under this amendment to waive authorization requirements, as proposed by the Senate. This action was taken due to the need to obligate funds in this supplemental and the likelihood that authorization action will not immediately occur.

The conferees also agree to Senate language clarifying that the $500 million in Economic Support Funds for Egypt is to be a cash grant transfer. The conferees agree that the Government of Egypt should, to the maximum extent possible, use local currencies generated by the cash transfer to undertake additional development activities and to assist efforts of economic reform.

The conferees under this amendment also agree that $50 million in local currencies generated by the Egyptian Economic Support Fund Program be used for an endowment fund for the American University of Cairo. The conferees have recommended $50 million for the endowment instead of the $65 million recommended by the Senate. The conferees expect that the rate of exchange shall be the most favorable rate negotiated by A.I.D. in Egypt. The conferees agree that prior to obligating funds for this endowment the Secretary of State is to notify the appropriate Committees of Congress on how the endowment is to be managed, where the funds will be deposited, the interest rate to be secured, and the procedures to be used in establishing, operating, and disbursing the endowment funds.

The conferees expect that the local currencies placed in the Trust Funds pursuant to this provision shall be managed by the United States Mission in Egypt and shall be placed as principal in interest bearing accounts, the income from which shall be provided as grants to the American University of Cairo.

HUMANITARIAN ASSISTANCE FOR NICARAGUAN DEMOCRATIC RESISTANCE

Amendment No. 154: Restores House language stricken by the Senate for humanitarian assistance for the Nicaraguan Democratic Resistance. The restored House language provides $27,000,000 to remain available until March 31, 1986 for humanitarian assistance to the Nicaraguan Democratic Resistance. The funds are to be provided by such department or agency of the United States as the President shall designate, except for the Central Intelligence Agency or the Department of Defense. The conferees agree that Section 102 is not intended to restrict interdepartmental consultation.

The restored House language also provides $2,000,000 to remain available until expended for payment to the Contadora nations if an agreement is reached among the countries of Central America based on the Contadora Document of Objectives of September 9, 1983.

DEPARTMENT OF STATE

MIGRATION AND REFUGEE ASSISTANCE

Amendment No. 155: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which provides $12,500,000 for Soviet, Eastern European and other refugees resettling in Israel. The funds are to be transferred from Economic Support Funds available for Lebanon.

GENERAL PROVISIONS

Amendment No. 157: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which directs the Secretary of the Treasury to instruct the U.S. Executive Directors of the International Financial Institutions to oppose any assistance related to copper export commodities.

Amendment No. 156: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate. The Senate amendment states that U.S. contributions to International Financial Institutions should be primarily directed at projects that do not generate surplus commodities or displace private initiatives, and directs that U.S. Executive Directors of the International Financial Institutions take into account specific criteria concerning surplus commodities in reviewing project loans and credits.

CHAPTER VI

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Amendment No. 158: Deletes language proposed by the House and stricken by the Senate rescinding $75,000,000 for payments for operation of low-income housing projects and referencing balances of funds and inserts language proposed by the Senate restoring reference to balances of funds.

Amendment No. 159: Reported in technical disagreement. The managers of the part of the House will offer a motion to recede and concur in the amendment of the Senate deleting the center heading proposed by the House and inserting the language proposed by the Senate transferring $4,000,000 to salaries and expenses from the various funds of the Federal Housing Administration.

AMERICAN BATTLE MONUMENTS COMMISSION

Amendment No. 160: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate permitting not to exceed $1,000,000 of excess personnel compensation and benefits funds in the salaries and expenses appropriation to be used for purchasing equipment and other services.

ENVIRONMENTAL PROTECTION AGENCY

Amendment No. 161: Restores language proposed by the House and stricken by the Senate amended to appropriate $4,000,000 for salaries and expenses, instead of $5,000,000 as proposed by the House. The Committee of Conference places a priority of intramural research needs and urges EPA to allocate up to $1,000,000 of these funds for intramural research support and equipment costs.

Amendment No. 162: Restores language proposed by the House and stricken by the Senate rescinding $4,125,000 from research and development.

Amendment No. 163: Appropriates $20,000,000 for abatement, control, and compliance, instead of $15,000,000 as proposed by the House and $25,000,000 as proposed by the Senate. Of these funds, $12,000,000 is provided for Resource Conservation and Recovery Act activities, $4,000,000 for asbestos abatement technical assistance, and $4,000,000 for water quality enforcement state grants, including pretreatment.

Amendment No. 164: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede

and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following:

BUILDINGS AND FACILITIES

For an additional amount for "Buildings and facilities", $500,000, to remain available until expended: Provided, That none of these funds may be obligated until the completion of a feasibility study by the Environmental Protection Agency to determine the most cost-effective way to house the research program at Newport, Oregon.

The managers on the part of the Senate will more to concur in the amendment of the House to the amendment of the Senate.

EXECUTIVE OFFICE OF THE PRESIDENT

Amendment No. 165: Inserts language proposed by the Senate appropriating $120,000,000 for the Office of Science and Technology Policy.

FEDERAL EMERGENCY MANAGEMENT AGENCY

Amendment No. 166: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following:

EMERGENCY FOOD AND SHELTER PROGRAM

There is hereby appropriated $20,000,000 to the Federal Emergency Management Agency, to remain available until September 30, 1986, to carry out an emergency food shelter program. Notwithstanding any other provision of this or any other Act, such amount shall be made available under the terms and conditions of the following paragraphs:

The Director of the Federal Emergency Management Agency shall, as soon as practicable after enactment of this Act, constitute a national board for the purpose of determining how the program funds are to be distributed to individual localities. The national board shall consist of seven members. The United Way of America, the Salvation Army, the National Council of Churches of Christ in the U.S.A., the National Conference of Catholic Charities, and Council of Jewish Federations, Inc., the American Red Cross, and the Federal Emergency Management Agency shall each designate a representative to sit on the national board. The representative of the Federal Emergency Management Agency shall chair the national board.

Each locality designated by the national board to receive funds shall constitute a local board for the purpose of determining how its funds will be distributed. The local board shall consist, to the extent practicable, of representatives of the same organizations as the national board except that the mayor or appropriate head of government will replace the Federal Emergency Management Agency member.

The Director of the Federal Emergency Management Agency shall award a grant for $20,000,000 to the national board within thirty days after enactment of this Act for the purpose of providing emergency food and shelter to needy individuals through private voluntary organizations and through units of local government.

Eligible private voluntary organizations should be non-profit, have a voluntary board, have an accounting system, and practice nondiscrimination.

Participation in the program should be based upon a private voluntary organization's or unit of local government's ability to deliver emergency food and shelter to needy individuals and such other factors as are determined by the local boards.

Total administrative costs shall not exceed 2 per centum of the total appropriation.

As authorized by the Charter of the Commodity Credit Corporation, the Corporation shall process and distribute surplus food owned or to be purchased by the Corporation under the food distribution and emergency shelter program in cooperation with the Federal Emergency Management Agency.

The Director of the Federal Emergency Management Agency shall review the reported condition of the "street people" and other disadvantaged people in cities and counties throughout the Nation, including those reported in Tunica County, Mississippi, and report to the House and Senate Committees on Appropriations his recommendations for correcting or improving the situation which exists.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement provides $20,000,000 for the emergency food and shelter program, instead of $110,000,000 as proposed by the Senate. This funding is intended to carry the program through the balance of 1985. It is anticipated that additional funding will be provided for this program in connection with the regular 1986 appropriation bill.

Amendment No. 167: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate transferring $3,100,000 to salaries and expenses from emergency management planning and assistance, amended to transfer $1,105,000.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

Amendment No. 168: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

For an additional amount for "Research and development", $40,000,000, to remain available until September 30, 1986: Provided, That this amount shall be deferred and shall not become available until March 1, 1986.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The Committee of Conference has included $40,000,000 to partially offset a cost overrun in the shuttle centaur program. Currently, the overrun is estimated at approximately $110,000,000—of which about $90,000,000 is associated with NASA and the balance with the Air Force. The conferees agree to the $40,000,000 with the provision that the money shall not become available until March 1, 1986. The delay in the obligation of the funds will permit NASA and the Committees on Appropriations to continue to review shuttle centaur program development problems. In that connection, before the funds are released, the conferees request that NASA submit an accounting of the use of the $40,000,000 and any additional funds required to meet the current anticipated overrun or any requirements derived from new technical problems or further schedule slippage.

Amendment No. 169: Inserts language proposed by the Senate providing that only $4,000,000 of the $6,000,000 research and program management rescission be pursuant to section 2901 of the Deficit Reduction Act of 1984, instead of $6,000,000 as proposed by the House.

NATIONAL SCIENCE FOUNDATION

Amendment No. 170: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate appropriating $100,000 for research and related activities to support the Arctic Research Commission.

The conferees are aware that the Commissioners of the Arctic Research Commission were sworn in only four months ago. The result has been that a comprehensive estimate of the resources needed for the Commission in fiscal year 1985 was formulated prior to the beginning of their tenure, making accurate projections difficult. Therefore the conferees agree that an additional $100,000 is to be provided to the National Science Foundation in fiscal year 1985 for the activities of the Commission. Together with the $150,000 the Foundation previously reprogrammed from its budget for the Commission, this brings the total budget for the Commission in fiscal year 1985 to $250,000. The conferees have also agreed that due to overall Federal spending constraints, the Commission's funding for fiscal year 1986 should be supported at a level not to exceed the fiscal year 1986 request of $300,000. This amount represents a 20 percent increase over the newly established level for fiscal year 1985.

DEPARTMENT OF THE TREASURY

Amendment No. 171: Rescinds $100,000 from the Office of Revenue Sharing, salaries and expenses as proposed by the Senate, instead of $90,000 as proposed by the House.

VETERANS' ADMINISTRATION

Amendment No. 172: Deletes language proposed by the House and stricken by the Senate appropriating $44,200,000 for readjustment benefits.

Amendment No. 173: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate rescinding $3,520,000 from medical care.

Amendment No. 174: Deletes language proposed by the House and stricken by the Senate rescinding $150,000 from medical and prosthetic research.

Amendment No. 175: Rescinds $2,109,000 from medical administration and miscellaneous operating expenses as proposed by the House, instead of $1,322,000 as proposed by the Senate.

Amendment No. 176: Deletes language proposed by the House and stricken by the Senate rescinding $2,000,000 from general operating expenses.

Amendment No. 177: Restores language proposed by the House and stricken by the Senate rescinding $377,000 from construction, minor projects.

CHAPTER VII

DEPARTMENT OF THE INTERIOR

BUREAU OF LAND MANAGEMENT

Amendment No. 178: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment appropriating $115,500,000 instead of $45,000,000 as proposed by the House and $45,500,000 as proposed by the Senate. The managers on the

part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The amount provided includes $500,000 for additional costs necessary to feed wild horses and burros which have been taken off the range; $45,000,000 to repay funds used in fiscal year 1984 for firefighting costs; and $70,000,000 to offset extraordinary firefighting costs being incurred by BLM in fiscal year 1985. This appropriation will reduce the amount required in the fiscal year 1986 supplemental to repay costs incurred in fiscal year 1985.

Amendment No. 179: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which appropriates $825,000 for design of a building for the Bureau of Land Management in Fairbanks, Alaska and makes $20,000 available to pave the street and build the sidewalk and curb in front of the BLM district office in Worland, Wyoming.

U.S. FISH AND WILDLIFE SERVICE

Amendment No. 180: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert the following:

LAND ACQUISITION

For an additional amount for "Land acquisition", $1,000,000, to be derived from the Land and Water Conservation Fund, to remain available until expended.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The amendment clarifies that the appropriation of $1,000,000 for land acquisition at Bogue Chitto NWR is to be derived from the Land and Water Conservation Fund.

NATIONAL PARK SERVICE

Amendment No. 181: Deletes rescission of $94,000 for National Recreation and Preservation proposed by the Senate.

Amendment No. 182: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which adds the account title "Land acquisition and state assistance (including rescission)".

Amendment No. 183: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert the following:

For an additional amount for "Land acquisition and state assistance", $22,000,000, to be derived from the Land and Water Conservation Fund, to remain available until expended.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The amendment clarifies that the appropriation is to be derived from the Land and Water Conservation Fund.

There have been a number of complaints in recent years that non-profit organizations have shopped for appraisals that escalate the fair market value and drive up acquisition prices on related tracts. Further, some non-profits have acquired options or fee title to parcels and have not disclosed the financial considerations or other details of these transactions to the acquiring Federal agency prior to the transfer of title.

The managers urge the Secretary to resume third party acquisitions under conditions that ensure appraisal shopping is discontinued and direct the Federal agencies to establish procedures for confidentially handling the details of options or fee acquisitions involving third party organizations. Details of future third party acquisitions must be disclosed to the acquiring Federal agency prior to completing transfer of title, but letters of intent are not required.

Amendment No. 184: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which rescinds $52,000 from "Land acquisition and state assistance" pursuant to section 2901 of the Deficit Reduction Act.

Amendment No. 185: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which makes funds available to the Cumberland Gap National Historical Park for the operation of the Cumberland Gap Tunnel and access roads available only to the extent provided for in a memorandum of understanding to be negotiated between the Secretary of the Interior and the governors of the States of Kentucky and Tennessee. The agreement, at a minimum, should provide for the States of Kentucky and Tennessee to maintain the Cumberland Gap Tunnel and access roads in the Cumberland Gap National Historical Park.

Within existing funds $250,000 is made available for a study of the feasibility and desirability of making Chicago's Navy Pier a recreational and cultural unit within the National Park System under the operating jurisdiction of a commission made up of persons appointed by the Mayor of Chicago and the Secretary of the Interior or persons appointed by the Mayor of Chicago, the Governor of Illinois and the Secretary of the Interior with appropriate cost-sharing by Federal and city or Federal, State and city governments. In making the study, the National Park Service shall consult and cooperate with the Mayor of Chicago, the Governor of Illinois and other appropriate public officials. Consultation may also be had with schools of design and architecture, symposia and forums on the subject, including a review of the Mooney plan, and including the prospective costs, and means of financing such costs whether private, public or both; and to report back with its findings within six months to the appropriate Committees of the Congress. The study should address the appropriateness of a commission to facilitate State, local and Federal cooperation such as exists with the Illinois and Michigan National Heritage Corridor Commission and the Lowell National Historic Preservation Commission. The model of the cooperative arrangement between the Federal government and the State of New Jersey to protect and preserve the Pinelands areas may also be useful.

Amendment No. 186: Deletes language proposed by the Senate with respect to the National Capital region arts and cultural affairs program.

MINERALS MANAGEMENT SERVICE

Amendment No. 187: Restores language proposed by the House and stricken by the Senate and delete language proposed by the Senate specifying authorization under section 111 (b) and (d) of the Federal Oil and Gas Royalty Management Act of 1982 for the Minerals Management Service to pay late interest payments from mineral leasing receipts to State and Indian accounts.

Amendment No. 188: Deletes technical correction proposed by the Senate.

The managers agree that within the recommended amount, $88,431 is included to pay interest to the Chippewa Cree Tribe of the Rocky Boy's Reservation. This action is not to be seen as setting a precedent for earmarking late interest payments in the future. In May 1985, the General Accounting Office issued a report, "Examination of Funds Received by the Federal Government Under Leases of Mineral Rights on the Bullhook Gas Unit" (GAO/RCED-85-52) stating that the Chippewa Cree Tribe of the Rocky Boy's Reservation had been underpaid by $88,431. Due to the findings of this audit, and the fact that the fiscal year 1985 supplemental request preceded issuance of this report, the managers have agreed to make this exception.

OFFICE OF SURFACE MINING

Amendment No. 189: Delete center heading proposed by the Senate.

Amendment No. 190: Deletes rescission proposed by the Senate, and as a consequence, makes $546,000 available to the Office of Surface Mining Reclamation and Enforcement to be utilized for staff to conduct an inventory of the number of two acre sites requiring inspection in Virginia and Kentucky, to inspect those sites to see if the exemptions are valid, and to have inspectors available to testify in court if necessary as proposed by the House.

BUREAU OF INDIAN AFFAIRS

Amendment No. 191: Appropriates $23,423,000 for operation of Indian programs as proposed by the Senate instead of $19,818,000 as proposed by the House.

The managers agree that funds shall be reprogrammed from the economic development grant program as follows: $2,900,000 for general assistance payments; $72,000 for the Ute Mountain Ute energy development program; $800,000 for water studies; and $100,000 for activities associated with the Pacific Salmon Treaty Act of 1985. The managers agree that $245,000 shall be reprogrammed from the "638" contract monitoring activity to the Point-No-Point fisheries management program.

The managers agree that a total of $1,350,000 is provided for high priority water studies for support of negotiation or litigation.

Funds for the Salmon Treaty shall be used to develop a memorandum of understanding between the Bureau of Indian Affairs, the Fish and Wildlife Service and the National Oceanic and Atmospheric Administration which clearly sets forth the responsibilities of each agency under this Act. Once such agreement has been reached, funds will be provided in the appropriate accounts.

The managers agree that all government-owned equipment at the Labre Indian School shall be transferred to that school at no cost.

The managers direct that all contractors receive the same percentage of their indirect costs in the current fiscal year as every other contractor. The Bureau of Indian Affairs shall report to the Congress by August 1, 1985 on actions taken to implement this directive.

Amendment No. 192: Provides a transfer of funds from the National Capital region arts and cultural affairs account as proposed by the House instead of from road construction as proposed by the Senate.

Amendment No. 193: Reported in technical disagreement. The mangers on the part

of the House will offer a motion to recede and concur in the amendment of the Senate which provides a payment of $8,700,000 to reduce the indebtedness of the Navajo Agricultural Products Industry (NAPI), and which discharges NAPI from the obligation to pay interest on direct loans from the Bureau of Indian Affairs until January 1, 1991.

Amendment No. 194: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following:

Provided further, That no funds shall be paid to creditors of the Sangre de Cristo Development Company, Inc., whose claims are set aside by the United States Bankruptcy Court for the District of New Mexico: Provided further, That general assistance payments made by the Bureau of Indian Affairs after April 29, 1985 shall be made on the basis of Aid to Families with Dependent Children (AFDC) standards of need except where a state ratably reduces AFDC payments in which event the Bureau shall reduce general assistance payments in such state by the same percentage as the state has reduced the AFDC payment

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The amendment relieves the Bureau of Indian Affairs from payments to certain currently certified creditors of the Sangre de Cristo Development Company whose claims are subsequently disallowed by the U.S. Bankruptcy Court. The amendment also puts into law regulations promulgated by the Department of the Interior regarding general assistance payments which became effective April 29, 1985.

Amendment No. 195: Defers obligation of $3,000,000 of construction funds available to the Bureau of Indian Affairs as proposed by the House instead of no deferral as proposed by the Senate.

The managers agree that the unobligated funds from the Fort Yates irrigation project shall be reprogrammed to the Eagle (Banik) unit and that the Eagle unit shall be scaled down to approximately 1,125 acres so that the project can be completed within available funds.

DEPARTMENT OF AGRICULTURE

Forest Service

Amendment No. 196: Appropriates $61,247,000 for the National forest system as proposed by the House instead of $62,140,000 as proposed by the Senate.

Amendment No. 197: Appropriates $1,568,000 for construction as proposed by the House instead of $675,000 as proposed by the Senate.

The managers direct that $52,000 of the funds made available for the Long Valley Caldera Emergency Communications System be transferred to the U.S. Geological Survey for their share of the communications system.

Amendment No. 198: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which inserts the word "Including".

Amendment No. 199: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert the following:

For an additional amount for "Land acquisition", $7,000,000, to be derived from the Land and Water Conservation Fund, to remain available until expended.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The amendment clarifies that the appropriation of $7,000,000 for land acquisition at Lake Tahoe is to be derived from the Land and Water Conservation Fund.

Amendment No. 200: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert the following:

ADMINISTRATIVE PROVISIONS

To assure that National Forest timber under contract from the Mapleton District of the Siuslaw National Forest prior to enactment of the Federal Timber Contract Payment Modification Act remains available, the Secretary of Agriculture is authorized to resell all timber which is defaulted or which is returned under provisions of the Federal Timber Contract Payment Modification Act and permit roads and other associated developments, notwithstanding any other provision of law, and notwithstanding the injunctions issued in National Wildlife Federation et al. v. United States Forest Service et al., 592 F. Supp. 931 (D. ORE. 1984) and in No. 84-4274 (9th Cir. March 6, 1985). Any such timber shall be available for resale from the date of enactment of this Act until dissolution of the aforesaid injunctions. The Secretary shall determine the potential environmental degradation to streams or other bodies of water of timber sales returned pursuant to the Federal Timber Contract Payment Modification Act and shall characterize each sale's potential environmental impact as minimal, moderate, or serious. The Secretary shall give resale priority to those sales with the least risk of potential environmental degradation. Sales that are reoffered may be modified, including minor additions. Any decision of the Secretary of Agriculture to resell such timber shall not be subject to judicial review.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The managers have agreed to bill language that will allow the Forest Service to resell timber on the Mapleton Ranger District of the Siuslaw National Forest, Oregon that has been returned pursuant to the Federal Timber Contract Payment Modification Act, in order to allow local mills to continue operations while the agency continues the development of the forest management plan.

It is the managers' intention that timber resold under this provision be a part of the normal sales program, based upon historical annual sales volumes of not to exceed 90 million board feet on the Mapleton Ranger District. The language allows minor modifications, including additions, to sales which are reoffered and it is the managers' intention that such modifications or additions should be included only when necessary to formulate a viable timber sale.

The language directs the Secretary to consider the environmental consequences of each sale and to categorize each sale's environmental impact as minimal, moderate, or serious. In determining the environmental consequences, the Secretary shall consider relevant factors, including but not limited to the risk of soil movement, the effectiveness of soil erosion mitigation measures, the condition and importance of potentially affected streams and fish habitat, the cutting methods, and road specifications. The managers are confident that this will be an effective process for minimizing potential environmental degradation and intend to follow closely all timber sales made pursuant to this provision. Because the sales will be returned over a period of time, this will also permit the Secretary to evaluate and reoffer sales as they are returned. Once reoffered sales are defined and their degree of environmental impact assigned, they shall be available for public review for a period of 30 days before being reoffered.

The managers agree that the bill language does not affect the injunction currently in effect, as the timber to be resold is outside the scope of that injunction. Provided that environmental assessments have already been completed on such timber sales and will be upgraded prior to resale, the language further states that any decision of the Secretary to resell such timber, including the determination and assignment of environmental impact risk shall not be subject to judicial review.

Amendment No. 201: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which states that the Forest Service shall continue to operate Equipment Development Facilities in San Dimas, California, and in Missoula, Montana, at least through the end of fiscal year 1986, and that funds and personnel shall not be reduced by more than 10 percent from current levels.

DEPARTMENT OF ENERGY

Clean Coal Technology

The managers agree with the clean coal technology project guidelines contained in Senate Report 99-82 with the following modifications:

I. General Project Guidelines:

2. The project should utilize or expand the utility of technologies, techniques or processes which do not duplicate a commercial scale demonstration currently being conducted in the United States.

3. The clean coal technology, alone or in conjunction with other technologies, must result in emission levels that comply with or exceed Clean Air Act requirements, in a cost-effective manner.

and,

IV. Environmental Benefits:

1. The commercial application of the clean coal technology for retrofit applications on fossil fuel-fired plants is likely to result in a reduction of emissions from the use of coal at a cost which is competitive with the cost of achieving comparable emission reductions by current technology.

The managers agree that the clean coal technology project criteria contained in the Senate report provide useful guidance for the development of a competitive solicitation for cost-shared clean coal technology projects, and that the Department of Energy should immediately begin preparing such a solicitation document so that it can be issued as soon as possible after the beginning of fiscal year 1986, if funds are provided. To the extent that technologies traditionally supported by the Environmental Protection Agency (EPA) are part of the solicitation or responses to it, as well as on environmental regulatory considerations, the Department should consult with EPA.

FOSSIL ENERGY RESEARCH AND DEVELOPMENT

Amendment No. 202: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment that disapproves $39,154,000 of deferral D85-27A for fossil energy research and development instead of $38,925,000 as proposed by the House and $8,350,000 as proposed by the Senate.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The change from the amount of the deferral proposed to be disapproved by the House consists of additional deferral disapprovals of $983,000 for materials work at Idaho National Engineering Laboratory, $492,000 for coal-fired diesel locomotives, and $150,000 for use of prior year balances, and additional deferrals of $983,000 for AR&TD phosphoric acid fuel cells, and $413,000 for AR&TD materials work.

The managers agree that the $150,000 out of prior year funds mentioned above should be used by the Department of Energy to conduct tests of the combustion catalyst, Glo-Klen. These tests are intended to ascertain whether the results of earlier tests conducted by Southern Illinois University are confirmed and establish parameters for a commercial utility scale demonstration.

The managers agree to the construction of a generic fluidization test center at the Morgantown Energy Technology Center using unobligated funds available from prior years for fluidized bed research and development.

The managers agree that the $1,278,000 for atmospheric fluidized bed boiler tube replacement is the final appropriation for this project.

The managers expect the MHD community to develop and submit to the appropriate Congressional committees a plan for significant industry cost-sharing which would include increasing commitments above existing levels. The new cost-sharing plan should be based on the MHD development plan submitted by the Department to Congress in June, 1984. Additional funds should not be appropriated absent increased cost-sharing.

Amendment No. 203: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter proposed by said amendment, insert the following:

(DEFERRAL)

Of the funds available for obligation under this head, $1,600,000 shall not be available for obligation until October 1, 1985.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This amendment converts the proposed rescission to a deferral which will then be used to offset costs of the fiscal year 1986 program.

STRATEGIC PETROLEUM RESERVE

The managers agree that within available funds a sufficient amount is to be used to complete the McNeese State project.

Amendment No. 204. Reported in technical disagreement. The managers on the part of the House will offer a motion in recede and concur in the amendment of the Senate with an amendment as follows:

Restore the matter stricken by said amendment, amended to read as follows:

SPR PETROLEUM ACCOUNT

(DISAPPROVAL OF DEFERRAL)

The Congress disapproves $290,070,000 of the proposed deferral D85-42 relating to the Department of Energy, "SPR petroleum account", as set forth in the message of February 6, 1985, which was transmitted to the Congress by the President. The disapproval shall be effective upon enactment into law of this Act and the amount of the proposed deferral disapproved herein shall be made available for obligation.

Notwithstanding any other provision of law, section 160(d)(1) of the Energy Policy and Conservation Act (Public Law 94-163, as amended) is amended by adding a new subsection as follows:

Strike the period at the end of subsection (B) and insert the folloiwng:

"; or

"(C) the fill rate is sufficient to attain a level of 500,000,000 barrels by the end of the fiscal year during which the fill rate falls below the rate established in (B).".

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The amendment disapproves $290,070,000 of proposed deferral D85-42 for the SPR petroleum account instead of $827,028,316 as proposed by the House and no disapproval proposed by the Senate.

The managers agree that the $290,070,000 made available for obligation is to be used to fill the Strategic Petroleum Reserve in fiscal year 1986 to a total of 500 million barrels. The requirements of the Energy Policy and Conservation Act, recently extended by Public Law 99-58, have been amended to allow a lower fill rate than previously allowed as long as the reserve will reach 500 million barrels by the end of the fiscal year. This will permit the Naval Petroleum Reserve No. 1 at Elk Hills, California to be produced in fiscal year 1986.

Amendment No. 205: Deletes language proposed by the Senate authorizing and requiring quarterly reports on local imports and specifying the information required. Identical provisions are included in Public Law 99-48.

SMITHSONIAN INSTITUTION

Amendment No. 206: Inserts the title "Smithsonian Institution" as proposed by the Senate.

Amendment No. 207: Appropriates no funds for salaries and expenses instead of $300,000 as proposed by the Senate.

Amendment No. 208: Inserts the title "National Gallery of Art" as proposed by the Senate.

Amendment No. 209: Appropriates $400,000 for salaries and expenses as proposed by the Senate.

Amendment No. 210: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which provides that up to $700,000 of funds appropriated for renovation and repair of the West Building of the National Gallery of Art may be spent on renovation and repair of the East Building of the National Gallery of Art.

GENERAL PROVISIONS

Amendment No. 211: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

Restore the matter stricken by said amendment, amended to read as follows:

GENERAL PROVISIONS

None of the funds made available to the Department of the Interior or the Forest Service during fiscal year 1985 by this or any other Act may be used to implement the proposed jurisdictional interchange program.

The managers on the part of the Senate will move to concur in the amendment of the House of the amendment of the Senate.

The managers have revised the bill language to provide that no funds are to be available to implement the proposed jurisdictional land interchange between BLM and the FS, including the Oregon and California grant lands.

The two agencies have indicated on numerous occasions that they do not intend to implement the proposal prior to legislation. A number of public hearings were held in June 1985 and the specific plans and legislative proposals to be developed will reflect those public meetings. The agencies have assured the Congress that no actions designed to actually implement the proposal that is being developed will be taken prior to the passage of appropriate legislation.

There are a number of managerial activities that are not tied to the interchange proposal and that are not to be carried out if their purpose is to implement the interchange proposed. These activities, spelled out in detail in a letter to the chairman of the House appropriations subcommittee on May 9, 1985, from the Director of the Bureau of Land Management and the Chief of the Forest Service, represent efforts to increase the efficiency and effectiveness of the agencies that are authorized by existing law and that are not being proposed as part of an interchange program. The Committee does not want the bill language to be used to block those efforts, including:

—Sharing, where opportunities arise, facilities, and space in towns where both agencies are presently located.

—Selecting employees from one agency through the Merit Promotion Program or through voluntary lateral reassignments to full vacancies in the other agency.

—Sharing of support personnel based on workload and need, such as receptionists, public contact specialists, procurement and contracting personnel, et cetera, within local areas to take advantage of specialized skills and opportunties for increased efficiency.

—Sharing of resource management specialists on projects such as environmental analyses, fires, timber sales, land use planning, et cetera.

—Continuation of cooperative management and related efforts in areas such as wild horse and burro management, the grazing fee study, timber relief progams, rights-of-way management, wild and scenic river management, wilderness and wilderness study activities, mineral leasing, and mining related responsibilities, et cetera.

Amendment No. 212: Deletes heading "General Provisions" proposed by the Senate.

Amendment No. 213: Deletes language making funds for implementation of the Forest Service/BLM land exchange subject to reprogramming procedures of the House and Senate Committees on Appropriations, House Committee on Interior and Insular Affairs and Senate Committee on Energy and Natural Resources and deletes language which prohibits implementation of the

interchange plan for the States of Arizona, Montana, Nevada, New Mexico, North Dakota, Oregon and Wyoming as proposed by the Senate. Amendment No. 211 includes a general prohibition on implementation of the land exchange.

Amendment No. 214: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert the following:

Section 117 of Public Law 98-151 (97 Stat. 977) is amended as follows:

(1) Delete the date "December 31, 1985" and insert in lieu thereof the following: "until future action by the Congress to the contrary",

(2) After the words "Orange County" insert the following: ", Rockland County, Ulster County, or Sullivan County"; and

(3) Delete the words "up to 150 northbound and up to 150 southbound commercial vehicles" and insert in lieu thereof the following: "up to 125 northbound and up to 125 southbound commercial vehicles".

Public Law 98-63 (97 Stat. 329) is amended as follows:

(1) In subsection (2) delete the numeral "10" and insert in lieu thereof: "7";

(2) In subsection (4) delete the word "State's" and insert in lieu thereof: "States' ";

(3) In subsection (4) after the words "State of New Jersey" insert "and the State of New York"; and

(4) In subsection (4) after the words "in New Jersey" insert "and in New York".

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The amendment reduces the number of commercial vehicles which can use Rt. 209 through the Delaware Water Gap National Recreation Area from 150 each way to 125 each way, extends the ban on commercial vehicles until future action by the Congress, reduces the maximum allowable fee from $10 to $7, and exempts vehicles serving Rockland County, Ulster County or Sullivan Couty.

CHAPTER VIII

DEPARTMENT OF LABOR

EMPLOYMENT AND TRAINING ADMINISTRATION

TRAINING AND EMPLOYMENT SERVICES

Amendments No. 215: Inserts heading as proposed by the Senate.

Amendment No. 216: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the Senate amendment which makes available for obligation job training funds for national activities which have been withheld from obligation pursuant to section 101(j) of Public Law 98-473. The House bill contained no similar provision.

These funds are intended to maintain ongoing pilot and demonstration programs of proven effectiveness at least at the same operating levels as in the prior program year.

Amendment No. 217: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the Senate amendment which appropriates $5,117,000 for job training programs for migrant farmworkers and provides that each State shall receive the same amount in 1985 as in 1984. The House bill contained no similar provision.

STATE UNEMPLOYMENT INSURANCE AND EMPLOYMENT SERVICE OPERATIONS

Amendment No. 218: Makes available $20,000,000 from the Unemployment Trust Fund for nonpersonal services costs of State employment security agencies, instead of $30,000,000 proposed by the House. The Senate bill included no funding for this.

Amendment No. 219: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the Senate amendment which authorizes amortization payments for States which had independent retirement plans prior to 1980 in their State employment security agencies. The House bill contained no similar provision.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

HEALTH RESOURCES AND SERVICES ADMINISTRATION

HEALTH RESOURCES AND SERVICES

Amendment Nos. 220 and 221: Insert headings as proposed by the Senate.

Amendment No. 222: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate. This language extends the availability of funds appropriated under P.L. 98-619 for a Center or Institute for Nursing Research through September 30, 1986 and makes the availability of those funds conditional on the passage of a specific legislative authority to establish a Center or Institute. The House bill contained no similar provision.

Amendment No. 223: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate. This language reauthorizes the HEAL loan program for fiscal year 1985 and establishes a limit of $250 million on new loan guarantees for 1985. The House bill contained no similar provision.

Amendment No. 224: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate. This amendment appropriates $2 million to remain available until September 30, 1986, to initiate a new program of demonstration grants to improve emergency medical services for children. The House bill contained no similar provision.

Amendment No. 225: Deletes appropriation of $1,200,000 proposed by the Senate to fund activities under the National Organ Transplant Act. The conferees agree, however, that $800,000 should be reprogrammed for this purpose from excess funds in the National Health Service Corps. This amount will fund the activities of the Organ Transplant Task Force through completion of its work in January 1986. The conferees have not included $400,000 proposed in the Senate bill to initiate a contract to begin the Organ Transplant Network authorized by Section 372 of the Public Health Service Act. This action has been taken because insufficient time remains during the current fiscal year to review applications and make an award. The conferees expect, however, to reconsider this matter in the fiscal year 1986 bill and direct the Department to complete all preliminary actions, including issuance of a request for proposals, so that a contract can be entered into as early as possible after enactment of the 1986 appropriations. The House bill contained no similar provisions. The conferees agree to a further reprogramming of $8,187,000 from the National Health Service Corps to community health centers ($8,000,000) and to the National Hansen's Disease Center ($187,000).

Amendment No. 226: Deletes language proposed by the Senate which would have directed the Office of Management and Budget to appropriation funds for the community and migrant health centers program in such amounts as requested by the Secretary of Health and Human Services. The House bill contained no similar provision.

Amendment No. 227: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate. This amendment appropriates $1,720,000 to the Health Maintenance Organization Loan and Loan Guarantee Fund to pay off defaulted loans as required by law. These funds remain available until expended. The House bill contained no similar provisions.

CENTERS FOR DISEASE CONTROL

DISEASE CONTROL

Amendment No. 228: Deletes appropriations of $3,000,000 proposed by the Senate to establish a new program for centers for health promotion and disease prevention. The House bill included no funds for this purpose.

The conferees have deleted funds for the establishment of three centers for health promotion and disease prevention without prejudice. The conferees will give consideration to including funds for the establishment of this program in the fiscal year 1986 Labor-HHS-Education Appropriations Bill.

RESEARCH

Amendment No. 229: Deletes appropriation of $2,000,000 proposed by the Senate for establishment of a health research center at the University of Utah. The House bill included no funds for this purpose.

NATIONAL INSTITUTES OF HEALTH

Amendment No. 230: Reported in technical disagreement. The managers on the part of the House will move to recede and concur in the Senate amendment, amended to read as follows:

In lieu of the matter inserted by said amendment, insert:

NATIONAL INSTITUTES OF HEALTH

Of the funds appropriated by Public Law 98-619 for fiscal year 1985 for extramural research grants to be awarded by the National Institutes of Health, and required to be obligated in that fiscal year, not to exceed $20,000,000 shall remain available for obligation until September 30, 1986: Provided, That funds appropriated for fiscal year 1985 shall be used to support no fewer than 6,200 new and competing research projects and 533 research centers.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The Senate amendment would have provided authority for up to $100,000,000 of the 1985 funds previously appropriated for NIH research grants and centers to be used by grantees over a period of three years, rather than the customary 1 year. The House bill contained no similar provision. The conference agreement authorizes not to exceed $20,000,000 of previously appropriated 1985 funds to be carried forward into 1986, and specifies that the funds obligated in 1985 shall support no fewer than 6,200 competing research projects and 533 research centers. The conferees agree that funds appropriated for research grants (including research

centers) should ordinarily be used to support 12 months of activity following the starting date of the grant award.

Amendment No. 231: Appropriates $3,000,000 to carry out section 502(b) of Public Law 98-558, to remain available until September 30, 1987, as proposed by the Senate. The House bill contained no similar provision.

ALCOHOL, DRUG ABUSE, AND MENTAL HEALTH ADMINISTRATION

ALCOHOL, DRUG ABUSE, AND MENTAL HEALTH

Amendment No. 232: Inserts heading as proposed by the Senate.

Amendment No. 233: Deletes appropriation of $1,000,000 proposed by the Senate. The conferees are agreed that the issue of funding for career teacher awards in the fields of alcohol and drug abuse is being deferred without prejudice pending action on the fiscal year 1986 appropriations bill.

Amendment No. 234: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the Senate amendment, amended to read as follows:

In lieu of the matter inserted by said amendment, insert the following:

Funds appropriated by Public Law 98-619 for fiscal year 1985 for extramural research grants to be awarded by the Alcohol, Drug Abuse and Mental Health Administration and required to be obligated in that fiscal year shall be used to support no fewer than 550 new and competing research projects.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate. The Senate amendment would have provided authority for up to $7,350,000 of the 1985 funds previously appropriated for ADAMHA research grants to be used by grantees over a period of three years, rather than the customary one year. The House bill contained no similar provision. The conference agreement authorizes no multi-year funding, but specifies that the funds obligated in 1985 shall be used to support no fewer than 550 competing research projects. The conferees agree that funds appropriated for research grants should ordinarily be used to support 12 months of activity following the starting date of the grant award. The conferees further agree that any funds not needed for investigator-initiated projects should be used to restore other research mechanisms to levels anticipated by the House and Senate in their original action on the 1985 appropriation, P.L. 98-619.

The conferees would like to highlight their continued support of the clinical research program on mental disorders of later life. They expect that, within existing funding limitation, the National Institute of Mental Health will continue to support this program.

OFFICE OF HUMAN DEVELOPMENT SERVICES

HUMAN DEVELOPMENT SERVICES

Amendment No. 235: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter stricken and inserted by said amendment, insert the following:

$11,000,000 to remain available until September 30, 1986, of which $6,000,000 shall be for carrying out the Family Violence Prevention and Services Act (title III of Public Law 98-457), and $5,000,000 shall be for carrying out a child abuse prevention Federal challenge grant program under sections 402 through 409 of Public Law 98-473

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement appropriates $6,000,000 for the family violence prevention and services program and $5,000,000 for the child abuse prevention Federal challenge grant program; and extends the availability of these funds through September 30, 1986. The House bill provided $6,000,000 for the family violence prevention and services program only. The Senate amendment included $6,000,000 for family violence prevention and services, $5,000,000 for child abuse challenge grants, and $5,000,000 for grants to States for planning and development of dependent care.

DEPARTMENT OF EDUCATION

SCHOOL ASSISTANCE IN FEDERALLY AFFECTED AREAS

Amendment No. 236: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which requires the Secretary of Education to distribute funds appropriated for fiscal year 1985 for entitlements under Section 2 of the Act of September 30, 1950 to local educational agencies in an amount equal to 75 percent of the amount to which such agencies were entitled in fiscal year 1984. Such distribution is to take effect 30 days after the date of enactment of this Act. The House bill contained no similar provision.

REHABILITATION SERVICES AND HANDICAPPED RESEARCH

Amendment No. 237: Inserts appropriation heading as proposed by the Senate.

Amendment No. 238: Appropriates $715,000 for activities under section 130 of the Rehabilitation Act of 1973 and deletes earmarking for the Navajo Tribal Council proposed by the Senate. The House bill includes no funds for this purpose.

VOCATIONAL AND ADULT EDUCATION

Amendment No. 239: Inserts appropriation heading as proposed by the Senate.

Amendment No. 240: Appropriates $100,000,000 for basic grants under Title II of the Carl D. Perkins Vocational Education Act instead of $146,257,000 for Titles II and III and section 422 of such Act as proposed by the Senate. The House bill contained no similar provision.

Amendment No. 241: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which appropriates $1,963,000 in supplemental funds for basic grants under the Adult Education Act to ensure that each State is allocated, for school year 1985-1986, an amount equal to its allocation for the proceding year. The House bill contained no similar provision.

EMERGENCY IMMIGRANT EDUCATION

Amendment No. 242: Restores matter inserted by the House and stricken by the Senate relating to the 1984 appropriation for emergency immigrant education assistance.

STUDENT FINANCIAL ASSISTANCE

Amendment No. 243: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which appropriates $2,482,000 for the direct student loan program to ensure that each State will receive for fiscal year 1985 an amount at least equal to the amount which that State received in fiscal year 1984. The House bill contained no similar provision.

HIGHER EDUCATION

Amendment No. 244: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which inserts language extending the availability, until December 31, 1985, of the funds appropriated for fiscal year 1985 for the National graduate fellowship program. The House bill contained no similar provision.

LIBRARIES

Amendment No. 245: Deletes appropriation of $5,000,000 proposed by the Senate for Title VI of the Library Services and Construction Act. The House bill contained no similar provision.

The conferees have deleted funds for the library literacy initiative without prejudice. The conferees do recognize the serious and growing illiteracy problem in the Nation, and will give every consideration to including funds for the establishment of this program in the fiscal year 1986 Labor-HHS-Education Appropriations Bill.

DISAPPROVAL OF DEFERRALS

Amendment No. 246: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the Senate amendment which inserts a heading.

UNITED STATES INSTITUTE OF PEACE.

Amendment No. 247: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the Senate amendment which disapproves a deferral of funds pertaining to the United States Institute of Peace. The House bill contained no similar provision.

NEGATIVE SUPPLEMENTALS

Amendment No. 248: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the Senate amendment which disapproves nine different deferrals of funds relating to so-called "negative supplementals". The House bill contained no similar provision.

CHAPTER IX—LEGISLATIVE BRANCH

SENATE

Amendment No. 249: Reported in technical disagreement. Inasmuch as the amendment related solely to the Senate, and in accord with long practice under which each body determines its own housekeeping requirements and the other concurs without intervention, the managers on the part of the House will offer a motion to recede and concur in the Senate amendment with an amendment as follows:

Immediately before the heading "ADMINISTRATIVE PROVISIONS" insert the following:

INQUIRIES AND INVESTIGATIONS

For an additional amount for "Inquiries and Investigations", $3,000,000.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

GENERAL ACCOUNTING OFFICE

SALARIES AND EXPENSES

Amendment No. 250: Appropriates $5,000,000 for the settlement of two employment related class action claims as proposed by the Senate.

CHAPTER X
DEPARTMENT OF TRANSPORTATION
OFFICE OF THE SECRETARY
SALARIES AND EXPENSES

Amendment No. 251: Deletes language proposed by the Senate transferring $600,000 from unobligated minority business resource center funds for CAB-related activities.

WORKING CAPITAL FUND

Amendment No. 252: Reduces limitation to $64,500,000 as proposed by the Senate instead of $65,470,000 as proposed by the House.

Amendment No. 253: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate specifying that $30,000 of the amount reduced by Amendment No. 252 is pursuant to section 2901 of the Deficit Reduction Act of 1984.

COAST GUARD
OPERATING EXPENSES

Amendment No. 254: Deletes appropriation of $1,500,000 proposed by the Senate. The conferees intend that the Coast Guard's fiscal year 1985 full-time equivalent employment level be maintained at 38,900. The conferees also expect the Coast Guard to carry out all of the operating activities outlined in Senate Report 99-82.

ACQUISITION, CONSTRUCTION, AND IMPROVEMENTS

Amendment No. 255: Appropriates $27,700,000 as proposed by the Senate.

ALTERATION OF BRIDGES

Amendment No. 256: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate that inserts language declaring the bridge at mile 6.9 on the Willamette River an unreasonable obstruction to navigation for the purposes of the Act of June 21, 1940.

FEDERAL AVIATION ADMINISTRATION
OPERATIONS
(INCLUDING TRANSFER OF FUNDS)

Amendment No. 257: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert the following:

(INCLUDING TRANSFER OF FUNDS)

For an additional amount for "Operations", $15,000,000, of which $5,000,000 shall be derived by transfer from "Redeemable preference shares", $5,000,000 from "Payments to air carriers", $2,500,000 from "Construction, Metropolitan Washington Airports", and $2,500,000 from "Headquarters administration": Provided, That section 5532(f)(2) of title V, United States Code, is amended by striking "December 31, 1985" and inserting "December 31, 1986" in lieu thereof: Provided further, That section 8344(h) of title V, United States Code, is amended (a) by adding the following phrase at the end of paragraph (1): ": Provided, however, That the amount such an annuitant may receive in pay, excluding premium pay, in any pay period when aggregated with the annuity payable during that same period shall not exceed the rate payable for level V of the Executive Schedule."; and (b) by striking "August 3, 1981" in paragraph (2) and inserting "April 1, 1985" in lieu thereof: Provided further, That in the event that the Federal Aviation Administrator employes annuitants subject to section 8344(h) of title V, United States Code, not to exceed $10,000,000 to be derived from the unobligated balance of any appropriation available for obligation by the Federal Aviation Administration as of the effective date of this Act, shall be available through December 31, 1986 for the purpose of funding such employment: Provided further, That any such funding shall be reported to the Committees on Appropriations of the Senate and the House of Representatives.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Although the provisions of the amendment allow for premium pay in excess of the rate payable for level V of the Executive Schedule, the conferees expect that such payment will be restricted to that which is necessary for the operational needs of the air traffic control system.

Amendment No. 258: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert the following:

For an additional amount, in addition to the other amounts provided under this head, $2,000,000, to remain available until expended, for an expanded air marshall program on international flights of United States air carriers pursuant to sections 315 and 316 of the Federal Aviation Act of 1958 (49 U.S.C. 1356 AND 1357).

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

FACILITIES AND EQUIPMENT
(AIRPORT AND AIRWAY TRUST FUND)
(RESCISSION)

Amendment No. 259: Rescinds $12,000,000 as proposed by the Senate instead of $10,000,000 as proposed by the House.

The conferees intend that, of the funds remaining in fiscal year 1985 for the airway science curriculum program, $1,000,000 is to be made available to Florida Memorial College to assist the college in providing facilities and equipment to support its airway science program.

The conferees are concerned about visibility problems associated with the existing locations of the air traffic control towers at the Scottsdale Municipal Airport, Grand Forks Airport, and Kahului Airport. These problems may be presenting unwarranted safety hazards to pilots and corrective measures must be undertaken as soon as possible. With respect to Kahului Airport, the conferees are aware that the State of Hawaii, in initiating design work, has already allocated $50,000 towards a relocation project. The conferees direct the FAA to undertake design and land acquisition activities leading to tower relocation within available funds at these sites.

FEDERAL HIGHWAY ADMINISTRATION
RAILROAD-HIGHWAY CROSSINGS
DEMONSTRATION PROJECTS

Amendment No. 260: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the sum proposed by said amendment, insert the following: *$14,640,000*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement includes the following allocations:

Springfield, Illinois	$5,300,000
Augusta, Georgia	4,840,000
Pine Bluff, Arkansas	4,500,000

Amendment No. 261: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the sum proposed by said amendment, insert the following: *$9,760,000*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION
OPERATIONS AND RESEARCH
(RESCISSIONS)

Amendment No. 262: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter stricken and inserted by said amendment, insert the following:

no funds shall be obligated until the Secretary has made a complete, definitive and binding ruling on the compliance of each state mandatory safety belt use law that has been enacted as of the date of this act with the minimum criteria set forth in Federal Motor Vehicle Safety Standard 208: Provided, That all funds available under this head for the purposes of carrying out a national program to encourage the use of automobile safety belts and passive restraints shall remain available until September 30, 1986: Provided further, That, notwithstanding the immediately preceding proviso, of the funds available under this head for the purposes of carrying out a national program to encourage the use of automobile safety belts and passive restraints, $3,000,000

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement distributes the remaining funds for the occupant restraint information program as follows:

—$1,000,000 for general safety belt education, information, and enforcement activities with special emphasis on efforts in those states that have passed belt use laws;

—$3,000,000 to overcome the misinformation and lack of knowledge that now exist regarding automatic belts and air bags, and to encourage public acceptance of such devices; and

—$500,000 to make complete, definitive and binding rulings on the compliance of state mandatory belt laws with the minimum criteria set forth in FMVSS 208, and to disseminate the results of such rulings.

The conference agreement includes language requiring the Secretary to rule on the compliance of state mandatory belt laws with FMVSS 208 before additional funds may be spent for other occupant restraint information program activities. The conferees intend that the Secretary make such rulings for each state law that has been passed to date within 45 days of the effective date of this Act. This is in keeping with the Secretary's commitment to rule on each state law "as it is passed". Of the $3,000,000 available for passive restraint activities, the

conferees direct that at least $2,500,000 be expended for the promotion of low-cost air bag systems through fleet purchase programs and support of ongoing research and development activities. The conference agreement also extends the availability of remaining funds until September 30, 1986.

The conferees reiterate the directive in the Senate report specifying that an appropriate amount be made available for a study assessing the effectiveness of seat belts in school buses.

FEDERAL RAILROAD ADMINISTRATION

NORTHEAST CORRIDOR IMPROVEMENT PROGRAM

(RESCISSION AND DISAPPROVAL OF DEFERRAL)

Amendment No. 263: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate conforming the bill heading.

Amendment No. 264: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate disapproving deferral D85-50 for the Northeast Corridor Improvement Program.

Although the conferees have disapproved the deferral of $30,000,000 for the Atlantic City rail rehabilitation project, the conferees reiterate their full support for the cost-sharing and operating cost provisions for this project contained in Public Law 98-473.

RAILROAD REHABILITATION AND IMPROVEMENT FINANCING FUNDS

Amendment No. 265: Increases the limitation on new section 511 loan guarantees to $6,500,000 as proposed by the House. The Senate bill deleted the House language thereby maintaining this limitation at the current level of $2,500,000.

RESEARCH AND SPECIAL PROGRAMS ADMINISTRATION

RESEARCH AND SPECIAL PROGRAMS

(TRANSFER OF FUNDS)

Amendment No. 266: Provides $650,000 by transfer instead of $700,000 by transfer as proposed by the Senate and $425,000 by transfer as proposed by the House.

RELATED AGENCIES

INTERSTATE COMMERCE COMMISSION

SALARIES AND EXPENSES

Amendment No. 267: Appropriates $2,100,000 instead of $2,000,000 as proposed by the Senate and $3,150,000 as proposed by the House. The conferees direct that the additional $100,000 above the Senate bill is to be used only for overtime expenses to reduce critical regulatory case backlogs.

Amendment No. 268: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate limiting staffing to six full-time equivalent staff years, including commissioners, for each commissioner's office except for the chairman's office.

PANAMA CANAL COMMISSION

CAPITAL OUTLAY

(TRANSFER OF FUNDS)

Amendment No. 269: Provides $1,700,000 by transfer as proposed by the Senate instead of $2,220,000 by transfer as proposed by the House.

PAYMENTS TO THE REPUBLIC OF PANAMA

(TRANSFER OF FUNDS)

Amendment No. 270: Provides $2,705,000 by transfer as proposed by the Senate instead of $2,186,000 by transfer as proposed by the House.

CHAPTER XI

DEPARTMENT OF THE TREASURY

FINANCIAL MANAGEMENT SERVICE

Amendment No. 271: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which makes $6,000,000 available until expended for consolidating the financial management service in Hyattsville, Maryland.

U.S. CUSTOMS SERVICE

SALARIES AND EXPENSES

Amendment No. 272: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate amended to read as follows:

In lieu of the matter stricken and inserted by said amendment, insert the following:

$15,000,000, of which $12,200,000 shall remain available untail September 30, 1986

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This amendment to the Senate amendment restores funds for 120 additional positions in the Customs Service and provides $12,200,000 for the Marine interdiction program.

It is the view of the conferees that lighter-than-air (LTA) airships offer the potential for increased capability in detection, surveillance and tracking of multiple suspect marine surface vessels. The mobility and long endurance of current state of the art LTA platforms will improve the capability of the Customs Service to vector their apprehension vessels to the point of interdiction.

The conferees direct the Customs Service to conduct a feasibility study, within available fiscal year 1985 funds, of using an LTA vehicle to conduct coastal and inland surveillance and multiple platform coordination operations. The findings and recommendations of this study are to be provided to the Appropriations and Government Operations Committees of the Senate and House of Representatives by April 1, 1986.

OPERATIONS AND MAINTENANCE

AIR INTERDICTION PROGRAM

Amendment No. 273: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate making available an additional $11,000,000 to remain available until September 30, 1986 for the air interdiction program of the U.S. Customs Service.

U.S. SECRET SERVICE

SALARIES AND EXPENSES

Amendment No. 274: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which appropriates $5,400,000 of which $4,050,000 is to remain available until expended for additional security at the White House.

EXECUTIVE OFFICE OF THE PRESIDENT

NATIONAL CRITICAL MATERIALS COUNCIL

Amendment No. 275: Appropriates $200,000 for salaries and expenses for the National Critical Materials Council as proposed by the House.

INDEPENDENT AGENCIES

GENERAL SERVICES ADMINISTRATION

FEDERAL BUILDINGS FUND

LIMITATIONS ON AVAILABILITY OF REVENUE

Amendment No. 276: Makes available $31,033,000 for real property management and related activities as proposed by the House instead of $7,225,000 as proposed by the Senate.

Amendment No. 277: Makes available $22,617,000 for new construction of a Federal Building at Long Beach, California as proposed by the House.

Amendment No. 278: Makes available $1,108,000 for repairs and alterations of the Lufkin, Texas Federal Building as proposed by the House.

Amendment No. 279: Provides that $3,000,000 previously appropriated for Real Property Operations shall be available for purchase of the Scotia, New York Depot as proposed by the House.

Amendment No. 280: Makes available $221,809,000 for repairs and alterations, $59,596,000 for design and construction services and $689,899,000 for real property operations as proposed by the House.

Amendment No. 281: Makes available $2,284,213,000 to the Federal Buildings Fund as proposed by the House instead of $2,260,405,000 as proposed by the Senate.

GENERAL PROVISIONS

Amendment No. 282: Deletes language proposed by the House. The conferees were informed that the new director of the Office of Personnel Management intends to modify existing regulations and to publish proposed regulations in the Federal Register for comment and to try to meet the criticism that has been expressed by Congress concerning the existing regulations.

The conferees accept the Senate position with the understanding that the proposed modified regulations will not go into effect until Congress has had an opportunity to review the proposed, modified regulations as suggested by the Office of Personnel Management and that they do not go into effect prior to October 1, 1985.

Amendment No. 283: Restores language proposed by the House which prohibits the U.S. Customs Service from reducing the number of regions, districts, or entry processing locations or consolidating or centralizing certain duty assessment or appraisement functions.

Amendment No. 284: Deletes language proposed by the Senate which would have provided additional benefits to certain federal employees. The conferees request that the appropriate legislative Committees promptly consider this matter and take appropriate action.

Amendment No. 285: Deletes language proposed by the Senate which expresses the sense of the Senate on a tax measure regarding cooperatives.

Amendment No. 286: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which prohibits a reduction in stockpile goals below those levels in effect on October 1, 1984.

CHAPTER XII—DISTRICT OF COLUMBIA

Amendment No. 287: Insert new chapter and heading for the District of Columbia as proposed by the Senate.

FEDERAL FUNDS

Amendment No. 288: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which appropriates $14,180,000 for a Federal contribution to the District of Columbia.

DISTRICT OF COLUMBIA FUNDS

Amendment No. 289: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following:

DISTRICT OF COLUMBIA FUNDS

GOVERNMENTAL DIRECTION AND SUPPORT

For an additional amount for "Governmental direction and support", $4,553,000: Provided, That $170,000 of this additional amount shall be allocated exclusively to the Commercial Assessment Division of the Department of Finance and Revenue to fund six new commercial assessor positions: Provided further, That of the $100,000 appropriated for fiscal year 1985 for the Statehood Constitutional Convention, $50,000 shall be for the Statehood Commission and $50,000 shall be for the Statehood Compact Commission: Provided further, That the cash and/or budget authority balance available to the Statehood Constitutional Convention on the date of expiration of the terms of its members, as distinguished from that allocated for the Statehood Commission and the Statehood Compact Commission, shall revert to the general fund of the District of Columbia.

ECONOMIC DEVELOPMENT AND REGULATION

For an additional amount for "Economic development and regulation", $9,873,000.

PUBLIC SAFETY AND JUSTICE

(INCLUDING RESCISSION)

For an additional amount for "Public safety and justice", $26,680,000: Provided, That $2,300,000 of this amount shall be allocated to the Metropolitan Police Department for the sole purpose of paying additional wages and fringe benefits of the Fraternal Order of Police arbitration award should that award not be disapproved according to law: Provided further, That if the arbitration award is disapproved, the $2,300,000 shall be used solely for repayment of the general fund deficit: Provided further, That notwithstanding any other provision of law, in the case of each employee who retired from the Fire Department of the District of Columbia before February 15, 1980, and who is receiving on the date of the enactment of this Act an annuity based on service in the Fire Department, the District of Columbia Retirement Board shall cause to be paid not later than September 30, 1985, to each such employee a lump-sum payment equal to three percent of his or her annuity; Provided further, That of available funds under this head for fiscal year 1985, $300,000 are rescinded.

PUBLIC EDUCATION SYSTEM

(INCLUDING RESCISSION)

For an additional amount for "Public education system", $6,835,000, to be allocated as follows: $5,000,000 additional for the public schools of the District of Columbia; $1,324,000 additional for the University of the District of Columbia; $4,000 additional for the Educational Institution Licensure Commission; $356,000 additional for the Public Library; and $151,000 additional for the Commission on the Arts and Humanities: Provided, That of the funds available under this head for fiscal year 1985, $11,794,000 of the amount allocated to the District of Columbia Teachers' Retirement Fund are rescinded.

HUMAN SUPPORT SERVICES

(INCLUDING RESCISSION)

For an additional amount for "Human support services", $9,598,000: Provided, That of the amount available from the revenue sharing trust fund for fiscal year 1985, $698,000 are rescinded.

PUBLIC WORKS

(RESCISSION)

Of available funds under this head for fiscal year 1985, $875,000 are rescinded.

WASHINGTON CONVENTION CENTER FUND

For an additional amount for "Washington Convention Center Fund", $324,000.

REPAYMENT OF LOANS AND INTEREST

(RESCISSION)

Of available funds under this head for fiscal year 1985, $1,473,000 are rescinded.

REPAYMENT OF GENERAL FUND DEFICIT

For an additional amount for "Repayment of general fund deficit", $3,500,000.

SHORT-TERM BORROWINGS

(RESCISSION)

Of available funds under this head for fiscal year 1985, $1,250,000 are rescinded.

CAPITAL OUTLAY

For an additional amount for "Capital outlay", $23,400,000.

WATER AND SEWER ENTERPRISE FUND

For an additional amount for "Water and sewer enterprise fund", $10,801,000.

GENERAL PROVISIONS

SEC. 134. The Public Service Commission is hereby authorized to order and to approve the deregulation of streetlighting service to the District of Columbia as provided in its opinion and order in Formal Case No. 813, dated July 12, 1984 (Order No. 8056), notwithstanding the provisions of section 493(a) of the District of Columbia Self-Government and Governmental Reorganization Act, approved December 24, 1973 (87 Stat. 811; Public Law 93-198; D.C. Code, sec. 43-402), section 8, paragraph 2 of An Act Making appropriations to provide for the expenses of the government of the District of Columbia for the fiscal year ending June thirtieth, nineteen hundred and fourteen, and for other purposes, approved March 4, 1913 (37 Stat. 977; Public Law 67-435; D.C. Code, sec. 43-501), and section 1 of An Act Making appropriations to provide for the expenses of the government of the District of Columbia for the fiscal year ending June thirtieth, nineteen hundred, and for other purposes, approved March 3, 1899 (30 Stat. 1053; D.C. Code, sec. 43-1207): Provided, That the provisions of this opinion and order regarding deregulation of streetlighting service are hereby ratified and declared to be in effect as of July 12, 1984, and shall continue to be in effect until revoked or rescinded.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees have amended the Senate amendment, which inserts a new chapter for the District of Columbia, to reflect revised estimates based on final action taken by the District of Columbia government on their fiscal year 1985 supplemental budget requests. The Senate action was based on preliminary budget estimates. The effect of the conference action is to provide a net increase in budget authority from local funds of $79,872,000 instead of $65,798,000 as proposed by the Senate. The House bill did not reflect any of the District government's supplemental requests.

Governmental Direction and Support.—The conference action appropriates $4,553,000 instead of $4,295,000 as proposed by the Senate. The net increase of $258,000 above the Senate allowance consists of (1) $82,000 for a 3 percent bonus initially included in the "Personal Services" account; (2) $186,000 for the Council of the District of Columbia for a research assistant for each of the Council's 11 standing committees ($60,000), computer equipment ($100,000), and furniture for the Council's chambers ($26,000); and (3) a decrease of $10,000 from the Board of Elections and Ethics. The conferees have also included bill language earmarking $170,000 for six new commercial assessor positions in the Department of Finance and Revenue. Language is also included allocating funds to the Statehood Commission and the Statehood Compact Commission and providing that unexpended balances shall revert to the general fund of the District of Columbia.

Economic Development and Regulation.—The conference action appropriates $9,873,000 instead of $9,849,000 as proposed by the Senate. The net increase of $24,000 above the Senate allowance is for a 3 percent bonus initially included in the "Personal Services" account. The conferees have also approved an increase of $87,000 for the Office of Business and Economic Development for legal fees associated with the development of a prospectus for investors in the Economic Development Finance Corporation. This increase is offset by a reduction of $87,000 from the Department of Employment Services.

Public Safety and Justice.—The conference action appropriates $26,680,000 instead of $21,681,000 as proposed by the Senate and rescinds $300,000. The net increase of $4,999,000 in appropriations above the Senate allowance consists of (1) $5,205,000 for a 3 percent bonus initially included in the "Personal Services" account; (2) $2,300,000 for pay adjustments for police personnel pursuant to an arbitration award; (3) $250,000 for salaries and office supplies for the Office of the Corporation Counsel; (4) a reduction of $250,000 in the "Settlements and Judgments" account; and (5) a reduction of $2,506,000 in the Police and Fire Retirement System. The rescission of $300,000 is from amounts previously appropriated for "Settlements and Judgments". The conferees have included language in the bill allocating $2,300,000 for wages and fringe benefits for the Metropolitan Police Department in accordance with an arbitration award and providing that should the arbitration award be disapproved, the $2,300,000 is to be used for repayment of the general fund deficit. The conferees have also approved bill language requiring the District to pay employees who retired from the Fire Department prior to February 15, 1980, a one-time lump sum bonus of 3 percent of their annuity by September 30, 1985. This payment results from an agreement entered into on March 27, 1985, between District officials and the collective bargaining unit for District fire fighters.

Public Education System.—The conference action appropriates $6,835,000 instead of $5,251,000 as proposed by the Senate and rescinds $11,794,000 instead of $8,500,000 as proposed by the Senate. The increase of

$1,584,000 in appropriations above the Senate allowance consists of a 3 percent bonus allocated to the University of the District of Columbia ($1,324,000), the Educational Institution Licensure Commission ($4,000), and the Public Library ($256,000). This 3 percent bonus was initially included in the "Personal Services" account. The increase of $3,294,000 in rescissions from the Teachers' Retirement and Annuity Fund is based on an actuary's report received by District officials subsequent to Senate action.

Human Support Services.—The conference action appropriates $9,598,000 instead of $7,866,000 as proposed by the Senate. The increase of $1,732,000 above the Senate allowance consists of (1) $1,432,000 for a 3 percent bonus initially included in the "Personal Services" account, and (2) $300,000 for the complementary energy assistance program in the D.C. Energy Office.

Public Works.—The conference action rescinds $875,000 as proposed by the Senate.

Washington Convention Center Fund.—The conference action appropriates $324,000 instead of $500,000 as proposed by the Senate and reflects the allowance recommended by the Council subsequent to Senate action.

Repayment of Loans and Interest.—The conference action rescinds $1,473,000 as proposed by the Senate.

Repayment of General Fund Deficit.—The conference action appropriates $3,500,000 and is based on final City Council action which occurred subsequent to Senate consideration of this bill.

Short-Term Borrowings.—The conference action rescinds $1,250,000 as proposed by the Senate.

Personal Services.—The conference action deletes this appropriation instead of appropriating $8,327,000 as proposed by the Senate. This account consisted of funds for a 3 percent bonus which the conferees have distributed to the various appropriation titles within this chapter in accordance with final City Council action on the District's fiscal year 1985 supplemental budget requests.

Adjustments.—The conference action deletes this paragraph which would have applied reductions totaling $3,576,000 included in the District's fiscal year 1985 appropriation Act (H.R. 5899; P.L. 98-473; 98 Stat. 1837) to the District's accumulated general fund deficit. The conferees agree that language already included in the District's fiscal year 1985 appropriation Act under the heading "Repayment of General Fund Deficit" authorizes the Mayor to reduce the general fund deficit with whatever unused revenues and/or budget authority are available.

Capital outlay.—The conference action appropriates $23,400,000 instead of $5,750,000 as proposed by the Senate. The increase of $17,650,000 above the Senate allowance consists of (1) $2,500,000 for a branch library in the Shepherd Park area of Ward 4; (2) $300,000 for acquisition and renovation of a multipurpose senior citizens center in the northern section of Ward 4; and (3) $14,850,000 to purchase the streetlight plant from manhole to light from the Potomac Electric Power Company. The price of the streetlight plant is based on the net book value of $13,718,000 determined in the course of a depreciation study conducted by a national accounting firm and a net of $1,132,000 in compensation for foregone tax benefits resulting from the divestiture of this portion of PEPCO's physical plant.

Water and sewer enterprise fund.—The conference action appropriates $10,801,000 as proposed by the Senate.

General provisions.—The conference action includes language which authorizes and ratifies action taken by the Public Service Commission in July 1984 to deregulate streetlighting service in the District.

The conferees have not approved two language changes relative to timetables and procedures for budget submissions by the Mayor to the Council. The conferees are hopeful these matters can be resolved without the need for statutory language.

Interagency Reprogrammings.—The conferees concur in two of the three reprogrammings proposed by the Senate. The first reprogramming totals $5,403,000 from the Police and Fire Retirement Fund to the Judges retirement system ($200,000); the Fire Department ($4,875,000); the Office of the Corporation Counsel ($304,000): and the D.C. National Guard ($24,000). The second reprogramming totals $5,251,000 from the District's payment to the Washington Metropolitan Area Transit Authority to the D.C. Department of Public Works for additional street maintenance and other costs. The third reprogramming involved $5,251,000 from the Teacher's Retirement and Annunity Fund. This reprogramming was revised to $11,794,000 by the Council of the District of Columbia subsequent to Senate action and requires bill language because the District's fiscal year 1985 appropriation Act earmarked these funds within the "Public Education System" appropriation. The necessary language to carry out the intent of the revised reprogramming request is included in the Act under the "Public Education System" section of this amendment.

TITLE II

INCREASED PAY COSTS FOR THE FISCAL YEAR 1985 LEGISLATIVE BRANCH

SENATE

Amendment No. 290: Reported in technical disagreement. Inasmuch as the amendment relates solely to the Senate, and in accord with long practice under which each body determines its own housekeeping requirements and the other concurs without intervention, the mangers on the part of the House will offer a motion to recede and concur in the Senate amendment.

THE JUDICIARY

COURTS OF APPEALS, DISTRICT COURTS, AND OTHER JUDICIAL SERVICES

SALARIES OF JUDGES

Amendment No. 291: Appropriates $1,910,000 as proposed by the House instead of $1,700,000 as proposed by the Senate.

EXECUTIVE OFFICE OF THE PRESIDENT

Amendment No. 292: Inserts language proposed by the Senate appropriating $20,000 for the Office of Science and Technology Policy.

DEPARTMENT OF AGRICULTURE

Amendment No. 293: Appropriates $65,000 for the Office of the Secretary as proposed by the House instead of $129,000 as proposed by the Senate.

Amendment No. 294: Earmarks $175,000 for various Departmental Administration functions as proposed by the House instead of $255,000 as proposed by the Senate.

Amendment No. 295: Appropriates $220,000 for Departmental Administration as proposed by the House instead of $300,000 as proposed by the Senate.

FOREST SERVICE

Amendment No. 296: Appropriates $1,164,000 for forest research as proposed by the Senate instead of $964,000 as proposed by the House.

Amendment No. 297: Appropriates no funds for construction as proposed by the Senate instead of $1,777,000 as proposed by the House.

Amendment No. 298: Deletes $30,000 for land acquisition proposed by the House.

DEPARTMENT OF COMMERCE

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

OPERATIONS RESEARCH, AND FACILITIES

Amendment No. 299: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter stricken and inserted, insert the following: *"$4,860,000, of which $2,783,000 shall".*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees agree that these sums shall be combined with those designated for savings related to Section 2901 of the Deficit Reduction Act of 1984 to meet part of the fiscal year 1985 requirements associated with the January 1, 1985, 3.5 percent Federal pay increase. The conference agreement provides a total of $9,000,000 for NOAA's pay costs.

DEPARTMENT OF DEFENSE—MILITARY

MILITARY PERSONNEL

(INCLUDING TRANSFER OF FUNDS)

MILITARY PERSONNEL, ARMY

Amendment No. 300: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which appropriates $417,249,000 instead of $442,249,000 as proposed by the House and, in addition, provides a transfer of $25,000,000 from Reserve Personnel, Army, 1985.

MILITARY PERSONNEL, NAVY

Amendment No. 301: Allows total transfers of $339,633,000 as proposed by the Senate instead of appropriating $224,819,000 as proposed by the House.

Amendment No. 302: Deletes House language, as proposed by the Senate, which would have allowed total transfers of $114,814,000.

Amendment No. 303: Transfers $275,883,000 from Shipbuilding and Conversion, Navy, 1981/1985 as proposed by the Senate instead of $51,064,000 as proposed by the House.

The transfers as proposed by the House and Senate and agreed to by the conferees are as follows:

	House	Senate	Conferees
Aircraft procurement, Navy, 1983/1985	$21,000,000	$21,000,000	$21,000,000
Weapons procurement, Navy, 1983/1985	27,750,000	27,750,000	27,750,000
Shipbuilding and conversion, Navy, 1981/1985	51,064,000	275,883,000	275,883,000
Other procurement, Navy 1983/1985	15,000,000	15,000,000	15,000,000
Total transfer	114,814,000	339,633,000	339,633,000

MILITARY PERSONNEL, MARINE CORPS

Amendment No. 304: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which appropriates $106,840,000 instead of $116,840,000 as proposed by the House and, in addition, provides a transfer of $10,000,000 from Procurement, Marine Corps, 1983/85.

MILITARY PERSONNEL, AIR FORCE

Amendment No. 305: Appropriates $254,825,000 instead of $224,825,000 as proposed by the Senate and $275,312,000 as proposed by the House.

Amendment No. 306: Transfers a total of $112,854,000 instead of $142,854,000 as proposed by the Senate and $112,367,000 as proposed by the House.

Amendment No. 307: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the sum proposed by said amendment, insert the following: *"$36,454,000".*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 308: Transfers $33,200,000 as proposed by the Senate instead of $25,000,000 as proposed by the House from Missile Procurement, Air Force 1983/1985.

Amendment No. 309: Transfers $43,200,000 as proposed by the Senate instead of $15,000,000 as proposed by the House from Other Procurement, Air Force, 1983/1985.

RESERVE PERSONNEL, NAVY

Amendment No. 310: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which appropriates $4,619,000 instead of $26,619,000 as proposed by the House and, in addition, provides a transfer of $22,000,000 from Aircraft Procurement, Navy, 1983/1985.

OPERATION AND MAINTENANCE

(INCLUDING TRANSFER OF FUNDS)

OPERATION AND MAINTENANCE, ARMY

Amendment No. 311: Appropriates $10,466,000 as proposed by the Senate instead of $14,470,000 as proposed by the House.

Amendment No 312: Allows total transfers of $119,300,000 as proposed by the Senate instead of $147,000,000 as proposed by the House.

Amendment No. 313: Transfers $11,300,000 as proposed by the Senate instead of $12,500,000 as proposed by the House from Aircraft Procurement, Army, 1983/1985.

Amendment No. 314: Deletes House language which would have transferred $23,500,000 from Missile Procurement, Army 1983/1985 and transfers $83,000,000 as proposed by the Senate instead of $86,000,000 as proposed by the House from Procurement of Weapons and Tracked Combat Vehicles, Army, 1983/1985.

The transfers as proposed by the House and Senate and agreed to by the conferees are as follows:

	House	Senate	Conferees
Aircraft procurement, Army, 1983/1985	$12,500,000	$11,300,000	$11,300,000
Missile procurement, Army, 1983/1985	23,500,000	0	0
Procurement of weapons and tracked combat vehicles, Army, 1983/1985	86,000,000	83,000,000	83,000,000
Procurement of ammunition, Army, 1983/1985	10,000,000	10,000,000	10,000,000
Other procurement, Army, 1983/1985	15,000,000	15,000,000	15,000,000
Total transfer	147,000,000	119,300,000	119,300,000

OPERATION AND MAINTENANCE, NAVY

Amendment No. 315: Appropriates $7,119,000 as proposed by the Senate instead of $22,952,000 as proposed by the House.

Amendment No. 316: Allows total transfers of $180,829,000 as proposed by the Senate instead of $135,148,000 as proposed by the House.

Amendment No. 317: Transfers $104,129,000 as proposed by the Senate instead of $83,448,000 as proposed by the House from Shipbuilding and Conversion, Navy, 1981/1985.

Amendment No. 318: Deletes the word "and" as proposed by the Senate.

Amendment No. 319: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which transfers $25,000,000 from Other Procurement, Navy, 1983/1985. The House proposed no transfer from this account.

The transfers as proposed by the House and Senate and agreed to by the conferees are as follows:

	House	Senate	Conferees
Shipbuilding and conversion, Navy, 1981/1985	$83,448,000	$104,129,000	$104,129,000
Research, development, test and evaluaton, Navy, 1985/1986	16,200,000	16,200,000	16,200,000
Shipbuilding and conversion, Navy, 1985/1989	29,100,000	29,100,000	29,100,000
Aircraft procurement, Navy, 1985/1987	6,400,000	6,400,000	6,400,000
Other procurement, Navy, 1983/1985	0	25,000,000	25,000,000
Total transfer	135,148,000	180,829,000	180,829,000

OPERATION AND MAINTENANCE, AIR FORCE

Amendment No. 320: Transfers $90,346,000 from Aircraft Procurement, Air Force 1983/1985 as proposed by the Senate instead of $75,133,000 as proposed by the House.

OPERATION AND MAINTENANCE, DEFENSE AGENCIES

Amendment No. 321: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which appropriates $81,230,000 instead of $89,230,000 as proposed by the House and, in addition, provides a transfer of $8,000,000 from Procurement, Defense Agencies, 1983/1985.

The Senate report (S. Rept. 99-82) provides for a refund of $20,000,000 from the Defense Stock Fund to the Defense Logistics Agency. The conferees believe a $15,000,000 refund is more appropriate and furthermore consider the refund a one time occurrence to support increased needs for quality assurance and contract administration training to provide contract cost savings. The major factor contributing to the availability of funds in the Defense Stock Fund for this refund is the continuing low unit costs due to increased competition. The conferees believe that the training to be provided through this action will further improve competition and quality control.

OPERATION AND MAINTENANCE, NAVY RESERVE

Amendment No. 322: Appropriates $1,400,000 as proposed by the Senate instead of $600,000 as proposed by the House.

FAMILY HOUSING

Amendment No. 323: Deletes language proposed by the Senate appropriating $1,700,000 for Family Housing, Army.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

HEALTH SERVICES ADMINISTRATION

Amendment No. 324: Appropriates $7,000,000 for Indian health services instead of $9,297,000 as proposed by the House and $4,650,000 as proposed by the Senate.

DEPARTMENT OF THE INTERIOR

BUREAU OF LAND MANAGEMENT

Amendment No. 325: Appropriates $2,000,000 for management of lands and resources as proposed y the House instead of $3,000,000 as proposed by the Senate.

UNITED STATES FISH AND WILDLIFE SERVICE

Amendment No. 326: Appropriates $4,000,000 for resource management as proposed by the Senate instead of $2,000,000 as proposed by the House.

BUREAU OF INDIAN AFFAIRS

Amendment No. 327: Appropriates $5,000,000 for operation of Indian programs as proposed by the House, instead of providing $5,000,000 by transfer as proposed by the Senate.

DEPARTMENT OF JUSTICE

LEGAL ACTIVITIES

SALARIES AND EXPENSES, UNITED STATES ATTORNEYS AND MARSHALLS

Amendment No. 328: Appropriates $7,811,000 as proposed by the House instead of $7,787,000 as proposed by the Senate.

GENERAL SERVICES ADMINISTRATION

FEDERAL BUILDINGS FUND

LIMITATION ON AVAILABILITY OF REVENUE

Amendment No. 329: Deletes language proposed by the Senate and restores language proposed by the House relating to various levels of funding of activities in the Federal Buildings Fund.

GENERAL MANAGEMENT AND ADMINISTRATION

Amendment No. 330: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following:

: Provided, That expenses of transportation audit contracts and contract administration shall be in addition to this amount and shall be financed from over-charges collected from carriers on transportation bills paid by the government and other similar type refunds at not to exceed $5,200,000 annually. This proviso will be effective from date of enactment of this Act through September 30, 1989

The managers on the part of the Senate will move to concur in the amendment of the House of the amendment of the Senate.

This amendment authorizes financing of transportation and other similar type audits from overcharges collected from carriers through September 30, 1989.

OFFICE OF PERSONNEL MANAGEMENT

Amendment No. 331: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate making available $1,000 for official representation expenses.

VETERANS ADMINISTRATION

Amendment No. 332: Appropriates $152,524,000 for medical care as proposed by the House, instead of $122,524,000 as proposed by the Senate.

In agreeing to the higher amount, the conferees intend that the $80,000,000 provided above the budget request be used only for hiring medical care staffing. It is not intended that the $80,000,000 be used to hire ground or building maintenance staff above the level previously planned.

The $80,000,000 was added to allow the VA to support 193,941 staff years. The conferees recognized that the VA may not be able to fully utilize the entire $80,000,000 in fiscal year 1985. It is anticipated that any funds carried forward into fiscal year 1986, outside of any restoration of funds for equipment, will be used for 1986 funding required to support an average employment of 193,941.

Amendment No. 333: Appropriates $3,500,000 for general expenses as proposed by the Senate, instead of $6,000,000 as proposed by the House.

Amendment No. 334: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate increasing the limitation on administrative expenses in construction, minor projects, by $371,000.

FEDERAL EMERGENCY MANAGEMENT AGENCY

Amendment No. 335: Deletes language proposed by the Senate transferring $2,472,000 from emergency management planning and assistance to salaries and expenses.

INTERSTATE COMMERCE COMMISSION

Amendment No. 336: Appropriates $1,000,000 as proposed by the Senate instead of $500,000 as proposed by the House.

SECURITIES AND EXCHANGE COMMISSION

SALARIES AND EXPENSES

Amendment No. 337: Appropriates $1,045,000 as proposed by the Senate instead of $1,294,000 as proposed by the House.

TITLE III

GENERAL PROVISIONS

Amendment No. 338: Deletes language proposed by the Senate which would have required the State Department to take all necessary steps to protect the rights and safety of John Lincoln Tamboer during his extradition to Colombia for trial and subsequent actions of the courts or Government of Colombia.

The conferees note that the Department of State is mandated by law to protect the rights and interests of all American citizens abroad. The conferees are particularly concerned that the Department fullfill this responsibility in the case of John Lincoln Tamboer and that the Department take all necessary action to protect the rights and safety of Mr. Tamboer during his extradition to Colombia for trial and subsequent actions of the courts or the Government of Colombia.

Amendment No. 339: Deletes the language proposed by the Senate regarding the conduct of a study not funded in this Act.

TITLE IV

AUTHORIZATION OF ECONOMIC SUPPORT FUND ASSISTANCE FOR JORDAN

Amendment No. 340: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert the following:

TITLE IV

AUTHORIZATION OF ECONOMIC SUPPORT FUND ASSISTANCE FOR JORDAN

SHORT TITLE

Sec. 401. This title may be cited as the "Jordan Supplemental Economic Assistance Authorization Act of 1985".

ECONOMIC SUPPORT FUND

Sec. 402. (a)(1) In addition to funds otherwise available for such purposes for such fiscal year, there are authorized to be appropriated to the President to carry out chapter 4 of part II of the Foreign Assistance Act of 1961, $250,000,000 for the fiscal year 1985, which amount shall be available only for Jordan.

(2) Of the funds authorized to be appropriated by paragraph (1)—

(A) for the fiscal year 1985, $50,000,000 shall be available only for commodity import programs and $30,000,000 shall be available only for project assistance;

(B) for fiscal year 1986, $50,000,000 shall be available only for commodity import programs and $30,000,000 shall be available only for project assistance; and

(C) for the fiscal year 1987, $60,000,000 shall be available only for commodity import programs and $30,000,000 shall be available only for project assistance.

(b) Amounts appropriated to carry out this section are authorized to remain available until September 30, 1987.

POLICY

Sec. 403. (a) SENSE OF CONGRESS.—It is the sense of Congress that no foreign military sales financing authorized by this Act may be used to finance the procurement by Jordan of United States advanced aircraft, new air defense weapons systems, or other new advanced military weapons systems, and no notification may be made pursuant to section 36(b) of the Arms Export Control Act with respect to a proposed sale to Jordan of United States advanced aircraft, new air defense systems, or other new advanced military weapons systems, unless Jordan is publicly committed to the recognition of Israel and to negotiate promptly and directly with Israel under the basic tenets of United Nations Security Council Resolutions 242 and 338.

(b) CERTIFICATION.—Any notification made pursuant to section 36(b) of the Arms Export Control Act with respect to a proposed sale to Jordan of United States advanced aircraft, new air defense systems or other new advanced military weapons, must be accompanied by a Presidential certification of Jordan's public commitment to the recognition of Israel and to negotiate promptly and directly with Israel under the basic tenets of United Nations Security Council Resolutions 242 and 338.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees agree under this amendment to authorize a total of $250 million for Jordan for Economic Support Funds and a commodity import program. The funds are authorized to be available over a three year period. The amendment also states that it is the sense of Congress that no foreign military sales financing authorized by this Act may be used to finance Jordanian procurment of United States defense equipment unless Jordan is publicly committed to the recognition of Israel and to negotiate promptly and directly with Israel under the basic tenets of U.N. Security Council Resolutions 242 and 338. The language also requires Presidential certification of Jordan's public commitment at the same time any notification concerning Jordan made pursuant to section 36(b) of the Arms Export Control Act is made.

TITLE V

DEPARTMENT OF DEFENSE PLAN FOR DRUG INTERDICTION PROGRAM

Amendment No. 341: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which directs the Secretary of Defense to submit a report to the Appropriations and Armed Services Committees of both Houses by December 31, 1985, in conjuction with the Joint Chiefs of Staff, on the role of the Defense Department in the drug interdiction and law enforcement activities of the United States. The President is also required to submit a report to Congress by December 31, 1985 indicating how the United States Government is organized to interdict drugs and enforce drug laws.

CONFERENCE TOTAL—WITH COMPARISONS

The total new budget (obligational) authority for the fiscal year 1985 recommended by the Committee of Conference, with comparisons to the fiscal year 1985 budget estimates, and the House and Senate bills for 1985 follows:

Budget estimates of new (obligational) authority, fiscal year 1985[1]	12,884,953,436
House bill, fiscal year 1985	13,430,115,536
Senate bill, fiscal year 1985	13,944,747,536
Conference agreement, fiscal year 1985	13,024,352,536
Conference agreement compared with:	
Budget estimates of new (obligational) authority, fiscal year 1985	+139,399,100
House bill, fiscal year 1985	−405,763,000
Senate bill, fiscal year 1985	−920,395,000

[1] Includes $316,153,900 of budget estimates not considered by the House.

CONFERENCE REPORT ON S. 960

Mr. FASCELL submitted the following conference report and statement on the bill (S. 960) to amend the Foreign Assistance Act of 1961, the Arms Export Control Act, and other Acts to authorize appropriations for the fiscal year 1986 for international security and development assistance, the Peace Corps, the Inter-American Foundation, the African Development Foundation, and for other purposes:

CONFERENCE REPORT (H. REPT. No. 99-237)

The committee of conference on the disagreeing votes of the two Houses on the amendments of the House to the bill (S. 960) to amend the Foreign Assistance Act of 1961, the Arms Export Control Act, and other Acts to authorize appropriations for the fiscal year 1986 for international security and development assistance, the Peace Corps, the Inter-American Foundation, the African Development Foundation, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its disagreement to the amendment of the House to the text of the bill and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the House amendment insert the following:

SECTION 1. SHORT TITLE AND TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "International Security and Development Cooperation Act of 1985".

(b) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

Sec. 1. Short title and table of contents.

TITLE I—MILITARY ASSISTANCE AND SALES AND RELATED PROGRAMS

Sec. 101. Foreign military sales credits.
Sec. 102. Terms of foreign military sales credits.
Sec. 103. Military assistance.
Sec. 104. International military education and training.
Sec. 105. Peacekeeping operations.
Sec. 106. Guaranty Reserve Fund.
Sec. 107. Valuation of certain defense articles.
Sec. 108. Full costing of FMS sales of training.
Sec. 109. Administrative surcharge.
Sec. 110. Contract administration services.
Sec. 111. Catalog data and services.
Sec. 112. Reports on cash flow financing.
Sec. 113. Report on international volume of arms traffic.
Sec. 114. Security assistance surveys.
Sec. 115. North Atlantic Treaty Organization cooperative projects.
Sec. 116. Exchange of training and related support.
Sec. 117. Quarterly reports on United States military advisors abroad.
Sec. 118. Sensitive technology.
Sec. 119. Increase in criminal penalties for certain violations of the Arms Export Control Act.
Sec. 120. Official reception and representation expenses.
Sec. 121. Special Defense Acquisition Fund.
Sec. 122. Leasing authority.
Sec. 123. Military assistance costs; waiver of net proceeds for sale of MAP items.
Sec. 124. Stockpiling of defense articles for foreign countries.
Sec. 125. Security assistance organizations.
Sec. 126. Exchange training.
Sec. 127. Training in maritime skills.
Sec. 128. Special waiver authority.
Sec. 129. Conventional arms transfers.
Sec. 130. Foreign military sales for Jordan.
Sec. 131. Certification concerning AWACS sold to Saudi Arabia.
Sec. 132. Cooperative agreements on air defense in Central Europe.

TITLE II—ECONOMIC SUPPORT FUND

Sec. 201. Purposes and uses of ESF; authorizations of appropriations.
Sec. 202. Assistance for the Middle East.
Sec. 203. Assistance for Cyprus.
Sec. 204. Assistance for Portugal.
Sec. 205. Acquisition of agricultural commodities under commodity import programs.
Sec. 206. Tied aid credit program.
Sec. 207. Restriction on use of funds for nuclear facilities.
Sec. 208. Fiscal year 1985 supplemental authorization.

TITLE III—DEVELOPMENT ASSISTANCE

Sec. 301. Development assistance policy.
Sec. 302. Agriculture, rural development, and nutrition.
Sec. 303. Population and health.
Sec. 304. Child Survival Fund.
Sec. 305. Promotion of immunization and oral rehydration.
Sec. 306. Education and human resources development.
Sec. 307. Energy, private voluntary organizations, and selected development activities.
Sec. 308. Private Sector Revolving Fund.
Sec. 309. Private and voluntary organizations and cooperatives in overseas development.
Sec. 310. Promotion of democratic cooperatives.
Sec. 311. Use of private and voluntary organizations, cooperatives, and the private sector.
Sec. 312. Targeted assistance.
Sec. 313. Housing and other guaranty programs.
Sec. 314. Trade credit insurance program.
Sec. 315. Minority set-aside.

TITLE IV—OTHER FOREIGN ASSISTANCE PROGRAMS

Sec. 401. American schools and hospitals abroad.
Sec. 402. Voluntary contributions to international organizations and programs.
Sec. 403. Withholding of United States proportionate share for certain programs of international organizations.
Sec. 404. International disaster assistance.
Sec. 405. Trade and development program.
Sec. 406. Operating expenses.

TITLE V—INTERNATIONAL TERRORISM AND FOREIGN AIRPORT SECURITY

Part A—International Terrorism Generally

Sec. 501. Anti-terrorism assistance program.
Sec. 502. Coordination of all United States anti-terrorism assistance to foreign countries.
Sec. 503. Prohibition on assistance to countries supporting international terrorism.
Sec. 504. Prohibition on imports from and exports to Libya.
Sec. 505. Ban on importing goods and services from countries supporting terrorism.
Sec. 506. International anti-terrorism committee.
Sec. 507. International terrorism control treaty.
Sec. 508. State terrorism.

Part B—Foreign Airport Security

Sec. 551. Security standards for foreign air transportation.
Sec. 552. Travel advisory and suspension of foreign assistance.
Sec. 553. United States airmarshal program.
Sec. 554. Enforcement of International Civil Aviation Organization standards.
Sec. 555. International civil aviation boycott of countries supporting international terrorism.
Sec. 556. Multilateral and bilateral agreements with respect to aircraft sabotage, aircraft hijacking, and airport security.
Sec. 557. Research on airport security techniques for detecting explosives.
Sec. 558. Hijacking of TWA flight 847 and other acts of terrorism.

TITLE VI—INTERNATIONAL NARCOTICS CONTROL

Sec. 601. Short title.
Sec. 602. Authorizations for international narcotics control assistance.
Sec. 603. Development and illicit narcotics production.
Sec. 604. Reports on international narcotics control assistance.
Sec. 605. Exemption from ban on involvement of United States person-

nel in arrest actions in narcotics control efforts abroad.
Sec. 606. Annual reports on involvement of foreign countries in illicit drug traffic.
Sec. 607. Procurement of weapons to defend aircraft involved in narcotics control efforts.
Sec. 608. Requirement for cost-sharing in international narcotics control assistance programs.
Sec. 609. Prohibition on use of foreign assistance for reimbursements for drug crop eradications.
Sec. 610. Assistance for Jamaica.
Sec. 611. Assistance for Bolivia.
Sec. 612. Assistance to Peru.
Sec. 613. Reallocation of funds if conditions not met.
Sec. 614. Conditions on United States contributions to the United Nations Fund for Drug Abuse Control.
Sec. 615. Latin American regional narcotics control organization.
Sec. 616. Greater effort by United States Armed Forces to support narcotics control efforts abroad.
Sec. 617. Cuban drug trafficking.
Sec. 618. Prohibition on assistance to countries which do not take adequate steps to halt drug trafficking.
Sec. 619. Drug trafficking and the problem of total confidentiality of certain foreign bank accounts.

TITLE VII—WESTERN HEMISPHERE

Sec. 701. Central America democracy, peace, and development initiative.
Sec. 702. El Salvador.
Sec. 703. Assistance for Guatemala.
Sec. 704. Refugees in Honduras.
Sec. 705. Promoting the development of the Haitian people and providing for orderly emigration from Haiti.
Sec. 706. Military assistance for Paraguay.
Sec. 707. Assistance for Peru.
Sec. 708. Inter-American Foundation.
Sec. 709. Comprehensive reports on assistance for Latin America and the Caribbean.
Sec. 710. Use of private and voluntary organizations.
Sec. 711. Assistance for law enforcement agencies.
Sec. 712. Administration of justice.
Sec. 713. Use of employee stock ownership plans in development efforts.
Sec. 714. International Advisory Commission for the Caribbean Region.
Sec. 715. Exemption of certain safety-related equipment from prohibition on military sales to Chile.
Sec. 716. Rural electrification.
Sec. 717. Facilitating international commerce through Mexico.
Sec. 718. Condemning human rights violations and the subversion of other governments by the Government of Cuba.
Sec. 719. Reports on foreign debt in Latin America.
Sec. 720. Economic assistance for Uruguay.
Sec. 721. Canadian exports to the United States.
Sec. 722. Nicaragua.

TITLE VIII—AFRICA

Sec. 801. Balance-of-payments support for countries in Africa.
Sec. 802. Economic support assistance for Southern Africa.
Sec. 803. Policy toward South African "homelands".
Sec. 804. Assistance for Zaire.
Sec. 805. Assistance for Tunisia.
Sec. 806. Political settlement in Sudan.
Sec. 807. Elections in Liberia.
Sec. 808. Western Sahara.
Sec. 809. Sahel development program.
Sec. 810. African Development Foundation.
Sec. 811. Repeal of Clark amendment.
Sec. 812. Failure of the Ethiopian Government to responsibly ameliorate famine conditions.
Sec. 813. Assistance for the People's Republic of Mozambique.

TITLE IX—ASIA

Sec. 901. The Philippines.
Sec. 902. Nuclear non-proliferation conditions on assistance for Pakistan.
Sec. 903. Disadvantaged children in Asia.
Sec. 904. Assistance for Afghanistan.
Sec. 905. Assistance for the Cambodian people.
Sec. 906. Prohibition on certain assistance to the Khmer Rouge.
Sec. 907. Political settlement in Sri Lanka.
Sec. 908. United States policy toward the Republic of Korea.

TITLE X—FOOD AND AGRICULTURAL ASSISTANCE

Sec. 1001. International Fund for Agricultural Development.
Sec. 1002. Public law 480 title II minimums.
Sec. 1003. Express authority for title II direct distribution, sale, and barter.
Sec. 1004. Role of private voluntary organizations and cooperatives.
Sec. 1005. Multiyear agreements with PVOs and cooperatives.
Sec. 1006. Title II programming reports.
Sec. 1007. Eligible commodities under section 416(b).
Sec. 1008. Long-term agricultural commodity agreements with food deficit countries.

TITLE XI—PEACE CORPS

Sec. 1101. Authorization of appropriations.
Sec. 1102. Number of Peace Corps volunteers.
Sec. 1103. Limitation on length of Peace Corps employment.
Sec. 1104. Peace Corps National Advisory Council.
Sec. 1105. Nonpartisan appointments.

TITLE XII—MISCELLANEOUS PROVISIONS RELATING TO FOREIGN ASSISTANCE

Sec. 1201. Notice to Congress of use of certain authorities relating to human rights conditions.
Sec. 1202. Prohibitions against assistance.
Sec. 1203. Land reform programs.
Sec. 1204. Suspension of assistance to countries violating U.S. export laws in order to manufacture a nuclear explosive device.
Sec. 1205. Reports on economic conditions in certain countries.
Sec. 1206. Egyptian-Israeli relations.
Sec. 1207. Procurement of construction and engineering services.
Sec. 1208. Completion of plans and cost estimates.
Sec. 1209. Reprogramming notifications to Congress.
Sec. 1210. Report on United States assistance to coal exporting nations.
Sec. 1211. Repeal of obsolete provisions and correction of technical references.

TITLE XIII—MISCELLANEOUS PROVISIONS

Sec. 1301. Effective date.
Sec. 1302. Codification of policy prohibiting negotiations with the Palestine Liberation Organization.
Sec. 1303. Commission for the Preservation of America's Heritage Abroad.
Sec. 1304. Federal Coal Export Commission.

TITLE I—MILITARY ASSISTANCE AND SALES AND RELATED PROGRAMS

SEC. 101. FOREIGN MILITARY SALES CREDITS.

(a) AUTHORIZATIONS OF APPROPRIATIONS.—The first sentence of section 31(a) of the Arms Export Control Act is amended to read as follows: "There are authorized to be appropriated to the President to carry out this Act $5,371,000,000 for fiscal year 1986 and $5,371,000,000 for fiscal year 1987.".

(b) AGGREGATE CEILINGS AND EXTENDED REPAYMENT TERMS.—Sections 31 (b) and (c) of such Act are amended to read as follows:

"(b)(1) The total amount of credits extended under section 23 of this Act shall not exceed $5,371,000,000 for fiscal year 1986 and $5,371,000,000 for fiscal year 1987.

"(2) Of the aggregate amount of financing provided under this section, not more than $553,900,000 for fiscal year 1986 and not more than $553,900,000 for fiscal year 1987 may be made available at concessional rates of interest. If a country is released from its contractual liability to repay the United States Government with respect to financing provided under this section, such financing shall not be considered to be financing provided at concessional rates of interest for purposes of the limitation established by this paragraph.

"(c) For fiscal year 1986 and fiscal year 1987, the principal amount of credits provided under section 23 at market rates of interest with respect to Greece, the Republic of Korea, the Philippines, Portugal, Spain, Thailand, and Turkey shall (if and to the extent each country so desires) be repaid in not more than twenty years, following a grace period of ten years on repayment of principal.".

(c) FMS FINANCING FOR ISRAEL.—(1) Of the total amount of credits extended under section 23 of the Arms Export Control Act, not less than $1,800,000,000 for fiscal year 1986 and not less than $1,800,000,000 for fiscal year 1987 shall be available only for Israel.

(2) Israel shall be released from its contractual liability to repay the United States Government with respect to the credits provided pursuant to paragraph (1).

(3) If the Government of Israel requests that funds be used for such purposes—

(A) up to $150,000,000 of the amount of credits made available for Israel pursuant to paragraph (1) for each of the fiscal years 1986 and 1987 shall be available for research and development in the United States for the Lavi program, and

(B) not less than $250,000,000 of the amount of credits made available for Israel pursuant to paragraph (1) for each of the fiscal years 1986 and 1987 shall be available for the procurement in Israel of defense articles and defense services (including research and development) for the Lavi program.

(d) FMS FINANCING FOR EGYPT.—(1) Of the total amount of credits extended under section 23 of the Arms Export Control Act, not less than $1,300,000,000 for fiscal year 1986

and not less than $1,300,000,000 for fiscal year 1987 shall be available only for Egypt.

(2) Egypt shall be released from its contractual liability to repay the United States Government with respect to the credits extended pursuant to paragraph (1).

(e) FMS FINANCING FOR GREECE.—(1) Of the total amount of credits extended under section 23 of the Arms Export Control Act, $500,000,000 for each of the fiscal years 1986 and 1987 shall be available only for Greece.

(2) For each of the fiscal years 1986 and 1987, of the total amount of credits extended for Greece under section 23 of the Arms Export Control Act, Greece shall receive the same proportion of credits extended at concessional rates of interest as the proportion of credits extended at concessional rates of interest which Turkey receives out of the total amount of credits extended for Turkey under that section, and the average annual rate of interest on the credits extended for Greece at concessional rates of interest shall be comparable to the average annual rate of interest on the credits extended for Turkey at concessional rates of interest. Credits extended for Greece for each of the fiscal years 1986 and 1987 at concessional rates of interest shall not be counted toward any ceiling established by law on concessional financing under the Arms Export Control Act.

(f) FMS FINANCING AND MAP FOR TURKEY.—For each of the fiscal years 1986 and 1987, the aggregate total of financing under the Arms Export Control Act and assistance under chapter 2 of part II of the Foreign Assistance Act of 1961 provided for Turkey may not exceed $714,280,000. Of this amount, up to $215,000,000 may be used for assistance under chapter 2 of part II of the Foreign Assistance Act of 1961, with the understanding that the United States Government is acting with urgency and determination to oppose any actions aimed at effecting a permanent bifurcation of Cyprus.

SEC. 102. TERMS OF FOREIGN MILITARY SALES CREDITS.

Section 23 of the Arms Export Control Act is amended to read as follows:

"SEC. 23. CREDIT SALES.—(a) The President is authorized to finance the procurement of defense articles, defense services, and design and construction services by friendly foreign countries and international organizations, on such terms and conditions as he may determine consistent with the requirements of this section.

"(b) The President shall require repayment in United States dollars within a period not to exceed twelve years after the loan agreement with the country or international organization is signed on behalf of the United States Government, unless a longer period is specifically authorized by statute for that country or international organization.

"(c)(1) The President shall charge interest under this section at such rate as he may determine, except that such rate may not be less than 5 percent per year.

"(2) For purposes of financing provided under this section—

"(A) the term 'concessional rate of interest' means any rate of interest which is less than market rates of interest; and

"(B) the term 'market rate of interest' means any rate of interest which is equal to or greater than the current average interest rate (as of the last day of the month preceding the financing of the procurement under this section) that the United States Government pays on outstanding marketable obligations of comparable maturity.

"(d) References in any law to credits extended under this section shall be deemed to include reference to participations in credits.".

SEC. 103. MILITARY ASSISTANCE.

Section 504(a)(1) of the Foreign Assistance Act of 1961 is amended to read as follows:

"(a)(1) There are authorized to be appropriated to the President to carry out the purposes of this chapter $805,100,000 for fiscal year 1986 and $805,100,000 for fiscal year 1987.".

SEC. 104. INTERNATIONAL MILITARY EDUCATION AND TRAINING.

Section 542 of the Foreign Assistance Act of 1961 is amended to read as follows:

"SEC. 542. AUTHORIZATIONS OF APPROPRIATIONS.—There are authorized to be appropriated to the President to carry out the purposes of this chapter $56,221,000 for fiscal year 1986 and $56,221,000 for fiscal year 1987.".

SEC. 105. PEACEKEEPING OPERATIONS.

(a) AUTHORIZATIONS.—Section 552(a) of the Foreign Assistance Act of 1961 is amended to read as follows:

"(a) There are authorized to be appropriated to the President to carry out the purposes of this chapter, in addition to amounts otherwise available for such purposes, $37,000,000 for fiscal year 1986 and $37,000,000 for fiscal year 1987.".

(b) PEACEKEEPING OPERATIONS EMERGENCIES.—(1) Section 552 of such Act is amended—

(A) by inserting in subsection (c) "(1)" immediately after "the President may";

(B) by inserting in subsection (c) immediately before the period at the end of the subsection "; and (2) in the event the President also determines that such unforeseen emergency requires the immediate provision of assistance under this chapter, direct the drawdown of commodities and services from the inventory and resources of any agency of the United States Government of an aggregate value not to exceed $25,000,000 in any fiscal year"; and

(C) by inserting at the end thereof the following new subsection:

"(d) There are authorized to be appropriated to the President such sums as may be necessary to reimburse the applicable appropriation, fund, or account for commodities and services provided under subsection (c)(2).".

(2) Section 652 of such Act is amended by inserting ", 552(c)(2)," immediately after "under section 506(a)".

SEC. 106. GUARANTY RESERVE FUND.

(a) REPORT ON REPLENISHMENT.—For the purpose of providing recommendations for improving the security interests of the United States and the friends and allies of the United States, the President shall prepare and transmit to the Congress within 90 days after the date of enactment of this Act a report which sets forth the history of United States foreign military sales financing under the Foreign Assistance Act of 1961 and the Arms Export Control Act. Such report shall include recommendations on replenishing the Guaranty Reserve Fund under section 24 of the Arms Export Control Act and recommendations on other matters agreed to in consultation with the chairman and ranking minority member of the Committee on Foreign Relations of the Senate and of the Committee on Foreign Affairs of the House of Representatives.

(b) ADDITIONAL FUNDS FOR PAYMENT OF CLAIMS.—The second sentence of section 24(c) of the Arms Export Control Act is amended to read as follows: "Funds authorized to be appropriated by section 31(a) to carry out this Act which are allocated for credits at market rates of interest may be used to pay claims under such guarantees to the extent funds in the Guaranty Reserve Fund are inadequate for that purpose.".

(c) DESIGNATION AS GUARANTY RESERVE FUND.—Such section is further amended by inserting after the first sentence the following new sentence: "That single reserve may, on and after the date of enactment of the International Security and Development Cooperation Act of 1985, be referred to as the 'Guaranty Reserve Fund'.".

SEC. 107. VALUATION OF CERTAIN DEFENSE ARTICLES.

(a) CERTAIN NAVAL VESSELS.—Section 21(a) of the Arms Export Control Act is amended—

(1) by redesignating paragraphs (1), (2), and (3) as subparagraphs (A), (B), and (C), respectively;

(2) by inserting "(1)" immediately after "(a)"; and

(3) by adding at the end thereof the following new paragraph:

"(2) For purposes of subparagraph (A) of paragraph (1), the actual value of a naval vessel of 3,000 tons or less and 20 years or more of age shall be considered to be not less than the greater of the scrap value or fair value (including conversion costs) of such vessel, as determined by the Secretary of Defense.".

(b) CONFORMING AMENDMENT.—Section 47 of such Act is amended in paragraph (2) by inserting ", except as otherwise provided in section 21(a)," after "excess defense article".

SEC. 108. FULL COSTING OF FMS SALES OF TRAINING.

(a) FMS SALES.—Section 21(a)(1)(C) of the Arms Export Control Act, as so redesignated by the preceding section of this Act, is amended to read as follows:

"(C) in the case of the sale of a defense service, the full cost to the United States Government of furnishing such service, except that in the case of training sold to a purchaser who is concurrently receiving assistance under chapter 5 of part II of the Foreign Assistance Act of 1961, only those additional costs that are incurred by the United States Government in furnishing such assistance.".

(b) NATO STANDARDIZATION AGREEMENTS.—Section 21 of such Act is amended by inserting the following new subsection after subsection (f):

"(g) The President may enter into North Atlantic Treaty Organization standardization agreements in carrying out section 814 of the Act of October 7, 1975 (Public Law 94-106), and may enter into similar agreements with Japan, Australia, and New Zealand, for the cooperative furnishing of training on bilateral or multilateral basis, if the financial principles of such agreements are based on reciprocity. Such agreements shall include reimbursement for all direct costs but may exclude reimbursement for indirect costs, administrative surcharges, and costs of billeting of trainees (except to the extent that members of the United States Armed Forces occupying comparable accommodations are charged for such accommodations by the United States). Each such agreement shall be transmitted promptly to the Speaker of the House of Representatives and the Committees on Appropriations, Armed Services, and Foreign Relations of the Senate.".

SEC. 109. ADMINISTRATIVE SURCHARGE.

Subparagraph (A) of section 21(e)(1) of the Arms Export Control Act is amended by inserting "(excluding a pro rata share of fixed base operation costs)" immediately after "full estimated costs".

SEC. 110. CONTRACT ADMINISTRATION SERVICES.

Section 21(h) of the Arms Export Control Act is amended by inserting "contract administration services," immediately after "inspection," in the text preceding paragraph (1).

SEC. 111. CATALOG DATA AND SERVICES.

Section 21(h) of the Arms Export Control Act is further amended—

(1) by inserting "(1)" immediately after "(h)";

(2) by striking out "(1)" and "(2)" and inserting in lieu thereof "(A)" and "(B)", respectively; and

(3) by adding at the end thereof the following:

"(2) In carrying out the objectives of this section, the President is authorized to provide cataloging data and cataloging services, without charge, to the North Atlantic Treaty Organization or to any member government of that Organization if that Organization or member government provides such data and services in accordance with an agreement on a reciprocal basis, without charge, to the United States Government.".

SEC. 112. REPORTS ON CASH FLOW FINANCING.

(a) ANNUAL REPORTS.—Section 25 of the Arms Export Control Act is amended in paragraph (5) of subsection (a)—

(1) by inserting "(A)" immediately after "(5)";

(2) by adding "and" after the semicolon at the end of paragraph; and

(3) by adding at the end of the paragraph the following new subparagraph:

"(B) for each country that is proposed to be furnished credits or guaranties under this Act in the next fiscal year and that has been approved for cash flow financing (as defined in subsection (d) of this section) in excess of $100,000,000 as of October 1 of the current fiscal year—

"(i) the amount of such approved cash flow financing,

"(ii) a description of administrative ceilings and controls applied, and

"(iii) a description of the financial resources otherwise available to such country to pay such approved cash flow financing;".

(b) DEFINITION OF CASH FLOW FINANCING.—Such section is amended by adding at the end thereof the following new subsection:

"(d) For the purposes of subsection (a)(5)(B) of this section, the term 'cash flow financing' means the dollar amount of the difference between the total estimated price of a Letter of Offer and Acceptance or other purchase agreement that has been approved for financing under this Act or under section 503(a)(3) of the Foreign Assistance Act of 1961 and the amount of the financing that has been approved therefor;".

SEC. 113. REPORT ON INTERNATIONAL VOLUME OF ARMS TRAFFIC.

Section 25 of the Arms Export Control Act is amended—

(1) in subsection (a) by striking out "No later than February 1" and inserting in lieu thereof "Except as provided in subsection (d) of this section, no later than February 1"; and

(2) by adding at the end thereof the following new subsection:

"(d) The information required by subsection (a)(4) of this section shall be transmitted to the Congress no later than April 1 of each year.".

SEC. 114. SECURITY ASSISTANCE SURVEYS.

(a) SURVEYS SUBJECT TO REQUIREMENTS.—Section 26 of the Arms Export Control Act is amended—

(1) in the section caption, by striking out "DEFENSE REQUIREMENT" and inserting in lieu thereof "SECURITY ASSISTANCE";

(2) by striking out "defense requirement" each place it appears in the section and inserting in lieu thereof "security assistance"; and

(3) by adding at the end of the section the following new subsection:

"(d) As used in this section, the term 'security assistance surveys' means any survey or study conducted in a foreign country by United States Government personnel for the purpose of assessing the needs of that country for security assistance, and includes defense requirement surveys, site surveys, general surveys or studies, and engineering assessment surveys.".

(b) SUBMISSION OF SURVEYS TO CONGRESS.—Section 26(c) of such Act is amended by striking out "grant that committee access to" and inserting in lieu thereof "submit to that committee copies of".

SEC. 115. NORTH ATLANTIC TREATY ORGANIZATION COOPERATIVE PROJECTS.

(a) REVISION OF AUTHORITY.—Section 27 of the Arms Export Control Act is amended to read as follows:

"SEC. 27. NORTH ATLANTIC TREATY ORGANIZATION COOPERATIVE PROJECTS.—(a) The President may enter into a cooperative project agreement with the North Atlantic Treaty Organization or with one or more member countries of that Organization.

"(b) As used in this section—

"(1) the term 'cooperative project' means a jointly managed arrangement, described in a written agreement among the parties, which is undertaken in order to further the objectives of standardization, rationalization, and interoperability of the armed forces of North Atlantic Treaty Organization member countries and which provides—

"(A) for one or more of the other participants to share with the United States the costs of research on and development, testing, evaluation, or joint production (including follow-on support) of certain defense articles;

"(B) for concurrent production in the United States and in another member country of a defense article jointly developed in accordance with subparagraph (A); or

"(C) for procurement by the United States of a defense article or defense service from another member country; and

"(2) the term 'other participant' means a participant in a cooperative project other than the United States.

"(c) Each agreement for a cooperative project shall provide that the United States and each of the other participants will contribute to the cooperative project its equitable share of the full cost of such cooperative project and will receive an equitable share of the results of such cooperative project. The full costs of such cooperative project shall include overhead and administrative costs. The United States and the other participants may contribute their equitable shares of the full cost of such cooperative project in funds or in defense articles or defense services needed for such cooperative project. Military assistance and financing received from the United States Government may not be used by any other participant to provide its share of the cost of such cooperative project. Such agreements shall provide that no requirement shall be imposed by a participant for worksharing or other industrial or commercial compensation in connection with such agreement that is not in accordance with such agreement.

"(d) The President may enter into contracts or incur other obligations for a cooperative project on behalf of the other participants, without charge to any appropriation or contract authorization, if each of the other participants in the cooperative project agrees (1) to pay its equitable share of the contract or other obligation, and (2) to make such funds available in such amounts and at such times as may be required by the contract or other obligation and to pay any damages and costs that may accrue from the performance of or cancellation of the contract or other obligation in advance of the time such payments, damages, or costs are due.

"(e)(1) For those cooperative projects entered into on or after the effective date of the International Security and Development Cooperation Act of 1985, the President may reduce or waive the charge or charges which would otherwise be considered appropriate under section 21(e) of this Act in connection with sales under sections 21 and 22 of this Act when such sales are made as part of such cooperative project, if the other participants agree to reduce or waive corresponding charges.

"(2) Notwithstanding provisions of section 21(e)(1)(A) and section 43(b) of this Act, administrative surcharges shall not be increased on other sales made under this Act in order to compensate for reductions or waivers of such surcharges under this section. Funds received pursuant to such other sales shall not be available to reimburse the costs incurred by the United States Government for which reduction or waiver is approved by the President under this section.

"(f) Not less than 30 days before a cooperative project agreement is signed on behalf of the United States, the President shall transmit to the Speaker of the House of Representatives, the chairman of the Committee on Foreign Relations of the Senate, and the chairman of the Committee on Armed Services of the Senate, a numbered certification with respect to such proposed agreement, setting forth—

"(1) a detailed description of the cooperative project with respect to which the certification is made;

"(2) an estimate of the quantity of the defense articles expected to be produced in furtherance of such cooperative project;

"(3) an estimate of the full cost of the cooperative project, with an estimate of the part of the full cost to be incurred by the United States Government for its participation in such cooperative project and an estimate of that part of the full costs to be incurred by the other participants;

"(4) an estimate of the dollar value of the funds to be contributed by the United States and each of the other participants on behalf of such cooperative project;

"(5) a description of the defense articles and defense services expected to be contributed by the United States and each of the other participants on behalf of such cooperative project;

"(6) a statement of the foreign policy and national security benefits anticipated to be derived from such cooperative project; and

"(7) to the extent known, whether it is likely that prime contracts will be awarded to particular prime contractors or that subcontracts will be awarded to particular subcontractors to comply with the proposed agreement.

"(g) Section 36(b) of this Act shall not apply to sales made under section 21 or 22 of this Act and to production and exports made pursuant to cooperative projects under this section, and section 36(c) of this Act shall not apply to the issuance of licenses or other approvals under section 38 of this Act, if such sales are made, such pro-

duction and exports ensue, or such licenses or approvals are issued, as part of a cooperative project.

"(h) The authority under this section is in addition to the authority under sections 21 and 22 of this Act and under any other provision of law.

"(i)(1) With the approval of the Secretary of State and the Secretary of Defense, a cooperative agreement which was entered into by the United States before the effective date of the amendment to this section made by the International Security and Development Cooperation Act of 1985 and which meets the requirements of this section as so amended may be treated on and after such date as having been made under this section as so amended.

"(2) Notwithstanding the amendment made to this section made by the International Security and Development Cooperation Act of 1985, projects entered into under the authority of this section before the effective date of that amendment may be carried through to conclusion in accordance with the terms of this section as in effect immediately before the effective date of that amendment.".

(b) CONFORMING AMENDMENTS.—(1) Section 2(b) of such Act is amended to read as follows:

"(b) Under the direction of the President, the Secretary of State (taking into account other United States activities abroad, such as military assistance, economic assistance, and the food for peace program) shall be responsible for the continuous supervision and general direction of sales, leases, financing, cooperative projects, and exports under this Act, including, but not limited to, determining—

"(1) whether there will be a sale to or financing for a country and the amount thereof;

"(2) whether there will be a lease to a country;

"(3) whether there will be a cooperative project and the scope thereof; and

"(4) whether there will be delivery or other performance under such sale, lease, cooperative project, or export,

to the end that sales, financing, leases, cooperative projects, and exports will be integrated with other United States activities and to the end that the foreign policy of the United States would be best served thereby.".

(2) Section 3(a) of such Act is amended—

(A) in the text preceding paragraph (1), by inserting ", and no agreement shall be entered into for a cooperative project (as defined in section 27 of this Act)," after "international organization";

(B) in paragraph (2)—

(i) by inserting ", or produced in a cooperative project (as defined in section 27 of this Act)," after "so furnished to it"; and

(ii) by inserting "(or the North Atlantic Treaty Organization or the specified member countries (other than the United States) in the case of a cooperative project)" after "international organization" the second place it appears; and

(C) in paragraph (3), by inserting "or service" after "such article" both places it appears.

(3) Section 42(e) of such Act is amended—

(A) in paragraph (1), by inserting ", and each contract entered into under section 27(d) of this Act," after "of this Act"; and

(B) in paragraph (3), by inserting ", or under contracts entered into under section 27(d) of this Act," after "of this Act".

SEC. 116. EXCHANGE OF TRAINING AND RELATED SUPPORT.

The Arms Export Control Act is amended by inserting the following new chapter after chapter 2B:

"Chapter 2C—Exchange of Training and Related Support

"SEC. 30A. EXCHANGE OF TRAINING AND RELATED SUPPORT.—(a) Subject to subsection (b), the President may provide training and related support to military and civilian defense personnel of a friendly foreign country or an international organization. Such training and related support shall be provided by a Secretary of a military department and may include the provision of transportation, food services, health services, and logistics and the use of facilities and equipment.

"(b) Training and related support may be provided under this section only pursuant to an agreement or other arrangement providing for the provision by the recipient foreign country or international organization, on a reciprocal basis, of comparable training and related support to military and civilian personnel under the jurisdiction of the Secretary of the military department providing the training and related support under this section. Such reciprocal training and related support must be provided within a reasonable period of time (which may not be more than one year) of the provision of training and related support by the United States. To the extent that a foreign country or international organization to which training and related support is provided under this section does not provide such comparable training and related support to the United States within a reasonable period of time; that country or international organization shall be required to reimburse the United States for the full costs of the training and related support provided by the United States.

"(c) Training and related support under this section shall be provided under regulations prescribed by the President.

"(d) Not later than February 1 of each year, the President shall submit to the Congress a report on the activities conducted pursuant to this section during the preceding fiscal year, including the estimated full costs of the training and related support provided by the United States to each country and international organization and the estimated value of the training and related support provided to the United States by that country or international organization.".

SEC. 117. QUARTERLY REPORTS ON UNITED STATES MILITARY ADVISORS ABROAD.

Section 36(a)(7) of the Arms Export Control Act is amended to read as follows:

"(7) an estimate of—

"(A) the number of United States military personnel, the number of United States Government civilian personnel, and the number of United States civilian contract personnel, who were in each foreign country at the end of that quarter, and

"(B) the number of members of each such category of personnel who were in each foreign country at any time during that quarter,

in implementation of sales and commercial exports under this Act or of assistance under chapter 2, 5, 6, or 8 of part II of the Foreign Assistance Act of 1961, including both personnel assigned to the country and personnel temporarily in the country by detail or otherwise;".

SEC. 118. SENSITIVE TECHNOLOGY.

Section 36(b) of the Arms Export Control Act is amended—

(1) by inserting before the period at the end of the second sentence of paragraph (1) the following: ", and a detailed justification of the reasons necessitating the sale of such articles or services in view of the sensitivity of such technology"; and

(2) by adding at the end thereof the following new paragraph:

"(5)(A) If, before the delivery of any major defense article or major defense equipment, or the furnishing of any defense service or design and construction service, sold pursuant to a letter of offer described in paragraph (1), the sensitivity of technology or the capability of the article, equipment, or service is enhanced or upgraded from the level of sensitivity or capability described in the numbered certification with respect to an offer to sell such article, equipment, or service, then, at least 45 days before the delivery of such article or equipment or the furnishing of such service, the President shall prepare and transmit to the chairman of the Committee on Foreign Affairs of the House of Representatives and the chairman of the Committee on Foreign Relations of the Senate a report—

"(i) describing the manner in which the technology or capability has been enhanced or upgraded and describing the significance of such enhancement or upgrade; and

"(ii) setting forth a detailed justification for such enhancement or upgrade.

"(B) The provisions of subparagraph (A) apply to an article or equipment delivered, or a service furnished, within ten years after the transmittal to the Congress of a numbered certification with respect to the sale of such article, equipment, or service.

"(C) If the enhancement or upgrade in the sensitivity of technology or the capability of major defense equipment, defense articles, defense services, or design and construction services described in a numbered certification submitted under this subsection costs $14,000,000 or more in the case of any major defense equipment, $50,000,000 or more in the case of defense articles or defense services, or $200,000,000 or more in the case of design or construction services, then the President shall submit to the Speaker of the House of Representatives and the chairman of the Committee on Foreign Relations of the Senate a new numbered certification which relates to such enhancement or upgrade and which shall be considered for purposes of this subsection as if it were a separate letter of offer to sell defense equipment, articles, or services, subject to all of the requirements, restrictions, and conditions set forth in this subsection. For purposes of this subparagraph, references in this subsection to sales shall be deemed to be references to enhancements or upgrades in the sensitivity of technology or the capability of major defense equipment, articles, or services, as the case may be.

"(D) For the purposes of subparagraph (A), the term 'major defense article' shall be construed to include electronic devices, which if upgraded, would enhance the mission capability of a weapons system.".

SEC. 119. INCREASE IN CRIMINAL PENALTIES FOR CERTAIN VIOLATIONS OF THE ARMS EXPORT CONTROL ACT.

(a) CRIMINAL PENALTIES.—Section 38(c) of the Arms Export Control Act is amended by striking out "not more than $100,000 or imprisoned not more than two years, or both" and inserting in lieu thereof "for each viola-

tion not more than $1,000,000 or imprisoned not more than ten years, or both".

(b) CIVIL PENALTIES.—Section 38(e) of such Act is amended by adding at the end thereof the following: "Notwithstanding section 11(c) of the Export Administration Act of 1979, the civil penalty for each violation involving controls imposed on the export of defense articles and defense services under this section may not exceed $500,000.".

(c) EFFECTIVE DATE.—This section shall take effect upon the date of enactment of this Act or October 1, 1985, whichever is later. The amendments made by this section apply with respect to violations occurring after the effective date of this section.

SEC. 120. OFFICIAL RECEPTION AND REPRESENTATION EXPENSES.

Section 43 of the Arms Export Control Act is amended—

(1) in subsection (b) by inserting "and official reception and representation expenses" immediately after "administrative expenses"; and

(2) by adding at the end thereof the following new subsection:

"(c) Not more than $72,500 of the funds derived from charges for administrative services pursuant to section 21(e)(1)(A) of this Act may be used each fiscal year for official reception and representation expenses.".

SEC. 121. SPECIAL DEFENSE ACQUISITION FUND.

(a) CONTINUOUS ORDERS FOR CERTAIN ARTICLES AND SERVICES.—Section 51(a) of the Arms Export Control Act is amended by adding at the end thereof the following new paragraph:

"(3) The Fund may be used to keep on continuous order such defense articles and defense services as are assigned by the Department of Defense for integrated management by a single agency thereof for the common use of all military departments in anticipation of the transfer of similar defense articles and defense services to foreign countries and international organizations pursuant to this Act, the Foreign Assistance Act of 1961, or other law.".

(b) REVOLVING FUND.—Section 51(b) of such Act is amended to read as follows:

"(b) The Fund shall consist of collections from sales made under letters of offer, or transfers made under the Foreign Assistance Act of 1961, of defense articles and defense services acquired under this chapter (representing the value of such items calculated in accordance with subparagraph (B) or (C) of section 21(a)(1) or section 22 of this Act or section 644(m) of the Foreign Assistance Act of 1961, as appropriate), together with such funds as may be authorized and appropriated or otherwise made available for the purposes of the Fund.".

SEC. 122. LEASING AUTHORITY.

Section 7307(b)(1) of title 10, United States Code, is amended by inserting before the period at the end thereof the following: ", except that any lease or loan of such a vessel under such a law shall be made only in accordance with the provisions of chapter 6 of the Arms Export Control Act (22 U.S.C. 2796 et seq.) or chapter 2 of part II of the Foreign Assistance Act of 1961 (22 U.S.C. 2311 et seq.)".

SEC. 123. MILITARY ASSISTANCE COSTS; WAIVER OF NET PROCEEDS FOR SALE OF MAP ITEMS.

(a) MILITARY ASSISTANCE COSTS.—Section 503(a) of the Foreign Assistance Act of 1961 is amended by adding the following sentence after paragraph (3): "Sales which are wholly paid from funds transferred under paragraph (3) shall be priced to exclude the costs of salaries of members of the Armed Forces of the United States.".

(b) WAIVER OF NET PROCEEDS.—Section 505(f) of such Act is amended by adding at the end thereof the following: "In the case of items which were delivered prior to 1975, the President may waive the requirement that such net proceeds be paid to the United States Government if he determines that to do so is in the national interest of the United States.".

SEC. 124. STOCKPILING OF DEFENSE ARTICLES FOR FOREIGN COUNTRIES.

Section 514(b)(2) of the Foreign Assistance Act of 1961 is amended to read as follows:

"(2) The value of such additions to stockpiles in foreign countries shall not exceed $360,000,000 for fiscal year 1986 and shall not exceed $125,000,000 for fiscal year 1987.".

SEC. 125. SECURITY ASSISTANCE ORGANIZATIONS.

Section 515(c)(1) of the Foreign Assistance Act of 1961 is amended in the last sentence by striking out "For the fiscal year 1982 and the fiscal year 1983," and inserting in lieu thereof "Pakistan, Tunisia, El Salvador, Honduras,".

SEC. 126. EXCHANGE TRAINING.

Chapter 5 of part II of the Foreign Assistance Act of 1961 is amended by adding at the end thereof the following new section:

"SEC. 544. EXCHANGE TRAINING.—In carrying out this chapter, the President is authorized to provide for attendance of foreign military personnel at professional military education institutions in the United States (other than service academies) without charge, and without charge to funds available to carry out this chapter (notwithstanding section 632(d) of this Act), if such attendance is pursuant to an agreement providing for the exchange of students on a one-for-one, reciprocal basis each fiscal year between those United States professional military education institutions and comparable institutions of foreign countries and international organizations.".

SEC. 127. TRAINING IN MARITIME SKILLS.

(a) AUTHORIZATION.—Chapter 5 of part II of the Foreign Assistance Act of 1961, as amended by the preceding section of this Act, is further amended by adding at the end thereof the following new section:

"SEC. 545. TRAINING IN MARITIME SKILLS.—The President is encouraged to allocate a portion of the funds made available each fiscal year to carry out this chapter for use in providing education and training in maritime search and rescue, operation and maintenance of aids to navigation, port security, at-sea law enforcement, international maritime law, and general maritime skills.".

(b) EXEMPTION.—Section 660(b) of such Act is amended—

(1) by striking out "or" at the end of clause (1);

(2) by striking out the period at the end of clause (2) and inserting in lieu thereof "; or"; and

(3) by adding the following new clause after clause (2):

"(3) with respect to assistance, including training, in maritime law enforcement and other maritime skills.".

SEC. 128. SPECIAL WAIVER AUTHORITY.

Section 614(a)(4) of the Foreign Assistance Act of 1961 is amended to read as follows:

"(4)(A) The authority of this subsection may not be used in any fiscal year to authorize—

"(i) more than $750,000,000 in sales to be made under the Arms Export Control Act;

"(ii) the use of more than $250,000,000 of funds made available for use under this Act or the Arms Export Control Act; and

"(iii) the use of more than $100,000,000 of foreign currencies accruing under this Act or any other law.

"(B) If the authority of this subsection is used both to authorize a sale under the Arms Export Control Act and to authorize funds to be used under the Arms Export Control Act or under this Act with respect to the financing of that sale, then the use of the funds shall be counted against the limitation in subparagraph (A)(ii) and the portion, if any, of the sale which is not so financed shall be counted against the limitation in subparagraph (A)(i).

"(C) Not more than $50,000,000 of the $250,000,000 limitation provided in subparagraph (A)(ii) may be allocated to any one country in any fiscal year unless that country is a victim of active Communist or Communist-supported aggression, and not more than $500,000,000 of the aggregate limitation of $1,000,000,000 provided in subparagraphs (A)(i) and (A)(ii) may be allocated to any one country in any fiscal year.".

SEC. 129. CONVENTIONAL ARMS TRANSFERS.

(a) NEGOTIATIONS.—At the earliest possible date, the President should, in consultation with United States allies, initiate discussions with the Soviet Union and France aimed at beginning multilateral negotiations to limit and control the transfer of conventional arms to less developed countries.

(b) REPORT.—Within one year after the date of enactment of this Act, the President shall submit to the Speaker of the House of Representatives and the chairman of the Committee on Foreign Relations of the Senate a report which specifies steps being taken to fulfill the requirements of subsection (a) and which examines and analyzes United States policies concerning the export of conventional arms, especially sophisticated weapons, and possible approaches to developing multilateral limitations on conventional arms sales. This report shall examine and analyze—

(1) the lessons of earlier efforts to negotiate restraints on the export of conventional arms;

(2) the evolution of supplier practices and policies;

(3) the evolution of recipient country attitudes regarding conventional arms transfers;

(4) the effect upon regional stability and security of conventional arms transfers by the United States and its allies and the Soviet Union and its allies;

(5) the relationship between arms imports and the external debt of recipient countries, the allocation of their internal resources, and their economic well-being;

(6) the relationship between arms exports by Western European countries and the needs of those countries to support their domestic military procurement programs;

(7) the prospects for engaging the Soviet Union in serious discussions concerning arms transfers, both globally and as they relate to regional security problems;

(8) possible measures by the United States and Western European suppliers to control levels of sophisticated weapons sales, both regionally and globally; and

(9) the timing and phasing of international conventional arms control negotiations.

SEC. 130. FOREIGN MILITARY SALES FOR JORDAN.

(a) MIDDLE EAST PEACE.—The foreign military sales financing authorized by this Act for Jordan is provided and increased in the recognition of progress Jordan has made in the search for a just and lasting peace in the

Middle East, to encourage further progress, in recognition of the continuing defense needs of Jordan, and in the expectation that Jordan will enter into direct negotiations with Israel based on United Nations Security Council Resolutions 242 and 338 in order to resolve the state of war between those two countries.

(b) SENSE OF CONGRESS.—It is the sense of the Congress that no foreign military sales financing authorized by this Act may be used to finance the procurement by Jordan of United States advanced aircraft, new air defense weapons systems, or other new advanced military weapons systems, and no notification may be made pursuant to section 36(b) of the Arms Export Control Act with respect to a proposed sale to Jordan of United States advanced aircraft, new air defense systems, or other new advanced military weapons systems, unless Jordan is publicly committed to the recognition of Israel and to negotiate promptly and directly with Israel under the basic tenets of United Nations Security Council Resolutions 242 and 338.

(c) CERTIFICATION.—Any notification made pursuant to section 36(b) of the Arms Export Control Act with respect to a proposed sale to Jordan of United States advanced aircraft, new air defense systems, or other new advanced military weapons, shall be accompanied by a Presidential certification of Jordan's public commitment to the recognition of Israel and to negotiate promptly and directly with Israel under the basic tenets of United Nations Security Council Resolutions 242 and 338.

SEC. 131. CERTIFICATION CONCERNING AWACS SOLD TO SAUDI ARABIA.

(a) THE PRESIDENT'S 1981 AWACS COMMUNICATION TO THE SENATE.—(1) The Congress finds that in his October 28, 1981, communication to the Senate concerning the proposed sale of AWACS aircraft and F-15 enhancement items to Saudi Arabia which was then being reviewed by the Congress (hereafter in this section referred to as the "1981 AWACS communication"), the President stated the following:

"Transfer of the AWACS will take place . . . only after the Congress has received in writing a Presidential certification, containing agreements with Saudi Arabia, that the following conditions have been met:

"1. Security of Technology

"A. That a detailed plan for the security of equipment, technology, information, and supporting documentation has been agreed to by the United States and Saudi Arabia and is in place; and

"B. The security provisions are no less stringent than measures employed by the U.S. for protection and control of its equipment of like kind outside the continental U.S.; and

"C. The U.S. has the right of continual on-site inspection and surveillance by U.S. personnel of security arrangements for all operations during the useful life of the AWACS. It is further provided that security arrangements will be supplemented by additional U.S. personnel if it is deemed necessary by the two parties; and

"D. Saudi Arabia will not permit citizens of third nations either to perform maintenance on the AWACS or to modify any such equipment without prior, explicit mutual consent of the two governments; and

"E. Computer software, as designated by the U.S. Government, will remain the property of the USG.

"2. Access to Information

"That Saudi Arabia has agreed to share with the United States continuously and completely the information that it acquires from use of the AWACS.

"3. Control Over Third-Country Participation

"A. That Saudi Arabia has agreed not to share access to AWACS equipment, technology, documentation, or any information developed from such equipment or technology with any nation other than the U.S. without the prior, explicit mutual consent of both governments; and

"B. There are in place adequate and effective procedures requiring the screening and security clearance of citizens of Saudi Arabia and that only cleared Saudi citizens and cleared U.S. nationals will have access to AWACS equipment, technology, or documentation, or information derived therefrom, without the prior, explicit mutual consent of the two governments.

"4. AWACS Flight Operations

"That the Saudi AWACS will be operated solely within the boundaries of Saudi Arabia, except with the prior, explicit mutual consent of the two governments, and solely for defensive purposes as defined by the United States, in order to maintain security and regional stability.

"5. Command Structure

"That agreements as they concern organizational command and control structure for the operation of AWACS are of such a nature to guarantee that the commitments above will be honored.

"6. Regional Peace and Security

"That the sale contributes directly to the stability and security of the area, enhances the atmosphere and prospects for progress toward peace, and that initiatives toward the peaceful resolution of disputes in the region have either been successfully completed or that significant progress toward that goal has been accomplished with the substantial assistance of Saudi Arabia.".

(2) The Congress finds that the President also stated in the 1981 AWACS communication that should circumstances arise that might require changes in the arrangements described in that communication, "they would be made only with Congressional participation".

(b) REQUIREMENT FOR PRESIDENTIAL CERTIFICATION.—As provided in the 1981 AWACS communication, before the E-3A airborne warning and control system (AWACS) aircraft which were the subject of that communication are transferred to Saudi Arabia, the President shall submit to the Congress a written Presidential certification, containing agreements with Saudi Arabia, that the conditions set forth in that communication have been met.

(c) CONGRESSIONAL PARTICIPATION IN CHANGES IN AWACS ARRANGEMENTS.—In order to facilitate the congressional participation provided for in the 1981 AWACS communication, the President shall notify the Congress promptly of any changes being considered by the United States in the arrangements described in that communication.

SEC. 132. COOPERATIVE AGREEMENTS ON AIR DEFENSE IN CENTRAL EUROPE.

(a) GENERAL AUTHORITIES.—The Secretary of Defense may carry out the European air defense agreements. In carrying out those agreements, the Secretary—

(1) may provide without monetary charge to the Federal Republic of Germany articles and services as specified in the agreements; and

(2) may accept from the Federal Republic of Germany (in return for the articles and services provided under paragraph (1)) articles and services as specified in the agreements.

(b) SPECIAL AUTHORITIES.—In connection with the administration of the European air defense agreements, the Secretary of Defense may—

(1) waive any surcharge for administrative services otherwise chargeable under section 21(e)(1)(A) of the Arms Export Control Act;

(2) waive any charge not otherwise waived for services associated with contract administration for the sale under the Arms Export Control Act of Patriot air defense missile fire units to the Federal Republic of Germany contemplated in the agreements;

(3) use, to the extent contemplated in the agreements, the NATO Maintenance and Supply Agency—

(A) for the supply of logistical support in Europe for the Patriot missile system, and

(B) for the acquisition of such logistical support,

to the extent that the Secretary determines that the procedures of that Agency governing such supply and acquisition are appropriate;

(4) share, to the extent contemplated in the agreements, the costs of setup charges of facilities for use by that Agency to perform depot-level support of Patriot missile fire units in Europe; and

(5) deliver to the Federal Republic of Germany one Patriot missile fire unit configured for training, to be purchased by the Federal Republic of Germany under the Arms Export Control Act as contemplated in the agreements, without regard to the requirement in section 22 of that Act for payment in advance of delivery for any purchase under that Act.

(c) RATE CHARGED FOR CERTAIN SERVICES.—Notwithstanding the rate required to be charged under section 21 of the Arms Export Control Act for services furnished by the United States, in the case of 14 Patriot missile fire units which the Federal Republic of Germany purchases from the United States under the Arms Export Control Act as contemplated in the European air defense agreements, the rate charged by the Secretary of Defense for packing, crating, handling, and transportation services associated with that purchase may not exceed the established Department of Defense rate for such services.

(d) LIMITATION ON CONTRACT AUTHORITY.—The authority of the Secretary of Defense to enter into contracts under the European air defense agreements is available only to the extent that appropriated funds, other than those made available under section 31 of the Arms Export Control Act, are available for that purpose.

(e) RELATION TO FISCAL YEAR 1985 AUTHORIZATION.—The authorities provided by this section are an extension of, and not in addition to, the authorities provided by section 1007 of the Department of Defense Authorization Act, 1985 (98 Stat. 2579), relating to the authority of the Secretary of Defense to carry out the European air defense agreements during fiscal year 1985.

(f) DEFINITION OF EUROPEAN AIR DEFENSE AGREEMENTS.—For the purposes of this section, the term "European air defense agreements" means—

(1) the agreement entitled "Agreement between the Secretary of Defense of the United States of America and the Minister of Defense of the Federal Republic of Germany on Cooperative Measures for Enhancing Air Defense for Central Europe", signed on December 6, 1983; and

(2) the agreement entitled "Agreement between the Secretary of Defense of the United

States of America and the Minister of Defense of the Federal Republic of Germany in implementation of the 6 December 1983 Agreement on Cooperative Measures for Enhancing Air Defense for Central Europe", signed on July 12, 1984.

TITLE II—ECONOMIC SUPPORT FUND

SEC. 201. PURPOSES AND USES OF ESF; AUTHORIZATIONS OF APPROPRIATIONS.

SEC. 201. (a) POLICY REVISIONS AND AUTHORIZATIONS OF APPROPRIATIONS.—Chapter 4 of part II of the Foreign Assistance Act of 1961 is amended by striking out sections 531, 532, 533, 534, 536, 537, 538, 539, and 540 and inserting the following new sections after the chapter heading:

"SEC. 531. AUTHORITY.—(a) The Congress recognizes that, under special economic, political, or security conditions, the national interests of the United States may require economic support for countries or in amounts which could not be justified solely under chapter 1 of part I. In such cases, the President is authorized to furnish assistance to countries and organizations, on such terms and conditions as he may determine, in order to promote economic or political stability. To the maximum extent feasible, the President shall provide assistance under this chapter consistent with the policy directions, purposes, and programs of part I of this Act.

"(b) The Secretary of State shall be responsible for policy decisions and justifications for economic support programs under this chapter, including determinations of whether there will be an economic support program for a country and the amount of the program for each country. The Secretary shall exercise this responsibility in cooperation with the Administrator of the agency primarily responsible for administering part I of this Act.

"(c) As part of the annual presentation materials for foreign assistance submitted to the Congress, the agency primarily responsible for administering this part shall provide a detailed justification for the uses and the purposes of the funds provided under this chapter. Such material shall include, but not be limited to, information concerning the amounts and kinds of cash grant transfers, the amounts and kinds of budgetary and balance-of-payments support provided, and the amounts and kinds of project assistance provided with funds made available under this chapter.

"(d) To the maximum extent feasible, funds made available pursuant to this chapter for commodity import programs or other program assistance shall be used to generate local currencies, not less than 50 percent of which shall be available to support activities consistent with the objectives of sections 103 through 106 of this Act, and administered by the agency primarily responsible for administering part I of this Act.

"(e) Amounts appropriated to carry out this chapter shall be available for economic programs only and may not be used for military or paramilitary purposes.

"SEC. 532. AUTHORIZATIONS OF APPROPRIATIONS.—(a) There are authorized to be appropriated to the President to carry out the purposes of this chapter—

"(1) $2,015,000,000 for the fiscal year 1986 and $2,015,000,000 for the fiscal year 1987 for the following countries signing the Camp David agreement: Israel and Egypt; and

"(2) $1,785,000,000 for the fiscal year 1986 and $1,785,000,000 for the fiscal year 1987 for assistance under this chapter for recipients or purposes other than the countries referred to in paragraph (1).".

"(b) Amounts appropriated to carry out this chapter are authorized to remain available until expended.".

(b) EMERGENCY ASSISTANCE.—Section 535 of such Act is amended—

(1) by striking out "1982" and "1983" inserting in lieu thereof "1986" and "1987", respectively; and

(2) by redesignating that section as section 533.

SEC. 202. ASSISTANCE FOR THE MIDDLE EAST.

(a) ISRAEL.—(1) Of the amounts authorized to be appropriated to carry out chapter 4 of part II of the Foreign Assistance Act of 1961, not less than $1,200,000,000 for fiscal year 1986 and not less than $1,200,000,000 for fiscal year 1987 shall be available only for Israel.

(2) The total amounts of funds allocated for Israel under that chapter for fiscal year 1986 and fiscal year 1987 shall be made available as a cash transfer on a grant basis. Such transfer shall be made on an expedited basis in the first 30 days of the respective fiscal year. In exercising the authority of this paragraph, the President shall ensure that the level of cash transfer made to Israel does not cause an adverse impact on the total level of nonmilitary exports from the United States to Israel.

(b) EGYPT.—(1) Of the amounts authorized to be appropriated to carry out chapter 4 of part II of the Foreign Assistance Act of 1961, not less than $815,000,000 for fiscal year 1986 and not less than $815,000,000 for fiscal year 1987 shall be available only for Egypt.

(2) All of the funds made available to Egypt under that chapter for the fiscal years 1986 and 1987 shall be provided on a grant basis.

(3) Up to $115,000,000 of the amounts provided for Egypt for each of the fiscal years 1986 and 1987 pursuant to paragraph (1) may be provided as a cash transfer with the understanding that Egypt will undertake economic reforms or development activities which are additional to those which would be undertaken in the absence of the cash transfer.

(c) COOPERATIVE SCIENTIFIC AND TECHNOLOGICAL PROJECTS.—It is the sense of the Congress that, in order to continue to build the structure of peace in the Middle East, the United States should finance, and where appropriate participate in, cooperative projects of a scientific and technological nature involving Israel and Egypt and other Middle East countries wishing to participate. These cooperative projects should include projects in the fields of agriculture, health, energy, the environment, education, water resources, and the social sciences.

SEC. 203. ASSISTANCE FOR CYPRUS.

(a) EARMARKS.—Of the amounts authorized to be appropriated to carry out chapter 4 of part II of the Foreign Assistance Act of 1961, not less than $15,000,000 for fiscal year 1986 and not less than $15,000,000 for fiscal year 1987 shall be available only for Cyprus.

(b) CYPRUS PEACE AND RECONSTRUCTION FUND.—It is the sense of the Congress that, at the appropriate time, $250,000,000 should be authorized to be appropriated to provide assistance for Cyprus under chapter 4 of part II of the Foreign Assistance Act of 1961 if the President certifies to the Congress that an agreement has been concluded by the Greek and Turkish Cypriots which is supported by Greece and Turkey and which achieves substantial progress toward settlement of the Cyprus dispute. Such an agreement should include an agreement on Varosha/Famagusta, foreign troop levels in the Republic of Cyprus, the disposition of the international airport on Cyprus, or other significant steps which are evidence of substantial progress toward an overall settlement of the Cyprus dispute.

SEC. 204. ASSISTANCE FOR PORTUGAL.

Of the amounts authorized to be appropriated to carry out chapter 4 of part II of the Foreign Assistance Act of 1961, $80,000,000 for fiscal year 1986 and $80,000,000 for fiscal year 1987 shall be available only for Portugal.

SEC. 205. ACQUISITION OF AGRICULTURAL COMMODITIES UNDER COMMODITY IMPORT PROGRAMS.

The President shall use not less than 18 percent of the funds which are authorized to be appropriated to carry out chapter 4 of part II of the Foreign Assistance Act of 1961 for each of the fiscal years 1986 and 1987, and which are made available for commodity import programs, for the purchase of agricultural commodities of United States origin.

SEC. 206. TIED AID CREDIT PROGRAM.

Of the amounts authorized to be appropriated to carry out chapter 4 of part II of the Foreign Assistance Act of 1961 which are allocated for Commodity Import Programs—

(1) not less than $50,000,000 for fiscal year 1986, and

(2) an aggregate of not less than $100,000,000 for both fiscal years 1986 and 1987,

shall be deposited in the fund authorized by subsection (c)(2) of section 645 of the Trade and Development Enhancement Act of 1983 (12 U.S.C. 635r) and shall be used by the Agency for International Development in carrying out the program of tied aid credits for United States exports which is provided for in that section. Funds that have not been obligated pursuant to the tied aid credit program by the end of the third quarter of the fiscal year for which they were appropriated may be used for other purposes under chapter 4 of part II of the Foreign Assistance Act of 1961 if the Administrator of the Agency for International Development certifies to the Congress that (A) no trade credit application acceptable and timely under the Trade and Development Enhancement Act of 1983 is pending, or (B) those funds are not needed for that program because other countries are not engaging in predatory financing practices in order to compete with United States exports.

SEC. 207. RESTRICTION ON USE OF FUNDS FOR NUCLEAR FACILITIES.

Funds authorized to be appropriated to carry out chapter 4 of part II of the Foreign Assistance Act of 1961 for fiscal year 1986 or fiscal year 1987 may not be used to finance the construction of, the operation or maintenance of, or the supplying of fuel for, any nuclear facility in a foreign country unless the President certifies to the Congress that such country is a party to the Treaty on the Non-Proliferation of Nuclear Weapons or the Treaty for the Prohibition of Nuclear Weapons in Latin America (the "Treaty of Tlatelolco"), cooperates fully with the International Atomic Energy Agency, and pursues nonproliferation policies consistent with those of the United States.

SEC. 208. FISCAL YEAR 1985 SUPPLEMENTAL AUTHORIZATION.

(a) AUTHORIZATION.—In addition to the amount appropriated for such purpose by Public Law 98-473, there are authorized to be appropriated $2,008,000,000 for fiscal year 1985 to carry out the purposes of chap-

ter 4 of part II of the Foreign Assistance Act of 1961. Of this amount, $1,500,000,000 shall be available only for Israel, $500,000,000 shall be available only for Egypt, and $8,000,000 shall be available only for the Middle East Regional Program. Amounts appropriated pursuant to this section are authorized to remain available until September 30, 1986.

(b) EFFECTIVE DATE.—This section shall take effect on the date of enactment of this Act.

TITLE III—DEVELOPMENT ASSISTANCE

SEC. 301. DEVELOPMENT ASSISTANCE POLICY.

Section 102(b) of the Foreign Assistance Act of 1961 is amended by adding at the end thereof the following new paragraphs:

"(13) United States encouragement of policy reforms is necessary if developing countries are to achieve economic growth with equity.

"(14) Development assistance should, as a fundamental objective, promote private sector activity in open and competitive markets in developing countries, recognizing such activity to be a productive and efficient means of achieving equitable and long term economic growth.

"(15) United States cooperation in development should recognize as essential the need of developing countries to have access to appropriate technology in order to improve food and water, health and housing, education and employment, and agriculture and industry.

"(16) United States assistance should focus on establishing and upgrading the institutional capacities of developing countries in order to promote long term development. An important component of institution building involves training to expand the human resource potential of people in developing countries.".

SEC. 302. AGRICULTURE, RURAL DEVELOPMENT, AND NUTRITION.

Section 103(a)(2) of the Foreign Assistance Act of 1961 is amended by striking out the first sentence and inserting in lieu thereof the following: "There are authorized to be appropriated to the President for purposes of this section, in addition to funds otherwise available for such purposes, $760,000,000 for fiscal year 1986 and $760,000,000 for fiscal year 1987. Of these amounts, the President may use such amounts as he deems appropriate to carry out the provisions of section 316 of the International Security and Development Cooperation Act of 1980.".

SEC. 303. POPULATION AND HEALTH.

Section 104(g) of the Foreign Assistance Act of 1961 is amended to read as follows:

"(g) AUTHORIZATIONS OF APPROPRIATIONS.—(1) There are authorized to be appropriated to the President, in addition to funds otherwise available for such purposes—

"(A) $290,000,000 for fiscal year 1986 and $290,000,000 for fiscal year 1987 to carry out subsection (b) of this section; and

"(B) $205,000,000 for fiscal year 1986 and $205,000,000 for fiscal year 1987 to carry out subsection (c) of this section.

"(2) Funds appropriated under this subsection are authorized to remain available until expended.".

SEC. 304. CHILD SURVIVAL FUND.

Section 104(c)(2)(B) of the Foreign Assistance Act of 1961 is amended by striking out "$25,000,000" and inserting in lieu thereof "$25,000,000 for fiscal year 1986 and $25,000,000 for fiscal year 1987".

SEC. 305. PROMOTION OF IMMUNIZATION AND ORAL REHYDRATION.

(a) POLICY AND GOAL.—Section 104(c) of the Foreign Assistance Act of 1961 is amended by adding at the end thereof the following new paragraph:

"(3) The Congress recognizes that the promotion of primary health care is a major objective of the foreign assistance program. The Congress further recognizes that simple, relatively low cost means already exist to reduce incidence of communicable diseases among children, mothers, and infants. The promotion of vaccines for immunization, and salts for oral rehydration, therefore, is an essential feature of the health assistance program. To this end, the Congress expects the agency primarily responsible for administering this part to set as a goal the protection of not less than 80 percent of all children, in those countries in which such agency has established development programs, from immunizable diseases by January 1, 1991.".

(b) ANNUAL REPORTS.—Each annual report required by section 634 of the Foreign Assistance Act of 1961 shall describe the progress achieved during the preceding fiscal year in carrying out section 104(c)(3) of such Act.

SEC. 306. EDUCATION AND HUMAN RESOURCES DEVELOPMENT.

The second sentence of section 105(a) of the Foreign Assistance Act of 1961 is amended to read as follows: "There are authorized to be appropriated to the President for the purposes of this section, in addition to funds otherwise available for such purposes, $180,000,000 for fiscal year 1986 and $180,000,000 for fiscal year 1987, which are authorized to remain available until expended.".

SEC. 307. ENERGY, PRIVATE VOLUNTARY ORGANIZATIONS, AND SELECTED DEVELOPMENT ACTIVITIES.

(a) AUTHORIZATIONS.—Section 106(e)(1) of the Foreign Assistance Act of 1961 is amended to read as follows:

"(e)(1) There are authorized to be appropriated to the President for purposes of this section, in addition to funds otherwise available for such purposes, $207,000,000 for fiscal year 1986 and $207,000,000 for fiscal year 1987.".

(b) COOPERATIVE DEVELOPMENT PROGRAM.—Section 106 of such Act is amended by adding at the end thereof the following new subsection:

"(f) Of the amounts authorized to be appropriated to carry out this chapter, $5,000,000 for fiscal year 1986 and $5,000,000 for fiscal year 1987 shall be used to finance cooperative projects among the United States, Israel, and developing countries.".

SEC. 308. PRIVATE SECTOR REVOLVING FUND.

Section 108(b) of the Foreign Assistance Act of 1961 is amended by striking out "fiscal year 1984, up to $20,000,000" in the first sentence and inserting in lieu thereof "each of the fiscal years 1986 and 1987, up to $18,000,000".

SEC. 309. PRIVATE AND VOLUNTARY ORGANIZATIONS AND COOPERATIVES IN OVERSEAS DEVELOPMENT.

(a) NOTIFICATION DATE.—Section 123(e) of the Foreign Assistance Act of 1961 is amended by striking out "thirty days" in the third sentence and inserting in lieu thereof "one year".

(b) EARMARKING FOR PVOs.—Section 123(f) of such Act is amended—

(1) by striking out "1982, 1983, and 1984" and inserting in lieu thereof "1986 through 1989";

(2) by striking out "twelve" and inserting in lieu thereof "thirteen and one half"; and

(3) by adding at the end thereof the following new sentence: "Funds made available under chapter 4 of part II of this Act for the activities of private and voluntary organizations may be considered in determining compliance with the requirements of this subsection.".

SEC. 310. PROMOTION OF DEMOCRATIC COOPERATIVES.

Section 123 of the Foreign Assistance Act of 1961 is amended by adding at the end thereof the following new subsection:

"(h) The Congress recognizes that, in addition to their role in social and economic development, cooperatives provide an opportunity for people to participate directly in democratic decisionmaking. Therefore, assistance under this chapter shall be provided to rural and urban cooperatives which offer large numbers of low- and middle-income people in developing countries an opportunity to participate directly in democratic decisionmaking. Such assistance shall be designed to encourage the adoption of self-help, private sector cooperative techniques and practices which have been successful in the United States.".

SEC. 311. USE OF PRIVATE AND VOLUNTARY ORGANIZATIONS, COOPERATIVES, AND THE PRIVATE SECTOR.

(a) STUDY.—The Administrator of the Agency for International Development shall undertake a comprehensive study of additional ways to provide development assistance through nongovernmental organizations, including United States and indigenous private and voluntary organizations, cooperatives, the business community, and other private entities. Such study shall include—

(1) an analysis of the percentage of development assistance allocated to governmental and nongovernmental programs;

(2) an analysis of structural impediments, within both the United States and foreign governments, to additional use of nongovernmental programs; and

(3) an analysis of the comparative economic benefits of governmental and nongovernmental programs.

(b) REPORT.—The Administrator shall report the results of this study to the Congress no later than September 30, 1986.

SEC. 312. TARGETED ASSISTANCE.

(a) REQUIREMENTS.—Section 128 of the Foreign Assistance Act of 1961 is amended to read as follows:

"SEC. 128. TARGETED ASSISTANCE.—(a) The President shall use poverty measurement standards, such as those developed by the International Bank for Reconstruction and Development, and other appropriate measurements in determining target populations for United States development assistance, and shall strengthen United States efforts to assure that a substantial percentage of development assistance under this chapter directly improves the lives of the poor majority, with special emphasis on those individuals living in absolute poverty.

"(b) To the maximum extent possible, activities under this chapter that attempt to increase the institutional capabilities of private organizations or governments, or that attempt to stimulate scientific and technological research, shall be designed and monitored to ensure that the ultimate beneficiaries of these activities are the poor majority.".

(b) ANNUAL REPORTS.—Section 634(a)(1)(B) of such Act is amended by inserting immedi-

ately before the semicolon the following: ", such assessment to include an evaluation of the extent to which programs under chapter 1 of part I directly benefit the poor majority".

SEC. 313. HOUSING AND OTHER GUARANTY PROGRAMS.

(a) INCREASING AUTHORIZED HIG PROGRAM LEVEL.—Section 222(a) of the Foreign Assistance Act of 1961 is amended by striking out "$1,958,000,000" in the second sentence and inserting in lieu thereof "$2,158,000,000".

(b) EXTENDING HIG PROGRAM AUTHORITY.—Such section is further amended by striking out "1986" in the third sentence and inserting in lieu thereof "1988".

(c) MINIMUM ANNUAL HIG PROGRAM LEVELS.—Section 222 of such Act is amended by adding at the end thereof the following:

"(k) The total principal amount of guaranties issued under this section for each of the fiscal years 1986 and 1987 shall be comparable to the total principal amount of such guaranties issued for fiscal year 1984, subject to the dollar limitations on the issuance of guaranties under this section which are contained in subsection (a) and in appropriation Acts.".

(d) AGRICULTURAL AND PRODUCTIVE CREDIT AND SELF-HELP COMMUNITY DEVELOPMENT PROGRAMS.—Section 222A(h) of such Act is amended by striking out "1986" and inserting in lieu thereof "1988".

SEC. 314. TRADE CREDIT INSURANCE PROGRAM.

Section 224(e) of the Foreign Assistance Act of 1961 is amended by striking out "not to exceed $300,000,000 in the fiscal year 1985" and inserting in lieu therof "except that the aggregate amount of outstanding commitments under subsection (a) may not exceed $300,000,000 of contingent liability for loan principal during fiscal year 1986 and may not exceed $400,000,000 of contingent liability for loan principal during fiscal year 1987".

SEC. 315. MINORITY SET-ASIDE.

Except to the extent that the Administrator of the Agency for International Development determines otherwise, not less than 10 percent of the aggregate of the funds made available for each of the fiscal year 1986 and 1987 to carry out chapter 1 of part I of the Foreign Assistance Act of 1961 shall be made available only for activities of economically and socially disadvantaged enterprises (within the meaning of section 133(c)(5) of the International Development and Food Assistance Act of 1977), historically black colleges and universities, and private and voluntary organizations which are controlled by individuals who are black Americans, Hispanic Americans, or Native Americans, or who are economically and socially disadvantaged (within the meaning of section 133(c)(5)(B) and (C) of the International Development and Food Assistance Act of 1977). For purposes of this section, economically and socially disadvantaged individuals shall be deemed to include women.

TITLE IV—OTHER FOREIGN ASSISTANCE PROGRAMS

SEC. 401. AMERICAN SCHOOLS AND HOSPITALS ABROAD.

Section 214(c) of the Foreign Assistance Act of 1961 is amended to read as follows:

"(c)(1) To carry out the purposes of this section, there are authorized to be appropriated to the President $35,000,000 for fiscal year 1986 and $35,000,000 for fiscal year 1987.

"(2) Amounts appropriated under paragraph (1) are authorized to remain available until expended.".

SEC. 402. VOLUNTARY CONTRIBUTIONS TO INTERNATIONAL ORGANIZATIONS AND PROGRAMS.

(a) AUTHORIZATIONS AND EARMARKINGS.—Section 302(a)(1) of the Foreign Assistance Act of 1961 is amended to read as follows:

"(a)(1) There are authorized to be appropriated to the President $270,000,000 for fiscal year 1986 and $270,000,000 for fiscal year 1987 for grants to carry out the purposes of this chapter, in addition to funds available under other Acts for such purposes. Of the amount appropriated for each of the fiscal years 1986 and 1987 pursuant to these authorizations—

"(A) 59.65 percent shall be for the United Nations Development Program;

"(B) 19.30 percent shall be for the United Nations Children's Fund;

"(C) 7.20 percent shall be for the International Atomic Energy Agency, except that these funds may be contributed to that Agency only if the Secretary of State determines (and so reports to the Congress) that Israel is not being denied its right to participate in the activities of that Agency;

"(D) 5.44 percent shall be for Organization of American States development assistance programs;

"(E) 3.51 percent shall be for the United Nations Environment Program;

"(F) 0.70 percent shall be for the World Meteorological Organization;

"(G) 0.70 percent shall be for the United Nations Capital Development Fund;

"(H) 0.35 percent shall be for the United Nations Education and Training Program for Southern Africa;

"(I) 0.18 percent shall be for the United Nations Voluntary Fund for the Decade for Women;

"(J) 0.07 percent shall be for the Convention on International Trade in Endangered Species;

"(K) 0.70 percent shall be for the World Food Program;

"(L) 0.18 percent shall be for the United Nations Institute for Namibia;

"(M) 0.12 percent shall be for the United Nations Trust Fund for South Africa;

"(N) 0.04 percent shall be for the United Nations Voluntary Fund for Victims of Torture;

"(O) 0.07 percent shall be for the United Nations Industrial Development Organization;

"(P) 0.55 percent shall be for the United Nations Development Program Trust Fund to Combat Poverty and Hunger in Africa;

"(Q) 0.97 percent shall be for contributions to international conventions and scientific organizations;

"(R) 0.18 percent for the United Nations Centre on Human Settlements (Habitat); and

"(S) 0.09 percent shall for the World Heritage Fund.".

(b) FISCAL YEAR 1985 CONTRIBUTION TO UNITED NATIONS ENVIRONMENT PROGRAM.—Notwithstanding section 614 of the Foreign Assistance Act of 1961 or any other provision of law, $10,000,000 of the funds appropriated for the fiscal year 1985 to carry out chapter 3 of part I of such Act shall be available only for the United Nations Environment Program. This subsection shall take effect on the date of enactment of this Act.

SEC. 403. WITHHOLDING OF UNITED STATES PROPORTIONATE SHARE FOR CERTAIN PROGRAMS OF INTERNATIONAL ORGANIZATIONS.

Chapter 3 of part I of the Foreign Assistance Act of 1961 is amended by adding at the end thereof the following new section:

"SEC. 307. WITHHOLDING OF UNITED STATES PROPORTIONATE SHARE FOR CERTAIN PROGRAMS OF INTERNATIONAL ORGANIZATIONS.—(a) Notwithstanding any other provision of law, none of the funds authorized to be appropriated by this chapter shall be available for the United States proportionate share for programs for the South-West Africa People's Organization, Libya, Iran, Cuba, or the Palestine Liberation Organization or for projects whose purpose is to provide benefits to the Palestine Liberation Organization or entities associated with it.

"(b) The Secretary of State—

"(1) shall review, at least annually, the budgets and accounts of all international organizations receiving payments of any funds authorized to be appropriated by this chapter; and

"(2) shall report to the appropriate committees of the Congress the amounts of funds expended by each such organization for the purposes described in subsection (a) and the amount contributed by the United States to each such organization.".

SEC. 404. INTERNATIONAL DISASTER ASSISTANCE.

The first sentence of section 492(a) of the Foreign Assistance Act of 1961 is amended to read as follows: "There are authorized to be appropriated to the President to carry out section 491, $25,000,000 for fiscal year 1986 and $25,000,000 for fiscal year 1987.".

SEC. 405. TRADE AND DEVELOPMENT PROGRAM.

The first sentence of section 661(b) of the Foreign Assistance Act of 1961 is amended to read as follows: "There are authorized to be appropriated to the President for purposes of this section, in addition to funds otherwise available for such purposes, $20,000,000 for fiscal year 1986 and $20,000,000 for fiscal year 1987.".

SEC. 406. OPERATING EXPENSES.

Section 667(a)(1) of the Foreign Assistance Act of 1961 is amended to read as follows:

"(1) $387,000,000 for fiscal year 1986 and $387,000,000 for fiscal year 1987 for necessary operating expenses of the agency primarily responsible for administering part I of this Act; and".

TITLE V—INTERNATIONAL TERRORISM AND FOREIGN AIRPORT SECURITY

Part A—International Terrorism Generally

SEC. 501. ANTI-TERRORISM ASSISTANCE PROGRAM.

(a) AUTHORIZATIONS.—Section 575 of the Foreign Assistance Act of 1961 is amended to read as follows:

"SEC. 575. AUTHORIZATIONS OF APPROPRIATIONS.—(a) There are authorized to be appropriated to the President to carry out this chapter $9,840,000 for fiscal year 1986 and $9,840,000 for fiscal year 1987.

"(b) Amounts appropriated under this section are authorized to remain available until expended.".

(b) ITEMS ON THE MUNITIONS LIST.—Section 573(d)(4) of such Act is amended to read as follows:

"(4)(A) Except as provided in subparagraph (B), articles on the United States Munitions List established pursuant to the Arms Export Control Act may not be made available under this chapter.

"(B) For fiscal years 1986 and 1987, articles on the United States Munitions List may be made available under this chapter if—

"(i) they are small arms in category I (relating to firearms), ammunition in category III (relating to ammunition) for small arms in category I, or articles in category X (relating to protective personnel equipment), and they are directly related to anti-terror-

ism training being provided under this chapter;

"(ii) the recipient country is not prohibited by law from receiving assistance under one or more of the following provisions: chapter 2 of this part, chapter 5 of this part, or the Arms Export Control Act; and

"(iii) at least 15 days before the articles are made available to the foreign country, the President notifies the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate of the proposed transfer, in accordance with the procedures applicable to reprogramming notifications pursuant to section 634A of this Act.

"(C) The value (in terms of original acquisition cost) of all equipment and commodities provided under subsection (a) of this section, including articles described in subparagraph (B)(i) of this paragraph, may not exceed $325,000 in fiscal year 1986 or $325,000 in fiscal year 1987.".

(c) RESTRICTION.—Section 573 of such Act is amended by adding at the end thereof the following new subsection:

"(f) Funds made available to carry out this chapter may not be used for personnel compensation or benefits.".

(d) EXPIRATION OF AUTHORITY.—Section 577 of such Act is repealed.

SEC. 502. COORDINATION OF ALL UNITED STATES ANTI-TERRORISM ASSISTANCE TO FOREIGN COUNTRIES.

(a) COORDINATION.—The Secretary of State shall be responsible for coordinating all anti-terrorism assistance to foreign countries provided by the United States Government.

(b) REPORTS.—Not later than February 1 each year, the Secretary of State, in consultation with appropriate United States Government agencies, shall report to the appropriate committees of the Congress on the anti-terrorism assistance provided by the United States Government during the preceding fiscal year. Such reports may be provided on a classified basis to the extent necessary, and shall specify the amount and nature of the assistance provided.

SEC. 503. PROHIBITION ON ASSISTANCE TO COUNTRIES SUPPORTING INTERNATIONAL TERRORISM.

(a) PROHIBITION.—Section 620A of the Foreign Assistance Act of 1961 is amended to read as follows:

"SEC. 620A. PROHIBITION ON ASSISTANCE TO COUNTRIES SUPPORTING INTERNATIONAL TERRORISM.—(a) The United States shall not provide any assistance under this Act, the Agricultural Trade Development and Assistance Act of 1954, the Peace Corps Act, or the Arms Export Control Act, to any country which the President determines—

"(1) grants sanctuary from prosecution to any individual or group which has committed an act of international terrorism, or

"(2) otherwise supports international terrorism.

"(b) The President may waive the application of subsection (a) to a country if the President determines that national security or humanitarian reasons justify such waiver. The President shall publish each waiver in the Federal Register and, at least 15 days before the waiver takes effect, shall notify the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate of the waiver (including the justification for the waiver) in accordance with the procedures applicable to reprogramming notifications pursuant to section 634A of this Act.

"(c) If sanctions are imposed on a country pursuant to subsection (a) because of its support for international terrorism, the President should call upon other countries to impose similar sanctions on that country.".

(b) CONFORMING AMENDMENT.—Section 3(f) of the Arms Export Control Act is amended by striking out ", credits, and guaranties" and ", credits, or guaranties" each place they appear.

SEC. 504. PROHIBITION ON IMPORTS FROM AND EXPORTS TO LIBYA.

(a) PROHIBITION ON IMPORTS.—Notwithstanding any other provision of law, the President may prohibit any article grown, produced, extracted, or manufactured in Libya from being imported into the United States.

(b) PROHIBITION ON EXPORTS.—Notwithstanding any other provision of law, the President may prohibit any goods or technology, including technical data or other information, subject to the jurisdiction of the United States or exported by any person subject to the jurisdiction of the United States, from being exported to Libya.

(c) DEFINITION.—For purposes of this section, the term "United States", when used in a geographical sense, includes territories and possessions of the United States.

SEC. 505. BAN ON IMPORTING GOODS AND SERVICES FROM COUNTRIES SUPPORTING TERRORISM.

(a) AUTHORITY.—The President may ban the importation into the United States of any good or service from any country which supports terrorism or terrorist organizations or harbors terrorists or terrorist organizations.

(b) CONSULTATION.—The President, in every possible instance, shall consult with the Congress before exercising the authority granted by this section and shall consult regularly with the Congress so long as that authority is being exercised.

(c) REPORTS.—Whenever the President exercises the authority granted by this section, he shall immediately transmit to the Congress a report specifying—

(1) the country with respect to which the authority is to be exercised and the imports to be prohibited;

(2) the circumstances which necessitate the exercise of such authority;

(3) why the President believes those circumstances justify the exercise of such authority; and

(4) why the President believes the prohibitions are necessary to deal with those circumstances.

At least once during each succeeding 6-month period after transmitting a report pursuant to this subsection, the President shall report to the Congress with respect to the actions taken, since the last such report, pursuant to this section and with respect to any changes which have occurred concerning any information previously furnished pursuant to this subsection.

(d) DEFINITION.—For purposes of this section, the term "United States" includes territories and possessions of the United States.

SEC. 506. INTERNATIONAL ANTI-TERRORISM COMMITTEE.

The Congress calls upon the President to seek the establishment of an international committee, to be known as the International Anti-Terrorism Committee, consisting of representatives of the member countries of the North Atlantic Treaty Organization, Japan, and such other countries as may be invited and may chose to participate. The purpose of the Committee should be to focus the attention and secure the cooperation of the governments and the public of the participating countries and of other countries on the problems and responses to international terrorism, by serving as a forum at both the political and law enforcement levels.

SEC. 507. INTERNATIONAL TERRORISM CONTROL TREATY.

It is the sense of the Congress that the President should establish a process by which democratic and open societies of the world, which are those most plagued by terrorism, negotiate a viable treaty to effectively prevent and respond to terrorist attacks. Such a treaty should incorporate an operative definition of terrorism, and should establish effective close intelligence-sharing, joint counterterrorist training, and uniform laws on asylum, extradition, and swift punishment for perpetrators of terrorism. Parties to such a treaty should include, but not be limited to, those democratic nations who are most victimized by terrorism.

SEC. 508. STATE TERRORISM.

It is the sense of the Congress that all civilized nations should firmly condemn the increasing use of terrorism by certain states as an official instrument for promoting their policy goals, as evidenced by such examples as the brutal assassination of Major Arthur D. Nicholson, Junior, by a member of the Soviet armed forces.

Part B—Foreign Airport Security

SEC. 551. SECURITY STANDARDS FOR FOREIGN AIR TRANSPORTATION.

(a) SECURITY AT FOREIGN AIRPORTS.—Section 1115 of the Federal Aviation Act of 1958 (49 U.S.C. App. 1515) is amended to read as follows:

"SECURITY STANDARDS IN FOREIGN AIR TRANSPORTATION

"ASSESSMENT OF SECURITY MEASURES

"SEC. 1115. (a)(1) The Secretary of Transportation shall conduct at such intervals as the Secretary shall deem necessary an assessment of the effectiveness of the security measures maintained at those foreign airports being served by air carriers, those foreign airports from which foreign air carriers serve the United States, those foreign airports which pose a high risk of introducing danger to international air travel, and at such other foreign airports as the Secretary may deem appropriate.

"(2) Each such assessment shall be made by the Secretary of Transportation in consultation with the appropriate aeronautic authorities of the foreign government concerned and each air carrier serving the foreign airport at which the Secretary is conducting such assessment.

"(3) The assessment shall determine the extent to which an airport effectively maintains and administers security measures. In making an assessment of any airport under this subsection, the Secretary shall use a standard which will result in an analysis of the security measures at such airport based upon, at a minimum, the standards and appropriate recommended practices contained in Annex 17 to the Convention on International Civil Aviation, as those standards and recommended practices are in effect on the date of such assessment.

"CONSULTATION WITH THE SECRETARY OF STATE

"(b) In carrying out subsection (a), the Secretary of Transportation shall consult the Secretary of State with respect to the terrorist threat which exists in each country. The Secretary of Transportation shall also consult with the Secretary of State in order to determine which foreign airports are not under the de facto control of the government

of the country in which they are located and pose a high risk of introducing danger to international air travel.

"REPORT OF ASSESSMENTS

"(c) Each report to the Congress required by section 315 of this Act shall contain a summary of the assessments conducted pursuant to subsection (a).

"NOTIFICATION TO FOREIGN COUNTRY OF DETERMINATION

"(d) Whenever, after an assessment in accordance with subsection (a), the Secretary of Transportation determines that an airport does not maintain and administer effective security measures, the Secretary (after advising the Secretary of State) shall notify the appropriate authorities of such foreign government of such determination, and recommend the steps necessary to bring the security measures in use at that airport up to the standard used by the Secretary in making such assessment.

"NOTICE AND SANCTIONS

"(e)(1) Paragraph (2) of this subsection shall become effective—

"(A) 90 days after notification to the foreign government pursuant to subsection (d), if the Secretary of Transportation finds that the foreign government has failed to bring the security measures at the identified airport up to the standard used by the Secretary in making an assessment of such airport under subsection (a); or

"(B) immediately upon the Secretary of Transportation's determination under subsection (d) if the Secretary of Transportation determines, after consultation with the Secretary of State, that a condition exists that threatens the safety or security of passengers, aircraft, or crew traveling to or from such airport.

The Secretary of Transportation shall immediately notify the Secretary of State of any determination made pursuant to subparagraph (B) so that the Secretary of State may comply with the requirement of section 552(a) of the International Security and Development Cooperation Act of 1985 that a travel advisory be issued.

"(2) Subject to paragraph (1), if the Secretary of Transportation determines pursuant to this section that an airport does not maintain and administer effective security measures—

"(A) the Secretary of Transportation—

"(i) shall publish the identity of such airport in the Federal Register,

"(ii) shall cause the identity of such airport to be posted and prominently displayed at all United States airports regularly being served by scheduled air carrier operations, and

"(iii) shall notify the news media of the identity of such airport;

"(B) each air carrier and foreign air carrier providing service between the United States and such airport shall provide notice of such determination by the Secretary to any passenger purchasing a ticket for transportation between the United States and such airport, with such notice to be made by written material included on or with such ticket;

"(C) the Secretary of Transportation, after consultation with the appropriate aeronautical authorities of the foreign government concerned and each air carrier serving such airport, may, notwithstanding section 1102 of this Act and with the approval of the Secretary of State, withhold, revoke, or impose conditions on the operating authority of any air carrier or foreign air carrier to engage in foreign air transportation utilizing such airport; and

"(D) the President may prohibit air carriers and foreign air carriers from providing service between the United States and any other foreign airport which is directly or indirectly served by aircraft flying to or from the airport with respect to which the determination is made under this section.

"(3) The Secretary of Transportation shall promptly submit to the Congress a report (with a classified annex if necessary) on any action taken under this subsection, setting forth information concerning the attempts made to secure the cooperation of the foreign government in meeting the standard used by the Secretary in making the assessment of the airport under subsection (a).

"LIFTING OF SANCTIONS

"(f)(1) The sanctions required to be imposed with respect to an airport pursuant subsection (e)(2) (A) and (B) may be lifted only if the Secretary of Transportation, in consultation with the Secretary of State, has determined that effective security measures are maintained and administered at that airport.

"(2) The Congress shall be notified if any sanction imposed pursuant subsection (e) is lifted.

"AUTHORITY FOR IMMEDIATE SUSPENSION OF AIR SERVICE

"(g) Notwithstanding sections 1102 and 1114 of this Act, whenever the Secretary of Transportation determines that—

"(1) a condition exists that threatens the safety or security of passengers, aircraft, or crew traveling to or from a foreign airport, and

"(2) the public interest requires an immediate suspension of services between the United States and the identified airport,

the Secretary of Transportation shall, without notice or hearing and with the approval of the Secretary of State, suspend the right of any air carrier or foreign air carrier to engage in foreign air transportation to or from that foreign airport and the right of any person to operate aircraft in foreign air commerce to or from that foreign airport.

"CONDITIONS OF AUTHORITY

"(h) The provisions of this section shall be deemed to be a condition to any authority granted under title IV or title VI of this Act to any air carrier or any foreign air carrier, issued under authority vested in the Secretary of Transportation.".

(b) CONFORMING AMENDMENTS.—

(1) INFORMATION IN SEMIANNUAL REPORTS.—Section 315(a) of the Federal Aviation Act of 1958 (49 U.S.C. App. 1356(a)) is amended by adding at the end thereof the following new sentence: "Each semiannual report submitted by the Administrator pursuant to the preceding sentence shall include the information described in section 1115(c) of this Act.".

(2) CIVIL PENALTIES.—Section 901(a)(1) of the Federal Aviation Act of 1958 (49 U.S.C. App. 1471(a)(1)) is amended by inserting "or 1115(e)(2)(B)" after "1114".

(3) TABLE OF CONTENTS.—That portion of the table of contents contained in the first section of the Federal Aviation Act of 1958 which appears under the center heading

"TITLE XI—MISCELLANEOUS"

is amended by striking out

"Sec. 1115. Security standards in foreign air transportation.".

and inserting in lieu thereof

"Sec. 1115. Security standards in foreign air transportation.

"(a) Assessment of security measures.

"(b) Consultation with the Secretary of State.

"(c) Report of assessments.

"(d) Notification to foreign country of determination.

"(e) Notice and sanctions.

"(f) Lifting of sanctions.

"(g) Authority for immediate suspension of air service.

"(h) Conditions of authority.".

(c) CLOSING OF BEIRUT INTERNATIONAL AIRPORT.—It is the sense of the Congress that the President is urged and encouraged to take all appropriate steps to carry forward his announced policy of seeking the effective closing of the international airport in Beirut, Lebanon, at least until such time as the Government of Lebanon has instituted measures and procedures designed to prevent the use of that airport by aircraft hijackers and other terrorists in attacking civilian airlines or their passengers, hijacking their aircraft, or taking or holding their passengers hostage.

SEC. 552. TRAVEL ADVISORY AND SUSPENSION OF FOREIGN ASSISTANCE.

(a) TRAVEL ADVISORY.—Upon being notified by the Secretary of Transportation that the Secretary has determined, pursuant to subsection (e)(1)(B) of section 1115 of the Federal Aviation Act of 1958 that a condition exists that threatens the safety or security of passengers, aircraft, or crew travelling to or from a foreign airport which the Secretary of Transportation has determined pursuant to that section to be an airport which does not maintain and administer effective security measures, the Secretary of State shall immediately issue a travel advisory with respect to that airport. Any travel advisory issued pursuant to this subsection shall be published in the Federal Register. The Secretary of State shall take the necessary steps to widely publicize that travel advisory.

(b) SUSPENSION OF FOREIGN ASSISTANCE.—The President shall suspend all assistance under the Foreign Assistance Act of 1961 or the Arms Export Control Act to any country in which is located an airport with respect to which section 1115(e)(2) of the Federal Aviation Act of 1958 becomes effective if the Secretary of State determines that such country is a high terrorist threat country. The President may waive the requirements of this subsection if the President determines and reports to the Congress that national security interests or a humanitarian emergency require such waiver.

(c) LIFTING SANCTIONS.—The sanctions required to be imposed pursuant to this section may be lifted only if, pursuant to section 1115(f) of the Federal Aviation Act of 1958, the Secretary of Transportation, in consultation with the Secretary of State, has determined that effective security measures are maintained and administered at the airport with respect to which the Secretary of Transportation had made the determination described in section 1115 of that Act.

(d) NOTIFICATION TO CONGRESS.—The Congress shall be notified if any sanction imposed pursuant to this section is lifted.

SEC. 553. UNITED STATES AIRMARSHAL PROGRAM.

(a) STUDY OF NEED FOR EXPANSION OF PROGRAM.—The Secretary of Transportation, in coordination with the Secretary of State, shall study the need for an expanded airmarshal program on international flights of United States air carriers. The Secretary of Transportation shall report the results of this study to the Congress within 6 months after the date of enactment of this Act.

(b) AUTHORITY TO CARRY FIREARMS AND MAKE ARRESTS.—The Secretary of Transpor-

tation, with the approval of the Attorney General and the Secretary of State, may authorize persons, in connection with the performance of their air transportation security duties, to carry firearms and to make arrests without warrant for any offense against the United States committed in their presence, or for any felony cognizable under the laws of the United States, if they have reasonable grounds to believe that the person to be arrested has committed or is committing a felony.

SEC. 554. ENFORCEMENT OF INTERNATIONAL CIVIL AVIATION ORGANIZATION STANDARDS.

The Secretary of State and the Secretary of Transportation, jointly, shall call on the member countries of the International Civil Aviation Organization to enforce that Organization's existing standards and to support United States actions enforcing such standards.

SEC. 555. INTERNATIONAL CIVIL AVIATION BOYCOTT OF COUNTRIES SUPPORTING INTERNATIONAL TERRORISM.

It is the sense of the Congress that the President—

(1) should call for an international civil aviation boycott with respect to those countries which the President determines—

(A) grant sanctuary from prosecution to any individual or group which has committed an act of international terrorism, or

(B) otherwise support international terrorism; and

(2) should take steps, both bilateral and multilateral, to achieve a total international civil aviation boycott with respect to those countries.

SEC. 556. MULTILATERAL AND BILATERAL AGREEMENTS WITH RESPECT TO AIRCRAFT SABOTAGE, AIRCRAFT HIJACKING, AND AIRPORT SECURITY.

The Secretary of State shall seek multilateral and bilateral agreement on strengthening enforcement measures and standards for compliance with respect to aircraft sabotage, aircraft hijacking, and airport security.

SEC. 557. RESEARCH ON AIRPORT SECURITY TECHNIQUES FOR DETECTING EXPLOSIVES.

In order to improve security at international airports, there are authorized to be appropriated to the Secretary of Transportation from the Airport and Airway Trust Fund (in addition to amounts otherwise available for such purpose) $5,000,000, without fiscal year limitation, to be used for research on and the development of airport security devices or techniques for detecting explosives.

SEC. 558. HIJACKING OF TWA FLIGHT 847 AND OTHER ACTS OF TERRORISM.

The Congress joins with all Americans in celebrating the release of the hostages taken from Trans World Airlines flight 847. It is the sense of the Congress that—

(1) purser Uli Derickson, pilot John Testrake, co-pilot Philip Maresca, flight engineer Benjamin Zimmermann, and the rest of the crew of Trans World Airlines flight 847 displayed extraordinary valor and heroism during the hostages' ordeal and therefore should be commended;

(2) the hijackers who murdered United States Navy Petty Officer Stethem should be immediately brought to justice;

(3) all diplomatic means should continue to be employed to obtain the release of the 7 United States citizens previously kidnapped and still held in Lebanon;

(4) acts of international terrorism should be universally condemned; and

(5) the Secretary of State should be supported in his efforts to gain international cooperation to prevent future acts of terrorism.

SEC. 559. EFFECTIVE DATE.

This part shall take effect on the date of enactment of this Act.

TITLE VI—INTERNATIONAL NARCOTICS CONTROL

SEC. 601. SHORT TITLE.

This title may be cited as the "International Narcotics Control Act of 1985".

SEC. 602. AUTHORIZATIONS FOR INTERNATIONAL NARCOTICS CONTROL ASSISTANCE.

Subsection (a)(1) of section 482 of the Foreign Assistance Act of 1961 is amended to read as follows:

"(a)(1) To carry out the purposes of section 481, there are authorized to be appropriated to the President $57,529,000 for fiscal year 1986 and $57,529,000 for fiscal year 1987.".

SEC. 603. DEVELOPMENT AND ILLICIT NARCOTICS PRODUCTION.

Section 126(b) of the Foreign Assistance Act of 1961 is amended—

(1) by inserting "and under chapter 4 of part II" immediately after "this chapter"; and

(2) by inserting "(1)" after "(b)" and by adding at the end thereof the following new paragraph:

"(2) The agency primarily responsible for administering this part may utilize resources for activities aimed at increasing awareness of the effects of production and trafficking of illicit narcotics on source and transit countries.".

SEC. 604. REPORTS ON INTERNATIONAL NARCOTICS CONTROL ASSISTANCE.

Section 481(b) of the Foreign Assistance Act of 1961 is amended to read as follows:

"(b)(1) Not later than 45 days after the end of each calendar quarter, the President shall transmit to the Speaker of the House of Representatives, and to the Committee on Foreign Relations of the Senate, a report on the programming and obligation, on a calendar basis, of funds under this chapter prior to the end of that quarter. The last such report for each fiscal year shall include the aggregate obligations and expenditures made, and the types and quantity of equipment provided, on a calendar quarter basis, prior to end of that fiscal year—

"(A) to carry out the purposes of this chapter with respect to each country and each international organization receiving assistance under this chapter, including the cost of the United States personnel engaged in carrying out such purposes in each such country and with each such international organization;

"(B) to carry out each program conducted under this chapter in each country and by each international organization, including the cost of United States personnel engaged in carrying out each such program; and

"(C) for administrative support services within the United States to carry out the purposes of this chapter, including the cost of United States personnel engaged in carrying out such purposes in the United States.

"(2) Not later than August 1 of each year, the President shall transmit to the Speaker of the House of Representatives, and to the Committee on Foreign Relations of the Senate, a complete and detailed midyear report on the activities and operations carried out under this chapter prior to such date. Such midyear report shall include, but not be limited to, the status of each agreement concluded prior to such date with other countries to carry out the purposes of this chapter.".

SEC. 605. EXEMPTION FROM BAN ON INVOLVEMENT OF UNITED STATES PERSONNEL IN ARREST ACTIONS IN NARCOTICS CONTROL EFFORTS ABROAD.

Section 481(c) of the Foreign Assistance Act of 1961 is amended by adding at the end thereof the following new paragraph:

"(2) Paragraph (1) of this subsection shall not prohibit officers and employees of the United States from being present during direct police arrest actions with respect to narcotic control efforts in a foreign country to the extent that the Secretary of State and the government of that country agree to such an exemption. The Secretary of State shall report any such agreement to the Congress before the agreement takes effect.".

SEC. 606. ANNUAL REPORTS ON INVOLVEMENT OF FOREIGN COUNTRIES IN ILLICIT DRUG TRAFFIC.

Section 481(e) of the Foreign Assistance Act of 1961 is amended by adding at the end thereof the following new paragraph:

"(6) Each report pursuant to this subsection shall describe the involvement of any foreign government (including any communist government) in illicit drug trafficking during the preceding fiscal year, including—

"(A) the direct or indirect involvement of such government (or any official thereof) in the production, processing, or shipment of narcotic and psychotropic drugs and other controlled substances, and

"(B) any other activities of such government (or any official thereof) which have facilitated illicit drug trafficking.".

SEC. 607. PROCUREMENT OF WEAPONS TO DEFEND AIRCRAFT INVOLVED IN NARCOTICS CONTROL EFFORTS.

Of the funds available to carry out chapter 2 of part II of the Foreign Assistance Act of 1961 (relating to grant military assistance), $1,000,000 for each of the fiscal years 1986 and 1987 shall be made available to arm, for defensive purposes, aircraft used in narcotic control eradication or interdiction efforts. The Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate shall be notified of the use of any such funds for that purpose at least 15 days in advance in accordance with the reprogramming procedures applicable under section 634A of the Foreign Assistance Act of 1961.

SEC. 608. REQUIREMENT FOR COST-SHARING IN INTERNATIONAL NARCOTICS CONTROL ASSISTANCE PROGRAMS.

Section 482 of the Foreign Assistance Act of 1961 is amended by adding at the end thereof the following new subsection:

"(d) Assistance may be provided under this chapter to a foreign country only if the country provides assurances to the President, and the President is satisfied, that the country will provide at least 25 percent of the costs of any narcotics control program, project, or activity for which such assistance is to be provided. The costs borne by the country may include 'in-kind' contributions.".

SEC. 609. PROHIBITION ON USE OF FOREIGN ASSISTANCE FOR REIMBURSEMENTS FOR DRUG CROP ERADICATIONS.

Chapter 8 of part I of the Foreign Assistance Act of 1961 is amended by adding at the end thereof the following new section:

"SEC. 483. PROHIBITION ON USE OF FOREIGN ASSISTANCE FOR REIMBURSEMENTS FOR DRUG CROP ERADICATIONS.—Funds made available to carry out this Act may not be used to reimburse persons whose illicit drug crops are eradicated.".

SEC. 610. ASSISTANCE FOR JAMAICA.

In allocating assistance for Jamaica for fiscal year 1986 under chapter 4 of part II of the Foreign Assistance Act of 1961 (relating to the economic support fund), the President shall give major consideration to whether the Government of Jamaica has prepared, presented, and committed itself to a comprehensive plan or strategy for the control and reduction of illicit cultivation, production, processing, transportation, and distribution of marijuana within a specifically stated period of time.

SEC. 611. ASSISTANCE FOR BOLIVIA.

Assistance may be provided to Bolivia for fiscal years 1986 and 1987 under chapter 2 (relating to grant military assistance), chapter 4 (relating to the economic support fund), and chapter 5 (relating to international military education and training) of part II of the Foreign Assistance Act of 1961, and under chapter 2 of the Arms Export Control Act (relating to foreign military sales financing), only under the following conditions:

(1) For fiscal year 1986—

(A) up to 50 percent of the aggregate amount of such assistance allocated for Bolivia may be provided at any time after the President certifies to the Congress that the Government of Bolivia has enacted legislation that will establish its legal coca requirements, provide for the licensing of the number of hectares necessary to produce the legal requirement, and make unlicensed coca production illegal; and

(B) the remaining amount of such assistance may be provided at any time following a certification pursuant to subparagraph (A) if the President certifies to the Congress that the Government of Bolivia achieved the eradication targets for the calendar year 1985 contained in its 1983 narcotics agreements with the United States.

(2) For fiscal year 1987, such assistance may not be provided unless the President certifies to the Congress that the Government of Bolivia has developed a plan to eliminate illicit narcotics production countrywide and is prepared to enter into an agreement with the United States to implement that plan. If that certification is made, then—

(A) up to 50 percent of the aggregate amount of such assistance allocated for Bolivia may be provided at any time after the President certifies to the Congress that the Government of Bolivia has achieved at least half of the eradication target for the calendar year 1986 agreed to by the United States and the Government of Bolivia; and

(B) the remaining amount of such assistance may be provided at any time after the President certifies to the Congress that the Government of Bolivia fully achieved that eradication target.

SEC. 612. ASSISTANCE TO PERU.

(a) CONDITIONS ON ASSISTANCE.—United States assistance (as defined by section 481(i)(4) of the Foreign Assistance Act of 1961) may be provided for Peru—

(1) for fiscal year 1986, only if the President reports to the Congress that the Government of Peru has demonstrated substantial progress in developing a plan that will establish its legal coca requirements, license the number of hectares necessary to produce the legal requirement, and eliminate illicit and unlicensed coca production; and

(2) for fiscal year 1987, only if the the President reports to the Congress that the Government of Peru has developed such a plan and is implementing it.

(b) UPPER HUALLAGA VALLEY PROJECT.—Funds authorized to be appropriated for fiscal year 1987 to carry out chapter 1 of part I of the Foreign Assistance Act of 1961 (relating to development assistance) may be made available for the project of the Agency for International Development in the Upper Huallaga Valley of Peru only if the Administrator of that Agency, after consultation with the Congress, determines that a comprehensive review of that project has been completed which establishes the effectiveness of that project in reducing and eradicating coca leaf production, distribution, and marketing in the Upper Huallaga Valley. The assistance for Peru described in this subsection may be provided only if the report required by subsection (a)(2) has been submitted to the Congress.

SEC. 613. REALLOCATION OF FUNDS IF CONDITIONS NOT MET.

If any of the assistance described in section 611 is not provided for Bolivia because the conditions specified in that section are not met, or if any of the assistance described in sections 612(a) is not provided for Peru because the conditions specified in that section are not met, the President shall reprogram such assistance in order to provide additional assistance to countries which have taken significant steps to halt illicit drug production or trafficking.

SEC. 614. CONDITIONS ON UNITED STATES CONTRIBUTIONS TO THE UNITED NATIONS FUND FOR DRUG ABUSE CONTROL.

Section 482(a) of the Foreign Assistance Act of 1961 is amended by adding at the end thereof the following new subsection:

"(3) Funds authorized to be appropriated by this section for fiscal year 1986 and for fiscal year 1987 may be used for a contribution to the United Nations Fund for Drug Abuse Control only if that organization includes in its crop substitution projects a plan for cooperation with the law enforcement forces of the host country.".

SEC. 615. LATIN AMERICAN REGIONAL NARCOTICS CONTROL ORGANIZATION.

(a) FEASIBILITY STUDY.—The Secretary of State, with the assistance of the National Drug Enforcement Policy Board, shall conduct a study of the feasibility of establishing a regional organization in Latin America which would combat narcotics production and trafficking through regional information-sharing and a regional enforcement unit.

(b) REPORT.—No later than six months after the date of enactment of this Act, a report on the advisability of encouraging the establishment of such an organization shall be submitted to the Committee on Foreign Affairs and the Committee on the Judiciary of the House of Representatives and the Committee on Foreign Relations and the Committee on the Judiciary of the Senate.

SEC. 616. GREATER EFFORT BY UNITED STATES ARMED FORCES TO SUPPORT NARCOTICS CONTROL EFFORTS ABROAD.

No later than 60 days after the date of enactment of this Act, the President shall report to the Congress on why the United States Armed Forces should not exert greater effort in facilitating and supporting interception of narcotics traffickers, and in gathering narcotics-related intelligence, outside the United States.

SEC. 617. CUBAN DRUG TRAFFICKING.

(a) FINDINGS.—The Congress finds that—

(1) the subject of the flow, use, and control of narcotic and psychotropic substances is a matter of great international importance;

(2) the problem of drug abuse and drug trafficking continues to worsen throughout most parts of the world;

(3) the concerns of the governments of many countries have become manifest in several bilateral and multilateral narcotics control projects;

(4) United Nations agencies monitor and apply controls on the flow and use of drugs and coordinate multilateral efforts to control production, trafficking, and abuse of drugs;

(5) the United Nations Fund for Drug Abuse Control funds narcotics projects throughout the world and has been a vehicle since 1971 for multilateral implementation of narcotics control and reduction programs;

(6) the International Narcotics Control Board is charged with monitoring compliance with the Single Convention on Narcotic Drugs, 1961, and the Convention on Psychotropic Substances, and Cuba is a party to both Conventions;

(7) the United Nations Commission on Narcotic Drugs is responsible for formulating policies, coordinating activities, supervising the implementation of international conventions, and making recommendations to governments for international drug control;

(8) the promotion of drug abuse and participation in drug trafficking is universally considered egregious criminal behavior wherever it occurs, whether it occurs locally, nationally, or internationally;

(9) a Federal grand jury of the United States has indicted four prominent Cuban officials on charges of conspiring to smuggle drugs into the United States;

(10) United States Government officials have testified at several congressional hearings that the Government of Cuba is facilitating the flow of illicit drugs into the United States in order to obtain hard currency, support guerrilla/terrorist activities, and undermine United States society; and

(11) such alleged conduct on the part of the Government of Cuba would be injurious to the world community and counter to the general principle of international law that no country has the right to use or permit the use of its territory in such a manner as to injure another country or persons therein.

(b) RECOMMENDED ACTIONS.—It is the sense of the Congress that the President should—

(1) acting through the Permanent Representative of the United States to the United Nations, take such steps as may be necessary to place the question of the involvement by the Government of Cuba in illicit drug trafficking on the agenda of the United Nations;

(2) acting through the Representative of the United States to the Organization of American States, request the Organization of American States to consider this question as soon as possible; and

(3) request other appropriate international organizations and international forums to consider this question.

(c) REPORT.—The President shall report to the Congress on the actions taken pursuant to this section.

SEC. 618. PROHIBITION ON ASSISTANCE TO COUNTRIES WHICH DO NOT TAKE ADEQUATE STEPS TO HALT DRUG TRAFFICKING.

Section 481(h) of the Foreign Assistance Act of 1961 is amended by adding at the end thereof the following new paragraph:

"(4) In addition to the requirements applicable to major illicit drug producing countries pursuant to paragraph (1), the President shall not provide any assistance under this Act or the Arms Export Control Act to any other country which the President determines has not taken adequate steps to prevent—

"(A) the processing (in whole or in part) in such country of narcotic and psychotropic drugs or other controlled substances,

"(B) the transportation through such country of narcotic and psychotropic drugs or other controlled substances, and

"(C) the use of such country as a refuge for illegal drug traffickers.".

SEC. 619. DRUG TRAFFICKING AND THE PROBLEM OF TOTAL CONFIDENTIALITY OF CERTAIN FOREIGN BANK ACCOUNTS.

(a) FINDINGS.—The Congress finds that—

(1) several banks in Latin America and the Caribbean are used by narcotics traffickers as depositories for money obtained in providing illicit drugs to the United States and other countries of the region;

(2) offshore banks which provide total confidentiality provide a service which materially assists the operations of illicit drug traffickers; and

(3) cooperation in gaining access to the bank accounts of such narcotics traffickers would materially assist United States authorities in controlling the activities of such traffickers.

(b) POLICY.—The Congress—

(1) requests the President to negotiate treaties or appropriate international agreements with all countries providing confidential banking services (giving high priority to countries in the Caribbean region) to provide disclosure to the United States Government of information contained in official records, and in records of bank accounts, concerning persons under investigation for violations of United States law, in particular those regarding international drug trafficking;

(2) directs the President to include reports on the results of such efforts in the annual International Narcotics Control Strategy Report; and

(3) reaffirms its intention to obtain maximum cooperation on the part of all governments for the purpose of halting international drug trafficking, and constantly to evaluate the cooperation of those governments receiving assistance from the United States.

TITLE VII—WESTERN HEMISPHERE

SEC. 701. CENTRAL AMERICA DEMOCRACY, PEACE, AND DEVELOPMENT INITIATIVE.

Part I of the Foreign Assistance Act of 1961 is amended by adding after chapter 5 the following new chapter:

"CHAPTER 6—CENTRAL AMERICA DEMOCRACY, PEACE, AND DEVELOPMENT INITIATIVE

"SEC. 461. STATEMENT OF POLICY.—(a) The Congress finds that—

"(1) the building of democracy, the restoration of peace, the improvement of living conditions, and the application of equal justice under law in Central America are important to the interests of the United States and the community of American States; and

"(2) the interrelated issues of social and human progress, economic growth, political reform, and regional security must be effectively dealt with to assure a democratic and economically and politically secure Central America.

"(b)(1) The achievement of democracy, respect for human rights, peace, and equitable economic growth depends primarily on the cooperation and the human and economic resources of the people and governments of Central America. The Congress recognizes that the United States can make a significant contribution to such peaceful and democratic development through a consistent and coherent policy which includes a long-term commitment of assistance. This policy should be designed to support actively—

"(A) democracy and political reform, including opening the political process to all members of society;

"(B) full observance of internationally recognized human rights, including free elections, freedom of the press, freedom of association, and the elimination of all human rights abuses;

"(C) leadership development, including training and educational programs to improve public administration and the administration of justice;

"(D) land reform, reform in tax systems, encouragement of private enterprise and individual initiative, creation of favorable investment climates, curbing corruption where it exists, and spurring balanced trade;

"(E) the establishment of the rule of law and an effective judicial system; and

"(F) the termination of extremist violence by both the left and the right as well as vigorous action to prosecute those guilty of crimes and the prosecution to the extent possible of past offenders.

"(2) The policy described in paragraph (1) should also promote equitable economic growth and development, including controlling the flight of capital and the effective use of foreign assistance and adhering to approved programs for economic stabilization and fiscal responsibility. Finally, this policy should foster dialog and negotiations—

"(A) to achieve peace based upon the objectives of democratization, reduction of armament, an end to subversion, and the withdrawal of foreign military forces and advisers; and

"(B) to provide a security shield against violence and intimidation.

"(3) It is the purpose of this chapter to establish the statutory framework and to authorize the appropriations and financing necessary to carry out the policy described in this section.

"(c) The Congress finds, therefore, that the people of the United States are willing to sustain and expand a program of economic and military assistance in Central America if the recipient countries can demonstrate progress toward and a commitment to these goals.

"SEC. 462. CONDITIONS ON FURNISHING ASSISTANCE.—The President shall ensure that assistance authorized by this Act and the Arms Export Control Act to Central American countries is furnished in a manner which fosters demonstrated progress toward and commitment to the objectives set forth in section 461. Where necessary to achieve this purpose, the President shall impose conditions on the furnishing of such assistance. In carrying out this section, the President shall consult with the Congress in regard to progress toward the objectives set forth in section 461, and any conditions imposed on the furnishing of assistance in furtherance of those objectives.

"SEC. 463. PEACE PROCESS IN CENTRAL AMERICA.—The Congress—

"(1) strongly supports the initiatives taken by the Contadora group and the resulting Document of Objectives which has been agreed to by Costa Rica, El Salvador, Guatemala, Honduras, and Nicaragua and which sets forth a framework for negotiating a peaceful settlement to the conflict and turmoil in the region; and

"(2) finds that the United States should provide such assistance and support as may be appropriate in helping to reach comprehensive and verifiable final agreements, based on the Document of Objectives, which will ensure peaceful and enduring solutions to the Central American conflicts.

"SEC. 464. ECONOMIC ASSISTANCE COORDINATION.—(a) The Congress finds that participation by Central American countries in an effective forum for dialog on, and the continuous review and advancement of, Central America's political, economic, and social development would foster cooperation between the United States and Central American countries.

"(b) It is the sense of the Congress that—

"(1) the President should enter into negotiations with the countries of Central America to establish a Central American Development Organization (hereafter in this section referred to as the 'Organization') to help provide a continuous and coherent approach to the development of the Central American region; and

"(2) the establishment of the Organization should be based upon the following principles:

"(A) Participation in the Organization should be open to the United States, other donors, and those Central American countries that commit themselves to, among other things, respecting internationally recognized human rights, building democracy, and encouraging equitable economic growth through policy reforms.

"(B) The Organization should be structured to include representatives from both the public and private sectors, including representatives from the labor, agriculture, and business communities.

"(C) The Organization should meet periodically to carry out the functions described in subparagraphs (D) and (E) of this paragraph and should be supported by a limited professional secretariat.

"(D) The Organization should make recommendations affecting Central American countries on such matters as—

"(i) political, economic, and social development objectives, including the strengthening of democratic pluralism and the safeguarding of internationall recognized human rights;

"(ii) mobilization of resources and external assistance needs; and

"(iii) reform of economic policies and structures.

"(E) The Organization should have the capacity for monitoring country performance on recommendations issued in accordance with subparagraph (D) of this paragraph and for evaluating progress toward meeting such country objectives.

"(F) To the maximum extent practicable, the United States should follow the recommendations of the Organization in disbursing bilateral economic assistance for any Central American country. No more than 75 percent of such United States assistance in any fiscal year should be disbursed until the recommendations of the Organization for that fiscal year have been made final and communicated to the donor countries. The limitation on disbursements contained in the preceding sentence should apply only to recommendations made final and communicated to donor countries prior to the fourth quarter of such fiscal year. The United States representative to the Organization should urge other donor countries to similarly implement the recommendations of the Organization.

"(G) The administrator of the agency primarily responsible for administering part I of this Act, or his designee, should represent the United States Government in the Organization and should carry out his functions

in that capacity under the continuous supervision and general direction of the Secretary of State.

"(c) Subject to subsection (d)(2), the President is authorized to participate in the Organization.

"(d)(1) The administrator of the agency primarily responsible for administering part I of this Act, under the supervision and direction of the Secretary of State, shall prepare a detailed proposal to carry out this section and shall keep the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate fully and currently informed concerning the development of this proposal.

"(2) The President shall transmit to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate a copy of the text of any agreement, which he proposes to sign, that would provide for the establishment of and United States participation in the Organization no less than sixty days prior to his signature. During that sixty-day period there shall be full and formal consultations with and review by those committees in accordance with procedures applicable to reprogramming notifications pursuant to section 634A of this Act.

"SEC. 465. AUTHORIZATIONS FOR FISCAL YEARS 1988 AND 1989.—(a) In addition to amounts otherwise available for such purposes, there are authorized to be appropriated to the President, for the purpose of furnishing nonmilitary assistance for Central American countries, $1,200,000,000 for each of the fiscal years 1988 and 1989, which are authorized to remain available until expended.

"(b) For the purpose of providing the assistance described in subsection (a), funds appropriated pursuant to the authorizations in that subsection may be transferred by the President for obligation in accordance with the authorities of part I of this Act (including chapter 4 of part II), the Peace Corps Act, the Migration and Refugee Assistance Act of 1962, the United States Information and Education Exchange Act of 1948, the Mutual Educational and Cultural Exchange Act of 1961, the National Endowment for Democracy Act, and the State Department Basic Authorities Act of 1956.

"SEC. 466. DEFINITIONS.—For the purposes of this chapter, the term 'Central American countries' includes Belize, Costa Rica, El Salvador, Guatemala, Honduras, Nicaragua, Panama, and regional programs which benefit such countries.".

SEC. 702. EL SALVADOR.

(a) SUPPORT FOR EL SALVADOR.—(1) The Congress finds that—

(A) a free and democratic El Salvador is in the security interest of the United States;

(B) Jose Napoleon Duarte was elected President of El Salvador in 1984 in the most democratic election held in El Salvador in many years;

(C) political violence in El Salvador has declined dramatically under President Duarte's leadership;

(D) President Duarte's policies of respect for human rights, political pluralism, dialogue and reconciliation with the Salvadoran guerrilla forces, legal and social reform, and effective defense against the violent overthrow of the Salvadoran government are deserving of praise from all who believe in a democratic form of government;

(E) the March 31, 1985, legislative and municipal elections were successfully carried out, with 64 percent of the electorate defying guerrilla attacks to vote;

(F) the victory of President Duarte's Christian Democratic Party reaffirms the support for these policies by his fellow citizens, the essential test of any government or movement;

(G) in spite of the state of seige technically in effect due to the insurgent threat, observance of free speech, free press, and free assembly are widely enjoyed in El Salvador and permit public airing of opposing political views;

(H) President Duarte is firmly committed to judicial reform and prosecution of cases involving "death squads";

(I) President Duarte's leadership and popular support has notably weakened the popular support given the guerrillas, as evidenced by the high levels of voter participation in the free elections held in El Salvador since 1982, the reduction in territory in which the guerrillas can freely operate, their inability to mount frontal military attacks, and their resort to economic sabotage, ambushes, political assassination, and urban terrorism with blatant disregard for basic human rights; and

(J) President Duarte has succeeded in reversing the decline in his country's economy which, though still weak, has better prospects than in recent years.

(2) Therefore, it is the sense of the Congress that—

(A) President Duarte is to be congratulated for his outstanding leadership under difficult circumstances and for his efforts to foster democratic government and institutions in his country, and he is encouraged to continue his efforts to promote political pluralism, democratic institutions, and respect for human rights in his country; and

(B) the armed services of El Salvador are to be congratulated for their improved performance and professionalism in defending Salvadoran citizens and their democratically elected government from attack by armed insurgents, and especially for their role in helping to protect and uphold the electoral process.

(3) The Congress reaffirms the importance of continued support for democratic principles and institutions and respect for human rights by the various sectors of Salvadoran society, which is a major factor in United States support for El Salvador.

(b) OBJECTIVES.—The Congress expects that—

(1) the Government of El Salvador will be willing to pursue a dialogue with the armed opposition forces and their political representatives for the purposes of achieving an equitable political settlement of the conflict, including free and fair elections;

(2) the elected civilian government will be in control of the Salvadoran military and security forces, and those forces will comply with applicable rules of international law and with Presidential directives pertaining to the protection of civilians during combat operations, including Presidential directive C-111-03-984 (relating to aerial fire support);

(3) the Government of El Salvador will make demonstrated progress, during the period covered by each report pursuant to subsection (c), in ending the activities of the death squads;

(4) the Government of El Salvador will make demonstrated progress, during the period covered by each report pursuant to subsection (c), in establishing an effective judicial system; and

(5) the Government of El Salvador will make demonstrated progress, during the period covered by each report pursuant to subsection (c), in implementing the land reform program.

(c) REPORTS.—On October 1, 1985, April 1, 1986, October 1, 1986, and April 1, 1987, the President shall report to the Speaker of the House of Representatives and the chairman of the Committee on Foreign Relations of the Senate on the extent to which the objectives described in subsection (b) are being met. With respect to the objective described in paragraph (4) of that subsection, each report shall discuss whether the commission proposed by the President of El Salvador to investigate human rights cases has been established, funded, and given sufficient investigative powers; whether the evidence that commission collects may be used in the Salvadoran judicial process; whether that commission has issued a comprehensive report with regard to its investigation of all Americans murdered in El Salvador; and whether those responsible for the Las Hojas massacre are being prosecuted.

(d) AIRCRAFT FOR AERIAL WARFARE.—(1) The authorities of part II of the Foreign Assistance Act of 1961 and the Arms Export Control Act may not be used to make available to El Salvador any helicopters or other aircraft, and licenses may not be issued under section 38 of the Arms Export Control Act for the export to El Salvador of any such aircraft, unless the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate are notified at least 15 days in advance in accordance with the procedures applicable to reprogramming notifications under section 634A of the Foreign Assistance Act of 1961.

(2) Paragraph (1) shall take effect on the date of enactment of this Act and shall remain in effect until October 1, 1987.

(e) SPECIAL ACCOUNT FOR LOCAL CURRENCIES.—(1) All local currencies, which are generated with the funds provided to El Salvador for balance-of-payments support for fiscal years 1986 and 1987 under chapter 4 of part II of the Foreign Assistance Act of 1961 (relating to the economic support fund), shall be deposited in accordance with section 609 of that Act in a special account established by the Government of El Salvador.

(2) Local currencies deposited pursuant to paragraph (1) shall be used for projects assisting agrarian reform and the agricultural sector (and particular emphasis shall be placed on projects for these purposes); judicial reform; employment generation; health, education, and other social services; infrastructure repair; and credits and other support for the private sector (principally for small and medium sized businesses).

(3) For purposes of this subsection—

(A) the term "agrarian reform" means projects assisting or enhancing the abilities of agencies, cooperatives, and farms to implement land reform decrees in El Salvador, notwithstanding section 620(g) of the Foreign Assistance Act of 1961; and

(B) the term "judicial reform" means projects assisting or enhancing the abilities of agencies of the Salvadoran Government to investigate and prosecute politically motivated violence.

(f) DEVELOPMENT ASSISTANCE.—Of the amounts available to carry out chapter 1 of part I of the Foreign Assistance Act of 1961, $79,600,000 for fiscal year 1986 and $79,600,000 for fiscal year 1987 shall be available only for El Salvador.

(g) SUSPENSION OF ASSISTANCE IF A MILITARY COUP OCCURS.—All assistance authorized by this Act which is allocated for El Salvador

shall be suspended if the elected President of that country is deposed by military coup or decree.

SEC. 703. ASSISTANCE FOR GUATEMALA.

(a) CONDITIONS ON MILITARY ASSISTANCE AND SALES.—For fiscal years 1986 and 1987, assistance may be provided for Guatemala under chapter 2 of part II of the Foreign Assistance Act of 1961 (relating to grant military assistance) and sales may be made and financing may be provided for Guatemala under the Arms Export Control Act (relating to foreign military sales) only if the President makes the following certifications to the Congress:

(1) For fiscal year 1986, an elected civilian government is in power in Guatemala and has submitted a formal written request to the United States for the assistance, sales, or financing to be provided.

(2) For both fiscal years 1986 and 1987, the Government of Guatemala made demonstrated progress during the preceding year—

(A) in achieving control over its military and security forces,

(B) toward eliminating kidnappings and disappearances, forced recruitment into the civil defense patrols, and other abuses by such forces of internationally recognized human rights, and

(C) in respecting the internationally recognized human rights of its indigenous Indian population.

(b) CONSTRUCTION EQUIPMENT AND MOBILE MEDICAL FACILITIES AND RELATED TRAINING.—If the conditions specified in subsection (a) are met, Guatemala may be provided with the following for fiscal years 1986 and 1987 (in addition to such other assistance, sales, or financing as may be provided for Guatemala):

(1) Sales of construction equipment and mobile medical facilities to assist in development programs that will directly assist the poor in Guatemala.

(2) Sales of training, to be provided outside of Guatemala, which is related to the sales described in paragraph (1).

(3) A total for both fiscal years 1986 and 1987 of no more than $10,000,000 in credits under the Arms Export Control Act for sales described in paragraphs (1) and (2).

Such sales and credits shall be provided only to enable the military forces of Guatemala to obtain equipment and training for civilian engineering and construction projects and mobile medical teams, which would not be used in the rural resettlement program.

(c) PROHIBITION ON FURNISHING WEAPONS.—Funds authorized to be appropriated by title I of this Act may not be used for the procurement by Guatemala of any weapons or ammunition.

(d) SUSPENSION OF ASSISTANCE IF A MILITARY COUP OCCURS.—All assistance authorized by this Act which is allocated for Guatemala shall be suspended if the elected civilian government of that country is deposed by military coup or decree.

(e) RURAL RESETTLEMENT PROGRAM.—Assistance provided for Guatemala for the fiscal year 1986 and fiscal year 1987 under chapter 1 of part I (relating to development assistance) or under chapter 4 of part II (relating to the economic support fund) of the Foreign Assistance Act of 1961—

(1) may not be provided to the Government of Guatemala for use in its rural resettlement program; and

(2) shall be provided through private and voluntary organizations to the maximum extent possible.

(f) INVITATION FOR ICRC TO VISIT GUATEMALA.—The Congress calls upon the President to urge the Government of Guatemala to allow the International Committee of the Red Cross—

(1) to conduct an unimpeded visit to Guatemala in order to investigate humanitarian needs in that country and to report on human rights abuses in that country; and

(2) to investigate the possibilities of its providing humanitarian services in that country.

(g) RELATIONS BETWEEN BELIZE AND GUATEMALA.—It is the sense of the Congress that the United States should use its good offices and influence to encourage the Government of Guatemala to recognize the independence of Belize and to enter into a mutual nonaggression treaty with Belize.

(h) HUMAN RIGHTS GROUPS IN GUATEMALA.—(1) The Congress finds that—

(A) the Group for Mutual Support was formed in 1984 to protest the disappearances of Guatemalan civilians;

(B) the Group for Mutual Support has carried out its work in a peaceful, non-ideological manner, and is the only indigenous human rights group operating in Guatemala; and

(C) two of the Group's six steering committee members, Hector Gomez and Maria Rosario Godyo de Cuevas, were recently killed.

(2) It is the sense of the Congress that—

(A) human rights groups in Guatemala, particularly the Group for Mutual Support, should be allowed to carry out their work against human rights abuses with the full cooperation, protection, and support of the Government of Guatemala; and

(B) whether the Government of Guatemala allows human rights groups, including the Group for Mutual Support, to carry out their work should be taken into account by the United States in determining whether there is human rights progress in Guatemala.

SEC. 704. REFUGEES IN HONDURAS.

Funds authorized to be appropriated by this Act and funds authorized to be appropriated for the "Migration and Refugee Assistance" account for fiscal years 1986 and 1987—

(1) which are to be used for refugee assistance or other assistance for Nicaraguan Indian refugees in Honduras shall be channeled, to the maximum extent possible, through the United Nations High Commissioner for Refugees, the International Committee of the Red Cross, the Intergovernmental Committee for Migration, or other established and recognized international refugee relief organizations; and

(2) may not be used to facilitate the involuntary repatriation of Salvadoran refugees who are in Honduras.

SEC. 705. PROMOTING THE DEVELOPMENT OF THE HAITIAN PEOPLE AND PROVIDING FOR ORDERLY EMIGRATION FROM HAITI.

(a) USE OF PVOS.—To the maximum extent practicable, assistance for Haiti under chapter 1 of part I (relating to development assistance) and under chapter 4 of part II (relating to the economic support fund) of the Foreign Assistance Act of 1961 should be provided through private and voluntary organizations.

(b) CONDITIONS ON ASSISTANCE.—Funds available for fiscal year 1986 and for fiscal year 1987 to carry out chapter 1 of part I (relating to development assistance), chapter 4 of part II (relating to the economic support fund), or chapter 5 of part II (relating to international military education and training) of the Foreign Assistance Act of 1961 may be obligated for Haiti only if the President determines that the Government of Haiti—

(1) is continuing to cooperate with the United States in halting illegal emigration to the United States from Haiti;

(2) is cooperating fully in implementing United States development, food, and other economic assistance programs in Haiti (including programs for prior fiscal years); and

(3) is making progress toward improving the human rights situation in Haiti and progress toward implementing political reforms which are essential to the development of democracy in Haiti, such as progress toward the establishment of political parties, free elections, free labor unions, and freedom of the press.

(c) REPORTS TO THE CONGRESS.—Not later than one year after the date of the enactment of this Act and one year thereafter, the President shall report to the Congress on the extent to which the actions of the Government of Haiti are consistent with each paragraph of subsection (b).

(d) ASSISTANCE IN HALTING ILLEGAL EMIGRATION FROM HAITI.—Notwithstanding the limitations of section 660 of the Foreign Assistance Act of 1961 (relating to police training), funds made available under such Act may be used for programs with Haiti, which shall be consistent with prevailing United States refugee policies, to assist in halting significant illegal emigration from Haiti to the United States.

(e) LIMITATION ON MAP AND FMS FINANCING.—Assistance may not be provided for Haiti for fiscal year 1986 or fiscal year 1987 under chapter 2 of part II of the Foreign Assistance Act of 1961 (relating to grant military assistance) or under the Arms Export Control Act (relating to foreign military sales financing), except for necessary transportation, maintenance, communications, and related articles and services to enable the continuation of migrant and narcotics interdiction operations.

(f) LITERACY AND OTHER EDUCATION PROGRAMS.—Of the amounts authorized to be appropriated to carry out chapter 1 of part I of the Foreign Assistance Act of 1961 (relating to development assistance) which are allocated for Haiti, $1,000,000 for fiscal year 1986 and $1,000,000 for fiscal year 1987 shall be available only for literacy and other education programs in Haiti.

SEC. 706. MILITARY ASSISTANCE FOR PARAGUAY.

For the fiscal years 1986 and 1987, none of the funds authorized to be appropriated to carry out chapter 2 of part II of the Foreign Assistance Act of 1961 (relating to grant military assistance) or to carry out the Arms Export Control Act (relating to foreign military sales financing) may be used for assistance for Paraguay unless the President certifies to the Congress that the Government of Paraguay has ended the practice of torture and abuse of individuals held in detention by its military and security forces and has instituted procedures to ensure that those arrested are promptly charged and brought to trial.

SEC. 707. ASSISTANCE FOR PERU.

(a) HUMAN RIGHTS TRAINING IN IMET PROGRAMS.—Respect for internationally recognized human rights shall be an important component of the training provided for Peru under chapter 5 of part II of the Foreign Assistance Act of 1961 for fiscal year 1986 and for fiscal year 1987.

(b) STRENGTHENING THE PERUVIAN JUDICIAL SYSTEM.—Of the amount authorized to be appropriated by this Act to carry out chapter 4 of part II of the Foreign Assistance Act of

1961 (relating to the economic support fund), $1,000,000 for fiscal year 1986 and $1,000,000 for fiscal year 1987 shall be used to strengthen the judicial system in Peru under section 534 of the Foreign Assistance Act of 1961 (relating to administration of justice).

SEC. 708. INTER-AMERICAN FOUNDATION.

The first sentence of section 401(s)(2) of the Foreign Assistance Act of 1969 is amended to read as follows: "There are authorized to be appropriated $11,969,000 for fiscal year 1986 and $11,969,000 for fiscal year 1987 to carry out the purposes of this section.".

SEC. 709. COMPREHENSIVE REPORTS ON ASSISTANCE FOR LATIN AMERICA AND THE CARIBBEAN.

(a) REQUIREMENT FOR COMPREHENSIVE ACCOUNTING OF ASSISTANCE.—In the annual reports required by section 634 of the Foreign Assistance Act of 1961, the President shall provide to the Congress a full, complete, and detailed accounting of all assistance provided during the fiscal years 1986 and 1987 for Latin America and the Caribbean under the Foreign Assistance Act of 1961 and the Arms Export Control Act.

(b) INFORMATION TO BE INCLUDED.—The report provided pursuant to subsection (a) shall include for each fiscal year, among other things, the following with respect to each authorization account:

(1) The specific projects and other activities carried out in each country.

(2) The number of persons from each country who were provided with training, and the types of training provided.

(3) The defense articles and defense services provided for each country.

(4) The types of goods and commodities provided to each country for economic stabilization purposes under chapter 4 of part II of the Foreign Assistance Act of 1961 (relating to the economic support fund), and a copy of each agreement for the furnishing of any assistance under that chapter.

(5) The amounts of local currency generated by United States assistance to each country, the uses of those currencies, and the total amount of those currency still available for use as of the time of the report.

(6) A report on any transfers or reprogrammings of funds, and a description of how transferred or reprogrammed funds modified the amounts requested for each account.

(7) A report on the funds which have been obligated but remain unexpended for each country in each account.

(8) An analysis of the amount of funds and programs provided through nongovernmental as contrasted to governmental channels.

SEC. 710. USE OF PRIVATE AND VOLUNTARY ORGANIZATIONS.

To the maximum extent practicable, assistance under chapter 1 of part I (relating to development assistance) and chapter 4 of part II (relating to the economic support fund) of the Foreign Assistance Act of 1961 for countries in Latin America and the Caribbean should be provided through private and voluntary organizations which have a proven record of development assistance efforts overseas.

SEC. 711. ASSISTANCE FOR LAW ENFORCEMENT AGENCIES.

Section 660 of the Foreign Assistance Act of 1961 is amended by adding at the end thereof the following new subsections:

"(c) Subsection (a) shall not apply with respect to a country which has a longstanding democratic tradition, does not have standing armed forces, and does not engage in a consistent pattern of gross violations of internationally recognized human rights.

"(d) Notwithstanding the prohibition contained in subsection (a) assistance may be provided to Honduras or El Salvador for fiscal years 1986 and 1987 if, at least 30 days before providing assistance, the President notifies the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate, in accordance with the procedures applicable to reprogramming notifications pursuant to section 634A of this Act, that he has determined that the government of the recipient country has made significant progress, during the preceding six months, in eliminating any human rights violations including torture, incommunicado detention, detention of persons solely for the nonviolent expression of their political views, or prolonged detention without trial. Any such notification shall include a full description of the assistance which is proposed to be provided and of the purposes to which it is to be directed.".

SEC. 712. ADMINISTRATION OF JUSTICE.

Chapter 4 of part II of the Foreign Assistance Act of 1961 (relating to the economic support fund), as amended by title II of this Act, is further amended by adding at the end thereof the following new section:

"SEC. 534. ADMINISTRATION OF JUSTICE.—(a) The President may furnish assistance under this chapter to countries and organizations, including national and regional institutions, in order to strengthen the administration of justice in countries in Latin America and the Caribbean.

"(b) Assistance under this section may only include—

"(1) support for specialized professional training, scholarships, and exchanges for continuing legal education;

"(2) programs to enhance prosecutorial and judicial capabilities and protection for participants in judicial cases;

"(3) notwithstanding section 660 of this Act, programs to enhance investigative capabilities, conducted under judicial or prosecutorial control;

"(4) strengthening professional organizations in order to promote services to members and the role of the bar in judicial selection, enforcement of ethical standards, and legal reform;

"(5) increasing the availability of legal materials and publications;

"(6) seminars, conferences, and training and educational programs to improve the administration of justice and to strengthen respect for the rule of law and internationally recognized human rights; and

"(7) revision and modernization of legal codes and procedures.

"(c) Not more than $20,000,000 of the funds made available to carry out this chapter for any fiscal year shall be available to carry out this section, in addition to amounts otherwise available for such purposes.

"(d) Funds may not be obligated for assistance under this section unless the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate are notified of the amount and nature of the proposed assistance at least 15 days in advance in accordance with the procedures applicable to reprogrammings pursuant to section 634A of this Act.

"(e) The authority of this section shall expire on September 30, 1987.".

SEC. 713. USE OF EMPLOYEE STOCK OWNERSHIP PLANS IN DEVELOPMENT EFFORTS.

(a) FINDINGS.—The Congress declares that—

(1) employee stock ownership plans in industrial, farming, banking, and other enterprises in Central America and the Caribbean can be an important component in achieving United States goals in Central America and the Caribbean; and

(2) employee stock ownership plans should be used as an instrument in financing growth and transfers of equity in the region, in reorganizing state-owned enterprises into viable employee-owned businesses, in expanding political and economic pluralism, and in strengthening democratic institutions in the region.

(b) PLAN FOR EXPANDED USE OF ESOPs.—The President is urged to develop a plan for the expanded use of employee stock ownership plans in development efforts of the United States in Central America and the Caribbean, with an emphasis on policy and infrastructural changes needed to encourage voluntary employee stock ownership initiatives by multinational corporations and other private sector enterprises which have investments, are considering making new investments, or are interested in management contracts and joint ventures in the region.

(c) TASK FORCE.—To assist in this effort, there is established a Presidential Task Force on Project Economic Justice (hereafter in this section referred to as the "Task Force"), which shall consist of individuals appointed by the President who are distinguished leaders of the private sector of the United States, including significant representation of union representatives of workers in successful companies with employee stock ownership plans and of nationally recognized experts in all phases of design, implementation, and operation of employee stock ownership plans. The President shall designate one of the members of the Task Force to serve as Chairman. The Chairman of the Task Force shall appoint a volunteer fund-raising committee, and all the expenses of the Task Force shall be paid without the use of public funds.

(d) REPORT.—Not later than December 31, 1985, the Task Force shall prepare and transmit to the President and the Congress a report on the expanded use of employee stock ownership plans in the development efforts of the United States in Central America and the Caribbean, including specific recommendations on strategies for using employee stock ownership plans as a means of accelerating the rate of private sector capital formation in Central America and the Caribbean that is systematically linked to expanding ownership and profit-sharing opportunities for all employees.

SEC. 714. INTERNATIONAL ADVISORY COMMISSION FOR THE CARIBBEAN REGION.

(a) FINDINGS.—The Congress finds that—

(1) many of the social, agricultural, educational, and economic problems which confront nations in the Caribbean Region result primarily from social and economic injustice and inadequate economic and agricultural development;

(2) such problems are not addressed sufficiently by current United States policies toward that region;

(3) the development of the Caribbean Region is of vital importance to the economic and strategic interests of the United States and its allies; and

(4) for purposes of defining development plans, providing an international forum for

Caribbean Region development issues, and providing expert advice to donor-aid countries, an international commission is needed as the prime institution for promoting economic cooperation and development in the Caribbean Region.

(b) INVITATIONS TO PARTICIPATE IN COMMISSION.—

(1) INVITATION TO CARIBBEAN COUNTRIES.—The President may invite the countries which comprise the Caribbean Region to participate with the United States in a commission to be known as the International Advisory Commission for the Caribbean Region (hereafter in this section referred to as the "Commission").

(2) INVITATION TO CERTAIN OTHER COUNTRIES.—The President may also invite the Netherlands, the United Kingdom, France, Canada, the Commonwealth of Puerto Rico, and the Virgin Islands to participate in the Commission.

(c) FUNCTIONS OF COMMISSION.—It is the sense of the Congress that the Commission should—

(1) examine social, agricultural, educational, and economic issues which affect the Caribbean Region; and

(2) consult with leaders of the countries in the Caribbean Region and with representatives from public and private organizations involved in matters related to the Caribbean Region in order to evaluate the problems and needs of such countries.

(d) FUNDING FOR ORGANIZATIONAL MEETING OF COMMISSION.—Of the funds authorized to be appropriated to carry out section 106 of the Foreign Assistance Act of 1961 (relating to development assistance for energy, private and voluntary organizations, and selected development activities), up to a total of $100,000 for fiscal years 1986 and 1987 may be made available to—

(1) pay reasonable administrative expenses associated with the organizational meeting of the Commission; and

(2) pay reasonable travel and lodging expenses incurred by commissioners from other participant governments incident to their attendance at the organizational meeting of the Commission.

(e) REQUEST TO CONGRESS RELATING TO UNITED STATES PARTICIPATION IN THE COMMISSION.—The President should provide cost estimates and request authorization from the Congress in order to provide for the participation of the United States in the Commission (other than United States participation associated with the organizational meeting).

(f) APPOINTMENT OF UNITED STATES REPRESENTATIVE AND OBSERVERS.—Upon the creation of the Commission—

(1) the President should consider appointing one individual as the United States representative to the Commission;

(2) the Speaker of the House of Representatives should consider appointing two Members of the House, one from each major political party, as observers at the Commission; and

(3) the majority leader of the Senate should consider appointing two Members of the Senate, one from each major political party, as observers at the Commission.

SEC. 715. EXEMPTION OF CERTAIN SAFETY-RELATED EQUIPMENT FROM PROHIBITION ON MILITARY SALES TO CHILE.

Section 726 of the International Security and Development Cooperation Act of 1981 is amended by adding at the end thereof the following new subsection:

"(c) The prohibition contained in subsection (b) does not prohibit the sale, or the licensing for export, of cartridge actuated devices, propellant actuated devices, and technical manuals for aircraft of the F-5E/F or A/T-37 type which were sold to the Chilean Air Force by the United States before January 1, 1976, so long as the items are provided only for purposes of enhancing the safety of the aircraft crew.".

SEC. 716. RURAL ELECTRIFICATION.

It is the sense of the Congress that funds appropriated for the fiscal years 1986 and 1987 under section 103(a)(2) of the Foreign Assistance Act of 1961 (relating to development assistance for agriculture, rural development, and nutrition) should be used for a comprehensive rural electrification program in Central America in order to establish conditions of stability and a foundation for economic development.

SEC. 717. FACILITATING INTERNATIONAL COMMERCE THROUGH MEXICO.

(a) FINDING.—Recognizing that increased levels of balanced international trade are an essential component in an economic development program for the region and that the United States has traditionally been the most important trading partner for each of the nations of Latin America, it is the sense of the Congress that current procedures and laws of the Government of Mexico, and practices of its officials, constitute a significant impediment to the transit of vehicles carrying the commodities of international trade through Mexican territory.

(b) NEGOTIATIONS AND COOPERATIVE STEPS CONCERNING TRANSIT.—As the Government of Mexico has played a valuable role in assisting and encouraging the economic and political development of the region, and in offering advice to the United States as to constructive policies this nation might pursue with respect to peace and prosperity in the area, the Secretary of State, acting independently or with representatives of other Latin America nations, shall initiate negotiations with the Government of Mexico aimed at eliminating or reducing those impediments to international trade. The agenda for such negotiations should include discussions to encourage the Government of Mexico to accede to existing international custom conventions on international in-transit shipments. Such actions are to be taken in concert with the institution by the United States, and the nations of the region where the transiting shipments originate, of appropriate and cooperative steps to make sealed-truck, no-inspection transit administratively acceptable to the Government of Mexico and other transited countries. Similar bilateral or multilateral negotiations by the Secretary of State with nations respecting the same international customs conventions is also encouraged.

(c) REPORT.—The Secretary of State shall report the status of these negotiations to Congress by January 1, 1986.

SEC. 718. CONDEMNING HUMAN RIGHTS VIOLATIONS AND THE SUBVERSION OF OTHER GOVERNMENTS BY THE GOVERNMENT OF CUBA.

(a) CONDEMNATION OF CERTAIN ACTION BY THE GOVERNMENT OF CUBA.—The Congress condemns—

(1) the consistent pattern of gross violations of internationally recognized human rights by the Cuban Government, including—

(A) cruel, inhumane, and degrading treatment and punishment of prisoners;

(B) the suppression of free speech, press, and assembly; and

(C) restrictions on religious activity and the freedom to emigrate; and

(2) the provision by the Cuban government of material aid and personnel support for the purposes of subversion.

(b) CALL UPON THE GOVERNMENT OF CUBA.—The Congress calls upon the Government of Cuba to restore civil liberties and cease in the violation of human rights of the Cuban people and cease the subversion of other governments through material and personnel support.

SEC. 719. REPORTS ON FOREIGN DEBT IN LATIN AMERICA.

(a) FINDINGS.—The Congress finds that—

(1) the foreign debt of Latin American countries has soared from $27,000,000,000 in 1970 to over $350,000,000,000 in 1983;

(2) the foreign debt of Latin American countries is a serious obstacle to their economic progress, threatens their stability, and endangers the democratic processes in those nations;

(3) the economic and political futures of many of the Latin American countries hang in the balance and depend upon a successful resolution of the foreign debt crisis; and

(4) the confidence of the American people in the United States system of banking is also involved in a successful resolution of the foreign debt crisis.

(b) REPORT.—Not later than January 1, 1986, the Secretary of State shall prepare and transmit to the Congress a report on—

(1) the magnitude of the foreign debt crisis in the Western Hemisphere;

(2) the impact of the foreign debt crisis on the economies of the countries of Latin America;

(3) the degree to which the national security interests of the United States are implicated in this crisis;

(4) the steps being taken and the policy being pursued by the United States aimed at dealing with this crisis;

(5) the degree to which the foreign debt crisis affects the system of banking in the United States; and

(6) the steps being taken and the policy being pursued by the United States Government aimed at dealing with this crisis.

SEC. 720. ECONOMIC ASSISTANCE FOR URUGUAY.

Of the amounts authorized to be appropriated to carry out chapter 4 of part II of the Foreign Assistance Act of 1961 (relating to the economic support fund), $15,000,000 for fiscal year 1986 and $15,000,000 for fiscal year 1987 shall be available only for Uruguay.

SEC. 721. CANADIAN EXPORTS TO THE UNITED STATES.

(a) CATTLE AND HOGS.—(1) The Congress finds that—

(A) livestock prices have been in decline for some time due to excessive supply partially caused by dramatic increases in importation of live cattle and hogs from Canada, which has increased by 1,000 percent in the last decade in the case of hogs alone;

(B) American livestock producers are suffering from the same general economic crisis affecting all of agriculture, and many will face liquidation or foreclosure in the near future; and

(C) the disparity between the United States and the Canadian dollar amounts to 32 to 34 percent and results in even further increases in Canadian hogs and cattle being imported into the United States.

(2) Therefore, it is the sense of the Congress that the President should direct appropriate officials of the executive branch, including the United States Trade Representative, the Secretary of Agriculture, and the

Secretary of Commerce, to aggressively pursue discussions with the Canadian Government directed toward immediate reduction in the Canadian export of cattle and hogs to the United States.

(b) SOFTWOOD TIMBER.—(1) The Congress finds that—

(A) softwood timber prices have been in decline for some time due to excessive supply partially caused by dramatic increases in importation of processed softwood timber from Canada, which has increased from 18 percent of the United States market in the last two years to 35 to 40 percent today;

(B) American timber producers are suffering from this economic crisis, and the difficulty in acquiring timber from the National Forest System; and

(C) the disparity between the United States and the Canadian dollar amounts to 32 to 34 percent and results in even further increases in processed softwood timber being imported into the United States.

(2) Therefore, it is the sense of the Congress that the President should direct appropriate officials of the executive branch, including the United States Trade Representative, the Secretary of Agriculture, and the Secretary of Commerce, to aggressively pursue discussions with the Canadian Government directed toward immediate reduction in the Canadian export of softwood timber to the United States.

SEC. 722. NICARAGUA.

(a) SETTLEMENT OF THE CONFLICT.—The Congress—

(1) strongly supports national reconciliation in Nicaragua and the creation of a framework for negotiating a peaceful settlement to the Nicaraguan conflict; and

(2) finds that the United States should, in assisting efforts to reach comprehensive and verifiable final agreements based on the Contadora Document of Objectives, encourage the Government of Nicaragua to pursue a dialogue with the armed opposition forces and their political representatives for the purposes of achieving an equitable political settlement of the conflict, including free and fair elections.

(b) UNITED STATES CONCERNS ABOUT NICARAGUAN FOREIGN AND DOMESTIC POLICIES.—The Congress finds and declares the following:

(1) Despite positive actions by the Congress signaling support for negotiated solutions to conflicts in Central America, there are disturbing trends in Nicaragua's foreign and domestic policies, including—

(A) President Daniel Ortega's April 1985 trip to the Soviet Union at a time when the Congress signaled its strong disapproval of increasing Nicaraguan-Soviet ties;

(B) the Sandinista government's close military ties with Cuba, the Soviet Union, and its Warsaw Pact allies; the disappointing and insufficient reduction of the number of Cuban advisors in Nicaragua by only 100 out of an approximately 2,500; and the continuing military buildup that Nicaragua's neighbors consider threatening;

(C) the Sandinista government's curtailment of individual liberties, political expression, freedom of worship, and the independence of the media;

(D) the subordination of military, judicial, and internal security functions to the ruling political party; and

(E) the Sandinista government's efforts to export its influence and ideology.

(2) If Nicaragua does not address the concerns described in paragraph (1), the United States has several options to address this challenge to peace and stability in the region, including political, diplomatic, and trade sanctions. In addition, the United States—

(A) should through appropriate regional organizations, such as the Organization of American States, seek to maintain multilateral pressure on Nicaragua to address these concerns; and

(B) should, if called upon to do so, give serious consideration to supporting any sanctions adopted by such an organization.

(3) In assessing whether or not progress is being made in addressing these concerns, the Congress will expect prompt and significant initiatives by the Government of Nicaragua such as—

(A) the removal of foreign military advisors from Nicaragua;

(B) the end to Sandinista support for insurgencies in other countries in the region, including the cessation of military supplies to the rebel forces fighting the democratically elected government in El Salvador;

(C) restoration of individual liberties, political expression, freedom of worship, and the independence of the media; and

(D) progress toward internal reconciliation and a pluralistic democratic system, including steps to liberalize institutions in order to allow the internal opposition in Nicaragua to become a viable partner in the Nicaraguan political process.

(c) RESOLUTION OF THE CONFLICT IN NICARAGUA.—

(1) BASIS FOR POLICY.—The Congress finds that—

(A) the people of Nicaragua are suffering the horrors of a fierce armed conflict that is causing grave hardships and loss of life, has thrown the country into a serious political, social, and economic upheaval, and is of serious concern to the nations of the region and to the United States;

(B) this conflict is fundamentally a continuation of efforts of the Nicaraguan people to attain a representative government at peace with its neighbors, efforts which began under the Somoza regime; and

(C) the United States recognized these noble aspirations of the Nicaraguan people in the June 23, 1979, resolution of the Seventeenth Meeting of Consultation of Ministers of Foreign Affairs of the Organization of American States, which reads as follows:

"WHEREAS:

"The people of Nicaragua are suffering the horrors of a fierce armed conflict that is causing grave hardships and loss of life, and has thrown the country into a serious political, social, and economic upheaval;

"The inhumane conduct of the dictatorial regime governing the country, as evidenced by the report of the Inter-American Commission on Human Rights, is the fundamental cause of the dramatic situation faced by the Nicaraguan people and;

"The spirit of solidarity that guides Hemisphere relations places an unavoidable obligation on the American countries to exert every effort within their power, to put an end to the bloodshed and to avoid the prolongation of this conflict which is disrupting the peace of the Hemisphere;

"THE SEVENTEENTH MEETING OF CONSULTATION OF MINISTERS OF FOREIGN AFFAIRS,

"DECLARES:

"That the solution of the serious problem is exclusively within the jurisdiction of the people of Nicaragua.

"That in the view of the Seventeenth Meeting of Consultation of Ministers of Foreign Affairs, this solution should be arrived at on the basis of the following:

"1. Immediate and definitive replacement of the Somoza regime.

"2. Installation in Nicaraguan territory of a democratic government, the composition of which should include the principal representative groups which oppose the Somoza regime and which reflects the free will of the people of Nicaragua.

"3. Guarantee of the respect for human rights of all Nicaraguans without exception.

"4. The holding of free elections as soon as possible, that will lead to the establishment of a truly democratic government that guarantees peace, freedom, and justice.

"RESOLVES:

"1. To urge the member states to take steps that are within their reach to facilitate an enduring and peaceful solution of the Nicaraguan problem on the bases set forth above, scrupulously respecting the principle of nonintervention and abstaining from any action that might be in conflict with the above bases or be incompatible with a peaceful and enduring solution to the problem.

"2. To commit their efforts to promote humanitarian assistance to the people of Nicaragua and to contribute to the social and economic recovery of the country.

"3. To keep the Seventeenth Meeting of Consultation of Ministers of Foreign Affairs open while the present situation continues.".

(2) THE GOVERNMENT OF NICARAGUA.—The Congress further finds that—

(A) the Government of National Reconstruction of Nicaragua formally accepted the June 23, 1979, resolution as a basis for resolving the Nicaraguan conflict in its "Plan to Achieve Peace" which was submitted to the Organization of American States on July 12, 1979;

(B) the June 23, 1979, resolution and its acceptance by the Government of National Reconstruction of Nicaragua was the formal basis for the removal of the Somoza regime and the installation of the Government of National Reconstruction;

(C) the Government of National Reconstruction, now known as the Government of Nicaragua and controlled by the Frente Sandinista (the FSLN), has flagrantly violated the provisions of the June 23, 1979, resolution, the rights of the Nicaraguan people, and the security of the nations in the region, in that it—

(i) no longer includes the democratic members of the Government of National Reconstruction in the political process;

(ii) is not a government freely elected under conditions of freedom of the press, assembly, and organization, and is not recognized as freely elected by its neighbors, Costa Rica, Honduras, and El Salvador;

(iii) has taken significant steps towards establishing a totalitarian Communist dictatorship, including the formation of FSLN neighborhood watch committees and the enactment of laws that violate human rights and grant undue executive power;

(iv) has committed atrocities against its citizens as documented in reports by the Inter-American Commission on Human Rights of the Organization of American States;

(v) has aligned itself with the Soviet Union and Soviet allies, including the German Democratic Republic, Bulgaria, Libya, and the Palestine Liberation Organization;

(vi) has committed and refuses to cease aggression in the form of armed subversion against its neighbors in violation of the

Charter of the United Nations, the Charter of the Organization of American States, the Inter-American Treaty of Reciprocal Assistance, and the 1965 United Nations General Assembly Declaration on Intervention; and

(vii) has built up an army beyond the needs of immediate self-defense, at the expense of the needs of the Nicaraguan people and about which the nations of the region have expressed deepest concern.

(3) THE NICARAGUAN DEMOCRATIC OPPOSITION.—The Congress further finds that—

(A) as a result of these violations, the Government of Nicaragua has lost the support of virtually all independent sectors of Nicaraguan society who initially supported the removal of the Somoza regime (including democratic political parties of the left, center, and right; the leadership of the Church; free unions; and the business, farmer, and professional sectors) and who still seek democracy, reject the rule of the Frente Sandinista, and seek the free elections promised in 1979;

(B) the Nicaraguan political opposition has joined with the armed opposition groups in issuing the San Jose Manifesto of March 1, 1985, calling for a national dialogue under mediation by the Nicaraguan Bishops Conference to peacefully attain the fulfillment of the Government of Nicaragua's commitments to the Organization of American States, including "the democratization of Nicaragua, conscious that democracy is the only means to carry out an authentic revolution and secure our national identity and sovereignty";

(C) on June 12, 1985, in San Salvador, El Salvador, the political and armed opposition groups representing the entire democratic political spectrum of Nicaragua formed the Unified Nicaraguan Opposition and affirmed their "historical commitment to achieve for Nicaragua the reconciliation of her children, to establish the foundation for democracy and the moral and material reconstruction of the nation"; and

(D) the Unified Nicaraguan Opposition further declared its intention to "give priority at all times to a political solution which will ease the suffering of our people".

(4) CONCERNS IN THE REGION AND UNITED STATES RESPONSIBILITIES.—The Congress further finds that—

(A) Nicaragua's neighbors, Costa Rica, El Salvador, and Honduras, have expressed, individually and through the Contadora process, their belief that their peace and freedom is not safe so long as the Government of Nicaragua excludes from power most of Nicaragua's political leadership and is controlled by a small sectarian party, without regard to the will of the majority of Nicaraguans; and

(B) the United States, given its role in the installation of the current Government of Nicaragua, has a special responsibility regarding the implementation of the commitments made by that Government in 1979, especially to those who fought against Somoza to bring democracy to Nicaragua with United States support.

(5) RESOLUTION OF THE CONFLICT.—The Congress—

(A) condemns the Government of Nicaragua for violating its solemn commitments to the Nicaraguan people, the United States, and the Organization of American States;

(B) affirms that the Government of Nicaragua will be regarded as having achieved political legitimacy when it fulfills its 1979 commitment to the Organization of American States to implement genuinely democratic elections, under the supervision of the Organization of American States, in which all elements of the Nicaraguan resistance can peacefully participate under conditions recognized as necessary for free elections by international bodies;

(C) urges the Government of Nicaragua to enter a national dialogue, as proposed by the Nicaraguan democratic resistance in San Jose, Costa Rica, on March 1, 1985, under mediation by the Nicaraguan Bishops Conference in order to peacefully resolve the current crisis through internationally recognized elections in which all elements of Nicaraguan society can freely participate;

(D) supports the Nicaraguan democratic resistance in its efforts to peacefully resolve the Nicaraguan conflict and to achieve the fulfillment of the Government of Nicaragua's solemn commitments to the Nicaraguan people, the United States, and the Organization of American States;

(E) supports efforts by the Contadora nations, the Organization of American States, and other appropriate regional organizations to maintain multilateral pressure on Nicaragua to fulfill its commitments; and

(F) requests that the Secretary of State transmit the text of this subsection to the Foreign Ministers of the member states of the Organization of American States.

(d) PROHIBITION RELATING TO MILITARY OR PARAMILITARY OPERATIONS IN NICARAGUA.—Notwithstanding any other provision of law, no funds authorized to be appropriated or otherwise made available by this Act (except the funds authorized to be appropriated in this section), by the Foreign Assistance Act of 1961, or by the Arms Export Control Act shall be used to provide assistance of any kind, either directly or indirectly, to any person or group engaging in an insurgency or other act of rebellion against the Government of Nicaragua. The United States shall not enter into any arrangement conditioning, expressly or impliedly, the provision of assistance under this Act or the purchase of defense articles and services under the Arms Export Control Act upon the provision of assistance by a recipient to persons or groups engaging in an insurgency or other act of rebellion against the Government of Nicaragua.

(e) LIMITATION ON USE OF FUNDS AGAINST NICARAGUA.—None of the funds authorized to be appropriated in this or any other Act can be used to fund directly, or indirectly, activities against the Government of Nicaragua which have not been authorized by, or pursuant to, law and which would place the United States in violation of our obligations under the Charter of the Organization of American States, to which the United States is a signatory, or under international law as defined by treaty commitments agreed to, and ratified by, the Government of the United States.

(f) FOOD AID TO THE NICARAGUAN PEOPLE.—In cooperation with Cardinal Miguel Obando y Bravo and private and voluntary organizations, the President should explore and promote means for providing food aid to the Nicaraguan people through private and voluntary organizations and the Catholic Church.

(g) HUMANITARIAN ASSISTANCE FOR NICARAGUAN DEMOCRATIC RESISTANCE.—(1) Effective upon the date of enactment of this Act, there are authorized to be appropriated $27,000,000 for humanitarian assistance to the Nicaraguan democratic resistance. Such assistance shall be provided to such department or agency of the United States as the President shall designate, except the Central Intelligence Agency or the Department of Defense.

(2) The assistance authorized by this subsection is authorized to remain available for obligation until March 31, 1986.

(3) One-third of the assistance authorized by this subsection shall be available for obligation at any time after the appropriation of funds pursuant to such authorization, an additional one-third shall be available for obligation upon submission of the first report required by subsection (j), and the remaining one-third shall be available for obligation upon submission of the second such report.

(4) The President shall establish appropriate procedures to ensure that any humanitarian assistance provided by the United States Government to the Nicaraguan democratic resistance is used only for the intended purpose and is not diverted (through barter, exchange, or any other means) for acquisition of weapons, weapons systems, ammunition, or other equipment, vehicles, or material which can be used to inflict serious bodily harm or death.

(5) As used in this subsection, the term "humanitarian assistance" means the provision of food, clothing, medicine, and other humanitarian assistance, and it does not include the provision of weapons, weapons systems, ammunition, or other equipment, vehicles, or material which can be used to inflict serious bodily harm or death.

(h) ASSISTANCE FOR IMPLEMENTATION OF A CONTADORA AGREEMENT.—Effective upon the date of enactment of this Act, there are authorized to be appropriated $2,000,000, which are authorized to remain available until expended, for payment by the Secretary of State for the expenses arising from implementation by the Contadora nations (Mexico, Panama, Colombia, and Venezuela) of an agreement among the countries of Central America based on the Contadora Document of Objectives of September 9, 1983, including peacekeeping, verification, and monitoring systems.

(i) POLICIES WITH RESPECT TO NICARAGUA.—The President is hereby urged and requested—

(1) to pursue vigorously the use of diplomatic and economic measures to resolve the conflict in Nicaragua, including simultaneous negotiations—

(A) to implement the Contadora Document of Objectives of September 8, 1983; and

(B) to develop, in close consultation and cooperation with other nations, trade and economic measures to complement such policies of the United States and to encourage the Government of Nicaragua to take the necessary steps to resolve the conflict;

(2) to suspend the economic sanctions imposed by the President on May 1, 1985, and the United States military maneuvers in Honduras and off the coast of Nicaragua, if the Government of Nicaragua agrees—

(A) to a cease fire,

(B) to open a dialogue with all elements of the opposition, including the Nicaraguan democratic resistance, and

(C) to suspend the state of emergency in Nicaragua;

(3) to call upon the Nicaraguan democratic resistance to remove from their ranks any individuals who have engaged in human rights abuses; and

(4) to resume bilateral discussions with the Government of Nicaragua with a view to encouraging—

(A) a church-mediated dialogue between the Government of Nicaragua and all elements of the opposition, including the Nicaraguan democratic resistance, in support of

internal reconciliation as called for by the Contadora Document of Objectives; and

(B) a comprehensive, verifiable agreement among the nations of Central America, based on the Contadora Document of Objectives.

(j) REPORTS.—The President shall submit a report to the Congress 90 days after the date of enactment of this Act, and every 90 days thereafter, on any actions taken to carry out subsections (g) and (h). Each such report shall include—

(1) a detailed statement of any progress made in reaching a negotiated settlement referred to in subsection (i)(1), including the willingness of the Nicaraguan democratic resistance and the Government of Nicaragua to negotiate a settlement;

(2) a detailed accounting of the disbursements made to provide humanitarian assistance with the funds provided pursuant to subsection (g); and

(3) a discussion of the alleged human rights violations by the Nicaraguan democratic resistance and the Government of Nicaragua, including a statement of the steps taken by the Nicaraguan democratic resistance to comply with the request referred to in subsection (i)(3).

(k) SUBMISSION OF REQUEST FOR ADDITIONAL ASSISTANCE FOR THE CENTRAL AMERICA PEACE PROCESS.—If the President determines at any time after the enactment of this Act that—

(1) negotiations based on the Contadora Document of Objectives of September 9, 1983, have produced an agreement, or show promise of producing an agreement, or

(2) other trade and economic measures will assist in a resolution of the conflict, or to stabilization in the region,

the President may submit to the Congress a request for budget and other authority to provide additional assistance for the furtherence of the Central America peace process.

(l) STATEMENT TO BE INCLUDED.—The President's request pursuant to subsection (k) shall include a detailed statement as to progress made to resolve the conflict in the region.

(m) CONSULTATION WITH THE CONGRESS.—In formulating a request pursuant to subsection (k), the President shall consult with the Congress.

(n) HOUSE PROCEDURES.—(1) The provisions of this subsection apply, during the 99th Congress, to the consideration in the House of Representatives of a joint resolution with respect to the request submitted by the President pursuant to subsection (k).

(2) For purposes of this subsection, the term "joint resolution" means only a joint resolution introduced within 3 legislative days after the Congress receives the request submitted by the President pursuant to subsection (k)—

(A) the matter after the resolving clause of which is as follows: "That the Congress hereby approves the additional authority and assistance for the Central America peace process that the President requested pursuant to the International Security and Development Cooperation Act of 1985, notwithstanding section 10 of Public Law 91-672.";

(B) which does not have a preamble; and

(C) the title of which is as follows: "Joint Resolution relating to Central America pursuant to the International Security and Development Cooperation Act of 1985.".

(3) A joint resolution shall, upon introduction, be referred to the appropriate committee or committees of the House of Representatives.

(4) If all the committees of the House to which a joint resolution has been referred have not reported the same joint resolution by the end of 15 legislative days after the first joint resolution was introduced, any committee which has not reported the first joint resolution introduced shall be discharged from further consideration of that joint resolution and that joint resolution shall be placed on the appropriate calendar of the House.

(5)(A) At any time after the first joint resolution placed on the appropriate calendar has been on that calendar for a period of 5 legislative days, it is in order for any Member of the House (after consultation with the Speaker as to the most appropriate time for the consideration of that joint resolution) to move that the House resolve itself into the Committee of the Whole House on the State of the Union for the consideration of that joint resolution. The motion is highly privileged and is in order even though a previous motion to the same effect has been disagreed to. All points of order against the joint resolution under clauses 2 and 6 of Rule XXI of the Rules of the House are waived. If the motion is agreed to, the resolution shall remain the unfinished business of the House until disposed of. A motion to reconsider the vote by which the motion is disagreed to shall not be in order.

(B) Debate on the joint resolution shall not exceed ten hours, which shall be divided equally between a Member favoring and a Member opposing the joint resolution. A motion to limit debate is in order at any time in the House or in the Committee of the Whole and is not debatable.

(C) An amendment to the joint resolution is not in order.

(D) at the conclusion of the debate on the joint resolution, the Committee of the Whole shall rise and report the joint resolution back to the House, and the previous question shall be considered as ordered on the joint resolution to final passage without intervening motion.

(6) As used in this subsection, the term "legislative day" means a day on which the House is in session.

(o) SENATE PROCEDURES.—A joint resolution which is introduced in the Senate within 3 calendar days after the day on which the Congress receives a Presidential request described in subsection (k) and which, if enacted, would grant the President the authority to take any or all of the actions described in subsection (k) shall be considered in accordance with procedures contained in paragraphs (3) through (7) of section 8066(c) of the Department of Defense Appropriations Act, 1985 (as contained in Public Law 98-473), except that—

(1) references in such paragraphs to the Committees on Appropriations of the Senate shall be deemed to be references to the appropriate committee or committees of the Senate; and

(2) amendments to the joint resolution are in order.

(p) SUBMISSION OF REQUEST FOR ADDITIONAL ASSISTANCE FOR NICARAGUAN DEMOCRATIC RESISTANCE.—If the President determines at any time after the enactment of this Act that—

(1) negotiations based on the Contadora Document of Objectives of September 9, 1983, have failed to produce an agreement, or

(2) other trade and economic measures have failed to resolve the conflict,

the President may submit to the Congress a request for budget and other authority to provide additional assistance for the Nicaraguan democratic resistance.

(q) STATEMENT TO BE INCLUDED.—The President's request pursuant to subsection (p) shall include a detailed statement as to why the negotiations or other measures have failed to resolve the conflict in the region.

(r) CONSULTATION WITH THE CONGRESS.—In formulating a request pursuant to subsection (p), the President shall consult with the Congress.

(s) HOUSE PROCEDURES.—(1) The provisions of this subsection apply, during the 99th Congress, to the consideration in the House of Representatives of a joint resolution with respect to the request submitted by the President pursuant to subsection (p).

(2) For purposes of this subsection, the term "joint resolution" means only a joint resolution introduced within 3 legislative days after the Congress receives the request submitted by the President pursuant to subsection (p)—

(A) the matter after the resolving clause of which is as follows: "That the Congress hereby approves the additional authority and assistance for the Nicaraguan democratic resistance that the President requested pursuant to the International Security and Development Cooperation Act of 1985, notwithstanding section 10 of Public Law 91-672.";

(B) which does not have a preamble; and

(C) the title of which is as follows: "Joint Resolution relating to Central America pursuant to the International Security and Development Cooperation Act of 1985.".

(3) A joint resolution shall, upon introduction, be referred to the appropriate committee or committees of the House of Representatives.

(4) If all the committees of the House to which a joint resolution has been referred have not reported the same joint resolution by the end of 15 legislative days after the first joint resolution was introduced, any committee which has not reported the first joint resolution introduced shall be discharged from further consideration of that joint resolution and that joint resolution shall be placed on the appropriate calendar of the House.

(5)(A) At any time after the first joint resolution placed on the appropriate calendar has been on that calendar for a period of 5 legislative days, it is in order for any Member of the House (after consultation with the Speaker as to the most appropriate time for the consideration of that joint resolution) to move that the House resolve itself into the Committee of the Whole House on the State of the Union for the consideration of that joint resolution. The motion is highly privileged and is in order even though a previous motion to the same effect has been disagreed to. All points or order against the joint resolution under clauses 2 and 6 of Rule XXI of the Rules of the House are waived. If the motion is agreed to, the resolution shall remain the unfinished business of the House until disposed of. A motion to reconsider the vote by which the motion is disagreed to shall not be in order.

(B) Debate on the joint resolution shall not exceed ten hours, which shall be divided equally between a Member favoring and a Member opposing the joint resolution. A motion to limit debate is in order at any time in the House or in the Committee of the Whole and is not debatable.

(C) An amendment to the joint resolution is not in order.

(D) At the conclusion of the debate on the joint resolution, the Committee of the Whole shall rise and report the joint resolution back to the House, and the previous question shall be considered as ordered on the joint

resolution to final passage without intervening motion.

(6) As used in this subsection, the term "legislative day" means a day on which the House is in session.

(t) SENATE PROCEDURES.—A joint resolution which is introduced in the Senate within 3 calendar days after the day on which the Congress receives a Presidential request described in subsection (p) and which, if enacted, would grant the President the authority to take any or all of the actions described in subsection (p) shall be considered in accordance with procedures contained in paragraphs (3) through (7) of section 8066(c) of the Department of Defense Appropriations Act, 1985 (as contained in Public Law 98-473), except that—

(1) references in such paragraphs to the Committees on Appropriations of the Senate shall be deemed to be references to the appropriate committee or committees of the Senate; and

(2) amendments to the joint resolution are in order.

(u) CONGRESSIONAL RULEMAKING POWERS.—Subsections (n), (o), (s), and (t) are enacted—

(1) as exercises of the rulemaking powers of the House of Representatives and Senate, and as such they are deemed a part of the Rules of the House and the Rules of the Senate, respectively, but applicable only with respect to the procedure to be followed in the House and the Senate in the case of joint resolutions under this section, and they supersede other rules only to the extent that they are inconsistent with such rules; and

(2) with full recognition of the constitutional right of the House and the Senate to change their rules at any time, in the same manner, and to the same extent as in the case of any other rule of the House or Senate, and of the right of the Committee on Rules of the House of Representatives to report a resolution for the consideration of any measure.

TITLE VIII—AFRICA

SEC. 801. BALANCE-OF-PAYMENTS SUPPORT FOR COUNTRIES IN AFRICA.

(a) ESF COMMODITY IMPORT AND SECTOR PROGRAMS.—Agreements with countries in Africa which provide for the use of funds made available to carry out chapter 4 of part II of the Foreign Assistance Act of 1961 for the fiscal years 1986 and 1987 to finance imports by those countries (under commodity import programs or sector programs) shall require that those imports be used to meet long-term development needs in those countries in accordance with the following criteria:

(1) Spare parts and other imports shall be allocated on the basis of evaluations, by the agency primarily responsible for administering part I of that Act, of the ability of likely recipients to use such spare parts and imports in a maximally productive, employment generating, and cost effective way.

(2) Imports shall be coordinated with investments in accordance with the recipient country's plans for promoting economic development. The agency primarily responsible for administering part I of that Act shall assess such plans to determine whether they will effectively promote economic development.

(3) Emphasis shall be placed on imports for agricultural activities which will expand agricultural production, particularly activities which expand production for export or production to reduce reliance on imported agricultural products.

(4) Emphasis shall also be placed on a distribution of imports having a broad development impact in terms of economic sectors and geographic regions.

(5) In order to maximize the likelihood that the imports financed by the United States under such chapter are in addition to imports which would otherwise occur, consideration shall be given to historical patterns of foreign exchange uses.

(6)(A) Seventy-five percent of the foreign currencies generated by the sale of such imports by the government of the country shall be deposited in a special account established by that government and, except as provided in subparagraph (B), shall be available only for use in accordance with the agreement for economic development activities which are consistent with the policy directions of section 102 of the Foreign Assistance Act of 1961 and which are the types of activities for which assistance may be provided under sections 103 through 106 of that Act.

(B) The agreement shall require that the government of the country make available to the United States Government such portion of the amount deposited in the special account as may be determined by the President to be necessary for requirements of the United States Government.

(b) ANNUAL EVALUATIONS.—The agency primarily responsible for administering part I of the Foreign Assistance Act of 1961 shall conduct annual evaluations of the extent to which the criteria set forth in this subsection have been met.

SEC. 802. ECONOMIC SUPPORT ASSISTANCE FOR SOUTHERN AFRICA.

(a) FUNDS FOR SOUTHERN AFRICA REGIONAL PROGRAMS.—Of the amounts authorized to be appropriated to carry out chapter 4 of part II of the Foreign Assistance Act of 1961, not less than $30,000,000 for fiscal year 1986 and not less than $30,000,000 for fiscal year 1987 shall be available only for regional programs in southern Africa. Not less than 50 percent of each of these amounts shall be allocated to assist sector projects supported by the Southern Africa Development Coordination Conference (SADCC) to enhance the economic development of the nine member states forming this important regional institution, especially in the following sectors: transportation, agricultural research and training, manpower development, and institutional support for the SADCC secretariat.

(b) STUDIES RELATING TO SOUTHERN AFRICA REGIONAL PROGRAMS.—(1) The administrator of the agency primarily responsible for administering part I of the Foreign Assistance Act of 1961 shall conduct a study which evaluates—

(A) the assistance which that agency provides to the Southern Africa Development Coordination Conference and other African regional institutions and economic development organizations, and

(B) ways to improve such assistance.

(2) The administrator shall also conduct a study which assesses what type of bureaucratic mechanism within that agency might be established to coordinate assistance to all African regional institutions.

(3) The administrator shall submit the results of the studies conducted pursuant to this subsection to the Congress within 3 months after the date of enactment of this Act.

(c) SOUTH AFRICA EDUCATIONAL TRAINING PROGRAMS.—Funds available to carry out chapter 4 of part II of the Foreign Assistance Act of 1961 for fiscal year 1986 and fiscal year 1987 which are used for education or training programs in South Africa may not be used for programs conducted by or through organizations in South Africa which are financed or controlled by the Government of South Africa, such as the "homeland" and "urban council" authorities. Such funds may only be used for programs which in both their character and organizational sponsorship in South Africa clearly reflect the objective of a majority of South Africans for an end to the apartheid system of separate development. Nothing in this subsection shall be construed to prohibit programs which are consistent with this subsection and which award university scholarships to students who choose to attend a South African-supported university.

(d) HUMAN RIGHTS FUND FOR SOUTH AFRICA.—Of the amount allocated for the Human Rights Fund for South Africa under chapter 4 of part II of the Foreign Assistance Act of 1961 for each of the fiscal years 1986 and 1987, not less than 35 percent shall be used for direct legal and other assistance to political detainees and prisoners and their families, including the investigation of the killing of protestors and prisoners, and for support for actions of black-led community organizations to resist, through non-violent means, the enforcement of apartheid policies such as—

(1) removal of black populations from certain geographic areas on account of race or ethnic origin,

(2) denationalization of blacks, including any distinctions between the South African citizenships of blacks and whites,

(3) residence restrictions based on race or ethnic origin,

(4) restrictions on the rights of blacks to seek employment in South Africa and live wherever they find employment in South Africa, and

(5) restrictions which make it impossible for black employees and their families to be housed in family accommodations near their place of employment.

SEC. 803. POLICY TOWARD SOUTH AFRICAN "HOMELANDS".

(a) FINDINGS.—The Congress finds that—

(1) the sanctity of the family, individual liberty, maximum freedom of choice, ownership of private property, and equal treatment of all citizens, regardless of race, are principles which are fully supported by the American people;

(2) the forced relocation of blacks by the Government of the Republic of South Africa to designated "homelands" divides families, as families are required to remain in the "homelands" while fathers seek work in the so-called "white areas";

(3) the forced removal of persons living in so-called "black spots" in "white" rural areas in South Africa denies them the fundamental right to live and to farm on land they have legally occupied for years, and subjects them to arbitrary arrest and detention when they seek these rights;

(4) compared to "white" South Africa, the designated "homelands", which are meant to accommodate the largest South African population group on a fraction of South African territory and were established without the consent of the vast majority of the governed, are characterized by high rates of infant mortality, unemployment, and malnutrition and by a severe shortage of medical services;

(5) the policy of the Government of the Republic of South Africa denies blacks their rightful claim to full South African citizenship; and

(6) the recent violence in South Africa must be seen as an inevitable result of the denial of the full rights of citizenship.

(b) STATEMENT OF POLICY.—It is the sense of the Congress that—

(1) the policy of separate development and the forced relocation of the people of the Republic of South Africa are inconsistent with fundamental American values and internationally recognized principles of human rights;

(2) the Government of the United States should continue to regard as citizens of South Africa all persons born within the internationally recognized boundaries of the Republic of South Africa, and not differentiate among these citizens on the basis of the South African Government's claim to have granted independence to various "homelands";

(3) at such times that any "homeland" official applies for a visa for travel to the United States, such visa should not be granted unless that official holds a passport which is recognized as valid by the Government of the United States; and

(4) the Government of the United States should urge that the forced relocation of South African citizens be discontinued and that policies be adopted for all South Africa's citizens which protect the sanctity of the family, individual liberty, maximum freedom of choice, ownership of private property, and equal treatment of all citizens, regardless of race.

SEC. 804. ASSISTANCE FOR ZAIRE.

(a) ECONOMIC SUPPORT ASSISTANCE.—Funds allocated for assistance for Zaire under chapter 4 of part II of the Foreign Assistance Act of 1961 for each of the fiscal years 1986 and 1987 shall be used only for assistance which is provided in accordance with the provisions applicable to assistance under chapter 1 of part I of the Foreign Assistance Act of 1961. Such assistance shall be provided, to the maximum extent practicable, through private and voluntary organizations.

(b) MILITARY ASSISTANCE.—For each of the fiscal years 1986 and 1987—

(1) the value of assistance provided under chapter 2 of part II of the Foreign Assistance Act of 1961 for Zaire may not exceed $7,000,000; and

(2) financing may not be provided under the Arms Export Control Act for Zaire.

SEC. 805. ASSISTANCE FOR TUNISIA.

(a) POLICY CONCERNING SECURITY ASSISTANCE.—The United States provides security assistance to Tunisia in recognition of the traditional friendship between the United States and Tunisia and our common interests in the region. The provision of such assistance is also based on the expectation that political stability and development in Tunisia will be best advanced through continued growth of democratic institutions.

(b) EARMARKING OF MAP AND ESF.—For each of the fiscal years 1986 and 1987—

(1) not less than $15,000,000 of the amounts authorized to be appropriated to carry out chapter 2 of part II of the Foreign Assistance Act of 1961, and

(2) not less than $20,000,000 of the amounts authorized to be appropriated to carry out chapter 4 of part II of that Act,

shall be available only for Tunisia.

SEC. 806. POLITICAL SETTLEMENT IN SUDAN.

(a) FINDINGS.—The Congress finds that—

(1) friendship and mutual interests bind the United States and Sudan; and

(2) the peace, security, and economic development of Sudan depend in large part on addressing the problems associated with the traditional north-south division in that country through political rather than military means.

(b) UNITED STATES POLICY.—It is, therefore, the policy of the United States that the provision of security assistance to Sudan shall be based on the expectation that the Government of Sudan will make progress toward reaching a political settlement with all parties to the conflict in the south of Sudan.

SEC. 807. ELECTIONS IN LIBERIA.

In recognition of the special relationship that the United States has with Liberia and of the wide variety of interests that the United States has in Liberia, security assistance for Liberia for fiscal years 1986 and 1987 is based on the expectation of a successful completion of free and fair elections, on a multiparty basis, in October 1985 as proposed by the Government of Liberia and on a return to full civilian, constitutional rule as a consequence of those elections.

SEC. 808. WESTERN SAHARA.

(a) UNITED STATES POLICY.—The policy of the United States shall be to support a negotiated political solution to the conflict in the Western Sahara taking into account the principle of self-determination as outlined in the 1981 Nairobi resolution and to encourage all parties to the conflict to reach a peaceful internationally recognized settlement. As part of this policy, the United States should carefully consider each type of military assistance it furnishes to any of the parties to the conflict and should seek to insure that the furnishing of such military assistance is consistent with United States policy which seeks a negotiated settlement.

(b) FURTHER STATEMENT OF POLICY.—It is the further policy of the United States to support Morocco's legitimate defense needs and to discourage aggression by any country in North Africa against another.

SEC. 809. SAHEL DEVELOPMENT PROGRAM.

(a) AUTHORIZATIONS OF APPROPRIATIONS.—The third sentence of section 121(c) of the Foreign Assistance Act of 1961 is amended to read as follows: "In addition to the amounts authorized to be appropriated in the preceding sentences and to funds otherwise available for such purposes, there are authorized to be appropriated to the President for purposes of this section $87,750,000 for fiscal year 1986 and $87,750,000 for fiscal year 1987.".

(b) IMPROVING ADMINISTRATIVE CAPABILITIES OF HOST GOVERNMENTS.—Section 121 of such Act is amended by adding at the end thereof the following new subsection:

"(e) Grants shall be made under this section to Sahel Development Program host governments in order to help them enhance their administrative capabilities to meet the administrative requirements resulting from donor country projects and activities.".

SEC. 810. AFRICAN DEVELOPMENT FOUNDATION.

(a) AUTHORIZATIONS OF APPROPRIATIONS.—Section 510 of the African Development Foundation Act is amended to read as follows:

"AUTHORIZATIONS OF APPROPRIATIONS

"SEC. 510. There are authorized to be appropriated to carry out this title, in addition to amounts otherwise available for that purpose, $3,872,000 for fiscal year 1986 and $3,872,000 for fiscal year 1987. Funds appropriated under this section are authorized to remain available until expended.".

(b) EXTENSION OF AUTHORITIES.—Section 511 of such Act is amended by striking out "1985" and inserting in lieu thereof "1990".

SEC. 811. REPEAL OF CLARK AMENDMENT.

Section 118 of the International Security and Development Cooperation Act of 1980 (prohibiting assistance for military or paramilitary operations in Angola) is repealed.

SEC. 812. FAILURE OF THE ETHIOPIAN GOVERNMENT TO RESPONSIBLY AMELIORATE FAMINE CONDITIONS.

(a) FINDINGS.—The Congress finds that—

(1) many thousands of Ethiopian people have suffered and died, and an additional ten million people are in danger of death, through starvation caused by prolonged drought;

(2) the Government of the United States has a continuing commitment to the emergency fund under title II of the Agricultural Trade Development and Assistance Act of 1954 (the Food For Peace Act);

(3) United States emergency food assistance for Africa in fiscal year 1985 is more than twice the amount provided in fiscal year 1984, and is the largest amount contributed by any single donor;

(4) the Ethiopian Government, as a client state of the Soviet Union, has considered the equipage and modernization of its five hundred thousand-person military organization more vital than alleviating the suffering of its people caused by drought;

(5) the Ethiopian Government has considered the funding of its military organization more vital than promoting a viable national agrarian policy;

(6) there is evidence that the Government of Ethiopia has used the drought-caused famine to induce cooperation from certain dedicated Ethiopians who seek to bring about fundamental changes in their country;

(7) the United States Government is concerned about the seizure by the Ethiopian Government of an Australian aid ship in an attempt to cut off food to its citizens in the northern regions, an area most severely stricken by famine; and

(8) the Ethiopian Government deems the appearance and status of its socialist system more worthy of attention than its citizens and agricultural policies in need.

(b) STATEMENT OF POLICY.—It is the sense of the Congress that—

(1) the Government of Ethiopia should be condemned for failing in its responsibility to sufficiently ameliorate the severe drought and famine conditions throughout its agrarian countryside;

(2) the Government of Ethiopia should allocate more of its resources toward the development of a more balanced and effective agrarian system;

(3) human rights monitoring groups can be a positive force for human rights in Ethiopia and should be allowed to function and should be supported;

(4) the Government of Ethiopia should initiate a genuine policy of national reconciliation;

(5) the continued improvement of Ethiopia's treatment of the Ethiopian people and respect for human rights would better relations between the United States and Ethiopia;

(6) the President or his representatives should convey to Ethiopian officials the concerns of the Congress expressed in this section at every opportunity; and

(7) the President or his representatives should also convey these concerns of the Congress to the governments of United States allies and urge the cooperation of those governments in efforts to ensure a more responsible Ethiopian Government.

(c) PROHIBITION ON IMPORTS AND EXPORTS.—(1) The President shall determine, within 30 days after the date of enactment of this Act, whether the Ethiopian regime is conducting a deliberate policy of starvation of its people and has not granted fundamental human rights to its citizens. The President shall submit that determination, and the basis for that determination, to the Congress.

(2) If the President determines that such a policy is being conducted and that such rights are not being granted, paragraph (3) shall take effect if the Congress enacts a joint resolution approving that determination.

(3) If the conditions specified in paragraphs (1) and (2) are met—

(A) goods and services of Ethiopian origin may not be imported into the United States; and

(B) except for emergency relief, rehabilitation, and recovery assistance, goods and services of United States origin may not be exported (directly or indirectly) to Ethiopia.

(d) PROHIBITION ON ECONOMIC ASSISTANCE.—The President shall suspend all forms of economic assistance to the Government of Ethiopia. This section shall not be construed to prevent the furnishing of international disaster assistance under section 491 of the Foreign Assistance Act of 1961 or economic assistance which will directly benefit needy people in accordance with section 116 of that Act.

SEC. 813. ASSISTANCE FOR THE PEOPLE'S REPUBLIC OF MOZAMBIQUE.

(a) ECONOMIC ASSISTANCE.—The funds authorized to be appropriated for fiscal years 1986 and 1987 to carry out chapter 1 of part I (relating to development assistance) and chapter 4 of part II (relating to the economic support fund) of the Foreign Assistance Act of 1961 that are allocated for bilateral assistance to the People's Republic of Mozambique shall be used solely for assistance to the private sector of the economy of Mozambique to the maximum extent practicable. To the maximum extent practicable, such funds shall be channeled to non-governmental entities in Mozambique.

(b) MILITARY ASSISTANCE.—(1) None of the funds authorized to be appropriated for fiscal year 1986 or fiscal year 1987 to carry out chapter 2 of part II (relating to grant military assistance) or chapter 5 of part II (relating to international military education and training) of the Foreign Assistance Act of 1961 shall be used to provide assistance to the People's Republic of Mozambique unless the President makes the certification described in paragraph (2) before providing any such assistance for that fiscal year.

(2) The certification required by paragraph (1) is a certification by the President to the Speaker of the House of Representatives and to the chairman of the Committee on Foreign Relations of the Senate that the Government of the People's Republic of Mozambique—

(A) is making a concerted and significant effort to comply with internationally recognized human rights;

(B) is making continued progress in implementing essential economic and political reforms, including the restoration of private property and respect for the right to engage in free enterprise in all sectors of the economy;

(C) has implemented a plan by September 30, 1986, to reduce the number of foreign military personnel to no more than 55; and

(D)(i) in the case of a certification with respect to assistance for fiscal year 1986, is committed to holding free elections at a date no later than September 30, 1986, and to that end has demonstrated its good faith efforts to begin discussions with all major political factions in Mozambique which have declared their willingness to find and implement an equitable political solution to the conflict, with such solution to involve a commitment to—

(I) the electoral process with internationally recognized observers; and

(II) the elimination of all restrictions on the formation and activities of opposition political parties; and

(i) in the case of a certification with respect to assistance for fiscal year 1987, held free elections by September 30, 1986.

TITLE IX—ASIA

SEC. 901. THE PHILIPPINES.

(a) DEMOCRACY IN THE PHILIPPINES.—It is the sense of the Congress that the United States should encourage the revitalization of democracy in the Philippines. To that end, the Congress affirms its intention to grant future aid to the Philippines according to the determination of the Congress that United States security interests are enhanced and sufficient progress is made by the Government of the Philippines in—

(1) guaranteeing free, fair, and honest elections in 1986 and 1987, or sooner should any such elections occur;

(2) ensuring the full, fair, and open prosecution of those responsible for the murder of Benigno Aquino, including those involved in the cover-up;

(3) ensuring freedom of speech and freedom of the press, and unrestricted access to the media on the part of all candidates for public office in the local and provincial elections of 1986 and the Presidential election of 1987;

(4) establishing the writ of habeas corpus and the termination of the Presidential Detention Action and all other forms of detention without charge or trial;

(5) releasing all individuals detained or imprisoned for peaceful political activities;

(6) making substantial progress in terminating extrajudicial killings by the Philippine military and security forces and the prosecution of those responsible for such killings in the past;

(7) implementing structural economic reforms and a strengthening of the private sector, including elimination of corruption and monopolies; and

(8) enhancing the professional capability of the Philippine armed forces and security forces (including the Philippine Constabulary and the Civilian House Defense Forces).

(b) PRIMARY PURPOSE OF UNITED STATES ASSISTANCE.—The Congress finds and declares that the primary purpose of United States assistance to the Philippines should be to maintain and foster friendly relations between the people of the Philippines and the people of the United States and to encourage the restoration of internal security, both of which goals can be best served by the achievement of an open and stable democracy.

(c) CONGRESSIONAL OVERSIGHT.—The Congress, in determining future aid levels for the Philippines, will take into account not only our military bases agreement with that country, but also the extent to which the objectives and goals specified in subsections (a) and (b) have been implemented. The Congress may defer assistance for the Philippines under both chapter 2 of part II of the Foreign Assistance Act of 1961 and the Arms Export Control Act if—

(1) significant progress is not achieved with respect to the objectives and goals specified in subsections (a) and (b), or

(2) the Congress finds that such assistance is used to violate the internationally recognized human rights of the Filipino people.

(d) AMOUNTS OF ASSISTANCE.—Of the amounts authorized to be appropriated for each of the fiscal years 1986 and 1987—

(1) to carry out the Arms Export Control Act (relating to foreign military sales financing), not more than $20,000,000 may be used for assistance for the Philippines;

(2) to carry out chapter 2 of part II of the Foreign Assistance Act of 1961 (relating to grant military assistance), not more than $50,000,000 may be used for assistance for the Philipines; and

(3) to carry out chapter 4 of part II of the Foreign Assistance Act of 1961 (relating to the economic support fund), $110,000,000 shall be available only for the Philippines.

(e) NONLETHAL ASSISTANCE.—Assistance provided for the Philippines for fiscal year 1986 under the Arms Export Control Act or under chapter 2 of part II of the Foreign Assistance Act of 1961 shall be nonlethal in character.

SEC. 902. NUCLEAR NON-PROLIFERATION CONDITIONS ON ASSISTANCE FOR PAKISTAN.

Section 620E of the Foreign Assistance Act of 1961 is amended by adding at the end thereof the following new subsection:

"(e) No assistance shall be furnished to Pakistan and no military equipment or technology shall be sold or transferred to Pakistan, pursuant to the authorities contained in this Act or any other Act, unless the President shall have certified in writing to the Speaker of the House of Representatives and the chairman of the Committee on Foreign Relations of the Senate, during the fiscal year in which assistance is to be furnished or military equipment or technology is to be sold or transferred, that Pakistan does not possess a nuclear explosive device and that the proposed United States assistance program will reduce significantly the risk that Pakistan will possess a nuclear explosive device.".

SEC. 903. DISADVANTAGED CHILDREN IN ASIA.

(a) AUTHORIZATION OF ADDITIONAL ASSISTANCE.—Section 241(b) of the Foreign Assistance Act of 1961 is amended by striking out "$2,000,000" and inserting in lieu thereof "$3,000,000".

(b) ADDITIONAL STEPS TO HELP AMERASIAN CHILDREN.—The Congress finds that Amerasian children are currently the object of discrimination in the countries in Asia where they now reside. Therefore, the President shall report to the Congress on the quality of life of these children and on what additional steps, such as facilitating adoptions, the United States could take to enhance the lives of these children.

SEC. 904. ASSISTANCE FOR AFGHANISTAN.

(a) AUTHORIZATION.—The President may make available funds authorized to be appropriated to carry out chapter 4 of part II of the Foreign Assistance Act of 1961 (relating to the economic support fund) for the provision of food, medicine, or other humanitarian assistance to the Afghan people, notwithstanding any other provision of law.

(b) EARMARKING OF FUNDS.—Each fiscal year, not less than $15,000,000 of the aggregate amount of funds available to carry out chapter 4 of part II of the Foreign Assistance Act of 1961 shall be available only for humanitarian assistance to the Afghan people pursuant to subsection (a) of this section.

(c) EFFECTIVE DATES.—This section shall take effect on the date of enactment of this

Act, except that subsection (b) shall not apply to fiscal year 1985.

SEC. 905. ASSISTANCE FOR THE CAMBODIAN PEOPLE.

The President may make available to the noncommunist resistance forces in Cambodia up to $5,000,000 for fiscal year 1986, and up to $5,000,000 for fiscal year 1987, of the funds authorized to be appropriated to carry out chapter 2 (relating to grant military assistance) or chapter 4 (relating to the economic support fund) of part II of the Foreign Assistance Act of 1961, notwithstanding any other provision of law.

SEC. 906. PROHIBITION ON CERTAIN ASSISTANCE TO THE KHMER ROUGE.

(a) PROHIBITION.—Notwithstanding any other provision of law, none of the funds authorized to be appropriated by this Act or any other Act may be obligated or expended for the purpose or with the effect of promoting, sustaining, or augmenting, directly or indirectly, the capacity of the Khmer Rouge or any of its members to conduct military or paramilitary operations in Cambodia or elsewhere in Indochina.

(b) DEOBLIGATION OF CERTAIN FUNDS.—All funds appropriated before the date of enactment of this section which were obligated but not expended for activities having the purpose or effect described in subsection (a) shall be deobligated and shall be deposited in the Treasury of the United States as miscellaneous receipts.

(c) EXCEPTION FOR HUMANITARIAN ASSISTANCE.—This section shall not be construed as limiting the provision of food, medicine, or other humanitarian assistance to the Cambodian people.

SEC. 907. POLITICAL SETTLEMENT IN SRI LANKA.

(a) FINDINGS.—The Congress finds that—

(1) the Government and people of Sri Lanka and the Government and people of the United States share a common devotion to independence, democracy, and human rights;

(2) the United States is concerned over the armed clashes between the security forces of the Government of Sri Lanka and some Sri Lankans who seek through violent means, including terrorist attacks, to divide that nation;

(3) there have been acts of terrorism committed against members of the Sri Lankan security forces, as well as against civilians, and there have been human rights abuses by members of the security forces against civilians, particularly Tamils, despite the efforts of the Government, which the Congress believes must be intensified, to put an end to those abuses;

(4) the differences and grievances in Sri Lanka cannot be resolved through the use of force; and

(5) the United States is a proud participant through its economic assistance programs in Sri Lanka's highly regarded development efforts and looks forward to enhanced cooperation and assistance in the context of a political settlement in Sri Lanka leading to the kind of peaceful climate in which additional aid could be effectively utilized.

(b) POLITICAL SETTLEMENT.—It is, therefore, the sense of the Congress that—

(1) all parties in Sri Lanka, from all communities in and out of government, should renew their efforts to achieve a joint political settlement which meets the legitimate concerns of all the people of Sri Lanka, while preserving the territorial integrity of Sri Lanka; and

(2) all parties outside Sri Lanka should do nothing which would impede progress toward such a settlement.

SEC. 908. UNITED STATES POLICY TOWARD THE REPUBLIC OF KOREA.

(a) FINDINGS.—The Congress finds that—

(1) the Government of the Republic of Korea has taken several significant and encouraging steps in liberalizing the political system in that country;

(2) among the steps which have facilitated a more democratic environment are the release of hundreds of student demonstrators, the lifting of a political ban on more than 300 opposition leaders, and the holding of a vigorously contested election for the National Assembly in which the opposition made substantial gains;

(3) despite these steps, the people of the Republic of Korea, who have become increasingly better educated and prosperous as a result of Korea's extraordinarily rapid economic development, have the desire and the capability to participate more fully and effectively in the government of their own country; and

(4) while internationally recognized human rights are clearly respected much more in the Republic of Korea than in the Democratic People's Republic of Korea, continued progress toward democratization in the south is in the interests of both the Republic of Korea and the United States, inasmuch as long-term political stability cannot be assured in the absence of further progress towards democratic government.

(b) UNITED STATES POLICY.—It is the policy of the United States to provide assistance to the Republic of Korea in order to help that country defend itself against external aggression. It is the hope of the United States that the continuing close relations between our two countries, including such assistance, will encourage the establishment of a genuinely democratic system in the Republic of Korea, in which internationally recognized human rights, including freedom of the press, freedom of association, and freedom of assembly are observed.

TITLE X—FOOD AND AGRICULTURAL ASSISTANCE

SEC. 1001. INTERNATIONAL FUND FOR AGRICULTURAL DEVELOPMENT.

Section 103(g) of the Foreign Assistance Act of 1961 is amended to read as follows:

"(g)(1) In order to carry out the purposes of this section, the President may continue United States participation in and may make contributions to the International Fund for Agricultural Development.

"(2) Of the aggregate amount authorized to be appropriated to carry out part I of this Act, up to $50,000,000 for fiscal year 1986 and up to $50,000,000 for fiscal year 1987 may be made available, by appropriation or by transfer, for United States contributions to the second replenishment of the International Fund for Agricultural Development.".

SEC. 1002. PUBLIC LAW 480 TITLE II MINIMUMS.

Paragraph (3) of section 201(b) of the Agricultural Trade Development and Assistance Act of 1954 is amended by inserting immediately before the semicolon the following: ", except that for fiscal year 1986 the minimum quantity distributed shall be 1,800,000 metric tons, of which not less than 1,300,000 metric tons for nonemergency programs shall be distributed through nonprofit voluntary agencies and the World Food Program, and for fiscal year 1987 the minimum quantity distributed shall be 1,900,000 metric tons, of which not less than 1,425,000 metric tons for nonemergency programs shall be distributed through nonprofit voluntary agencies and the World Food Program".

SEC. 1003. EXPRESS AUTHORITY FOR TITLE II DIRECT DISTRIBUTION, SALE, AND BARTER.

Section 202(a) of the Agricultural Trade Development and Assistance Act of 1954 is amended by inserting after the first sentence the following new sentence: "Such commodities may be furnished for direct distribution, sale, barter, or other appropriate disposition in carrying out the purposes set forth in section 201.".

SEC. 1004. ROLE OF PRIVATE VOLUNTARY ORGANIZATIONS AND COOPERATIVES.

(a) NUTRITIONAL AND DEVELOPMENT OBJECTIVES.—Section 202(b) of the Agricultural Trade Development and Assistance Act of 1954 is amended by adding at the end thereof the following new paragraph:

"(4) In the case of commodities distributed under this title by nonprofit voluntary agencies, consideration shall be given to nutritional and development objectives as established by those agencies in light of their assessment of the needs of the people assisted.".

(b) FOOD FOR DEVELOPMENT PROGRAMS.—Section 302(c)(4) of such Act is amended by inserting "and of United States nonprofit voluntary agencies and cooperatives" immediately after "agriculture".

SEC. 1005. MULTIYEAR AGREEMENTS WITH PVOS AND COOPERATIVES.

Section 202 of the Agricultural Trade Development and Assistance Act of 1954 is amended by adding at the end thereof the following:

"(c)(1) In agreements with nonprofit voluntary agencies and cooperatives for nonemergency assistance under this title, the President is encouraged, if requested by the nonprofit voluntary agency or cooperative, to approve multiyear agreements to make agricultural commodities available for distribution by that agency or cooperative. Such agreement shall be subject to the availability each fiscal year of the necessary appropriations and agricultural commodities.

"(2) Paragraph (1) does not apply to an agreement which the President determines should be limited to a single year because of the past performance of the nonprofit voluntary agency or cooperative or because the agreement involves a new program of assistance.

"(3) In carrying out a multiyear agreement pursuant to this subsection, a nonprofit voluntary agency or cooperative shall not be required to obtain annual approval from the United States Government in order to continue its assistance program pursuant to the agreement, unless exceptional and unforeseen circumstances have occurred which the President determines require such approval.".

SEC. 1006. TITLE II PROGRAMMING REPORTS.

Section 408(b) of the Agricultural Trade Development and Assistance Act of 1954 is amended by striking out "title I" both places it appears and inserting in lieu thereof "titles I and II".

SEC. 1007. ELIGIBLE COMMODITIES UNDER SECTION 416(b).

Section 416(b) of the Agricultural Act of 1949 (7 U.S.C. 1431(b)) is amended by inserting ", rice," after "Dairy products" in the first sentence and by inserting ", rice," after "dairy products" in the third and eighth sentences.

SEC. 1008. LONG-TERM AGRICULTURAL COMMODITY AGREEMENTS WITH FOOD DEFICIT COUNTRIES.

As part of the United States foreign assistance program, the President should explore

the possibility of concluding long-term agricultural commodity agreements to help stabilize and increase the flow of concessional and commercial food stuffs with food deficit countries. The President shall prepare and transmit to the Congress a report on his efforts to achieve such long-term agreements by June 1, 1986.

TITLE XI—PEACE CORPS

SEC. 1101. AUTHORIZATIONS OF APPROPRIATIONS.

Section 3(b) of the Peace Corps Act is amended by amending the first sentence to read as follows: "There are authorized to be appropriated to carry out the purposes of this Act $130,000,000 for each of the fiscal years 1986 and 1987.".

SEC. 1102. NUMBER OF PEACE CORPS VOLUNTEERS.

(a) STATEMENT OF POLICY.—Section 2 of the Peace Corps Act (22 U.S.C. 2501) is amended—

(1) by inserting "(a)" immediately after "SEC. 2."; and

(2) by adding at the end thereof the following new subsection:

"(b) The Congress declares that it is the policy of the United States and a purpose of the Peace Corps to maintain, to the maximum extent appropriate and consistent with programmatic and fiscal considerations, a volunteer corps of at least 10,000 individuals.".

(b) ANNUAL REPORT.—Section 11 of the Peace Corps Act (22 U.S.C. 2510) is amended by adding at the end thereof the following new sentence:

"The President shall also include in the report a description of any plans to carry out the policy set forth in section 2(b) of this Act.".

SEC. 1103. LIMITATION ON LENGTH OF PEACE CORPS EMPLOYMENT.

(a) AUTHORITY TO MAKE APPOINTMENTS OF MORE THAN FIVE YEARS.—Section 7(a) of the Peace Corps Act (22 U.S.C. 2506(a)) is amended—

(1) in paragraph (2)—

(A) in subparagraph (A)—

(i) by striking out "five" and inserting in lieu thereof "seven and one-half"; and

(ii) by striking out "unless" and all that follows through "basis" and inserting in lieu thereof ", subject to paragraph (5) and except as provided in paragraph (6)"; and

(B) in the third sentence, by inserting "(other than the provisions of section 309)" after "1980"; and

(2) by adding at the end thereof the following new paragraphs:

"(5) Except as provided in paragraph (6), the Director of the Peace Corps may make appointments or assignments of United States citizens under paragraph (2) for periods of more than five years only in the case of individuals whose performance as employees of the Peace Corps has been exceptional and only in order to achieve one or more of the following purposes:

"(A) To permit individuals who have served at least two and one-half years of such an appointment or assignment abroad to serve in the United States thereafter.

"(B) To permit individuals who have served at least two and one-half years of such an appointment or assignment in the United States to serve abroad thereafter.

"(C) To permit individuals who have served at least two and one-half years of such an appointment or assignment in a recruitment, selection, or training activity to be reassigned to an activity other than the one in which they have most recently so served.

"(D) To promote the continuity of functions in administering the Peace Corps.

At no time may the number of appointments or assignments of United States citizens in effect under paragraph (2) for periods in excess of five years exceed fifteen percent of the total of all appointments and assignments of United States citizens then in effect under paragraph (2).

"(6) Notwithstanding the limitation set forth in paragraph (2)(A) on the length of an appointment or assignment under paragraph (2) and notwithstanding the limitations set forth in paragraph (5) on the circumstances under which such an appointment or assignment may exceed five years, the Director of the Peace Corps, under special circumstances, may personally approve an extension of an appointment or assignment under paragraph (2) for not more than one year on an individual basis.".

(b) REPORTS TO CONGRESS.—The Director of the Peace Corps shall, not later than January 1, 1986, submit to the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives a report describing the criteria to be applied by the Director in exercising the authority provided by the amendments made by subsection (a) to make appointments or assignments of individuals for periods of more than five years. Not later than each January 1 thereafter, the Director shall submit to the Committees referred to in the preceding sentence a report on—

(1) the exercise of such authority during the preceding fiscal year for each of the purposes specified in paragraph (5) of section 7(a) of the Peace Corps Act, as added by subsection (a) of this section; and

(2) the exercise during that fiscal year of the authority under paragraph (6) of such section 7(a), as added by subsection (a) of this section.

SEC. 1104. PEACE CORPS NATIONAL ADVISORY COUNCIL.

(a) ESTABLISHMENT OF COUNCIL.—The Peace Corps Act (22 U.S.C. 2501 and following) is amended by inserting after section 11 the following new section:

"PEACE CORPS NATIONAL ADVISORY COUNCIL

"SEC. 12. (a) ESTABLISHMENT.—A Peace Corps National Advisory Council (hereinafter in this section referred to as the 'Council') shall be established in accordance with the provisions of this section.

"(b) FUNCTIONS.—(1) The Council shall advise and consult with the President and the Director of the Peace Corps with regard to policies and programs designed to further the purposes of this Act and shall, as the Council considers appropriate, periodically report to the Congress with regard to the Peace Corps.

"(2) Members of the Council shall (subject to subsection (d)(1)) conduct on-site inspections, and make examinations, of the activities of the Peace Corps in the United States and in other countries in order to—

"(A) evaluate the accomplishments of the Peace Corps;

"(B) assess the potential capabilities and the future role of the Peace Corps;

"(C) make recommendations to the President, the Director of the Peace Corps, and, as the Council considers appropriate, the Congress, for the purpose of guiding the future direction of the Peace Corps and of helping to ensure that the purposes and programs of the Peace Corps are carried out in ways that are economical, efficient, responsive to changing needs in developing countries and to changing relationships among people, and in accordance with law; and

"(D) make such other evaluations, assessments, and recommendations as the Council considers appropriate.

"(3) The Council may provide for public participation in its activities.

"(c) MEMBERSHIP.—(1) Persons appointed as members of the Council shall be broadly representative of the general public, including educational institutions, private volunteer agencies, private industry, farm organizations, labor unions, different regions of the United States, different educational, economic, racial, and national backgrounds and age groupings, and both sexes.

"(2)(A) The Council shall consist of fifteen voting members who shall be appointed by the President, by and with the advice and consent of the Senate. At least seven of such members shall be former Peace Corps volunteers, and not more than eight of such members shall be members of the same political party.

"(B) The first appointments of members of the Council under this paragraph shall be made not more than sixty days after the date of the enactment of this section and, solely for purposes of determining the expiration of their terms, shall be deemed to take effect on the sixtieth day after such date of enactment.

"(C) No member appointed under this paragraph may be an officer or employee of the United States Government.

"(D) Of the members initially appointed under this paragraph, eight shall be appointed to 1-year terms and seven shall be appointed to 2-year terms. Thereafter, all appointed members shall be appointed to 2-year terms.

"(E) A member of the Council appointed to fill a vacancy occurring before the expiration of the term for which the member's predecessor was appointed shall be appointed only for the remainder of that term.

"(F) No member of the Council may serve for more than two consecutive 2-year terms.

"(G) Members of the Council shall serve at the pleasure of the President.

"(H) An appointed member of the Council may be removed by a vote of nine members for malfeasance in office, for persistent neglect of or inability to discharge duties, or for offenses involving moral turpitude, and for no other cause.

"(I) Within thirty days after any vacancy occurs in the office of an appointed member of the Council, the President shall nominate an individual to fill the vacancy.

"(3) In addition to the voting members of the Council, the Secretary of State and the Administrator of the Agency for International Development, or their designees, and the Director and Deputy Director of the Peace Corps, shall be non-voting members, ex officio, of the Council.

"(d) COMPENSATION.—(1) Except as provided in paragraph (2), a member of the Council who is not an officer or employee of the United States Government—

"(A) shall be paid compensation out of funds made available for the purposes of this Act at the daily equivalent of the highest rate payable under section 5332 of title 5, United States Code, for each day (including travel time) during which the member is engaged in the actual performance of duties as a Council member, and

"(B) while away from his or her home or regular place of business on necessary travel, as determined by the Director of the Peace Corps, in the actual performance of duties as a Council member, shall be paid per diem, travel, and transportation expenses in the same manner as is provided under subchapter I of chapter 57 of title 5, United States Code.

"(2) A member of the Council may not be paid compensation under paragraph (1)(A) for more than twenty days in any calendar year.

"(e) QUORUM.—A majority of the voting members of the Council shall constitute a quorum for the purposes of transacting any business.

"(f) FINANCIAL INTERESTS OF MEMBERS.—A member of the Council shall disclose to the Council the existence of any direct or indirect financial interest of that member in any particular matter before the Council and may not vote or otherwise participate as a Council member with respect to that particular matter.

"(g) CHAIR AND VICE CHAIR.—At its first meeting and at its first regular meeting in each calendar year thereafter, the Council shall elect a Chair and Vice Chair from among its appointed members who are citizens of the United States. The Chair and Vice Chair may not both be members of the same political party.

"(h) MEETINGS, BYLAWS, AND REGULATIONS.—(1) The Council shall hold a regular meeting during each calendar quarter and shall meet at the call of the President, the Director of the Peace Corps, the Council's Chair, or one-fourth of its members.

"(2) The Council shall prescribe such bylaws and regulations as it considers necessary to carry out its functions. Such bylaws and regulations shall include procedures for fixing the time and place of meetings, giving or waiving of notice of meetings, and keeping of minutes of meetings.

"(i) REPORTS TO THE PRESIDENT AND THE DIRECTOR.—Not later than January 1, 1988, and not later than January 1 of each second year thereafter, the Council shall submit to the President and the Director of the Peace Corps a report on its views on the programs and activities of the Peace Corps. Each report shall contain a summary of the advice and recommendations provided by the Council to the President and the Director during the period covered by the report and such recommendations (including recommendations for administrative or legislative action) as the Council considers appropriate to make to the Congress. Within ninety days after receiving each such report, the President shall submit to the Congress a copy of the report, together with any comments concerning the report that the President or the Director considers appropriate.

"(j) ADMINISTRATIVE ASSISTANCE.—The Director of the Peace Corps shall make available to the Council such personnel, administrative support services, and technical assistance as are necessary to carry out its functions effectively.".

(b) TERMINATION OF SIMILAR ADVISORY BODY.—Any advisory body carrying out functions similar to those assigned to the Peace Corps National Advisory Council provided for in subsection (a) shall cease to exist sixty days after the date of the enactment of this Act.

SEC. 1105. NONPARTISAN APPOINTMENTS.

(a) POLITICAL TESTS.—The Peace Corps Act (22 U.S.C. 2501 and following) is amended—

(1) by redesignating sections 25, 26, and 27 as sections 26, 27, and 28, respectively; and

(2) by inserting after section 24 the following new section:

"NONPARTISAN APPOINTMENTS

"SEC. 25. In carrying out this Act, no political test or political qualification may be used in—

"(1) selecting any person for enrollment as a volunteer or for appointment to a position at, or for assignment to (or for employment for assignment to), a duty station located abroad, or

"(2) promoting or taking any other action with respect to any volunteer or any person assigned to such a duty station.".

(b) DISCRIMINATION.—Section 5(a) of the Peace Corps Act (22 U.S.C. 2504(a)) is amended by amending the last sentence to read as follows: "In carrying out this subsection, there shall be no discrimination against any person on account of race, sex, creed, or color.".

TITLE XII—MISCELLANEOUS PROVISIONS RELATING TO FOREIGN ASSISTANCE

SEC. 1201. NOTICE TO CONGRESS OF USE OF CERTAIN AUTHORITIES RELATING TO HUMAN RIGHTS CONDITIONS.

Section 502B of the Foreign Assistance Act of 1961 is amended by adding at the end thereof the following new subsection:

"(g) Whenever the provisions of subsection (e) or (f) of this section are applied, the President shall report to the Congress before making any funds available pursuant to those subsections. The report shall specify the country involved, the amount and kinds of assistance to be provided, and the justification for providing the assistance, including a description of the significant improvements which have occurred in the country's human rights record.".

SEC. 1202. PROHIBITIONS AGAINST ASSISTANCE.

Section 620(f) of the Foreign Assistance Act of 1961 is amended—

(1) by inserting "(1)" immediately after "(f)";

(2) by redesignating clauses (1), (2), and (3) as clauses (A), (B), and (C), respectively; and

(3) by adding at the end thereof the following new paragraph:

"(2) Notwithstanding the provisions of paragraph (1) of this subsection, the President may remove a country, for such period as the President determines, from the application of this subsection, and other provisions which reference this subsection, if the President determines and reports to the Congress that such action is important to the national interest of the United States. It is the sense of the Congress that when consideration is given to authorizing assistance to a country removed from the application of this subsection, one of the factors to be weighed, among others, is whether the country in question is giving evidence of fostering the establishment of a genuinely democratic system, with respect for internationally recognized human rights.".

SEC. 1203. LAND REFORM PROGRAMS.

Section 620(g) of the Foreign Assistance Act of 1961 is amended by adding at the end thereof the following sentence: "This prohibition shall not apply to monetary assistance made available for use by a government (or a political subdivision or agency of a government) to compensate nationals of that country in accordance with a land reform program, if the President determines that monetary assistance for such land reform program will further the national interests of the United States.".

SEC. 1204. SUSPENSION OF ASSISTANCE TO COUNTRIES VIOLATING U.S. EXPORT LAWS IN ORDER TO MANUFACTURE A NUCLEAR EXPLOSIVE DEVICE.

(a) SUSPENSION OF ASSISTANCE BECAUSE OF ILLEGAL EXPORTS.—Subsection (a)(1) of section 670 of the Foreign Assistance Act of 1961 is amended—

(1) by inserting "(A)" after "country which";

(2) by inserting immediately before the period at the end thereof ", or (B) is a non-nuclear-weapon state which, on or after the date of enactment of the International Security and Development Cooperation Act of 1985, exports illegally (or attempts to export illegally) from the United States any material, equipment, or technology which would contribute significantly to the ability of such country to manufacture a nuclear explosive device, if the President determines that the material, equipment, or technology was to be used by such country in the manufacture of a nuclear explosive device"; and

(3) by adding at the end thereof the following: "For purposes of clause (B), an export (or attempted export) by a person who is an agent of, or is otherwise acting on behalf of or in the interests of, a country shall be considered to be an export (or attempted export) by that country.".

(b) CONFORMING AMENDMENTS.—Such section 670 is amended—

(1) in the section caption by inserting "ILLEGAL EXPORTS FOR NUCLEAR EXPLOSIVE DEVICES," after "TRANSFERS,"; and

(2) by striking out "(5) As used in this subsection" and inserting in lieu thereof "(c) As used in this section".

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on the date of enactment of this Act.

SEC. 1205. REPORTS ON ECONOMIC CONDITIONS IN CERTAIN COUNTRIES.

(a) EXTERNAL DEBT BURDEN OF CERTAIN COUNTRIES RECEIVING UNITED STATES ASSISTANCE.—The Congress finds that the Governments of Egypt, Israel, Turkey, and Portugal each have an enormous external debt burden which may be made more difficult by virtue of financing provided for those governments under various United States assistance programs.

(b) ANNUAL REPORTS ON ECONOMIC CONDITIONS.—In order to assist the Congress in examining United States assistance for these countries, the President shall report to the Speaker of the House of Representatives and to the chairman of the Committee on Foreign Relations of the Senate, not later than January 15 of each year, regarding economic conditions prevailing in Egypt, Israel, Turkey, and Portugal which may affect their respective ability to meet their international debt obligations and to stabilize their economies.

SEC. 1206. EGYPTIAN-ISRAELI RELATIONS.

The Congress notes the recent effort of Egypt to move the peace process forward. However, the Congress continues to be concerned about the less than normal relations between Egypt and Israel. It is the sense of the Congress that all United States foreign assistance to Egypt is provided in the expectation that the Egyptian Government will continue in its efforts to bring peace to the region and that it will continue to support and fulfill the provisions of the Camp David Accords and the Egyptian-Israeli Peace Treaty.

SEC. 1207. PROCUREMENT OF CONSTRUCTION AND ENGINEERING SERVICES.

Section 604(g) of the Foreign Assistance Act of 1961 is amended—

(1) by inserting "(1)" after "(g)"; and

(2) by adding at the end thereof the following new paragraph:

"(2) Paragraph (1) does not apply with respect to an advanced developing country which—

"(A) is receiving direct economic assistance under chapter 1 of part I or chapter 4 of part II of this Act, and

"(B) if the country has its own foreign assistance programs which finance the pro-

curement of construction or engineering services, permits United States firms to compete for those services.".

SEC. 1208. COMPLETION OF PLANS AND COST ESTIMATES.

Section 611 of the Foreign Assistance Act of 1961 is amended—

(1) in subsection (a) by striking out "$100,000" and inserting in lieu thereof "$500,000"; and

(2) in subsection (b) by striking out "the procedures set forth in the Principles and Standards for Planning Water and Related Land Resources, dated October 25, 1973, with respect to such computations" and inserting in lieu thereof "the principles, standards, and procedures established pursuant to the Water Resources Planning Act (42 U.S.C. 1962, et seq.) or acts amendatory or supplementary thereto".

SEC. 1209. REPROGRAMMING NOTIFICATIONS TO CONGRESS.

(a) REPROGRAMMING NOTIFICATIONS.—Section 634A of the Foreign Assistance Act of 1961 is amended—

(1) by inserting "(a)" immediately before "None";

(2) by inserting "or the Arms Export Control Act" immediately after "disaster relief and rehabilitation)" and immediately after "this Act" the second place it appears; and

(3) by adding at the end of the section the following new subsections:

"(b) The notification requirement of this section does not apply to the reprogramming—

"(1) of funds to be used for an activity, program, or project under chapter 1 of part I if the amounts to be obligated for that activity, program, or project for that fiscal year do not exceed by more than 10 percent the amount justified to the Congress for that activity, program, or project for that fiscal year; or

"(2) of less than $25,000 to be used under chapter 8 of part I, or under chapter 5 of part II, for a country for which a program under that chapter for that fiscal year was justified to the Congress.

"(c) The President shall notify the chairman of the Committee on Foreign Relations of the Senate and the chairman of the Committee on Foreign Affairs of the House of Representatives concerning any reprogramming of funds in the International Affairs Budget Function, the authorizations of appropriations for which are in their respective jurisdictions, to the same degree and with the same conditions as the President notifies the Committees on Appropriations. The requirements of this subsection are in addition to, and not in lieu of, other notification requirements.".

(b) ALLOCATION REPORTS.—Section 653 of such Act is amended—

(1) by inserting in subsection (a) "or the Arms Export Control Act" immediately after "sections 451 or 637)";

(2) by striking out subsection (b); and

(3) by redesignating subsection (c) as subsection (b).

(c) QUARTERLY REPORTS.—Section 36(a) of the Arms Export Control Act is amended—

(1) in paragraph (5), by striking out "cash" and by striking out ", credits to be extended under section 23, and guaranty agreements to be made under section 24"; and

(2) in paragraph (6), by striking out "cash" and by striking out "and credits expected to be extended".

SEC. 1210. REPORT ON UNITED STATES ASSISTANCE TO COAL EXPORTING NATIONS.

Not later than 30 days after the date of enactment of this Act, the President shall submit to the appropriate committees of the Congress a report describing the status and terms of, and containing all other pertinent information relating to, any United States Government assistance which is provided to foreign nations that produce or export coal for the purpose of financing or assisting in the development of coal production, transportation, export, or other coal-related activities or operations.

SEC. 1211. REPEAL OF OBSOLETE PROVISIONS AND CORRECTION OF TECHNICAL REFERENCES.

(a) REPEALS.—The Foreign Assistance Act of 1961 is amended as follows:

(1) The third sentence of section 105(a) is repealed.

(2) Section 106(b)(1) is amended by striking out "(A)" and by striking out subparagraph (B).

(3) Section 110 is amended by striking out "(a)" and by striking out subsection (b).

(4) Chapter 10 of part I is repealed.

(b) CORRECTION OF CROSS-REFERENCES.—

(1) FOREIGN SERVICE ACT.—Section 636(a)(14) of such Act is amended by striking out "the Foreign Service Act of 1946, as amended (22 U.S.C. 801 et seq.)" and inserting in lieu thereof "the Foreign Service Act of 1980 (22 U.S.C. 3901 et seq.)".

(2) TITLE 31 OF THE U.S. CODE.—Section 611(a) of such Act is amended by striking out "section 1311 of the Supplemental Appropriation Act, 1955 as amended (31 U.S.C. 200)" and inserting in lieu thereof "section 1501 of title 31, United States Code".

(3) ITAR REGULATIONS.—Section 47(6) of the Arms Export Control Act is amended by striking out "combat" and inserting in lieu thereof "military".

TITLE XIII—MISCELLANEOUS PROVISIONS

SEC. 1301. EFFECTIVE DATE.

Except as otherwise provided in this Act, this Act shall take effect on October 1, 1985.

SEC. 1302. CODIFICATION OF POLICY PROHIBITING NEGOTIATIONS WITH THE PALESTINE LIBERATION ORGANIZATION.

(a) UNITED STATES POLICY.—The United States in 1975 declared in a memorandum of agreement with Israel, and has reaffirmed since, that "The United States will continue to adhere to its present policy with respect to the Palestine Liberation Organization, whereby it will not recognize or negotiate with the Palestine Liberation Organization so long as the Palestine Liberation Organization does not recognize Israel's right to exist and does not accept Security Council Resolutions 242 and 338.".

(b) REAFFIRMATION AND CODIFICATION OF POLICY.—The United States hereby reaffirms that policy. In accordance with that policy, no officer or employee of the United States Government and no agent or other individual acting on behalf of the United States Government shall negotiate with the Palestine Liberation Organization or any representatives thereof (except in emergency or humanitarian situations) unless and until the Palestine Liberation Organization recognizes Israel's right to exist, accepts United Nations Security Council Resolutions 242 and 338, and renounces the use of terrorism.

SEC. 1303. COMMISSION FOR THE PRESERVATION OF AMERICA'S HERITAGE ABROAD.

(a) PURPOSE.—Because the fabric of a society is strengthened by visible reminders of the historical roots of the society, it is in the national interest of the United States to encourage the preservation and protection of the cemeteries, monuments, and historic buildings associated with the foreign heritage of United States citizens.

(b) ESTABLISHMENT.—There is established a commission to be known as the Commission for the Preservation of America's Heritage Abroad (hereafter in this section referred to as the "Commission").

(c) DUTIES.—The Commission shall—

(1) identify and publish a list of those cemeteries, monuments, and historic buildings located abroad which are associated with the foreign heritage of United States citizens from eastern and central Europe, particularly those cemeteries, monuments, and buildings which are in danger of deterioration or destruction;

(2) encourage the preservation and protection of such cemeteries, monuments, and historic buildings by obtaining, in cooperation with the Department of State, assurances from foreign governments that the cemeteries, monuments, and buildings will be preserved and protected; and

(3) prepare and disseminate reports on the condition of and the progress toward preserving and protecting such cemeteries, monuments, and historic buildings.

(d) MEMBERSHIP.—(1) The Commission shall consist of 21 members appointed by the President, 7 of whom shall be appointed after consultation with the Speaker of the House of Representatives and 7 of whom shall be appointed after consultation with the President pro tempore of the Senate.

(2)(A) Except as provided in subparagraphs (B) and (C), members of the Commission shall be appointed for terms of 3 years.

(B) Of the members first appointed after consultation with the Speaker of the House of Representatives, 5 shall be appointed for a term of 2 years. Of the members first appointed after consultation with the President pro tempore of the Senate, 5 shall be appointed for 2 years.

(C) A member appointed to fill a vacancy on the Commission shall serve for the remainder of the term for which the member's predecessor was appointed.

(D) A member may retain membership on the Commission until the member's successor has been appointed.

(3) The President shall designate the Chairman of the Commission from among its members.

(e) MEETINGS.—The Commission shall meet at least once every three months.

(f) COMPENSATION AND PER DIEM.—(1) Members of the Commission shall receive no pay on account of their service on the Commission.

(2) While away from their homes or regular places of business in the performance of services for the Commission, members of the Commission shall be allowed travel expenses, including per diem in lieu of subsistence, in the same manner as persons employed intermittently in the Government service are allowed expenses under section 5703 of title 5 of the United States Code.

(g) AUTHORITIES.—(1) The Commission or any member it authorizes may, for the purposes of carrying out this section, hold such hearings, sit and act at such times and places, request such attendance, take such testimony, and receive such evidence, as the Commission considers appropriate.

(2) The Commission may appoint such personnel (subject to the provisions of title 5 of the United States Code which govern appointments in the competitive service) and may fix the pay of such personnel (subject to the provisions of chapter 51 and subchapter III of chapter 53 of such title, relating to classification and General Schedule pay rates) as the Commission deems desirable.

(3) The Commission may procure temporary and intermittent services to the same extent as is authorized by section 3109(b) of

title 5 of the United States Code, but at rates for individuals not to exceed the daily equivalent of the maximum annual rate of basic pay then in effect for grade GS-18 of the General Schedule (5 U.S.C. 5332(a)).

(4) Upon request of the Commission, the head of any Federal department or agency, including the Secretary of State, may detail, on a reimbursable basis, any of the personnel of such department or agency to the Commission to assist it in carrying out its duties under this section.

(5) The Commission may secure directly from any department or agency of the United States, including the Department of State, any information necessary to enable it to carry out this section. Upon the request of the Chairman of the Commission, the head of such department or agency shall furnish such information to the Commission.

(6) The Commission may accept, use, and dispose of gifts or donations of money or property.

(7) The Commission may use the United States mails in the same manner and upon the same conditions as other departments and agencies of the United States.

(8) The Administrator of General Services shall provide to the Commission on a reimbursable basis such administrative support services as the Commission may request.

(h) REPORTS.—The Commission shall transmit an annual report to the President and to each House of Congress as soon as practicable after the end of each fiscal year. Each report shall include a detailed statement of the activities and accomplishments of the Commission during the preceding fiscal year and any recommendations by the Commission for legislation and administrative actions.

SEC. 1304. FEDERAL COAL EXPORT COMMISSION.

(a) ESTABLISHMENT.—The Secretary of Commerce shall establish, within ninety days after the date of enactment of this Act, a Federal Coal Export Commission (hereafter in this section referred to as the "Commission").

(b) MEMBERSHIP.—The Commission shall be composed of thirty members appointed by the Secretary of Commerce, as follows:

(1) FEDERAL GOVERNMENT REPRESENTATIVES.—Ten members shall be representatives of the International Trade Administration, the Department of Energy, the Department of State, the Department of Transportation, the Office of the United States Trade Representatve, and a Federal institution involved in export financing.

(2) PRIVATE SECTOR REPRESENTATIVES.—

(A) Five members shall be representatives of export coal producers, including traders and brokers.

(B) Five members shall be representatives of coal labor.

(C) Five members shall be representatives of transporters of export coal, including representatives of rail and barge carriers and port authorities.

(D) Five members shall be representatives of institutions having a substantial interest in United States export coal financing.

(c) EXPENSES.—Members of the Commission shall serve without pay. While away from their homes or regular places of business in the performance of services for the Commission, members of the Commission shall be allowed travel expenses, including per diem in lieu of subsistence, in the same manner as persons employed intermittently in Government service are allowed expenses under section 5703 of title 5 of the United States Code.

(d) COOPERATION.—All Federal departments and agencies are authorized to cooperate with the Commission and to furnish information, appropriate personnel, and such assistance as may be agreed upon by the Commission and the Federal department or agency involved.

(e) ACTIVITIES.—The Commission shall convene not less than four times a year for consultation on activities leading to increased cooperation among entities involved in United States coal exports, with the goal of expanding the United States share of the international coal market. Activities of the Commission shall include, but are not limited to, the identification of—

(1) diplomatic channels to facilitate the exportation of United States coal and methods to increase the coordination of diplomatic efforts relating to such exports;

(2) domestic and international impediments to coal exports;

(3) foreign markets for United States export coal, with emphasis on increasing United States coal sales to developing nations and expanding the participation of the United States International Development Cooperation Agency in such an effort;

(4) availability of, and methods of, financing United States coal exports, including the feasibility of increasing Federal export financial and economic assistance; and

(5) methods to promote, market, and coordinate United States coal on the international market.

The Commission shall also examine the potential for small- and medium-sized coal companies to enter the export coal trade through export trading companies with respect to the marketing, transportation, and financial services which such trading companies may provide pursuant to the Export Trading Company Act of 1982.

(f) REPORT.—The Commission shall submit to the President and the Congress, within two years after its first meeting, a report which details its findings pursuant to subsection (e) and, based upon such findings, makes recommendations which would lead to the expansion of the United States share of the international metallurgical and steam coal market.

(g) TERMINATION.—The Commission shall cease to exist upon submission of its report pursuant to subsection (f).

And the House agree to the same.

That the Senate recede from its disagreement to the amendment of the House to the title of the bill and agree to the same.

Solely for consideration of Title IX, dealing with food and agricultural issues:

JESSE HELMS,
RICHARD G. LUGAR,
EDWARD ZORINSKY,

Managers on the Part of the Senate.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendments of the House to the bill (S. 960) to amend the Foreign Assistance Act of 1961, the Arms Export Control Act, and other acts to authorize appropriations for the fiscal year 1986 for international security and development assistance, the Peace Corps, the Inter-American Foundation, the African Development Foundation, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report:

The House amendment to the text of the bill struck out all of the Senate bill after the enacting clause and inserted a substitute text.

The Senate recedes from its disagreement to the amendment of the House with an amendment which is a substitute for the Senate bill and the House amendment. The differences between the Senate bill, the House amendment, and the substitute agreed to in conference are noted below, except for clerical corrections, conforming changes made necessary by agreements reached by the conferees, and minor drafting and clarifying changes.

AUTHORIZATION OF APPROPRIATIONS FOR FISCAL YEARS 1986 AND 1987

The amounts contained in the conference substitute compared to the amounts contained in the current fiscal year 1985 appropriation, requested by the executive branch and recommended by the House and Senate follow:

AUTHORIZATION OF APPROPRIATIONS FOR FISCAL YEARS 1986–87

[By fiscal year; in thousands of dollars]

Foreign assistance	Current appropriation 1985	Executive branch request 1986 *	Committee recommendation 1986 and 1987	House passed bill 1986 and 1987	Senate passed bill 1986	Conference agreement 1986 and 1987

* Executive branch request for 1987 is "Such sums as may be necessary."

[1] Sets ceilings of $20 million for Philippines, $10 million for Guatemala; earmarks $500 million for Greece.

[2] Earmarks $1.8 billion in forgiven loans for Israel and $1.3 billion in forgiven loans for Egypt.

[3] Sets ceiling of $553.9 million for FMS concessional, excluding Israel, Egypt, and Greece.

[4] Sets ceiling of $7 million for Zaire, $50 million for Philippines, $215 million for Turkey, earmarks not less than $15 million earmark for Tunisia, earmarks $1 million for defending antinarcotics aircraft.

[5] Sets ceiling of $714.28 for all military aid for Turkey.

[6] Earmarks the following amounts: $1.2 billion for Israel, $815 million for Egypt, not less than $15 million for Cyprus, $5 million for cooperative development projects with U.S., Israel and developing countries; not less than $20 million for Tunisia, $15 million for Uruguay, $1 million for Peru judicial system, $30 million for Southern Africa regional, $15 million for humanitarian aid for the people of Afghanistan, $110 million for Philippines, $50 million for tied aid credits, sets ceiling of $20 million for administration of justice in Latin America and $5 million out of ESF and MAP for aid to the non-Communist Cambodian resistance.

[7] Earmarks $1 million out of development aid for literacy program in Haiti, $79.6 million for development aid to El Salvador, 13.5 percent for PVOs, 10 percent set-aside for minority businesses.

[8] See statement of managers for earmarks.

[9] Provides $50 million in part I assistance for IFAD.

[10] For 1985, authorizes supplemental funds of $1.5 billion for Israel, $500 million for Egypt, and $8 million for West Bank development aid.

Two-Year Authorization

The Senate bill contained authorizations for only fiscal year 1986, while the House amendment authorized funds for both fiscal years 1986 and 1987. The executive branch requested "such sums as may be necessary" for fiscal year 1987.

The committee of conference agreed to extend the fiscal year 1986 authorization to fiscal year 1987, at the same levels. The Committees on Foreign Affairs of the House and Foreign Relations of the Senate will give full consideration to any additional recommendations by the executive branch for fiscal year 1987.

Title I—Military Sales and Related Programs

The authorization figures in the conference substitute are compromises between the Senate and House figures. The Senate bill (secs. 101, 115, 118, and 121) authorizes, for fiscal year 1986 $5,464,500,000 in Foreign Military Sales (FMS) financing, $805,100,000 grant military assistance program (MAP), $56,221,000 grant international military education and training (IMET), and $37 million peacekeeping operations assistance.

The House amendment (secs. 101, 103, 104, and 105) authorizes, for each fiscal year 1986 and 1987, $5,228,384,400 FMS financing, $761,648,000 grant MAP, $54,421,900 grant IMET, and $35,816,000 peacekeeping operations assistance.

The conference substitute sets funding levels for fiscal years 1986 and 1987 as follows: $5,371 million FMS financing, $805,100,000 grant MAP, $56,221,000 grant IMET, and $37 million peacekeeping operations assistance.

Ceiling on FMS concessional financing

The House amendment (sec. 101) sets a $553.9 million ceiling on the aggregate amount of FMS assistance that may be provided at concessional interest rates.

The Senate bill does not contain a comparable provision.

The conference substitute is the same as the House provision.

Extended repayment terms on FMS financing

The Senate bill (sec. 101) authorizes 30 year repayment terms for Greece, Korea, Philippines, Portugal, Spain, Thailand, and Turkey for any fiscal year and authorizes such terms for guaranteed loans as well as credits.

The House amendment (sec. 101) authorizes such terms for the same countries—except the Philippines—for fiscal years 1986 and 1987 only and only for credits extended.

The conference substitute is the same as the House provision with an amendment to include the Philippines.

Greece/Turkey

The Senate bill (sec. 123) sets a $215 million ceiling an MAP assistance for Turkey, contingent upon U.S. Government actions respecting Cyprus, sets a $500 million FMS ceiling for Turkey, earmarks $500 million FMS for Greece and earmarks the same proportion of FMS concessional assistance for Greece as for Turkey.

The House amendment (secs. 101 and 108) sets a $711.4 million ceiling on MAP and FMS assistance for Turkey, earmarks the same proportion of FMS concessional assistance for Greece as for Turkey, mandates that concessional interest rates be comparable, and exempts concessional credits extended to Greece from the aggregate ceiling on such credits.

The conference substitute is a compromise that earmarks the same proportion of FMS concessional assistance for Greece as for Turkey, earmarks $500 million FMS for Greece, sets an overall $714.28 million MAP and FMS ceiling for Turkey, including a $215 million MAP subceiling that also makes this MAP assistance contingent upon U.S. Government actions respecting Cyprus, mandates comparable interest rates, and exempts concessional credits for Greece from the aggregate ceiling on such credits.

PROHIBITION ON FMS FOR LEBANON

The Senate bill (sec. 124) prohibits FMS for Lebanon.

The House amendment does not contain a comparable provision.

The conference substitute is the same as the House provision.

FMS CREDIT TERMS

The Senate bill (sec. 106) authorizes the President to charge interest on FMS loans at a rate based on current Treasury rates or at a lesser rate if he determines that the national interest requires a lesser rate.

The House amendment (sec. 102) also authorizes the President to charge concessional rates of interest but sets minimum FMS interest rates on FMS concessional financing at 5 percent or 7 percent below current average interest rate for U.S. Government borrowing, whichever is larger.

The conference substitute is the same as the House provision with an amendment to set the interest rate at not less than 5 percent for FMS concessional loans.

PEACEKEEPING OPERATIONS EMERGENCIES

The Senate bill (sec. 122) authorizes drawdowns of up to $25 million in any fiscal year from any U.S. government agency for peacekeeping emergencies, if the President determines that an unforeseen emergency exists which requires immediate assistance under the peacekeeping provisions of the Foreign Assistance Act. Authorization for reimbursement of applicable accounts that provide commodities and services under this section is also authorized.

The House amendment does not contain a comparable provision.

The conference substitute is the same as the Senate provision.

GUARANTY RESERVE FUND

The Senate bill (sec. 107) requires a Presidential report on FMS financing and recommendations on replenishment of the Guaranty Reserve Fund.

The House amendment (sec. 106) authorizes use of FMS market rate funds to pay claims if the Guaranty Reserve Fund becomes inadequate.

The conference substitute is a combination of both Senate and House provisions. The substitute requires a report with recommendations on the financial situation respecting the Foreign Military Sales program. It also authorizes the Department of Defense to use funds authorized for market rate loans under the FMS program in order to pay claims on past debts under that same program when funds in the Guaranty Reserve Fund become inadequate.

The conferences committee expects the executive branch to begin a comprehensive review, at the earliest possible date of the U.S. foreign military sales financing program, including the rescheduling of previous debts, and to provide a report with findings and recommendations within 90 days of enactment of this bill. Based on information provided by the Department of Defense, the committee understands that no replenishment of the Guaranty Reserve Fund will be necessary before fiscal year 1987. The committee will review the report and make their own assessments during fiscal year 1986.

The authority of this provision to use funds authorized under the FMS program is intended as a contingency authority and should not undermine the more comprehensive review and recommendations contained in this provision.

VALUATION OF DEFENSE ARTICLES

The Senate bill (sec. 102) requires that U.S. vessels of 3,000 tons or less and 20 years old or more shall be sold at scrap value or at full and fair value, and that leasing of such vessels be in accordance with chapter 6 of the Arms Export Control Act or chapter 2, of part II of the Foreign Assistance Act.

The House amendment does not contain a comparable provision.

The conference substitute is the same as the Senate provision.

FMS AND IMET TRAINING COSTS

The House amendment (sec. 107) requires full costing of military training provided by the United States under the Arms Export Control Act and the Foreign Assistance Act.

The Senate bill does not contain a comparable provision.

The conference substitute is a compromise which requires full costing of FMS military training sales with the exception for all grant IMET recipients and reciprocal cost arrangements are authorized for training programs with NATO countries, Australia, New Zealand and Japan, effective September 30, 1985.

CASH FLOW FINANCING REPORT

The Senate bill (sec. 109) requires a report on countries approved for cash flow financing in excess of $100 million.

The House amendment does not contain a comparable provision.

The conference substitute is the same as the Senate provision.

REPORT ON INTERNATIONAL VOLUME OF ARMS TRAFFIC

The Senate bill (sec. 108) narrows the reporting requirement concerning U.S. arms sales in section 25 of the Arms Export Control Act to include only developing countries.

The House amendment (sec. 111) has no comparable provision.

The conference substitute is the same as the House provision.

SECURITY ASSISTANCE SURVEYS

The House amendment (sec. 112) changes the definition of types of security assistance surveys which will be reported to Congress under section 26 of the Arms Export Control Act and specifies that the House Committee on Foreign Affairs and the Senate Committee on Foreign Relations can receive copies of such reports upon request.

The Senate bill does not contain a comparable provision.

The conference substitute is the same as the House provision.

NATO COOPERATIVE PROJECTS

The House amendment (sec. 130) amends Section 27 of the Arms Export Control Act to revise authority pertaining to NATO cooperative projects.

The Senate bill does not contain a comparable provision.

The conference substitute is the same as the House provision with an amendment to drop the requirement for advanced appropriations for contracts entered into on behalf of other NATO members under equitable cost conditions.

RECIPROCAL TRAINING AND SUPPORT

The House amendment (sec. 129) authorizes the President to provide allies with reciprocal training and support for military and civilian defense personnel.

The Senate bill does not contain a comparable provision.

The conference substitute is the same as the House provision.

QUARTERLY REPORTS ON U.S. MILITARY ADVISORS ABROAD

The House amendment (sec. 113) clarifies types and numbers of U.S. military and civilian personnel to be included in quarterly reports required by section 36(a) of the Arms Export Control Act.

The Senate bill does not contain a comparable provision.

The conference substitute is the same as the House provision.

SENSITIVE TECHNOLOGY

The Senate bill (sec. 128) requires the submission of a notification under section 36(b) of the Arms Export Control Act before delivery of any major defense article if the sensitivity of technology or capability of the article or service is enhanced or upgraded.

The House amendment does not contain a comparable provision.

The conference substitute is the same as the Senate provision.

SPECIAL DEFENSE ACQUISITION FUND

The Senate bill (sec. 113) authorizes continuous order from the Defense Logistics Agency for items anticipated to be sold to foreign countries from the Special Defense Acquisition Fund and limits purchases of more capable equipment in certain instances to replace items DOD expects to sell from its stocks.

The House amendment (sec. 116) makes the Special Defense Acquisition Fund a true revolving fund and limits the equity value of the fund to $500 million authorizes continuous order from the Defense Logistics Agency.

The conference substitute is a compromise which makes the fund a revolving fund, but does not allow for replacement purchases and does not establish a limit on the equity value of the fund.

LEASING AUTHORITY

The Senate bill (sec. 126) sets new standards for pricing of U.S. vessels leased to foreign countries.

The House amendment does not contain a comparable provision.

The conference substitute is the same as the Senate provision.

WAIVER OF MAP PROCEEDS

The House amendment (sec. 117) authorizes the President, if he determines it is in the national interest, to waive the requirement that net proceeds of sales of equipment provided under the MAP program prior to 1975 be repaid to the United States.

The Senate bill does not contain a comparable provision.

The conference substitute is the same as the House provision.

MAP COSTS

The Senate bill (sec. 114) excludes the cost of salaries from MAP-funded FMS purchases of military training.

The House amendment does not contain a comparable provision.

The conference substitute is the same as the Senate provision.

SECURITY ASSISTANCE ORGANIZATIONS

The Senate bill (sec. 117) authorizes for fiscal year 1986 larger overseas military groups in Pakistan, Tunisia, El Salvador, Honduras, and Sudan.

The House amendment (sec. 119) authorizes on a permanent basis such larger groups in the same countries and for Venezuela but not for Sudan.

The conference substitute is a compromise that authorizes on a permanent basis larger groups in the following countries: Pakistan, Tunisia, El Salvador, and Honduras.

SPECIAL WAIVER AUTHORITY

The House amendment (sec. 122) amends section 614 of the Foreign Assistance Act to establish a ceiling of $750 million on use of that section to permit cash sales otherwise prohibited under the Arms Export Control Act.

The Senate bill does not contain a comparable provision.

The conference substitute is the same as the House provision.

CONVENTIONAL ARMS TRANSFERS REPORT

The Senate bill (Sec. 929) urges multilateral negotiations and requires a report concerning conventional arms transfers within one year of the date of enactment of this section.

The House amendment (sec. 124) requires a conventional arms transfer report.

The conference substitute is a compromise which, urges multilateral negotiations and also requires a report within one year from date of enactment on steps being taken to initiate negotiations and on conventional arms transfer policies. The conference committee recognizes that conventional arms transfer agreements with the Third World by all suppliers from 1981-84 totaled $153,200 million (in constant 1984 dollars); in which non-Communist suppliers accounted for $94,100 million and Communist suppliers accounted for $59,100 million. The United States, the Soviet Union, and France have been the three predominant arms suppliers to the Third World from 1977-84 and collectively accounted for 83 percent of all conventional arms transfer agreements with the Third World in 1984. There is deep concern for the effect conventional arms transfers may have on regional stability, arms races, and the economic needs of Third World nations, including their development, and ability to meet basic human needs. There is further concern about the ulimate effect of conventional arms transfers on the security of the major suppliers themselves. Conventional arms transfer agreements made by the United States, the Soviet Union, and France are at levels closer to rough equivalence than at any time in history. This could be a significant factor in facilitating steps to limit and control conventional arms transfers. Since new arms transfers are upredictable, and, since new cycles of arms purchases by the less developed nations could occur at any time, the United States should reevaluate its conventional arms transfer policies and practices and to seek to achieve negotiated conventional arms control agreements which enhance the national interest at the earliest possible date.

FMS FOR JORDAN

The House amendment (sec. 125) sets conditions for FMS financing and sales for Jordan.

The Senate bill does not contain a comparable provision.

The conference substitute is a compromise which states the sense of Congress that no foreign military sales financing authorized for Jordan may be used to finance the purchase by Jordan of United States advanced aircraft, new air defense weapon systems or other new advanced military weapon systems unless Jordan is publicly committed to the recognition of Israel and to negotiate promptly and directly with Israel under the basic tenets of United Nations Security Council Resolutions 242 and 338. The conference substitute also requires any notification made pursuant to section 36(b) of the Arms Export Control Act with respect to a proposed sale to Jordan of advanced military equipment to be accompanied by a Presidential certification of Jordan's public commitment to the recognition of Israel and to negotiate promptly and directly with Israel under the basic tenets of United Nations Security Council Resolutions 242 and 338.

The conferees note also that in its markup of foreign assistance authorizing legislation, the House Foreign Affairs Committee intended that $25 million in Economic Support Fund (ESF) assistance go to Jordan in fiscal year 1986, a $5 million increase above the President's request, and that subsequently $250 million for Jordan was included in supplemental appropriations legislation for fiscal year 1985. The conferees do not intend that the conference action on FMS be an impairment to the House Committee's proposal for the $25 million for Jordan in fiscal year 1986, although they recognize that the amount for Jordan in that year could be affected by global reductions in the ESF program.

TITLE II—ECONOMIC SUPPORT FUND

ECONOMIC SUPPORT FUND POLICY

The Senate bill (sec. 201) amends section 531 of the Foreign Assistance Act. Section 531 provides the general authority and policy for the Economic Support Fund (ESF). ESF is economic assistance which the President may furnish in order to promote economic or political stability abroad in circumstances in which the United States has special economic, political, or security interests.

The Senate amendment:

—clarifies the language in the Foreign Assistance Act which governs ESF to make the link between development and economic support assistance more explicit;

—directs that, the maximum extend feasible, commodity import programs (CIP), and other related programs generate local currency of which at least 50 percent should be programmed for development activities; and,

—requires a detailed report, as part of the already required annual Congressional presentation documents, which justifies the uses and purposes of ESF, delineating cash grants from development project aid.

The House amendment contains no comparable provision.

The conference substitute is the same as the Senate provision.

ASSISTANCE FOR THE MIDDLE EAST

(a) Authorizations

The Senate bill (sec. 201) authorizes an ESF funding level for the Camp David and another for the non-Camp David countries.

The House amendment contains no comparable provision.

The conference substitute is the same as the Senate provision.

(b) U.S. nonmilitary exports to Israel

The House amendment (sec. 204) provides that the President shall ensure that the level of ESF cash transfer to Israel does not cause an adverse impact on the total level of nonmilitary exports from the United States to Israel.

The Senate bill contains no comparable provision.

The conference substitute is the same as the House provision.

(c) Egypt grant funding

The Senate bill (sec. 201) provides that all the ESF funds made available to Egypt under the bill shall be on a grant basis.

The House amendment contains no comparable provision.

The conference substitute is the same as the Senate provision.

(d) Egypt cash transfer

The Senate bill (sec. 201) provides that up to $200 million of the ESF funds in the bill for Egypt, but not less than $165 million, shall be in the form of a cash transfer to help and encourage economic reforms and Egypt's own developmental efforts.

The House amendment (sec. 204(b)(2)) provides that the ESF allocated for Egypt may be provided as a cash transfer only if the President determines that Egypt will undertake ecomomic reforms or development activities which are additional to those which would be undertaken in the absence of the cash transfer; and 15 days before the cash transfer occurs, the President notifies the House Foreign Affairs and the Senate Foreign Relations Committees in accordance with the reprogramming notification procedures pursuant to 634A of the Foreign Assistance Act.

The conference substitute provides that up to $115 million of the ESF for Egypt each year in fiscal 1986 and 1987 may be in the form of cash transfer, with the understanding that Egypt will undertake economic reforms or development activities which are additional to those which would be undertaken in the absence of the cash transfer. The conferees support providing up to $115 million annually as a cash transfer on the understanding that Egypt will undertake economic reforms or development activities which are additional to those which would be undertaken in the absence of the cash transfer. It is further the sense of the conferees that the President advise the Congress in advance of the cash transfer of the additional reforms or development activities Egypt will undertake.

(e) Cooperative scientific and technological projects

The House amendment (sec. 204(c)) expresses the sense of Congress that in order to continue to build the structure of peace in the Middle East, the United States should finance, and where appropriate participate in, cooperative projects of a scientific and technological nature involving Israel and Egypt and other Middle East countries wishing to participate.

The Senate bill contains no comparable provision.

The conference substitute is the same as the House provision.

CYPRUS PEACE AND RECONSTRUCTION FUND

The House amendment authorizes appropriations of $250 million in fiscal year 1985 or in future years for assistance to Cyprus. The assistance could be provided only if the President certifies to the Congress that an agreement has been concluded by the Greek and Turkish Cypriots which is supported by Greece and Turkey and which achieves substantial progress toward settlement of the Cyprus dispute.

The Senate bill contains no comparable provision.

The conference substitute expresses the sense of Congress that at the appropriate time in the future, the $250 million should be authorized for assistance to Cyprus provided such conditions are met.

COMMODITY IMPORT PROGRAMS (CIP) AGRICULTURAL EARMARK

The Senate bill (sec. 201) provides that not less than 20 percent of the ESF funds available for commodity import programs (CIP) shall be used to purchase U.S. agricultural commodities.

The House bill contains no comparable provision.

The conference substitute provides that not less than 18 percent of the ESF funds made available for commodity import programs in fiscal year 1986 and 1987 shall be used to purchase U.S. agricultural commodities.

TIED AID CREDIT PROGRAM

The House amendment (sec. 203) adds a new section 533 to the ESF chapter (chapter 4 of part II) of the Foreign Assistance Act. The new section 533, "Tied Aid Credit Program," requires a deposit of not less than $50 million from ESF funds allocated for commodity import programs in fiscal year 1986, and an aggregate of not less than $100 million for both fiscal 1986 and 1987, in a fund authorized by section 645(c)(2) of the Trade and Development Enhancement Act of 1983. The fund is to be used by the Agency for International Development (AID) to implement the program of tied aid credits established by that act. The funds are to remain available for this purpose until the end of fiscal 1987.

The Senate bill contains no comparable provision.

The conference substitute contains the earmarking as set forth in the House provision but provides that to the extent that the funds have not been obligated pursuant to the tied aid credit program by the end of the third quarter of the fiscal year for which they were appropriated, they may be used for other ESF purposes if the AID Administrator certifies to Congress that no trade credit applications acceptable and timely under the Trade and Development Enhancement Act of 1983 are pending, or that such funds are not needed for that program because other countries are not engaging in predatory financing practices in order to compete with U.S. exports.

RESTRICTION ON USE OF FUNDS FOR NUCLEAR FACILITIES

The Senate bill (sec. 201(d)) prohibits the use of ESF funds under the bill for financing the construction, operation or maintenance of, or the supplying of fuel for, any nuclear facility in a foreign country unless the President certifies to the Congress that the country is a party to the Non-Proliferation Treaty, cooperates fully with the International Atomic Energy Agency, and pursues nuclear nonproliferation policies consistent with those of the United States.

The House amendment is the same as the Senate provision except that one additional provision has been added to allow provision of funds to countries that are parties to either the Non-Proliferation Treaty (as in the Senate amendment) or the Treaty for the Prohibition of Nuclear Weapons in Latin America (the Treaty of Tlatelolco).

The conference substitute is the same as the House provision.

ESF FOR LEBANON

The Senate bill (sec. 201) provides that none of the Economic Support Fund moneys authorized in the bill may be available for Lebanon.

The House amendment provides that $2.5 million of the ESF authorized for fiscal 1986 and $2.5 million for fiscal 1987 shall be available only for Lebanon. It provides further that none of these funds can be used for aid to Lebanon unless all U.S. citizens taken hostage in Lebanon have been released, except that this restriction does not apply to humanitarian assistance provided for institutional support or for emergency purposes. The funds are to revert to the Treasury to the extent that they cannot be used pursuant to the above requirement, or because of conditions in the country.

The conference substitute contains neither the Senate prohibition on ESF for Lebanon nor the House earmarking of ESF for Lebanon under certain conditions. In their consideration of this matter, the conferees supported general U.S. policy in Lebanon to seek the removal of all foreign troops from the country, preserve the country's unity and territorial integrity and ensure security along Lebanon's borders. However, the conferees believe that at this time, higher priority must be given to obtaining the immediate release of the remaining American hostages in that country.

With regard to development assistance, it is not possible to carry out an effective program in Lebanon under present circumstances, and funds are not provided in the Conference report for that purpose. However, the conferees support continued U.S. efforts to alleviate human suffering in Lebanon and to deal with humanitarian problems in the strife-torn nation. Such assistance can be provided to private voluntary organizations providing relief and to American institutions in Lebanon to meet emergency needs.

The committee of conference regrets recent efforts to try to reprogram for other purposes economic assistance funds which the Congress had authorized and appropriated for Lebanon. It believes it to be in the national interest to preserve funding intended for Lebanon to meet some of the extraordinary humanitarian needs there. If funds are needed for meritorious, emergency purposes in other countries, other funding sources should be found. If funds the Congress intended for Lebanon cannot be spent there, they should revert to the Treasury.

TITLE III—DEVELOPMENT ASSISTANCE

POPULATION

(a.) Earmark on centrally funded programs

The House amendment (sec. 303) amends section 104 of the Foreign Assistance Act to require that 50 percent of all funds appropriated for population planning programs for fiscal years 1986 and 1987 in excess of $250 million be administered by the Office of Population in the Agency for International Development.

The Senate bill does not contain a similar provision.

The conference substitute is the same as the Senate position.

(b) Assistance to nongovernmental organizations

The Senate bill (sec. 303) amends section 104 of the Foreign Assistance Act to require that nongovernmental organizations and multilateral organizations not be subject to any requirement more restrictive than any requirement applicable to a foreign government for population assistance.

The House amendment (sec. 303) amends section 104 of the Foreign Assistance Act to provide that the President, if he determines that to do so would promote voluntary family planning goals, may deny population planing funds to any country, international organization or nongovernmental organization because of the types of voluntary family planning programs carried out with funds other than those made available by the United States under this act.

The conference substitute reflects the compromise agreed to by the conferees under which both the House and the Senate recede from their positions.

(c) Assistance in countries in which there are reports of coerced abortion, infanticide, or coerced sterilization

The Senate bill (sec. 303) amends section 104 of the Foreign Assistance Act to prohibit assistance for population programs in any country which permits infanticide or coerced abortion or for any organization which has programs in such a country.

The House amendment (sec. 303) amends section 104 of the Foreign Assistance Act with findings and restrictions concerning funding for population programs in the People's Republic of China, including authority for the President to withhold funds from the U.N. Fund for Population Activities bases on a determination regarding coerced abortion, coerced sterilization or infanticide in the People's Republic of China.

The conference substitute reflects the compromise agreed to by the conferees under which both the House and the Senate recede from their postions.

PROMOTION OF IMMUNIZATION AND ORAL REHYDRATION

The Senate bill (sec. 315) amends section 104 of the Foreign Assistance Act to establish as a goal for the Agency for International Development the protection from immunizable diseases of eighty percent of all children in countries receiving development assistance, through provision of oral rehydration salts and immunizations.

The House amendment does not contain a comparable provision.

The conference substitute is the same as the Senate provision.

COOPERATIVE DEVELOPMENT PROGRAM

The House amendment (sec. 307) amends section 106 of the Foreign Assistance Act to earmark $5 million of development assistance in each of fiscal years 1986 and 1987 for cooperative programs among the United States, Israel, and developing countries.

The Senate bill does not contain a comparable provision.

The conference substitute is the same as the House provision.

PRIVATE SECTOR REVOLVING FUND

The Senate bill (sec. 306) amends section 108(b) of the Foreign Assistance Act to extend the authority for the Private Sector Revolving Fund for 1 additional year and to set the fiscal year 1986 and 1987 authorized level for the fund at $16 million.

The House amendment (sec. 308) provides for a 2-year extension of the authority and sets the annual level for the fund at $20 million.

The conference substitute is the House provision, with an amendment setting at $18 million the amount of funds from other development assistance accounts which can be used in fiscal years 1986 and 1987 for the revolving fund.

PRIVATE AND VOLUNTARY ORGANIZATIONS

The Senate bill (sec. 309) amends section 123(e) of the Foreign Assistance Act by requiring that a report be transmitted to Congress within 30 days after a decision has been made to continue support for private and voluntary organization (PVO) and cooperative programs in a country to which an aid prohibition had become effective, rather than linking the reporting requirement to the date that the country prohibition becomes applicable, as current law does.

The House amendment (sec. 309) extends from 30 days to 90 days after a prohibition on aid to a country becomes applicable the date by which the President must report to the Congress on a decision to continue support to PVO's.

The conference substitute extends the reporting requirement from 30 days to one year.

The Senate bill also amends section 123 of the Foreign Assistance Act to require AID to make available for the activities private voluntary organizations not less than 15 percent of the amount appropriated for development assistance.

The House amendment extends to fiscal years 1986 and 1987 existing law which earmarks 12 percent of development aid for PVO's, and sets a target of 16 percent.

The conference substitute raises the earmark to 13.5 percent and retains the target at 16 percent, extends this requirement through fiscal year 1989, and allows PVO activities financed with ESF funds to be counted in determining compliance with the earmark.

TARGETED ASSISTANCE

The House amendment (sec. 311) amends section 128 of the Foreign Assistance Act to require that target populations for development assistance be determined by use of poverty measurement standards, such as those used by the World Bank, and that the Agency for International Development strengthen efforts to use a substantial percentage of development assistance for activities which directly improve the lives of the poor majority.

The Senate bill does not contain a comparable provision.

The conference substitute is the same as the House provision.

HOUSING GUARANTEES

The Senate bill (sec. 312) amends section 222(a) of the Foreign Assistance Act to increase the aggregate ceiling on guarantees for the Housing Guaranty Program by $45 million, extends the program for one year, and removes from the statute the requirement in section 223(j) of the Foreign Assistance Act that the average face value of guarantees issues in any fiscal year not exceed $15 million.

The House amendment (sec. 313) increases the aggregate ceiling by $320 million, extending the program for a period of two years, and requires that the program level for fiscal years 1986 and 1987 be comparable to the level for fiscal year 1984.

The conference substitute is the House provision, with an amendment which increases the overall level of guarantees by $200 million and provides that the authority provided in this Act and subsequently approved in appropriations acts must, in fact, be utilized to the extent made available by such acts.

TRADE CREDIT INSURANCE PROGRAM

The Senate bill (sec. 313) amends section 224(e) of the Foreign Assistance Act to extend the special Trade Credit Insurance Program for Central America for an additional year at the current level of $300 million of guaranties.

The House amendment (sec. 313) provides for a 2-year extension of the program and sets the guaranty ceiling at $500 million for the 2 fiscal years 1986 and 1987.

The conference substitute is the House provision, with an amendment setting the aggregate guaranty ceiling on outstanding guarantees under the program at $300 million for fiscal year 1986 and $400 million for fiscal year 1987.

AGRICULTURAL AND PRODUCTIVE CREDIT AND SELF-HELP COMMUNITY DEVELOPMENT PROGRAMS

The House amendment amends section 222A(h) of the Foreign Assistance Act to extend the authority of the Agricultural and Productive Credit and Self-Help Community Programs for 2 more years, until September 30, 1988.

The Senate bill had no comparable provision.

The conference substitute is the same as the House provision.

MINORITY SET-ASIDE

The House amendment (sec. 315) requires that unless the Administrator of AID determines otherwise, 10 percent of development assistance funds shall be available only for minority enterprises.

The Senate bill does not contain a comparable provision.

The conference substitute is the same as the House provision.

TITLE IV—OTHER ASSISTANCE PROGRAMS

INTERNATIONAL ORGANIZATIONS AND PROGRAMS

(a) Earmarks

The Senate bill (sec. 502) amends section 302 of the Foreign Assistance Act to earmark funding from this account for fiscal year 1986 for the U.N. Development Program, UNICEF, and the U.N. Environment Program, with the remainder of available funding unallocated. It also provides that notwithstanding any other provision of law, that the $10 million in fiscal year 1985 funds earmarked for the U.N. Environment Program be made available for that organization.

The House amendment (sec. 402) earmarks all funding for international organizations and programs for fiscal years 1986 and 1987.

The conference substitute earmarks specific percentages of the total appropriation for various international organizations and programs, and maintains the provision on funding for the IAEA contained in the House amendment, requiring that the U.S. contribution to that organization is conditioned on a determination by the Secretary of State that Israel is not denied its right to participate in that organization's activities.

INTERNATIONAL ORGANIZATIONS/PROGRAMS

	S. 960 earmarks	H.R. 1555 earmarks	Conference substitute	
			Earmark (percent)	Illustrative funding level
U.N. Development Program	165,000,000	164,560,000	59.65	161,055,000
U.N. Children's Fund	53,000,000	53,240,000	19.30	52,122,815
International Atomic Energy Agency		19,844,000	7.20	19,427,595
OAS Technical Assistance Program		15,004,000	5.44	14,689,157
U.N. Environment Program	10,000,000	9,680,000	3.51	9,476,875
WMO		1,936,000	0.70	1,895,375
U.N. Capital Development Fund		1,936,000	0.70	1,895,375

International organization/scientific conventions		2,662,000	0.97	2,606,141
U.N. Centre for Human Settlements		484,000	0.18	473,844
World Heritage Trust Fund		242,000	0.09	236,922
Total	267,675,500	275,787,100	100.00	270,000,000

(b) Proportionate share reductions

The Senate bill (sec. 502) amends section 302 of the Foreign Assistance Act to provide that funds may not be available for the U.S. proportionate share for any programs for the Palestine Liberation Organization (PLO), the Southwest Africa Peoples Organization (SWAPO), Libya, Iran, or Cuba.

The House amendment (sec. 403) provides that funds may not be available for programs for the PLO or for projects whose primary purpose is to provide benefits to the PLO or entities associated with it. The House amendment (sec. 404) also provides for a proportionate share reduction for SWAPO except if the President certifies that such funds would not be used to support the military or paramilitary activities

of SWAPO. The House amendment also requires an annual review by the Secretary of State and a report to the Congress on the implementation of these sections.

The conference substitute combines in a single section the House and Senate provisions, incorporating the House provisions regarding the PLO, the Senate provision concerning SWAPO, Libya, Iran, and Cuba, and the House provision establishing a reporting requirement.

The House amendment (sec. 405) also requires a reduction in the U.S. proportionate share contribution for programs in Communist countries.

The Senate bill does not contain a comparable provision.

The conference substitute is the same as the Senate provision.

PROHIBITIONS ON ASSISTANCE TO COUNTRIES WHICH OPPOSE THE U.S. POSITION IN THE UNITED NATIONS

The House amendment (sec. 1112) prohibits assistance to any country whose votes in the United Nations General Assembly coincided with the U.S. position less frequently than the votes of the Soviet Union coincide with those of the United States.

The Senate bill does not contain a comparable provision.

The conference substitute is the same as the Senate position.

TITLE V—INTERNATIONAL TERRORISM AND FOREIGN AIRPORT SECURITY

ANTITERRORISM ASSISTANCE PROGRAM

The House amendment (secs. 407 and 457) authorizes $9,840,000 for each of the fiscal years 1986 and 1987 to carry out chapter 8 of Part II of the Foreign Assistance Act for antiterrorism assistance. It also authorizes the transfer of small arms and munitions directly related to antiterrorism training; provides for a 15-day advance notification to the Congress and sets a ceiling of $325,000 in each fiscal year on the munitions transfer; prohibits the use of funds for salaries and expenses under this section; and repeals the 2-year sunset provision.

The Senate bill authorizes $5 million for each of the fiscal years 1986 and 1987 for antiterrorism assistance and extends the program for 2 years.

The conference substitute is the same as the House provision. The conferees note that the close consultation between the Department of State and the authorization committees on the antiterrorism program to date has been exemplary. It was a major factor that led to the conferees' confidence that the provision of small arms and munitions under this program would not be sidetracked for other purposes or otherwise abused. The conferees commend the Department of State for its close consultation with the Congress and look forward to continuation of such practices.

COORDINATION OF ANTITERRORISM ASSISTANCE TO FOREIGN COUNTRIES

The House amendment (sec. 408) mandates that the Secretary of State be responsible for coordinating all U.S. Government antiterrorism assistance to foreign countries and requires an annual report from the Department of State to the Congress on such assistance.

The Senate bill does not contain a comparable provision.

The conference substitute is the same as the House provision.

PROHIBITION ON ASSISTANCE TO COUNTRIES SUPPORTING INTERNATIONAL TERRORISM

The House amendment (sec. 409) amends section 620A of the Foreign Assistance Act to provide that the President may prohibit assistance to any country which grants sanctuary from prosecution to any individual or group which has committed an act of international terrorism or otherwise supports international terrorism, except that the President may waive this prohibition if he determines that national security or humanitarian reasons justify such a waiver. It also requires that the President publish each waiver in the Federal Register and notify the Congress at least 15 days in advance of the use of such waiver. It also calls on the President to gain the support of other countries to impose similar sanctions.

The Senate bill does not contain a comparable provision.

The conference substitute is the same as the House provision.

PROHIBITION ON IMPORTS FROM AND EXPORTS TO COUNTRIES ENGAGED IN TERRORISM

The House amendment (sec. 411) requires the President to prohibit U.S. imports and exports to and from Libya.

The House amendment (sec. 463) authorizes the President to prohibit U.S. imports of goods and services from countries supporting terrorism and defines the terms "terrorist" and "terrorist organization".

The Senate bill (sec. 925) authorizes the President to prohibit U.S. imports from Libya and any other country determined by joint resolution of Congress to be engaged in terrorism. It authorizes the President to prohibit the export of certain goods and technology to Libya or any other country determined by joint resolution of Congress to be engaged in terrorism. It also references the reporting requirement to Congress in accordance with provisions of the International Emergency Economic Powers Act (IEEPA).

The conference substitute contains a provision authorizing the President to prohibit imports and exports of goods or technology to or from Libya. The conferees expect that the provisions of the Export Administration Act of 1979, as amended, will be followed in carrying out this authority as it relates to exports. The conferees intend that the exercise of this authority will not set a precedent of circumventing the Export Administration Act. The conferees believe, however, that the criteria established in section 6(b) of the Export Administration Act have in fact been met with respect to Libya. The conferees expect that the administration will further restrict exports to Libya that can be used to generate hard currency, and that the availability of such exports elsewhere would not thwart the purposes of such controls. The conferees believe that Libya's extensive hard currency reserves enable it to carry out its program of international terror. The conferees intend that exports to Libya which are designed to provide drinking water, irrigation, or to promote agriculture would not ordinarily be deemed to enable Libya to augment its hard currency reserves.

The conference substitute also contains a compromise provision which authorizes the President to prohibit U.S. imports of goods and services from any country which supports or harbors terrorists or terrorist organizations. When the authority under this section is exercised, the President is required to submit a report to Congress which parallels the reporting requirement found in section 204 of the International Emergency Economic Powers Act.

INTERNATIONAL ANTITERRORISM COMMITTEE

The House amendment (sec. 459) calls on the President to seek the establishment of an international antiterrorism committee which would focus the attention and secure the cooperation of other governments and of the public in participating countries on the problems and responses to international terrorism.

The Senate bill does not contain a comparable provision.

The conference substitute is the same as the House provision.

INTERNATIONAL TERRORISM CONTROL TREATY

The House amendment (sec. 461) expresses the sense of Congress that the President should negotiate a viable treaty to effectively prevent and respond to terrorist attacks. Such a treaty should incorporate an operative definition of terrorism, and should establish effective close intelligence-sharing and uniform laws on asylum, extradition, and swift punishment for perpetrators of terrorism.

The Senate bill does not contain a comparable provision.

The conference substitute is the same as the House provision.

STATE TERRORISM

The House amendment (sec. 1210) expresses the sense of Congress that all civilized nations should condemn the use of terrorism by certain states as evidenced by the assassination of Major Nicholson by a Soviet soldier.

The Senate bill does not contain a comparable provision.

The conference substitute is the same as the House provision.

FOREIGN AIRPORT SECURITY

The House amendment (sec. 451) amends the Federal Aviation Act of 1958 to establish security standards and procedures regarding foreign air transportation. This provision establishes a procedure regarding the assessment of security measures at foreign airports and designates the factors which should be considered regarding such assessments by the Secretary of Transportation. It requires that in carrying out such assessments the Secretary of Transportation shall consult with the Secretary of State with respect to relevant terrorist threats and whether airports are under the de facto control of the government of the country in which they are located; and report to Congress on such assessments and notification of security risk airports to such foreign governments. In addition, if, after 120 days, the Secretary of Transportation determines that a foreign government has failed to upgrade the security standards at such airport, the name of such airport will be published in the Federal Register and otherwise prominently advertised in airports and airline tickets. The House amendment authorizes the President to invoke a general air carrier boycott with respect to such airports; and stipulates that if the Secretary of State determines that any such airport is located in a high terrorist threat country and if the Secretary of Transportation determines that security and safety of passengers and crew is at risk, then the President may immediately invoke a general boycott against such airport and the Secretary of Transportation must publicize such airports and the Secretary of State must issue an immediate travel advisory.

The House amendment (sec. 451) also expresses the sense of Congress with respect to the closing of the Beirut airport.

The Senate bill does not contain a comparable provision.

The conference substitute closely follows the House provision. It deletes the requirement that the Secretary of Transportation identify those international airports which are not under the de facto control of a government. The conferees expect that in carrying out the assessment process on international airport security, the Department of Transportation will closely coordinate with the Secretary of State with respect to the nature of the terrorist threat in the countries where such airports are located and the determination as to whether such airport is under the de facto control of that government.

(a) Security standards in Foreign Transportation

The House amendment (sec. 451(a)(3)) mandates that the standards which shall be used by the Secretary of Transportation in making security assessments are the standards and recommendations contained in annex 17 to the Convention on International Civil Aviation Organization.

The Senate bill does not contain a comparable provision.

The conference substitute specifies the guidelines as "the standards and appropriate recommended practices as contained in annex 17 to the Convention on International Civil Aviation."

(b) Report of assessments

The House amendment (sec. 451(c)) contains a provision for reporting to Congress on the assessments of foreign airport security and stipulates that such report should contain a summary of the assessments as well as a description of the extent to which identified security deficiencies have been eliminated.

The Senate bill does not contain a comparable provision.

The conference substitute retains the reporting requirement but deletes the description of the extent to which identified security deficiencies have been met at foreign airports. The latter information will be provided in reports to Congress filed under section 551 of the conference substitute.

(c) Notification to foreign country of determination

The House amendment (sec. 451(d)) stipulates that when the Secretary of Transportation determines that an airport does not maintain and administer effective security measures, the Secretary shall notify the appropriate authorities of such foreign government and recommend the necessary steps to bring into compliance the security measures in use at that airport.

The Senate bill does not contain a comparable provision.

The conference substitute retains the House provision but adds a requirement that the Secretary of Transportation shall advise the Secretary of State prior to the notification by the Secretary of Transportation to the appropriate authorities of such foreign government.

(d) Notice and sanctions

The House amendment (sec. 452(e)(1)) contains a provision whereby a foreign government is given 120 days to correct security deficiencies at its airport before public notification procedures take effect. In addition, the House amendment stipulates that immediate notice is provided in the case of a high terrorist threat in such country or in case there is a threat to the safety of the passengers and crew traveling to and from such airport.

The Senate bill does not contain a comparable provision.

The conference substitute changes to 90 days the time in which a foreign government is given to meet the security standards at such foreign airport prior to public notice, and provides for immediate public notice if the Secretary of Transportation after consultation with the Secretary of State determines that a condition exists which threatens the safety or security of passengers and crew traveling to or from such airport.

(e) Public notification procedures

The House amendment (sec. 451(e)(2)(A)) outlines the procedures by which the Secretary of Transportation shall notify the public of an airport which does not maintain or administer effective security measures. The Secretary of Transportation is required to publish the name of such airport in the Federal Register, post and prominently display the name of the airport at all U.S. airports, and require that each air carrier and foreign air carrier providing service between the United States and such airport provide notice by written material included on or with an airline ticket to any passenger purchasing a ticket.

The Senate bill does not contain a comparable provision.

The conference substitute maintains the House provision but adds the requirement that the Secretary of Transportation shall notify the news media of the identity of such airport.

The conference substitute establishes a combination of requirements to give passengers notice of foreign airports with security problems, including signs at airports, media publicity, travel advisories, and notice with airline tickets. Although none of these forms of notice is perfect and guaranteed to reach all passengers, the combination makes it quite likely that all prospective passengers will learn of security problems.

The conferees wish to clarify the requirement that airlines give notice to their passengers of airports with security problems. Under this requirement, an airline must give notice to a passenger if a Department of Transportation determination has been made at the time the passenger is issued a ticket and an airline is not required to contact the passenger again if there is a change in the Secretary's determination after the ticket has been issued. In these cases, the conferees anticipate that passengers will learn of the changed determination through the other forms of notice provided in the conference substitute.

Concerns have been expressed by some U.S. air carriers, of which the conferees are aware, regarding the provision requiring carriers to provide, on or with each ticket, notice of a determination by the Secretary of Transportation that an airport is unsafe. As stated above, the combination of various forms of notice, including notice accompanying purchased tickets, is intended to offer prospective passengers the necessary information with which to make an informed traveling judgment. It is not the intent of the conferees to place undue or disadvantageous burdens on carriers. The intent of the conferees is to ensure more informed choices on the security of travel to a particular airport. The conferees agree that this provision should be closely monitored in its implementation.

The conferees are aware of the recent examination of preclearance by the Subgroup of Pre-clearance of the National Transportation Facilitation Committee. This subgroup, which is made up of both government and private sector representatives, has adopted a position paper indicating a desire to expand the preclearance system to more foreign countries under appropriate circumstances. Under this system, now in use in Canada, Bermuda, and the Bahamas, U.S. customs, immigration, and agricultural officials are placed in foreign countries where they conduct their usual inspection of U.S.-bound passengers and baggage before they depart for the United States.

Preclearance is not a new idea, having been first instituted in 1952. It has been viewed primarily as a way to facilitate the various inspection processes. By performing these tasks at the point of origin rather than within the United States, issues such as illegal aliens, diseases, and drugs can more effectively be dealt with, with less delay for the travelers involved.

The conferees also believe that preclearance presents opportunities to improve airline and airport security in addition to its primary objective of facilitation. A potential terrorist would find it much more difficult to bring weapons aboard an aircraft if he had to undergo an inspection before boarding. An expanded preclearance program by U.S. inspection agencies could be a very effective mechanism for improving security and deterring terrorism.

The conferees endorse the efforts of the Subgroup on Preclearance of the National Transportation Facilitations Committee. We therefore encourage the administration to enter into bilateral agreements with foreign governments to establish a U.S. inspection presence at their airports in appropriate cases.

(f) Report to Congress on foreign airport security

The House amendment (sec. 451(e)(3)) stipulates that the Secretary of Transportation must promptly report to Congress any action taken with respect to foreign airports as well as the steps which were taken to insure the cooperation of the foreign government in meeting the standards used by the Secretary in making the assessment of each airport.

The Senate bill does not contain a comparable provision.

The conference substitute retains the House provision but adds language which would enable the Secretary of Transportation to report such information to the Congress in a classified annex, if necessary.

It is the intent of the conferees that the reports to Congress required by this provision shall be filed at the earliest opportunity after any action taken by the Secretary.

The conference substitute provides that such reports to Congress may be classified in order to avoid, if appropriate, the public dissemination of information relating to any uncorrected security deficiencies at any airport. It is also the intent of the conferees that such reports shall include a description of the extent to which identified security deficiencies have been eliminated.

(g) Issuance of travel advisory

The House amendment (sec. 452) stipulates that once a determination is made by the Secretary of Transportation that an airport does not maintain and administer effective security measures, the Secretary of State is required to issue a travel advisory with respect to such airport within 120 days.

The Senate bill does not contain a comparable provision.

The conference substitute requires the Secretary of State to issue a travel advisory only if the Secretary of Transportation pursuant to section 1115(e)(1)(B) of the Federal

Aviation Act of 1958 and in consultation with the Secretary of State determines that a condition exists that threatens the safety or security of passengers, aircraft, or crew traveling to or from such airport.

The conferees expect that in arriving at such determination the Department of Transportation will consult with the Secretary of State and take into account the nature of the terrorist threat.

In addition to the international air passenger notification provisions under section (e)(1)(2), the conferees strongly urge that travel advisories be issued for those countries which have failed to bring an identified airport into compliance with the standards described by this Act. The absence of a mandatory travel advisory provision in this section reflects the desire of the conferees not to undermine an ongoing diplomatic effort to upgrade airport security. Nonetheless, the conferees can envision few circumstances where a travel advisory would not be indicated should section (e)(2) come into effect.

(h) Suspension of foreign assistance

The House amendment (sec. 452) requires the President, if after 120 days an airport has not met the minimum international standards, to suspend foreign assistance to the country in which it is located unless he determines that a national security or humanitarian emergency exists.

The Senate bill does not contain a comparable provision.

The conference substitute retains the House provision but changes from 120 to 90 days the time allowed to remedy deficiencies at substandard airports and adds a requirement that the Secretary of State determine that the country in which a substandard airport exists is a high terrorist threat country. In addition, the conference substitute permits the President to waive this sanction for national security "interests".

(i) Notification to Congress on lifting sanctions

The House amendment (sec. 453) requires notification to Congress on the lifting of sanctions in section 451 and 452.

The Senate bill does not contain a comparable provision.

The conference substitute is the same as the House provision.

(j) Study on air marshals

The House amendment (sec. 454) authorizes a study on the need to expand the U.S. "sky" marshal program and the feasibility of establishing an international "sky" marshal program. It also authorizes the Secretary of Transportation, with the approval of the Attorney General and the Secretary of State to permit U.S. "air" marshals to carry firearms and to make arrests.

The Senate bill does not contain a comparable provision.

The conference substitute retains the House provision on the U.S. "air" marshal study but changes the reference from "sky" marshal to "air" marshal. In addition, it deletes the requirement for a feasibility study of an international "sky" marshal program.

(k) Meeting of International Civil Aviation Organization

The House amendment (sec. 455) requires the Secretaries of State and Transportation jointly to call for a meeting of the International Civil Aviation Organization (ICAO) to discuss upgrading international airport security standards and to call on member countries of ICAO to impose a moratorium on any use of any international airport which is not in compliance with such standards.

The Senate bill does not contain a comparable provision.

The conference substitute stipulates that the Secretaries of State and Transportation jointly shall call on the member countries of ICAO to support U.S. actions enforcing the organization's standards.

The conferees commend the Secretary of State and the Secretary of Transportation for immediately bringing before the International Civil Aviation Organization and the world community the security deficiencies and terrorist threats in Athens and the Middle East. It is intended that the Secretaries will, in the future, continue to encourage ICAO members to discuss the current status of international airport compliance with existing international standards and to upgrade the security standards for international airports. The conferees recognize the benefits of this type of international cooperation, as well as the need for concerted effort among nations in meeting the threat of international terrorism.

(l) Multilateral and bilateral agreements

The House amendment (sec. 456) requires the Secretary of State to seek formal multilateral and bilateral agreements on strengthening enforcement measures on compliance with respect to airport sabotage, hijacking, and airport security.

The Senate bill does not contain a comparable provision.

The conference substitute retains the House provision but deletes the requirement for "formal" multilateral and bilateral agreements.

The conferees wish to ensure with respect to this provision that the Secretary of State consult with the Secretary of Transportation as he seeks multilateral and bilateral agreements that strengthen enforcement measures and compliance standards with respect to aircraft sabotage, aircraft hijacking and airport security. The Department of State and the Department of Transportation should work to include provisions fostering improved aircraft and airport security through stricter enforcement and higher standards in bilateral air transport agreements as well as in other appropriate bilateral and multilateral treaties and agreements with foreign governments and international organizations.

TITLE VI—INTERNATIONAL NARCOTICS CONTROL

SHORT TITLE

The Senate bill (sec. 1001) provides that this title may be cited as the "International Narcotics Control Act of 1985".

The House amendment does not contain a comparable provision.

The conference substitute is the same as the Senate provision.

REPEAL OF THE MANSFIELD AMENDMENT

The Senate bill (sec. 509) amends section 481 (c)(1) of the Foreign Assistance Act (the "Mansfield Amendment) by deleting that provision, and instead requires that heads of departments or agencies prescribe regulations governing the conduct of their employees who are authorized to engage in direct antinarcotics police actions, or interrogations connected with such efforts.

The House amendment (sec. 504) amends section 481(c)(1) to permit U.S. officers and employees to be present during direct antinarcotics police actions in a foreign country to the extent that the Secretary of State and the government of that country agree to such an exemption, and the Congress is informed.

The conference substitute is the same as the House provision.

REPORTS ON FOREIGN GOVERNMENT INVOLVEMENT IN DRUG TRAFFICKING

The Senate bill (sec. 1003) amends section 481(e) of the Foreign Assistance Act by adding a new provision requiring that the annual International Narcotics Strategy Report describe the involvement of any Communist government in illicit drug trafficking.

The House amendment (sec. 505) is similar, but broadens this requirement to report on any government's involvement.

The conference substitute is the same as the House provision, with an amendment specifying that Communist governments are to be included in this reporting requirement.

PROCUREMENT OF WEAPONS TO DEFEND AIRCRAFT INVOLVED IN NARCOTICS CONTROL EFFORTS

The House amendment (sec. 506) earmarks not less than $1 million of grant military assistance to arm, for defensive purposes, aircraft used in narcotics control, eradiction or interdiction efforts, and requires that the Congress be notified at least 15 days in advance of the use of such funds, in accordance with regular reprogramming procedures.

The Senate bill contains no such provision.

The conference substitute is the same as the House provision, with an amendment making the $1 million on a straight earmark, instead of a "floor", by deleting the words "not less than".

REQUIREMENT FOR COST-SHARING

The Senate bill (sec. 1010) requires that narcotics control assistance may be provided to a country only if that country provides assurances that it will provide at least 25 percent of the costs of such program, including "in-kind" contributions, and specifies an effective date of October 1, 1985.

The House amendment (sec. 507) is identical, except for the effective date.

The conference substitute is the same as the House provision.

CONDITIONS ON ECONOMIC SUPPORT FUNDS TO JAMAICA

The House amendment (sec. 511) withholds $5 million in ESF for fiscal year 1986 from Jamaica until the President certifies to the Congress that that Government has prepared, presented, and committed itself to a comprehensive plan or strategy for the control and reduction of illicit marijuana production.

The Senate bill contains no comparable provision.

The conference substitute states that in allocating economic support funds for Jamaica, the President shall give major consideration to whether that Government has developed such a plan.

CONDITIONS ON ASSISTANCE TO BOLIVIA

The Senate bill contains two provisions relating to assistance for Bolivia. The first (sec. 1005) conditions 25 percent of development aid, economic support funds, and military aid for fiscal year 1986 on a Presidential certification that the Government of Bolivia has enacted legislation prohibiting the production of more than two hectares of coca per family, and witholding the remaining 75 percent until a subsequent certification has been made that Bolivia has

achieved the eradication targets for calendar year 1985 contained in its August 1983 agreement with the United States Government. For fiscal year 1987, 50 percent of the affected funds would be provided after the certification to Congress that during the first 6 months of calendar year 1986 the Government of Bolivia achieved at least half of the eradication targets for calendar year 1986 contained in the 1983 narcotics agreement, and the remaining 50 percent would be provided at any time after a certification to Congress that Bolivia had fully achieved the total eradication targets for calendar year 1986 contained in that agreement.

The second provision (sec. 919) prohibits all aid indefinitely until the President certifies that Bolivia has reduced its coca production by 10 percent from the previous fiscal year.

The House amendment (sec. 509) conditions 25 percent of economic support funds and military assistance for fiscal year 1986 on a Presidential certification that the Government of Bolivia has enacted legislation, consistent with the Single Convention on Narcotic Drugs of 1961, that will establish its legal coca requirements, provide for licensing of the number of hectares necessary to produce the legal requirement, and make illegal unlicensed coca production. The remaining 75 percent would be available after a subsequent certification that the Government of Bolivia has made substantial progress toward achieving the eradication targets for calendar year 1985 contained in the 1983 agreement. For fiscal year 1987, after a Presidential certification that Bolivia has developed a plan to eliminate illicit narcotics production on a countrywide basis, 50 percent of the affected funds would be available at any time after certification to Congress that Bolivia has achieved at least half of the eradication targets for calendar year 1986 contained in the 1983 agreement, and the remaining 50 percent after certification to Congress that Bolivia has fully achieved that eradication target.

The conference substitute is a compromise, which for fiscal year 1986 provides that 50 percent of economic support funds and military assistance can be provided after a certification to Congress that Bolivia has enacted legislation that will establish its legal coca requirements, and the remaining 50 percent after a certification that Bolivia achieved the eradication targets for calendar year 1985 contained in the 1983 agreement. For fiscal year 1987, after certification to Congress that a countrywide eradication plan has been developed, 50 percent of the affected funds could be provided after a certification that Bolivia has achieved 50 percent of the eradication targets for calendar year 1986 agreed to by the United States and the Government of Bolivia, and the remaining 50 percent after certification that Bolivia has fully achieved that eradication target.

CONDITIONS ON ASSISTANCE TO PERU

The Senate bill (sec. 510) conditions economic and military aid to Peru for fiscal year 1986 on certification to Congress that Peru has demonstrated substantial progress in developing a plan, in accordance with the Single Convention on Narcotic Drugs of 1961, that will establish its legal coca requirements.

The House amendment (sec. 509) is virtually identical, but contains an additional provision requiring that affected funds for fiscal year 1987 are conditioned on a Presidential report to Congress that Peru has implemented the plan referenced above.

The conference substitute is the same as the House provision, except that it deletes all references to the Single Convention.

UPPER HUALLAGA VALLEY PROJECT IN PERU

The Senate bill (sec. 1006) prohibits fiscal year 1987 funds for AID's Upper Huallaga Valley project until the AID Administrator determines, in consultation with Congress, that the project is effective in reducing and eradicating coca production, distribution, and marketing in the Upper Huallaga Valley.

The House bill (sec. 510) is virtually identical, but clarifies the affected authorization account.

The conference substitute is the same as the House provision.

REALLOCATION OF FUNDS

The Senate bill (sec. 1007) provides that if any of the funds for Bolivia or Peru are not used due to failure to meet the conditions imposed, that those funds shall be available for other countries which have taken significant steps to halt illicit drug production and trafficking.

The House amendment (sec. 512) is identical, except that it adds Jamaica to the list of countries whose aid would be reallocated.

The conference substitute is the same as the Senate provision.

U.S. CONTRIBUTIONS TO THE U.N. FUND FOR DRUG ABUSE CONTROL

The Senate bill (sec. 1008) amends section 482(a) of the Foreign Assistance Act by adding a new paragraph which conditions U.S. contributions to UNFDAC on that organization including in its crop substitution projects a plan for cooperation with law enforcement forces of the host country.

The House amendment (sec. 513) is identical, except that it does not amend Foreign Assistance Act.

The conference substitute is the same as the Senate provision.

LATIN AMERICAN REGIONAL NARCOTICS CONTROL ORGANIZATION

The Senate bill (sec. 1002) directs the Secretary of State, with the assistance of the National Drug Enforcement Policy Board, to conduct a study on the feasibility of establishing a Latin American regional narcotics control organization, and requires the Chairman of the Board to submit a report to Congress no later than 6 months after date of enactment on the result of this study.

The House amendment is similar, except that it contains no reference to the National Drug Enforcement Policy Board.

The conference substitute is the same as the Senate provision except that it does not designate who is to submit the required report to the Congress.

USE OF U.S. ARMED FORCES ABROAD

The House amendment (sec. 516) requires the President to report to Congress no later than 60 days after date of enactment of this act on why the U.S. Armed Forces should not exert greater effort in facilitating and supporting interception of narcotics traffickers, and in gathering narcotics-related intelligence, outside the United States.

The Senate bill contains no comparable provision.

The conference substitute is the same as the House provision.

CUBAN DRUG TRAFFICKING

The House amendment (sec. 517) condemns alleged Cuban involvement in narcotics trafficking, and states the sense of the Congress that the President should take appropriate steps to place this issue on the agenda of the United Nations, the Organization of American States, and other international forums.

The Senate bill contains no comparable provision.

The conference substitute is the same as the House provision.

PROHIBITION ON AID TO DRUG-TRAFFICKING NATIONS

The House amendment (sec. 518) amends section 481(h) of the Foreign Assistance Act by adding a new paragraph requiring that countries which do not take adequate steps to prevent illicit narcotics processing, production, and trafficking through their territory or which provide safe haven for drug traffickers, be subject to the sanctions contained in this section. It further provides a waiver for reasons of national security or for humanitarian assistance, and requires annual reports on illicit narcotics trafficking in all countries in the world.

The Senate bill contains no comparable provision.

The conference substitute is the same as the House provision, except that it deletes the Presidential waiver and the new reporting requirements.

DRUG TRAFFICKING AND BANK SECRECY

The House amendment (sec. 519) states congressional findings regarding the role of banks in Latin America and the Caribbean in facilitating laundering of proceeds from illicit narcotics transactions, and requests the President to negotiate treaties with all countries providing offshore banking facilities in the Caribbean region.

The Senate bill contains no comparable provision.

The conference substitute is the same as the House provision, except that it clarifies the language requesting the President to negotiate new treaties.

TITLE VII—WESTERN HEMISPHERE

CENTRAL AMERICA DEMOCRACY, PEACE AND DEVELOPMENT INITIATIVE

(a) Findings

The Senate bill (sec. 401) sets forth a series of findings on U.S. policy toward Latin America. These findings relate to the building of democracy, economic and political development, respect for human rights, and peace.

The House amendment (sec. 701) sets forth nearly identical findings.

The conference substitute is the same as the House provision.

(b) Conditions on assistance

The Senate bill in new section 462 sets forth a general policy that the President shall impose conditions on U.S. assistance where necessary to achieve the purposes stated in the above findings, and shall consult with the Congress in regard to progress toward those objectives. It also removes the reporting requirements in the 1984 supplemental appropriations and in the 1985 continuing resolution.

The House has no comparable provisions.

The conference substitute is the same as the Senate provision.

(c) Central American Development Organization

The Senate bill in new section 464 authorizes U.S. participation in a Central American Development Organization (CADO).

The House amendment (sec. 714) is nearly the same, with only minor differences.

The conference substitute is the same as the Senate provision.

(d) Fiscal year 1988 and 1989 funding to implement the Kissinger Commission recommendations

The Senate bill in new section 465 authorizes $1.2 billion for each fiscal year 1987 through 1989 for the countries of Central America (in order to implement the recommendations of the Kissinger Commission).

The House amendment has no comparable provision, but in authorizing a 2-year bill, does provide funding for U.S. assistance to Central America for fiscal year 1987.

The conference substitute is a combination of the House and Senate bills. In providing for a 2-year bill, the conference report provides funding for U.S. assistance to Central America for fiscal years 1986 and 1987 in the functional accounts. In addition, the conference report authorizes $1.2 billion each year for assistance to Central America for fiscal years 1988 and 1989, as provided in the Senate bill.

(e) Military exercises in Central America

The House amendment (sec. 716) requires that the President notify the House Foreign Affairs Committee and the Senate Foreign Relations Committee 30 days prior to commencement of joint military exercises in any Central American country.

The Senate bill contains no comparable provision.

The conference substitute is the same as the Senate position. However, the conferees expect and intend that such information will be readily provided to the House Foreign Affairs Committee and the Senate Foreign Relations Committee at least 30 days in advance of assigning or detailing U.S. military personnel for the purpose of commencing joint military exercises with the armed forces of any Central American country. Among the information that should be provided is: The purpose of the exercises, the duration of the exercises, the number of members of the U.S. Armed Forces participating in the exercises, the total cost to the United States of the exercises, the specific activities of the U.S. Armed Forces during the exercises, including the locations of those activities, the number and nationality of members of the armed forces of other countries participating in the exercises, construction activities by the U.S. Armed Forces in conjunction with the exercises, and the number of the U.S. Armed Forces and the equipment remaining in the country as the result of earlier military exercises, and the additional number of members of the U.S. Armed Forces and the additional equipment remaining in the country as a result of the current military exercises.

EL SALVADOR

(a) Support for El Salvador

The Senate bill (sec. 923) expresses the sense of the Senate commending President Duarte for his outstanding leadership and the armed services of El Salvador for improving their performance and professionalism in defending their citizens and elected government.

The House amendment contains no comparable provision.

The conference substitute is the same as the Senate provision.

(b) Military assistance

The House amendment (sec. 702) conditions U.S. military assistance to El Salvador on the attainment of certain specified objectives. The President must make semiannual reports on these objectives during fiscal years 1986 and 1987, and half the military assistance for each fiscal year may be provided only upon the issuance of such report, on or after October 1 and April 1 of each year. Notwithstanding this requirement, in the event of an emergency certified by the President, funds for military assistance for the second half of a fiscal year may be provided if Congress is notified 15 days in advance.

The House amendment further provides that the House Foreign Affairs Committee and the Senate Foreign Relations Committee must be notified 15 days in advance of the provision of any helicopters or other aircraft.

The Senate bill has no comparable provision.

The conference substitute is the same as the House provision, with an amendment changing the conditions to expectations regarding overall U.S. policy objectives, specifying that the report is on the extent to which those are being achieved, and removing the requirement that military assistance be provided in two separate branches.

(c) Economic assistance

The House amendment provides that no ESF may be provided until the President is satisfied that El Salvador has taken steps to implement the study and recommendations on the Central Bank. ESF funds for balance-of-payments purposes shall be used solely for the purchase of essential materials, and shall be maintained in a separate account. All local currencies generated from ESF funds shall be placed in a special account and shall be used for development purposes. The House amendment further provides that all assistance authorized by this act shall be suspended in the event of a military coup, and earmarks, $79.6 million for development assistance and $195 million for ESF assistance.

The Senate bill has no comparable provision.

The conference substitute is the same as the House provision with an amendment eliminating (a) the conditioning of ESF assistance on implementation of the recommendation on the Central Bank, and (b) the uses of and maintenance of a separate account for ESF funds.

GUATEMALA

The House amendment (sec. 703) provides that military assistance may be provided to Guatemala only if the President reports that an elected civilian government is in power and has submitted a formal request for military assistance, and the Government has made demonstrated progress in: Achieving control over the military and security forces; eliminating kidnapings, disappearances, forced recruitment, other human rights abuses; and respecting the human rights of its indigenous Indian population. Notwithstanding this restriction, up to 30 percent of IMET for Fiscal Year 1986 may be provided upon the election of a civilian government. Further, if the conditions are met, Guatemala may be provided with up to $10 million in FMS financing for both fiscal years for construction equipment and mobile medical facilities and related training, but not for use in the rural resettlement program. None of the military assistance may be used for the procurement of weapons or ammunition. All assistance is to be suspended in the event of a military coup.

The House amendment also provides that development assistance and ESF may not be used for the rural resettlement program and shall be provided through PVO's to the maximum extent possible. Further, it calls on the President to urge Guatemala to allow an unimpeded visit by the ICRC and to encourage Guatemalan recognition of Belize and a mutual nonaggression treaty. Finally, the House amendment expresses congressional support for the Mutual Support Group (an indigenous human rights group which is seeking an accounting of persons who have been murdered or have "disappeared") and calls for the Government of Guatemala to lend the group its support and protection, which should be considered in evaluating human rights progress in Guatemala.

The Senate bill has no comparable provision.

The conference substitute is the same as the House provision, with an amendment exempting international military education and training (IMET) from the restriction on military assistance.

REFUGEES IN HONDURAS

The House amendment (sec. 705) provides that funds in this act or the State Department Authorization Act which are used for refugee assistance for Nicaraguan Indians shall be channeled through the UNHCR, ICRC, or other international refugee relief organizations, and may not be used for the involuntary repatriation of Salvadoran refugees. Any funds used for repatriation of Salvadoran refugees may be used only for voluntary repatriation through the UNHCR.

The Senate bill has no comparable provision.

The conference substitute is the same as the House provision, with an amendment providing that such refugee assistance shall be provided to the maximum extent feasible through recognized international refugee relief organizations and removing the provision on repatriation of Salvadoran refugees. The conferees note that such assistance shall be solely for humanitarian purposes. They also state that any funds used for the repatriation of Salvadoran refugees should be provided through the UNHCR.

CONDITIONS ON AID TO HAITI

The House amendment (sec. 706) places certain conditions on U.S. assistance to Haiti. To the maximum extent possible, aid to Haiti should be provided through PVO's. For 1986 and 1987, development assistance, ESF, and IMET funds are conditioned on Presidential determination that Haiti is cooperating on stopping illegal immigration and on implementing U.S. aid programs; is making progress on improving the human rights situation and implementing political reforms. The President must report every 6 months on the extent to which Haiti continues to comply with these conditions. The House amendment permits assistance for police training to help stop illegal emigration. MAP and FMS assistance are restricted to that necessary to help stop illegal emigration and narcotics. Finally, $1 million of ESF is earmarked in 1986 and 1987 for literacy programs.

The Senate bill has no comparable provision, except for section 908 permitting police training to stop illegal emigration.

The conference substitute is the same as the House provision with an amendment changing the semiannual report to an annual report and shifting the $1 million earmark to development assistance.

MILITARY AID FOR PARAGUAY

The Senate bill (sec. 934) sets forth congressional findings and a requirement for a

Presidential report concerning efforts to apprehend Josef Mengele.

The House amendment (sec. 707) conditions U.S. military assistance on the efforts of the Government of Paraguay to apprehend Mengele and on the Government of Paraguay to end torture and abuse of detained individuals and to institute procedures to ensure prompt charges and trial.

The conference substitute is the same as the House provision with an amendment eliminating the provision on Mengele (who is dead) and exempting IMET assistance from the remaining conditions.

ASSISTANCE FOR PERU

The House amendment (sec. 708) requires the President, upon providing military assistance to Peru, to report to the Congress the steps the Government of Peru is taking to deal with certain human rights abuses.

The House amendment further states that respect for human rights shall be an important component of IMET training for Peru for 1986 and 1987, and earmarks $1 million of ESF in 1986 and 1987 for strengthening the Peruvian judicial system.

The Senate bill has no comparable provision.

The conference substitute is the same as the House provision with an amendment removing the requirement for a report by the President.

The Congress congratulates the Government and people of Peru on the peaceful, democratic transfer of power in that country experienced on July 28, 1985. The Congress fully supports Peru's efforts to institutionalize democratic government and recognizes the difficulty of doing so under conditions of severe economic crisis and guerrilla insurgency. It should be the policy of the United States to give all possible assistance to Peru in these difficult times.

At the same time, the Congress notes with great concern reports of continuing killings, torture, and "disappearances" of civilian noncombatants by the military and security forces of Peru. The Congress urges the Government of Peru to do everything possible to curtail such practices, to strengthen the ability of the Peruvian judiciary to investigate such practices, to comply with established procedures to ensure that arrest and detentions by the military and security forces of Peru are immediately acknowledged, and to account for the "disappeared" persons in Peru.

REPORTS ON ASSISTANCE FOR LATIN AMERICA AND THE CARIBBEAN

The House amendment (sec. 710) amends section 634 of the Foreign Assistance Act to require that the annual report on foreign assistance include a greater detail of information on U.S. assistance to the countries of Latin America and the Caribbean.

The Senate bill contains no comparable provision.

The conference substitute is the same as the House provision.

USE OF PRIVATE AND VOLUNTARY ORGANIZATIONS

The House amendment (sec. 712) provides that to the maximum extent possible, development assistance and ESF for Latin American countries should be through private and voluntary organizations with proven track records.

The Senate bill contains no comparable provision.

The conference substitute is the same as the House provision.

ASSISTANCE FOR LAW ENFORCEMENT AGENCIES

The House amendment (sec. 711) amends section 660 of the Foreign Assistance Act to exempt from the prohibition against assistance for police training countries which are longtime democracies, have no standing armed forces, and do not violate human rights. This provision also specifically exempts Honduras and El Salvador from the section 660 prohibition if the President notifies Congress 30 days in advance that such country has made significant progress in the prior 6 months on human rights violations. Any such notification must include a description of the assistance to be provided.

The Senate bill contains no comparable provision.

The conference substitute is the same as the House provision with an amendment specifying that the notification must provide a full description of the assistance to be provided and its purposes.

The conferees express the concern that programs undertaken pursuant to this section must be carefully designed and closely monitored in order to avoid the potential of abuse that led to the enactment of the prohibition against police training in section 660 of the Foreign Assistance Act.

ADMINISTRATION OF JUSTICE

The Senate bill (sec. 402) authorizes specific programs to strengthen the administration of justice in Latin America and the Caribbean. It specifically waives section 660 of the Foreign Assistance Act for the purposes of the section.

The House amendment (sec. 713) contains a similar provision, except that it requires that investigative capabilities be conducted under judicial or prosecutorial control, and does not include enforcement capabilities.

The House provision further puts a ceiling of $20 million on funds to be used under this section, and places a sunset of September 30, 1987, on the authority.

The conference substitute is the same as the House provision.

EMPLOYEE STOCK OWNERSHIP PLANS

The Senate bill (sec. 404) sets forth a congressional declaration encouraging the use of employee stock ownership plans (ESOP) in U.S. assistance programs in Central America and the Caribbean. It establishes a Presidential Task Force on Project Economic Justice, and requires the task force to report to the President and the Congress by December 31, 1985, on the use of ESOP's in development efforts of the U.S. and on recommendations for using ESOP's

The House amendment (sec. 717) contains similar findings but does not create a Presidential task force.

The conference substitute is the same as the Senate provision.

INTERNATIONAL ADVISORY COMMISSION FOR THE CARIBBEAN REGION

The House amendment (sec. 718) directs the President to invite the countries of the Caribbean to participate in an International Advisory Commission for the Caribbean to define development plans, provide a forum for regional development issues, and provide expert advice to aid donors. It authorizes $100,000 for the Commission and provides that the President shall appoint one member, the Speaker of the House two members, and the majority leader of the Senate two members.

The Senate bill contains no comparable provision.

The conference substitute is the same as the House provision with an amendment making the provision discretionary rather than mandatory

EXEMPTION OF CERTAIN EQUIPMENT FROM CHILE PROHIBITION

The Senate bill (sec. 125) lifts the prohibition on military assistance and sales to Chile for transfer of certain safety-related devices and technical manuals for specified aircraft sold before January 1, 1976.

The House amendment (sec. 718) does the same for aircraft supplied before 1974.

The conference substitute is the same as the Senate provision.

RURAL ELECTRIFICATION

The House amendment (sec. 720) encourages the development of a comprehensive rural electrification program for Central America.

The Senate bill contains no comparable provision.

The conference substitute is the same as the House provision.

FACILITATING INTERNATIONAL COMMERCE THROUGH MEXICO

The House amendment (sec. 721) urges negotiations with Mexico to reduce impediments to trade, including international intransit shipments, and requires the Secretary of State to report on the status of negotiations by January 1, 1986.

The Senate bill contains no comparable provision.

The conference substitute is the same as the House provision.

CONDEMNING HUMAN RIGHTS ABUSE AND SUBVERSION BY THE GOVERNMENT OF CUBA

The House amendment (sec. 722) expresses the sense of Congress regarding human rights abuses in and support for external subversion by Cuba, and issues an appeal to end such practices.

The Senate bill contains no comparable provision.

The conference substitute is the same as the House provision.

REPORTS ON THE FOREIGN DEBT IN LATIN AMERICA

The Senate bill (sec. 207) requires a report by the Secretary of State by October 1, 1985, on the magnitude and impact of the foreign debt of Latin America and on U.S. policies to deal with the crisis. It also requires a report by the Secretary of the Treasury by October 1, 1985, on the degree to which the foreign debt crisis affects the U.S. banking system and steps being taken to deal with the crisis.

The House amendment in section 724 requires an identical report by the Secretary of State but no report by the Secretary of the Treasury.

The conference substitute is the same as the Senate provision with an amendment requiring both reports to be made by the Secretary of State and changing the date the reports are due to January 1, 1986.

ECONOMIC ASSISTANCE FOR URUGUAY

The House amendment (sec. 725) earmarks $15 million in ESF for Uruguay for 1986 and 1987.

The Senate bill contains no comparable provision.

The conference substitute is the same as the House provision.

HOGS AND LOGS

The Senate bill (sec. 932 and 935) contains provisions calling on the President to discuss with Canada a reduction in the export to the United States of Canadian cattle and hogs and Canadian softwood lumber.

The House amendment contains no comparable provision.

The conferees substitute contains the Senate provision.

The conferees note that problems similar to those discussed in the Senate bill have been noted with respect to exports of onions and potatoes from Canada to the United States and urge the executive branch to take measures specified with respect to those crops as well.

TRAINING ASSISTANCE FOR ARGENTINA AND BRAZIL

The Senate bill (sec. 906) contains a provision to exempt training assistance for Argentina and Brazil under the Foreign Assistance Act from prohibitions in that act (except those relating to police training and human rights), so long as those governments continue to have democratically elected governments.

The House amendment contains no comparable provision.

The conference substitute is the same as the House position.

The conferees warmly welcome the reestablishment of democracy in those two countries, but remain concerned about the continued presence of unsafeguarded nuclear activities in Argentina and Brazil. Consequently, the conferees urge those countries to become full parties to the Treaty for the Prohibition of Nuclear Weapons in Latin America (the Treaty of Tlatelolco) and the Treaty on the Non-Proliferation of Nuclear Weapons, or to place all nuclear activities under international safeguards, at the earliest possible date. This action is taken in recognition of the waiver authorities available to the President in current law and without prejudice toward future consideration by the Congress of such a waiver, if submitted, or toward the future consideration of training assistance in Argentina and Brazil.

NICARAGUA

Peace Process in Central America

The House amendment (sec. 701(e)) expresses support for national reconciliation in Nicaragua and for a national dialog with the opposition group.

The Senate bill contains no comparable provision.

The conference substitute is the same as the House provision.

Concerns about Nicaraguan foreign and domestic policies

The House amendment (sec. 701(f)) expresses the sense of Congress concerning various policies of the Nicaraguan Government, noting possible U.S. policy options, and listing expected corrective steps by the Nicaraguan Government.

The Senate bill contains no comparable provision.

The conference substitute is the same as the House provision.

Resolution of the conflict in Nicaragua

The House amendment (sec. 701(g)) sets forth congressional findings regarding U.S. relations with Nicaragua, including condemnation of the Nicaraguan Government, a call for a national dialog, and support for a democratic resistance.

The Senate bill contains no comparable provision.

The conference substitute is the same as the House provision.

Treaty commitments

The Senate bill (sec. 1105) provides that none of the funds shall be used so as to violate U.S. obligations under the Charter of the OAS or under other treaty commitments.

The House amendment contains no comparable provision.

The conference substitute is the same as the Senate provision. Prohibition on military or paramilitary operations in Nicaragua

Prohibition on military or paramilitary operations in Nicaragua

The Senate bill (sec. 405) contains a section prohibiting the use of funds in the Foreign Assistance Act or the Arms Export Control Act to provide assistance to those engaged in an insurgency against the Government of Nicaragua. That section also prohibited the U.S. Government from entering into agreements or understandings with recipients of U.S. assistance or purchasers of U.S. military equipment to provide such assistance.

The House amendment contains no similar provision.

The conference substitute is the same as the Senate provision with a technical change for the sake of clarity.

The purpose of the second sentence of this section is to prohibit the United States from furnishing economic or military assistance or selling U.S. military equipment on the condition, either expressly or impliedly, that the recipient or purchaser provide assistance to insurgents involved in the struggle in Nicaragua. This section does not prohibit U.S. Government officials from discussing U.S. policy in Central America with recipients of U.S. assistance or purchasers of U.S. military equipment. Nor does it prohibit recipients of U.S. assistance from furnishing assistance to any third party on their own volition and from their own resources.

Prohibition on assistance for military operations in Nicaragua

The Senate bill (sec. 1101(b)) repeals existing prohibitions on the use of funds for covert military operations in Nicaragua. It also provides that nothing in this section precludes sharing or collecting intelligence information by the United States.

The House amendment (sec. 721(c)) extends these same prohibitions for purposes of funds in this section. It also provides that nothing in this section, or other law, prohibits exchanging information with the democratic resistance, but only for the purposes for which funds are expressly made available.

The conference substitute eliminates both provisions because these issues are being handled by legislation in the jurisdiction of the Committees on Intelligence.

Food aid for Nicaragua

The Senate bill (sec. 1109 of the Senate amendment to H.R. 2068, the State Department authorization bill) provides that the President should explore means for providing food aid to the people of Nicaragua.

The House amendment contains no comparable provision.

The conference substitute is the same as the Senate provision.

1986 assistance to the Nicaraguan democratic resistance

The Senate bill (sec. 1101(a)) authorizes $24 million in humanitarian assistance for the democratic resistance for fiscal year 1986.

The House amendment (sec. 721(a)) authorizes $27 million in humanitarian assistance to the democratic resistance in Nicaragua through March 31, 1986.

The conference substitute is the same as the House provision.

1985 assistance to democratic resistance

The Senate bill frees up $14 million in Public Law 98-473, the continuing resolution for fiscal year 1985, for humanitarian assistance in fiscal year 1985.

The House amendment contains no comparable provision.

The conference substitute is the same as the House position.

CIA/DOD

The House amendment (sec. 721(a)) provides that the assistance authorized in this section shall be provided through a U.S. agency other than the Central Intelligence Agency (CIA) or the Department of Defense (DOD).

The Senate bill contains no comparable provision.

The conference substitute is the same as the House provision. The provision in the conference report is intended to prevent the CIA or the DOD from being the agencies which administer and implement humanitarian assistance to the Nicaraguan resistance. Nothing in the provision restricts either agency from providing to other agencies of the U.S. Government advice, information, or intelligence which would be useful to the implementation of this assistance. It does proscribe these two agencies from administering the funds and from providing any military training or advice to the democratic resistance. The conference committee discussed, and the Intelligence Committees have clarified, that none of the prohibitions on the provision of military or paramilitary assistance to the democratic resistance prohibits the sharing of intelligence information with the democratic resistance.

National Security Council and Congressional Oversight

The Senate bill (sec. 1101(c)) provides that the National Security Council shall monitor the funds and that nothing in section shall impair congressional oversight.

The House amendment contains no comparable provision.

The conference substitute is the same as the House position.

Availability of assistance

The House amendment (sec. 721(a)) provides that one-third of the funds for Nicaragua shall be available every 90 days upon the submission of the report by the President.

The Senate bill contains no comparable provision.

Preventing diversion of assistance

The House amendment (sec. 723) requires the President to establish procedures to prevent diversion of assistance for military purposes.

The Senate bill contains no comparable provision.

The conference substitute is the same as the House position.

Human rights

The House amendment (sec. 723) provides that if the President determines the democratic resistance is engaged in consistent pattern of human rights violations, he shall suspend U.S. aid.

The Senate bill contains no comparable provision.

The conference substitute is the same as the Senate position.

Contadora agreement

The House amendment (sec. 721(b)) provides $2 million for implementation of a

Contadora agreement, if and when such agreement is reached.

The Senate bill contains no comparable provision.

The conference substitute is the same as the House provision.

Human rights abuses

The Senate bill (sec. 1101(e)) calls on the democratic resistance to remove from their ranks any who have engaged in human rights abuses.

The House amendment contains no comparable provision.

The conference substitute is the same as the Senate provision.

Trade embargo

The Senate bill (sec. 1101(e)) provides that, among steps the President is urged to take is the development with other countries of trade and economic sanctions "to complement the economic sanctions of the United States".

The House amendment (sec. 721(d)) contains similar language, but makes no reference to the current U.S. embargo.

The conference substitute refers to such trade and economic policies of the United States.

Reporting requirement

The Senate bill (sec. 1101(f)) requires the President to submit to the Congress every 90 days a report which includes a discussion of progress toward negotiations and steps by Contras to comply with request to remove those responsible for human rights abuses, and an accounting of the disbursement of U.S. funds.

The House amendment (sec. 721(e)) requires a similar report, which is to include a discussion of the willingness of Sandinistas and Contras to negotiate and of alleged human rights abuses by the Sandinistas and by the Contras.

The conference substitute is a combination of the two provisions.

Request for additional funds

The Senate bill (sec. 1101(i)) provides that the President may request additional assistance for the Contras, and establishes expedited procedures for Senate consideration of such a request.

The House amendment (sec. 721(f)) contains a similar provision, and also provides that the President may request assistance for a Central American peace process, and provides for expedited procedures for House consideration of such a request.

The conference substitute is a combination of the two provisions. It provides that the President may request additional authority for assistance to the democratic resistance and for a Central American peace process, and provides for expedited procedures for any such request.

TITLE VIII—AFRICA

BALANCE-OF-PAYMENTS SUPPORT FOR COUNTRIES IN AFRICA

The House amendment (sec. 801) provides that ESF Commodity Import Programs (CIP) in Africa in fiscal year 1986 and fiscal year 1987 shall be used for long-term development needs under specified criteria. Foreign currencies generated by CIP shall be deposited in special accounts for use for developmental purposes and U.S. Government requirements. AID is to conduct annual evaluations on the extent to which the ESF-financed imports meet the criteria.

The Senate bill does not contain a comparable provision.

The conference substitute is the same as the House provision with an amendment adding a provision which limits to 75 percent the amount of foreign currencies to be deposited in a special account.

It is the intention of the conferees that AID have sufficient flexibility to apply the criteria to diverse local situations with a minimum of bureaucratic impediments. It is for this reason that language such as "emphasis shall be placed," "consideration shall be given," "types of activities" and "likely recipients" has been employed. For example, AID does not have to evaluate each and every recipient of imports to make sure they will be used productively, but only groups or categories of "likely recipients." As a further illustration of the amount of flexibility the committee intends to provide, the phrase "imports for agricultural activities which will expand production" could include imports of consumer goods for farmers who, on account of the collapse of the rural trading network, have little incentive to produce for the market since they can buy little with their revenues. However, absent such specific circumstances in the agricultural sector, such imports would not be emphasized.

ECONOMIC SUPPORT ASSISTANCE FOR SOUTHERN AFRICA

(a) Funds for Southern Africa regional programs

The House amendment (sec. 802(a)) earmarks $40 million of economic support funds for regional programs in southern Africa for each of fiscal years 1986 and 1987.

The Senate bill does not contain a comparable provision.

The conference substitute earmarks not less than $30 million for each of fiscal years 1986 and 1987.

(b) South Africa Educational Training Program

The House amendment (sec. 802(b)) prohibits the use of Economic Support Fund assistance in fiscal years 1986 and 1987 for education or training programs in South Africa conducted by or through organizations in South Africa which are financed or controlled by the Government of South Africa. The ESF assistance is only to be used for programs which clearly reflect the objective of ending the apartheid system.

The Senate bill does not contain a comparable provision.

The conference substitute is the same as the House amendment with an amendment adding a provision permitting the award of university scholarships to students to choose to attend a South African Government-supported university.

(c) Human Rights Fund for South Africa

The House amendment (sec. 802(c)) earmarks not less than 50 percent of the Economic Support Funds for the Human Rights Fund for South Africa for direct legal and other assistance to political detainees and prisoners and their families in South Africa.

The Senate amendment does not contain a comparable provision.

The conference substitute amends the House amendment to earmark not less than 35 percent ESF funds for this purpose and to provide that the funds may also be used for the investigation of the killing of protestors and prisoners in South Africa.

It is the intention of the conferees that the legal and other assistance to political detainees and prisoners and their families may be made available directly or through organizations promoting human rights in South Africa such as: Black Sash, South African Council of Churches, Legal Resource Center, Black Lawyers Association, Detainees Parent Support Committees, black civic organizations, and lawyers and law firms representing specific detainees and prisoners.

POLICY TOWARD SOUTH AFRICA "HOMELANDS"

The Senate bill (sec. 926) contains a sense of Congress provision against the South African Government's homelands policy.

The House amendment does not contain a comparable provision.

The conference substitute is the same as the Senate provision.

SOUTHERN AFRICA DEVELOPMENT COORDINATION CONFERENCE EARMARK AND STUDY

The House amendment (sec. 802(a)) earmarks not less than 50 percent of the southern Africa regional ESF funding for projects supported by the Southern Africa Development Coordination Conference (SADCC). AID is to evaluate its aid to SADCC and other African regional institutions and ways to improve such assistance, study what AID mechanism might best coordinate aid to African regional institutions, and report to Congress in 3 months.

The Senate bill does not contain a comparable provision.

The conference substitute is the same as the House provision.

ASSISTANCE FOR ZAIRE

The House amendment (sec. 804) contains the following restrictions on assistance for Zaire:

(a) Economic Support Fund assistance must be provided in accord with development assistance criteria in the Foreign Assistance Act and to the maximum extent practicable through private and voluntary organizations;

(b) Military assistance is limited to $4 million for each of fiscal years 1986 and 1987; and

(c) FMS financing for Zaire for each of fiscal years 1986 and 1987 is prohibited.

The Senate bill does not contain a comparable provision.

The conference substitute is the same as the House amendment with an amendment increasing the military assistance ceiling to $7 million for each of fiscal years 1986 and 1987.

ASSISTANCE FOR TUNISIA

The Senate bill (sec. 115) earmarks $15 million MAP for Tunisia.

The House amendment (sec. 805) does not contain the earmark but does express the recognition of the traditional friendship between the United States and Tunisia and common interests in the North Africa region. It also states that U.S. assistance to Tunisia is based on the expectation of continued growth of democratic institutions within Tunisia, thereby promoting political stability and economic development.

The conference substitute combines the Senate and House provisions and earmarks not less than $15 million MAP for Tunisia. In addition to the earmarked $15 million MAP for Tunisia, the conference committee recommends that an additional $25 million of the military assistance program (MAP) account be made available for a total of $40 million in MAP for Tunisia in lieu of $25 million of Treasury rate FMS credits. The conference committee recommends this MAP level in recognition of Tunisia's difficult economic situation including its every increasing debt burden. This shift of FMS to MAP does not alter the overall program level for Tunisia in specific or the total levels of the legislation in general.

POLITICAL SETTLEMENT IN SUDAN

The House amendment (sec. 806) states it is U.S. policy that security assistance to Sudan is based on the expectation that the Government of Sudan will make progress toward settlement with all parties to the conflict in the south.

The Senate bill does not contain a comparable provision.

The conference substitute is the same as the House provision.

ELECTIONS IN LIBERIA

The House amendment (sec. 807) expresses the recognition that U.S. interests in a stable, friendly regime will be best served by legitimate civilian rule in Liberia. In this regard, security assistance to Liberia is based on the expectation of a successful completion of free and fair elections, on a multiparty basis, in October 1985, as proposed by the Government of Liberia, and a return to full civilian, constitutional rule as a consequence of such elections.

The Senate bill does not contain a comparable provision.

The conference substitute is the same as the House provision.

WESTERN SAHARA

The House amendment (sec. 808) states that it is U.S. policy to support a negotiated political solution to the conflict in the Western Sahara and to maintain direct contacts with all parties to the conflict. It also prohibits the U.S. military from performing defense services in the Western Sahara until an internationally recognized settlement is reached. It recognizes Morocco's legitimate defense needs and calls for the discouragement of aggression by any country in North Africa against another.

The Senate bill does not contain a comparable provision.

The conference substitutes is the same as the House amendment with an amendment removing the reference to direct contacts with all parties to the conflict and removing the prohibition on the U.S. military performing defense services in the Western Sahara. The amendment encourages all parties to the conflict to reach a peaceful internationally recognized settlement.

It is the committee's expectation that members of the U.S. Armed Forces would not perform defense services under the Foreign Assistance Act of 1961 or the Arms Export Control Act or conduct international military education and training activities under chapter 5 of part II of the Foreign Assistance Act of 1961 in the Western Sahara so long as there is not an internationally recognized settlement in the Western Sahara.

SAHEL DEVELOPMENT PROGRAM

The House amendment (sec. 809) authorizes the use of the funds available under the Sahel Development Program be used to help Sahelian governments improve their capabilities to meet administrative requirements resulting from donor country projects and activities.

The Senate bill does not contain a comparable provision.

The conference substitute is the same as the Senate position.

REPEAL OF THE CLARK AMENDMENT

The House amendment (sec. 811) repeals section 118 of the International Security and Development Cooperation Act of 1980 (the Clark Amendment), which prohibits assistance for military and paramilitary operations in Angola.

The Senate bill has no comparable provision; however, the Senate-passed State Department Authorization Bill contains an identical provision.

The conference substitute is the same as the House provision.

It is the intent of the Committee of Conference that the repeal of the Clark amendment not necessarily be construed to be an endorsement by the Congress of the provision of assistance of any kind, for the purpose, or which would have the effect, of promoting or augmenting, directly or indirectly, the capacity of any nation, group, organization, movement, or individual to conduct military or paramilitary operations in or against Angola. Provision of such assistance requires further legislative procedures—the appropriate authorization and appropriation bills or presentment by the President of a finding to the Select Committees on Intelligence. Any assistance for military or paramilitary operations in Angola should be considered in the context of the prospects for the achievement of an internationally recognized independence settlement in Namibia in accordance with U.N. Secretary Council Resolution 435 and its effect on the U.S. political, economic and strategic interest in Africa.

FAILURE OF THE ETHIOPIAN GOVERNMENT TO RESPONSIBLY AMELIORATE FAMINE CONDITIONS

The House amendment (sec. 813) criticizes the Government of Ethiopia for misplaced political and military priorities and negligence in failing to ameliorate tragic nutritional and health conditions due to drought and famine. It requires the President to determine "whether the Ethiopian regime is conducting a deliberate policy of starvation of its people." If the determination is affirmative, and if by joint resolution Congress approves the determination, goods and services may not be imported from Ethiopia or, except for humanitarian aid, exported to Ethiopia.

The Senate bill does not contain a comparable provision.

The conference substitute is the same as the House provision, with an amendment deleting subsection 813(a)(2) which referred to suggestions that the United States has been negligent in its efforts to ameliorate conditions in Ethiopia.

It is the intent of the conferees that nothing in this section shall be construed to limit the authority of the President to control imports and exports with respect to Ethiopia under any other provision of law. Further, prohibitions on economic assistance or exports to Ethiopia are not to be construed as preventing assistance for the relief, rehabilitation, and recovery of the Ethiopian people.

ASSISTANCE FOR THE PEOPLE'S REPUBLIC OF MOZAMBIQUE

(a) Military assistance

The Senate bill (sec. 931) prohibits military assistance to Mozambique unless the President certifies within 30 days after enactment of the bill and every 180 days thereafter that the Government of Mozambique:

(1) is making an effort to comply with internationally recognized human rights;

(2) is making continued progress in implementing economic and political reforms;

(3) has implemented a plan by September 30, 1986, to reduce the number of foreign military personnel to no more than 55; and

(4) is committed to holding free elections at a date no later than September 30, 1986.

The House amendment (sec. 1301) prohibits military assistance for Mozambique.

The conference substitute is the same as the Senate provision.

(b) Prohibition of economic assistance

The House amendment (sec. 812) prohibits economic assistance to Mozambique unless the President certifies, by September 30, 1986, that the number of foreign military advisors and troops in Mozambique does not exceed 55.

The Senate bill does not contain a comparable provision.

The conference substitute provides that bilateral assistance to Mozambique shall be used solely for assistance to the private sector of the Mozambican economy to the maximum extent practicable, and that to the maximum extent practicable, such funds also shall be channeled through nongovernmental entities in Mozambique.

AFRICA FAMINE RECOVERY DEVELOPMENT FUND

The Senate bill (sec. 308) establishes a $100 million no-year fund for long-term development in Africa.

The House amendment does not contain a comparable provision.

The conference substitute is the same as the House position and is referenced further in title X, food and agricultural assistance.

TITLE IX— ASIA

PHILIPPINES ASSISTANCE

The Senate bill (sec. 917) states the sense of the Senate about the revitalization of democracy in the Philippines and about the purpose of U.S. assistance for the Philippines. The Senate bill (sec. 101) also authorizes 30-year repayment terms for market rate FMS loans extended for the Philippines.

The House amendment (sec. 1109) states the sense of the Congress about U.S. policy objectives toward the Philippines, requires a report on achievement of these objectives and on U.S. assistance transferred to the Philippines. The House provision also contains statements on congressional oversight and requires a portion of aid to be distributed by nongovernmental organizations. The House amendment (sec. 101, sec. 103, and sec. 208) also prohibits FMS financing for the Philippines, sets a $25 million ceiling on MAP for the Philippines and earmarks $155 million ESF for the Philippines.

The conference substitute is a compromise that states the sense of Congress that the United States should encourage the restoration of democracy in the Philippines. The compromise states the intention of Congress that provision of U.S. aid to the Philippines in the future will be contingent on progress in achieving fundamental political, economic, and military reforms. The compromise specifically notes, in its provision on congressional oversight, that U.S. assistance may be deferred if significant progress is not achieved in implementing the specified reforms.

The conference substitute sets a $20 million ceiling on FMS, a $50 million ceiling on MAP and earmarks $110 million ESF for the Philippines for each fiscal year 1986 and 1987. It also makes the Philippines eligible for 30-year repayment terms on market rate FMS loans. These compromise aid figures represent a 30 percent reduction in the executive branch's request for $100 million in military aid and are an expression of the significant congressional dissatisfaction with the current situation in the Philippines.

The substitute requires that military assistance for the Philippines be used only for nonlethal defense items which the executive branch has programmed as follows:

ARMED FORCES OF THE PHILIPPINE'S (AFP) PROCUREMENT PROGRAM FOR FISCAL YEAR 1986

Types of equipment:

1. CABCOM/SUBCOM (Clark-Subic Base security)
2. Ground force spares
3. Engineer spares
4. V150 spares (armored scout cars)
5. V150 rebuild (armored scout cars)
6. Helicopter spares
7. Air Force (F8/T28/C130) spares
8. Shipyard and service craft operation
9. Ship overhaul/life extension
10. Ship operating cost
11. Navy MIT/Subic OJT (training)
12. Fixed commo spares
13. Aircraft tech assistance/TCP, F-5
14. Publications
15. Dataphone support
16. Calibration support
17. MIT/OJT. (training)
18. Comm. elec. equipment (PADS)
19. Tactical commo
20. Engineer equipment
21. Cargo truck two and one-half ton (90 each)

Total

The conferees direct the executive branch to channel Public Law 480 and other economic assistance to the Philippines through private voluntary organizations, cooperatives and other nongovernmental organizations, to the maximum extent feasible. It recommends, as a target, that 25 percent of U.S. economic aid (other than the ESF program), be channeled through nongovernmental organizations.

PHILIPPINES WHEAT PURCHASE

The Senate bill (sec. 916) states the sense of the Senate that the State Department should not prevent U.S. wheat sales to the Government of the Philippines.

The House amendment does not contain a comparable provision.

The conference substitute is the same as the House position.

DISADVANTAGED CHILDREN IN ASIA

The House amendment (sec. 314) amends section 241 of the Foreign Assistance Act to direct the President to report to the Congress regarding the quality of life of Amerasian children and to recommend steps which the United States could take to enhance the lives of these children.

The Senate bill does not contain a comparable provision.

The conference substitute is the same as the House provision.

AFGHANISTAN

The House amendment (sec. 1111) earmarks $15 million in development assistance of ESF funds annually beginning in fiscal year 1986 for humanitarian assistance to the Afghan people.

The Senate bill (sec. 910) earmarks $15 million in ESF funds beginning in fiscal year 1985 for such purposes.

The conference substitute earmarks $15 million in ESF funds annually beginning in fiscal year 1986 for humanitarian assistance to the Afghan people. The conferees recognize that the nature of the assistance to be provided requires some degree of flexibility in the application of standard audit procedures and requirements.

ASSISTANCE FOR NON-COMMUNIST CAMBODIAN RESISTANCE FORCES

The Senate bill (sec. 933) authorizes up to $5 million for fiscal year 1986 for MAP and ESF assistance for Cambodian non-Communist resistance forces. It further authorizes section 924 such assistance provided ASEAN countries also make assistance available. The Senate bill (sec. 914) also prohibits funds under any act from being used to aid the Khmer Rouge.

The House amendment (sec. 206) authorizes up to $5 million for each fiscal year 1986 and 1987 for MAP and ESF for the same purpose but with no reference to the need for ASEAN aid. The House amendment (sec. 207) also prohibits funds under this act from being used to aid the Khmer Rouge.

The conference substitute is a compromise that authorizes $5 million for each of fiscal years 1986 and 1987 for MAP and ESF assistance for Cambodian non-Communist resistance forces and also prohibits funds under any act from being used to aid the Khmer Rouge.

The conferees emphasize that the U.S. contribution authorized by this provision is not intended to replace or preempt aid provided by the Association of Southeast Asian Nations (ASEAN) and by other supporters of the non-Communist Cambodian resistance forces. The conferees believe that ASEAN should continue to play the lead role in finding a solution to the Cambodian problem and that any U.S. involvement should be clearly secondary to that of ASEAN. The conferees that the nature of the assistance to be provided required some degree of flexibility in the application of standard audit procedures and requirements.

SRI LANKA

The House amendment (sec. 1110) states the sense of Congress that all parties in Sri Lanka should renew their efforts to achieve a joint political settlement which meets the legitimate concerns of all the people of Sri Lanka.

The Senate bill does not contain a comparable provision.

The conference substitute is the same as the House provision with an amendment which makes clear that Congress believes that the Sri Lankan Government must intensify efforts to put an end to abuses by the Sri Lankan security forces.

U.S. POLICY TOWARD THE REPUBLIC OF KOREA

The House amendment (sec. 1108) states the sense of Congress that the continuing close relations between the Republic of Korea and the United States will encourage the establishment of a genuinely democratic system in Korea in which internationally recognized human rights are observed.

The Senate bill does not contain a comparable provision.

The conference substitute is the same as the House provision.

REPUBLIC OF CHINA MEMBERSHIP IN ASIAN DEVELOPMENT BANK

The Senate bill (sec. 930) contains a provision that states the sense of the Senate that the Republic of China should remain a full member of the Asian Development Bank and that President and Secretary of State should make clear the United States is opposed to administrative changes affecting the status and designation of members of the ADB.

The House amendment does not contain a comparable provision.

The conference substitute is the same as the House position.

TITLE X—FOOD AND AGRICULTURAL ASSISTANCE

INTERNATIONAL FUND FOR AGRICULTURAL DEVELOPMENT AND AFRICAN AGRICULTURAL DEVELOPMENT

The Senate Bill (sec. 302(b)) expresses the sense of Congress that the President should continue U.S. participation in the International Fund for Agricultural Development (IFAD), that funds for the second IFAD replenishment will be authorized for appropriation upon the President's recommendation, that the United States should provide a special contribution to IFAD for a special fund for Sub-Saharan African countries affected by drought and desertification, and that such objectives should be accomplished through a reprogramming of existing appropriations or other procedures to keep international affairs spending within congressional budget resolution targets. The Senate bill also (sec. 308) reaffirms the commitment of the American people to assist the famine-threatened Sub-Saharan countries and authorizes up to $100 million from any Foreign Assistance Act funds to be used for long-term agricultural recovery and development of the Sub-Saharan Africa region.

The House amendment (sec. 901) amends section 103(g) of the Foreign Assistance Act to authorize continued U.S. participation in IFAD and authorizes the appropriation of such sums as may be necessary to meet the U.S. pledge for the second IFAD replenishment. The House amendment (sec. 912) also expresses the sense of Congress that the programs carried out by IFAD and those carried out pursuant to the Agricultural Trade Development and Assistance Act of 1954 (Public Law 480) are valuable programs and should receive adequate funding to carry out their purposes.

The conference substitute amends section 103(g) of the Foreign Assistance Act to authorize continued U.S. participation in IFAD and up to $50 million each year in fiscal years 1986 and 1987 for U.S. contributions to the second IFAD replenishment, the funds to be available from the aggregate amounts authorized for part I (economic assistance) of the Foreign Assistance Act.

The conferees reaffirm the U.S. commitment to assist in the relief and development of Sub-Saharan African countries afflicted by drought and famine. They note that substantial amounts are currently being devoted to this purpose and will continue to be made available under this act, and that existing authorities allow for a U.S. contribution to a special IFAD fund for Sub-Saharan countries if warranted.

PUBLIC LAW 480

Certain issues before the Committee of Conference involved matters that, in the Senate, are under the jurisdiction of the Committee on Agriculture, Nutrition, and Forestry. Provisions in the House amendment to the Senate bill which fall into this category were acted on in Conference between the House Managers and those representing the Senate Committee on Agriculture, Nutrition, and Forestry. While the Senate bill did not contain comparable provisions on these subjects, the Managers recognized and gave consideration to the fact that the Committee on Agriculture, Nutrition, and Forestry has reviewed and tentatively acted on many of these issues in its mark-up of omnibus farm legislation. It is anticipated that the provisions in the House amendment in this area which were not adopted because of the need for further consideration on the part of the Senate Managers, and comparable provisions considered by the Senate Committee on Agriculture, Nutrition, and Forestry that were not adopted in this Conference, will be available for consideration at a future date.

Following is the action of the Committee of Conference with respect to provisions in the above category:

(a) Public Law 480 title II minimums

The House amendment (sec. 902) amends section 201(b) of the Agricultural Trade Development and Assistance Act of 1954 (Public Law 480) to increase the minimum and subminimum required for distribution of U.S. agricutlural commodities abroad under the title II humanitarian donations program of that act. Under present law the minimum for each fiscal year is 1.7 million metric tons, of which a subminimum of not less than 1.2 million metric tons shall be for nonemergency programs distributed through nonprofit voluntary agencies and the World Food Program. This amendment increases the minimum and subminimum each by 100,000 tons a year for 3 years, starting in fiscal year 1987, so that by fiscal 1989 the minimum will be 2 million tons annually and the subminimum will be 1.5 million tons.

The Senate bill does not contain a comparable provision.

The Conference substitute provides that the minimums and subminimums are required to be distributed as follows: for fiscal year 1986, a minimum of 1.8 million metric tons, with the subminimum at 1.3 million metric tons; and for fiscal year 1987, a minimum of 1.9 million tons, with a subminimum of 1.425 million metric tons.

(b) Express authority for title II direct distribution, sale, and barter

The House amendment (sec. 903) amends section 202(a) of the Agricultural Trade Development and Assistance Act of 1954 (Public Law 480) by inserting, after the first sentence, the following new sentence: "Such commodities may be furnished for direct distribution, sale, barter, or other appropriate disposition in carrying out the purposes set forth in section 201." The House amendment also expresses the sense of Congress on what are the general categories for sale and barter of commodities under section 202(a) of Public Law 480.

The Senate bill does not contain a comparable provision.

The conference substitute consists of the new sentence for section 202(a) of Public Law 480 that was contained in the House amendment. The amendment provides explicit authority for direct distribution, sale, and barter of commodities provided under title II. The conferees note that cooperatives are eligible recipients under current law, as are nonprofit voluntary agencies, and that this explicit authority is applicable to cooperatives as well as to nonprofit voluntary agencies.

(c) Role of private voluntary organizations and cooperatives

The House amendment (sec. 904) amends the Agricultural Trade Development and Assistance Act of 1954 (Public Law 480) in two respects. Subsection (a) adds to subsection 201(b) of Public Law 480 a new paragraph (4) applying to title II humanitarian donation programs. It provides that for commodities distributed under title II by nonprofit voluntary agencies, consideration shall be given to the nutritional and development objectives which are established by those agencies from their assessment of the needs of the people receiving the food. Subsection (b) amends section 302(c) of Public Law 480, which currently provides that in developing and carrying out title II—food for development programs—consideration shall be given to using the capability and expertise of U.S. agriculture. The amendment adds U.S. nonprofit voluntary agencies and cooperatives to those who are to receive such consideration.

The Senate bill contains no comparable provision.

The conference substitute is the same as the House provision.

(d) Multiyear agreements with PVO's and cooperatives

The House amendment (sec. 905) amends section of the Agricultural Trade Development and Assistance Act of 1954 (Public Law 480) to add a new provision as follows:

(1) The President is encouraged, in agreements with nonprofit voluntary agencies for nonemergency, in agreements with nonprofit voluntary agencies for nonemergency title II programs, to make multiyear commitments for agricultural commodity supplies for those projects when requested by the PVO involved (such commitments being subject to the availability of the commodities and necessary appropriations);

(2) This multiyear provison does not apply to instances in which the President determines an agreement should be limited to a single year because of past performance of the applying PVO or because the agreement involves a new program; and

(3) Under a multiyear agreement pursuant to this provision a PVO will not be required to get annual U.S. Government approval to continue its program under the agreement, unless exceptional and unforeseen circumstances have occurred which the President determines require such approval.

The Senate bill contains no comparable provision.

The conference substitute is the House provision with the addition that cooperatives are included along with nonprofit voluntary agencies.

(e) Title II programming reports

Section 909 of the House amendment amends section 408(b) of Public Law 480. Section 408(b) presently requires a report to Congress by September 30 of each year on the planned programming of food assistance for the coming fiscal year under title I of Public Law 480. Further reports on planned programming of title I food assistance are required by December 31 and June 30 of each year. This amendment applies the same reporting requirement to food assistance provided under title II of the Public Law 480.

The Senate bill contains no comparable provision.

The conference substitute is the same as the House provision.

(f) Eligible commodities under section 416(b)

The House amendment amends subsection (b) of section 416 of the Agricultural Act of 1949. At present, subsection 416(b) authorizes the Secretary of Agriculture to distribute abroad diary products and wheat acquired by the Commodity Credit Corporation through price support operations. The House amendment adds rice to the eligibility list.

The Senate bill contains no comparable provision.

The conference substitute is the same as the House provision. The conferees also intend that the Secretary of Agriculture use his authority under section 416(b) with regard to wheat.

(g) Other Public Law 480 provisions

The following provisions of the House amendment are not included in the conference substitute: section 906 (child immunization), section 907 (use of local currencies for education programs under title III), section 908 (farmer-to-farmer program), and section 910 (food for progress program and private enterprise promotion).

LONG TERM AGRICULTURAL COMMODITY AGREEMENTS WITH FOOD DEFICIT COUNTRIES

The Senate bill (sec. 913) provides that as part of the U.S. foreign assistance program, the President should explore the possibility of concluding long-term agricultural commodity agreements to help stabilize and increase the flow of concessional and commercial food stuffs with food deficit countries. The President is directed to report to Congress by June 1, 1986, on his efforts to achieve such agreements.

The House amendment contains no comparable provision.

The conference substitute is the same as the Senate provision.

TITLE XI—PEACE CORPS

In addition to the $130 million authorized to be appropriated for each of fiscal years 1986 and 1987, additional funds are authorized to be transferred to the Peace Corps by the President pursuant to new section 435 of the Foreign Assistance Act for use to carry out the purposes of the Peace Corps Act in Central American countries. The conferees stress that the availability of these additional funds is not intended in any way to alter the fundamental precept that the Peace Corps is not be used as an instrument of U.S. foreign policy.

NUMBER OF PEACE CORPS VOLUNTEERS

The House amendment (section 1002) amends section 2 of the Peace Corps Act to declare that it is the policy of the United States and a purpose of the Peace Corps to provide, to the maximum extent possible, opportunities for service in the Peace Corps for at least 10,000 individuals by the end of fiscal year 1989 and thereafter and requires the President to include in the annual report on the Peace Corps to the Congress a description of the plans developed and implemented to carry out the at-least-10,000-voluntary policy.

The Senate bill contains no comparable provision.

The conference substitute declares that the policy and purpose of the Peace Corps is to provide sufficient opportunities for service to maintain a volunteer corps of at least 10,000 to the maximum extent appropriate and consistent with programmatic and fiscal considerations.

LIMITATION ON LENGTH OF PEACE CORPS EMPLOYMENT

The House amendment (sec. 1003) amends section 7 of the Peace Corps Act to extend from five to seven and one-half years the general maximum duration of the period that a United States citizen may be employed by the Peace Corps.

The Senate bill contains no comparable provision.

The conference substitute contains the provision in the House amendment with the following modifications. The substitute specifies four purposes for which appointments of U.S. citizens in excess of five years may be made: (I) to permit Peace Corps employees who have served at least two and one-half years abroad to serve in the United States, (II) to permit Peace Corps employees who have served at least two and one-half years in the United States to serve abroad, (III) to permit Peace Corps employees who have served at least two and one-

half in a recruitment, selection, or training activity in the United States or abroad to be reassigned to an activity other than the one in which they most recently served, or (IV) to promote the continuity of functions in administering the Peace Corps. Also, the total number of appointments or assignments of U.S. citizens in effect at any one time for more than five years may not exceed fifteen percent of the total of all appointments or assignments of U.S. citizens at that time. Without regard to these limitations on the number of U.S. citizen employees who may be employed, and on the purposes for which they may be employed, for more than five years, under special circumstances the Director of the Peace Corps may personally extend on an individual basis an employee's service up to one year beyond five years. This authority is in addition to the director's existing authority, under the same terms and conditions, to provide up-to-one-year extensions of the general limitation—increased from five years to seven and one-half years by the conference substitute—on the duration of U.S. citizens' Peace Corps employment.

The conference substitute also requires a report to the Senate Committee on Foreign Relations and the House Committee on Foreign Affairs by January 1, 1986, on the criteria to be used in exercising the Authority to employ U.S. citizens for up to seven and one-half years and annual reports thereafter on the exercise of that authority and the director's authorities personally to approve one-year extensions.

According to the Peace Corps, the current Director of the Peace Corps has used the one-year extension authority less than seventy times over the last four and one-half years. The conferees expect that this extraordinary authority will continue to be exercised in such a sparing fashion.

PEACE CORPS NATIONAL ADVISORY COUNCIL

The Senate bill (sec. 602) amends the Peace Corps Act to add a new section 12 requiring the establishment of the Peace Corps National Advisory Council. The Council consists of fifteen voting members appointed by the President, the Secretary of State as a voting member *ex officio*, and the Director and Deputy Director of the Peace Corps as non-voting members *ex officio*, with the Council required to advise and make recommendations to the President and the Peace Corps Director and to report periodically and make recommendations to the Congress. Effective sixty days after the date of enactment, the Senate provision terminates any existing, administratively-established advisory council.

The House amendment contains no comparable provision.

The conference substitute is substantively similar to the Senate bill except that the Council is to report and make recommendations to the Congress only as the Council considers it appropriate to do so; the requirement for members of the Council to inspect Peace Corps activities is expressly made subject to provisions specifying the daily rate of compensation for members who are not federal employees and requiring that, for a member's travel to be paid for by the government, the Director of the Peace corps must determine that the travel is necessary for the performance of duties as a Council member; the Secretary of State is made a non-voting, rather than a voting, member *ex officio* and is authorized to be represented on the Council by a State Department officer or employee designated by the Secretary; and the Administrator of AID is added as a non-voting member *ex officio* and may be represented by an AID officer or employee designated by the Administrator.

NONPARTISAN APPOINTMENTS

The Senate bill (sec. 603) adds a new section 25 to the Peace Corps Act to prohibit the use of any political test or political qualification in the selection of individuals for overseas Peace Corps positions or in the promotion or the taking of any other personnel action with respect to overseas Peace Corps personnel.

The House amendment contains no comparable provision.

The conference substitute is the same as the Senate bill.

PEACE CORPS TECHNICAL PUBLICATIONS

The House amendment (sec. 1004) amends section 15 of the Peace Corps Act to authorize the Peace Corps to sell its technical publications at cost and to provide that, to the extent provided in advance in appropriations acts, up to $200,000 of the proceeds of these sales annually may be credited to the current Peace corps appropriations.

The Senate bill contains no comparable provision.

The conference substitute is the same as the Senate position.

TITLE XII—MISCELLANEOUS PROVISIONS RELATING TO FOREIGN ASSISTANCE

CONGRESSIONAL NOTIFICATION REGARDING CERTAIN AUTHORITIES RELATING TO HUMAN RIGHTS CONCERNS

The House amendment (sec. 1101) amends section 502B of the Foreign Assistance Act to add a new subsection (g) requiring a Presidential report to the Congress before funds can be made available to any country after a determination has been made that such a significant improvement in the country's human rights record has occurred as to warrant providing or increasing assistance.

The Senate bill does not contain a comparable provision.

The conference substitute is the same as the House provision.

PROHIBITIONS AGAINST ASSISTANCE

The Senate bill (sec. 903) amends section 620(f) of the Foreign Assistance Act, which prohibits assistance under that act to Communist countries, to add a new paragraph authorizing the President to remove any country from application of the subsection when he determines and reports to Congress that such action is important to the national interest of the United States.

The House amendment (sec. 1102) contains the same provision with the addition of sense of Congress language that when consideration is given to authorizing assistance to a country removed from the application of section 620(f), one of the factors to be weighed is whether the country in question is giving evidence of fostering the establishment of a genuinely democratic system, with respect for internationally recognized human rights.

The conference substitute is the same as the House provision.

REPORTS ON ECONOMIC CONDITIONS IN CERTAIN COUNTRIES

The House amendment (sec. 1106) states a congressional finding concerning the external debt burdens of Egypt, Israel, Turkey, and Portugal and requiring a Presidental report on the economic conditions in these countries.

The Senate bill does not contain a similar provision.

The conference substitute is the same as the House provision.

EGYPTIAN-ISRAELI RELATIONS

The House amendment (sec. 1107) contains a provision expressing the sense of Congress that U.S. foreign assistance to Egypt is provided in the expectation that Egypt will continue in its efforts to bring peace to the region and that it will continue to support and fulfill the provisions of the Camp David Accords and the Egyptian-Israeli Peace Treaty, including the return of the Egyptian Ambassador to Israel.

The Senate bill contains no comparable provision.

The conference substitute is similar to the House amendment without referring to any specific issues between Egypt and Israel. The conferees note the recent efforts of Egypt to move the peace process forward and hope that the many irritants in Egyptian-Israeli relations can be resolved in the coming months so that the Egyptian-Israeli relationship can continue to grow.

PROCUREMENT OF CONSTRUCTION AND ENGINEERING SERVICES

The Senate bill (sec. 901) amends section 604(g) of the Foreign Assistance Act of 1961 to enable construction and engineering firms from advanced aid-recipient countries to bid on certain AID construction and engineering contracts.

The House amendment (sec. 1202) contains the same provision with a further condition for eligibility that such countries, which have their own foreign assistance programs, must permit U.S. firms to compete for construction and engineering in their foreign assistance programs.

The conference substitute is the same as the House provision.

REPROGRAMMING NOTIFICATIONS

The House amendment (sec. 1204) amends section 634A of the Foreign Assistance Act to provide that the Senate Foreign Relations Committee and the House Foreign Affairs Committee be notified of reprogrammings to the same degree and with the same conditions as notification to the appropriations committees.

The Senate bill has no comparable provision.

The conference substitute is the same as the House provision.

STREAMLINING OF REPROGRAMMING NOTIFICATIONS

The Senate bill (sec. 905) amends section 634A of the Foreign Assistance Act to provide a dollar threshold ($25,000) for reprogramming under 634A. AID need not notify Congress unless a proposed reprogramming exceeds by more than 10 percent the amount already justified to Congress for an activity in a fiscal year.

The House amendment (sec. 123) contains the same language, except there is no AID provision.

The conference substitute is the same as the Senate provision.

PARTICIPANT TRAINEE GRANTS

The Senate bill (sec. 909) amends the Internal Revenue Code to exempt from withholding or deduction scholarships, fellowships, or per diem provided to nonresident aliens receiving training in the United States under the Foreign Assistance Act.

The House amendment did not contain a comparable provision.

The conference substitute is the same as the House position.

REPEAL OF PROVISIONS

The Senate bill repealed subsection 306(b) of the Foreign Assistance Act which requires a semiannual report from the President listing all voluntary contributions by the U.S. Government to international organizations.

The Hosue amendment contained no comparable provision.

The conference substitute is the same as the House provision.

REPORT ON U.S. ASSISTANCE TO COAL EXPORTING NATIONS

The Senate (in sec. 117 of S. 1003, the Department of State Authorization) directs the Export-Import Bank to provide a report on assistance which other countries provide to the production and exportation of coal.

The House amendment contains no comparable provision.

The conference substitute is the Senate provision, with an amendment directing the President rather than the Export-Import Bank to conduct the study and requiring the report be submitted to the Speaker of the House and the President pro tem of the Senate.

TITLE XIII—MISCELLANEOUS PROVISION

CODIFICATION OF POLICY PROHIBITING NEGOTIATIONS WITH THE PALESTINE LIBERATION ORGANIZATION

The Senate bill (sec. 912) makes a congressional finding of what has been U.S. policy toward the Palestine Liberation Organization (PLO) based on the memorandum of agreement with Israel in 1975 and reaffirms that policy. It states that no officer or employee of the U.S. Government shall negotiate with the PLO, except in emergency or humanitarian situations, unless and until the PLO recognizes Israel's right to exist, accepts U.N. Security Council Resolutions 242 and 338, and renounces the use of terrorism.

The House bill (sec. 1206) contains an almost identical provision.

The conference substitute is similar to the House and Senate provisions, restates what has been policy since 1975, reaffirms and codifies that policy and the circumstances under which the United States will negotiate with the PLO, and allows for an exception to the policy of no negotiations with the PLO in emergency and humanitarian situations.

COMMISSION FOR THE PREVENTION OF AMERICA'S HERITAGE ABROAD

The House amendment (sec. 1207) provides for the establishment of a 21-member Commission for the preservation of America's Heritage Abroad. The purpose of the Commission is to encourage the preservation and protection of cemeteries, monuments, and historic buildings associated with the foreign heritage of U.S. citizens from Eastern Europe, since such preservation is recognized as being in the national interest of the United States.

The Senate bill (sec. 928(a)) provides for a similar Commission with five members.

The conference substitute is a modification of the House amendment providing that all 21 members of the Commission will be appointed by the President, but 7 of those chosen will be from nominees of the Speaker of the House of Representatives and 7 will be from nominees of the President pro tempore of the Senate. The Chairman of the Commission shall be designated by the President from among Commission members.

FEDERAL COAL EXPORT COMMISSION

The House amendment (sec. 1213) directs the Secretary of Commerce to establish a Federal Coal Export Commission.

The Senate bill has no comparable provision.

The conference substitute is the House provision.

OTHER PROVISIONS

Both the Senate and the House amendment contain a number of provisions which the committee of conference determined should be conferenced in a more appropriate bill. Those provisions, which were therefore dropped without prejudice, are as follows:

Extradition treaties

The Senate bill (sec. 1011) provides that the Secretary of State, with the assistance of the National Drug Enforcement Policy Board, shall increase U.S. efforts to negotiate updated extradition treaties relating to narcotics offenses, particularly with Latin American countries.

The House amendment contains no such provision, although a similar provision is contained in H.R. 2068, the State Department authorization bill.

The conferees agreed to include this provision in the State Department conference agenda.

International Narcotics Control Commission

The Senate bill (sec. 922) establishes an international narcotics control commission which would monitor compliance with international narcotics treaties.

The House amendment contains no comparable provision.

The conferees agreed to include this provision in the State Department conference agenda.

U.S. Scholarship Program for developing countries

The House amendment (title VI) establishes specific authority for an undergraduate scholarship program for students of limited financial means, sets conditions on the form of grants and loans, and authorizes funds in USIA and AID for Latin American and Caribbean students.

The Senate bill contains no comparable provision, although a similar provision is contained in the State Department authorization bill, including a requirement for a study on Hispanic training.

The committee of conferees agreed to include this provision in the State Department conference agenda.

National Endowment for Democracy Programs in South Africa

The House amendment (sec. 803) states the sense of the Congress that up to $500,000 in USIA funds should be made available to the National Endowment for Democracy to finance programs to promote democracy and end apartheid.

The Senate bill contains no comparable provision.

The conferees agreed to include this provision in the State Department conference agenda.

Soviet policy regarding Soviet Jewry

The House amendment (sec. 1208) contains a provision which calls on the Soviet Union to release Anatoly Shcharansky and a number of other Soviet citizens, and to issue exit visas to "refuseniks."

The Senate bill contains no comparable provision.

The conferees agreed to include this provision in the State Department conference agenda.

Japanese self-defense responsibilities

The House amendment (sec. 1209) contains findings concerning the U.S.-Japanese security relationship and states the sense of Congress that Japan should take steps to make a more effective contribution to its own defense.

The Senate bill contains no comparable provision, although a similar provision is contained in the State Department authorization bill.

The conferees agreed to include this provision in the State Department conference agenda.

Policy regarding foreign exchange intervention

The Senate bill (sec. 921) includes sense of Congress language calling on the Secretary of the Treasury and the Chairman of the Federal Reserve Board to take necessary steps to lower the value of the dollar in foreign exchange markets.

The House amendment does not contain a comparable provision.

The conferees agreed to include this provision in the State Department conference agenda.

Crisis stability and control study

The House amendment (sec. 1211) calls on the Secretary of State and the Dirctor of ACDA to conduct a study by July 1, 1986, on measures to enhance U.S. security and reduce the likelihood of nuclear weapons use by contributing to crisis control capabilities.

The Senate bill contains no comparable provision.

The conferees agreed to include this provision in the State Department conference agenda.

Arms control building in Geneva

The Senate bill (sec. 915) states the sense of the Senate that the Secretary of State should report to the Congress on the feasibility of a structure in Geneva to house the U.S. arms control negotiating teams.

The House amendment contains no comparable provision.

The conferees agreed to include this provision in the State Department conference agenda.

Delays in construction of U.S. Embassy in Moscow

The House amendment (sec. 1212) directs the Secretary of State to begin the international arbitration process to resolve U.S. claims against the Soviet Union because of delays in construction of the U.S. Embassy in that country.

The Senate bill contains no comparable provision.

The conferees agreed to include this provision in the State Department conference agenda.

Representation of women and minorities in the Foreign Service

The House amendment (sec. 1214) directs agencies using the Foreign Service to develop affirmative action efforts to increase the number of women and minorities in their agencies and to report to the Congress annually on their efforts.

The Senate bill contains no comparable provision.

The conferees agreed to include this provision in the State Department conference agenda.

Employees of the United Nations

The House amendment (sec. 1215) directs the Secretary of State to report on those international civil servants at the United Nations required to return their salaries to their governments.

The Senate bill contains no comparable provision.

The conferees agreed to include this provision in the State Department conference agenda.

Refugees in Thailand

The House amendment (sec. 1216) states the sense of the Congress in opposition to involuntary repatriation of Cambodian, Lao, and Vietnamese refugees in Thailand and calls for a humanitarian solution to the plight of Cambodian refugees.

The Senate bill contains no comparable provision.

The conferees agreed to include this provision in the State Department conference agenda.

Imports of South African coal and uranium

The House amendment (Title XIV) prohibits importation of coal, uranium ore and uranium oxide from South Africa and Namibia into the United States.

The Senate bill contains no comparable provision.

The conferees agreed to include this provision in the South Africa sanctions conference agenda.

Managers on the Part of the Senate.

SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Members (at the request of Mr. HENRY) to revise and extend their remarks and include extraneous material:)

Mr. PORTER, for 10 minutes, July 31.

Mr. LEACH of Iowa, for 30 minutes, today.

Mr. MCEWEN, for 15 minutes, today.

(The following Members (at the request of Mr. VENTO) to revise and extend their remarks and include extraneous material:)

Mr. MONTGOMERY, for 5 minutes, today.

Mr. ANNUNZIO, for 5 minutes, today.

Mr. BREAUX, for 60 minutes, today.

EXTENSION OF REMARKS

By unanimous consent, permission to revise and extend remarks was granted to:

(The following Members (at the request of Mr. HENRY) and to include extraneous matter:)

Mr. CONTE.

Mrs. ROUKEMA.

Mr. DIOGUARDI.

Mr. ROTH.

Mr. LEACH of Iowa.

(The following Members (at the request of Mr. VENTO) and to include extraneous matter:)

Mr. ANDERSON in 10 instances.

Mr. GONZALEZ in 10 instances.

Mr. BROWN of California in 10 instances.

Mr. ANNUNZIO in six instances.

Mr. JONES of Tennessee in 10 instances.

Mr. BONER of Tennessee in five instances.

Mr. PEASE in two instances.

Mr. FASCELL.

Mr. LANTOS.

Mr. MURTHA.

Mr. KOSTMAYER.

Mr. FORD of Tennessee.

Mr. KASTENMEIER in four instances.

Mr. HALL of Ohio.

Mr. KASTENMEIER.

Mr. YOUNG of Missouri.

SENATE JOINT RESOLUTION REFERRED

A joint resolution of the Senate of the following title was taken from the Speaker's table and, under the rule, referred as follows:

S.J. Res. 168. Joint resolution designating August 13, 1985, as "National Neighborhood Crime Watch Day"; to the Committee on Post Office and Civil Service.

ADJOURNMENT

Mr. VENTO. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 2 o'clock and 10 minutes p.m.) the House adjourned until tomorrow, Tuesday, July 30, 1985, at 12 o'clock noon.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 2 of rule XXIV, executive communications were taken from the Speaker's table and referred as follows:

1777. A communication from the President of the United States, transmitting a request for supplemental appropriations for fiscal year 1985 for the Small Business Administration, pursuant to 31 U.S.C. 1107 (H. Doc. No. 99-88); to the Committee on Appropriations and ordered to be printed.

1778. A communication from the President of the United States, transmitting amendments to the request for appropriations for fiscal year 1986, pursuant to 31 U.S.C. 1107 (H. Doc. No. 99-89); to the Committee on Appropriations and ordered to be printed.

1779. A letter from the Secretary of the Treasury, transmitting the annual report on "The Activities of the Depository Institutions Deregulation Committee and the Viability of Depository Institutions," pursuant to 12 U.S.C. 3505; to the Committee on Banking, Finance and Urban Affairs.

1780. A Letter from the Secretary of Education, transmitting the annual report for the National Technical Institute for the Deaf, pursuant to Public Law 89-36, section 5(b)(3); to the Committee on Education and Labor.

1781. A letter from the Assistant Legal Adviser for Treaty Affairs, Department of State, transmitting copies of international agreements, other than treaties, entered into by the United States, pursuant to 1 U.S.C. 112b(a); to the Committee on Foreign Affairs.

1782. A letter from the Assistant Secretary of the Treasury (Management), transmitting notice of an altered Federal records system, pursuant to U.S.C. 552a(o); to the Committee on Government Operations.

1783. A letter from the Plan Administrator, Farm Credit Retirement Plan, Production Credit Association's Retirement Plan, transmitting the calendar year 1984 reports for the farm credit retirement plan and the Production Credit Association's retirement plan, pursuant to 31 U.S.C. 9503(a)(1)(B); to the Committee on Government Operations.

1784. A letter from the Administrator, Veterans' Administration, transmitting a draft of proposed legislation to amend title 38, United States Code, to remove the requirement that the Administrator administer garage and parking appropriations and fees as a revolving fund; to the Committee on Veterans' Affairs.

1785. A letter from the Comptroller General of the United States, transmitting a report entitled: "Urban Mass Transportation Administration's New Formula Grant Program: Operating Flexibility and Process Simplification"; jointly, to the Committee on Government Operations and Public Works and Transportation.

1786. A letter from the Comptroller General of the United States, transmitting a

review of the audits of the trans-Alaska pipeline liability fund's statements for the years ended December 31, 1983 and 1984, pursuant to 43 U.S.C. 1653(c)(4); jointly, to the Committee on Government Operations, Interior and Insular Affairs, and Energy and Commerce.

REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Ms. OAKAR: Committee on Post Office and Civil Service. H.R. 3008. A bill to promote equitable pay practices and to eliminate discrimination within the Federal civil service; with amendments (Rept. 99-232). Referred to the Committee of the Whole House on the State of the Union.

Mr. UDALL: Committee on Interior and Insular Affairs House Joint Resolution 299. Joint resolution recognizing the accomplishments over the past 50 years resulting from the passage of the Historic Sites Act of 1935, one of this Nation's landmark preservation laws. (Rept. 99-233). Referred to the House Calendar.

Mr. UDALL: Committee on Interior and Insular Affairs. H.R. 1092. A bill to amend the Alaska Native Claims Settlement Act; with an amendment (Rept. 99-234). Referred to the Committee of the Whole House on the State of the Union.

Mr. ASPIN: Committee of Conference. Conference report on S. 1160 (Rept. 99-235). Ordered to be printed.

Mr. WHITTEN: Committee of conference. Conference report on H.R. 2577 (Rept. 99-236). Ordered to be printed.

Mr. FASCELL: Committee of conference. Conference report on S. 960 (Rept. 99-237). Ordered to be printed.

PUBLIC BILLS AND RESOLUTIONS

Under clause 5 of rule X and clause 4 of rule XXII, public bills and resolutions were introduced and severally referred as follows:

By Mr. FEIGHAN:

H.R. 3095. A bill to repeal provisions of law authorizing the provisional listing of color additives; to the Committee on Energy and Commerce.

By Mr. LUJAN:

H.R. 3096. A bill to amend the Internal Revenue Code of 1954 to provide an additional personal exemption for single taxpayers maintaining a household with dependent children; to the Committee on Ways and Means.

By Mr. HOYER (for himself, Mr. FASCELL, Mr. YATES, Mr. MARKEY, Mr. RITTER, Mr. SMITH of New Jersey, Mr. PORTER, Mr. GILMAN, Mr. FOWLER, and Mr. WIRTH):

H.J. Res. 361. Joint resolution commemorating the 10th anniversary of the signing of the Helsinki Final Act; to the Committee on Foreign Affairs.

MEMORIALS

Under clause 4 of rule XXII, memorials were presented and referred as follows:

222. By the SPEAKER: Memorial of the Legislature of the State of California, relative to Turkey; to the Committee on Foreign Affairs.

223. Also, memorial of the Legislature of the State of California, relative to refugees from El Salvador; to the Committee on the Judiciary.

224. Also, memorial of the Legislature of the State of Tennessee, relative to the compensation of Members of Congress; to the Committee on the Judiciary.

225. Also, memorial of the Legislature of the State of California, relative to coastal zone management; to the Committee on Merchant Marine and Fisheries.

226. Also, memorial of the Legislature of the State of California, relative to the United Airlines-Pan American World Airways agreement; to the Committee on Public Works and Transportation.

227. Also, memorial of the Legislature of the State of California, relative to the importation of pistachios; to the Committee on Ways and Means.

228. Also, memorial of the Legislature of the State of Utah, relative to the copper industry; to the Committee on Ways and Means.

229. Also, memorial of the Legislature of the State of New York, relative to foreign forest products imports; to the Committee on Ways and Means.

230. Also, memorial of the Legislature of the State of California, relative to international trade; jointly, to the Committees on Banking, Finance and Urban Affairs and Ways and Means.

231. Also, memorial of the Legislature of the State of California, relative to the Employee Retirement Income Security Act; jointly, to the Committees on Education and Labor and Ways and Means.

232. Also, memorial of the Legislature of the State of California, relative to vessel air emission standards; jointly, to the Committees on Merchant Marine and Fisheries and Energy and Commerce.

PRIVATE BILLS AND RESOLUTIONS

Under clause 1 of rule XXII,

Mr. YOUNG of Alaska introduced a bill (H.R. 3097) for the relief of the vessel *Alaskan Shores*; to the Committee on Merchant Marine and Fisheries.

ADDITIONAL SPONSORS

Under clause 4 of rule XXII, sponsors were added to public bills and resolutions as follows:

H.R. 304: Mr. LEHMAN of Florida.
H.R. 467: Mr. DYSON.
H.R. 468: Mr. PACKARD and Mr. DYSON.
H.R. 781: Mr. GRAY of Pennsylvania.
H.R. 979: Mr. FRANK, Mr. BLILEY, Mr. DIOGUARDI, Mr. ORTIZ, Mr. ECKART of Ohio and Mr. HUGHES.
H.R. 1101: Mr. MANTON.
H.R. 1102: Mr. MANTON.
H.R. 1103: Mr. MANTON.
H.R. 1104: Mr. MANTON.
H.R. 1156: Mr. TRAFICANT, Mr. NEAL, Mr. DE LUGO, and Mr. CROCKETT.
H.R. 1207: Mr. STARK.
H.R. 2527: Mrs. BENTLEY, Mr. DORNAN of California, and Mrs. ROYBAL.
H.R. 2660: Mr. BERMAN.
H.R. 3006: Mr. WALGREN, Mr. STUDDS, Mr. WORTLEY, Mr. ADDABBO, Mr. HARTNETT, Mr. ROE, Mr. HUTTO, Mr. PENNY, and Mr. TALLON.
H.R. 3063: Mr. MICHEL and Mrs. VUCANOVICH.
H.J. Res. 20: Mr. PANETTA, Mr. MAZZOLI, Mrs. LONG, Mr. FROST, Mr. DORNAN of California, Mr. KOSTMAYER, Mr. QUILLEN, Mr. RAY, Mr. VOLKMER, Mr. HAYES, and Mr. HOWARD.
H.J. Res. 133: Mr. BROWN of Colorado.
H.J. Res. 222: Mr. GRAY of Pennsylvania and Mr. YOUNG of Florida.
H.J. Res. 299: Mr. BONER of Tennessee and Mr. CONYERS.
H. Con. Res. 139: Mr. EDGAR.
H. Res. 165: Mr. SWEENEY, Mrs. ROUKEMA, and Mr. GALLO.
H. Res. 202: Mr. KINDNESS, Mr. CLINGER, and Mr. GORDON.

PETITIONS, ETC.

Under clause 1 of rule XXII, petitions and papers were laid on the Clerk's desk and referred as follows:

177. By the SPEAKER: Petition of Thaddeus Dias, Philadelphia, relative to Federal employment; to the Committee on Post Office and Civil Service.

178. Also, petition of the city of Oakbrook Terrace, IL, relative to infrastructure loan programs; to the Committee on Public Works and Transportation.

179. Also, petition of the village of Round Lake Beach, IL, relative to the Infrastructure Loan Program; to the Committee on Public Works and Transportation.

180. Also, petition of the city of Harvard, IL, relative to the infrastructure loan programs; to the Committee on Public Works and Transportation.

181. Also, petition of Atilano R. Pablo, Tagbilaran, Philippines, relative to Government benefits; to the Committee on Veterans' Affairs.

EXTENSIONS OF REMARKS

SYNTHETIC FUELS

HON. JOHN P. MURTHA

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Monday, July 29, 1985

● Mr. MURTHA. Mr. Speaker, last week we debated the future of the Nation's Synthetic Fuels Program in our consideration of the rule on the Interior and related agencies appropriations bill. For the benefit of my colleagues, I am inserting in the CONGRESSIONAL RECORD a letter from our former colleague, Tom Corcoran, who serves as the Vice Chairman of the Synthetic Fuels Corporation.

Mr. Speaker, I think you and all our colleagues, including those who are for and against synfuels, will find Tom's letter worth reading as we prepare for future debate on the issue of synfuels and what kind of program serves the Nation's needs.

U.S. SYNTHETIC FUELS CORPORATION,
Washington, DC, July 26, 1985.

Hon. JOHN P. MURTHA,
Rayburn Building,
Washington, DC.

DEAR JACK: Thank you for the support you and others gave to the Synthetic Fuels Corporation during the debate in the House on July 24. Some of the arguments made against the Corporation by others indicate to me that not all my former colleagues understand what we have been doing here at the Corporation since the new Board arrived in December of last year. In particular, I think the following points need to be stressed in future Congressional discussions.

1. The new Board clearly understands that the synthetic fuels program the nation now needs is not the one contemplated when the Corporation was established in 1980. The new Board fully agrees with the Congressional actions of 1984, reducing the available funds and deemphasizing near-term production in the Corporation's program and project decisions. The Corporation's current objective, spelled out clearly in its Business Plan and in the Comprehensive Strategy Report, is to obtain knowledge and experience for the future development of a commercial industry, probably around the end of the century.

2. Given the status of the technology and the long lead times involved, it is not too early to begin accumulating experience constructing and operating a few pioneer plants using commercial scale equipment. The technical problems encountered at the Union Oil shale oil project (which have cost the federal government nothing, since the project was assisted with a price guarantee only) demonstrate the importance of obtaining such commercial-scale experience before launching a full-scale industry based only on pilot plant data. However, pioneer plants can provide such experience without being the multi-billion dollar grants contemplated five years ago.

3. Under the new conditions, the fact that assisted projects may not produce significant amounts of fuel or may have high unit production costs is irrelevant. The projects that can provide the needed knowledge and experience in the most cost-effective way will not usually be designed to maximize production or to minimize unit cost. The new Board has made it clear that it intends to assist a diverse set of smaller plants that will give the nation the knowledge and experience it needs at a fraction of the cost originally contemplated in the Energy Security Act, even though these plants may not themselves produce much fuel or have low unit production costs.

4. The Great Plains project is an example of the kind of project the nation does not need under current conditions. The Corporation has consistently opposed this project and the form of assistance originally provided for it. However, now that the project has been built, the Corporation has been working with the DOE to find the best way to obtain whatever benefits can be obtained from it. Projects assisted by the Corporation will be smaller and less dependent for their financial viability on current market conditions.

5. The Corporation has not been wasting billions of taxpayers' dollars, but has been taking a cautious, prudent approach to assisting projects under difficult economic and technological conditions. The two projects assisted by the Corporation—Cool Water and Dow Syngas—have been technical and financial successes and are giving the private sector real confidence in synthetic fuels technology. Given time, the new Board will develop more such successful projects.

6. The new Board has been taking action to correct the earlier managerial weaknesses and to address the charges of waste and ethical improprieties. The new Board produced in a timely and professional fashion a Statement of Objectives and Principles, a Phase I Business Plan, and the Comprehensive Strategy Report to Congress, which together have redirected the Corporation's program in the direction indicated by Congress in the budget compromise of 1984. The Phase I program is now being implemented under the leadership of the new Board and will give the nation the snythetic fuels capability it will need in the 1990s.

7. Regarding the charge of excess employee benefits, waste and ethical improprieties, we have been reviewing SFC policies on these matters and have taken steps to correct these problems. Five developments in the past few months illustrate this:

(A) Stopped the hiring of a Corporation President at an annual salary of $135,000. This position does not need to be filled, and it will, I predict, be eliminated when full organizational review and subsequent reorganization of the Corporation are completed.

(B) Reduced Corporation staffing; employment has decreased from 170 in December 1984 to 144 as of July 15;

(C) Implemented the Metzenbaum amendment to last year's Congressional action. Now the SFC fully conforms to the standards of ethical conduct and financial reporting prescribed for federal officers and employees under Executive Order 11222.

(D) Leased out 12 percent of existing space; with changed, smaller program at the SFC, the response in a business-like manner has been to lease out 12 percent of existing space, pending a new contract with an annual saving to the government of $180,000 per year.

(F) Adopted a new Relocation Reimbursement Policy for SFC employees, which is now in line with the federal government across the board.

It is clear to me from the debate Wednesday that my former colleagues in the House understand the importance of continuing the national effort to reduce dependence on foreign energy supplies, without being distracted by short-term developments in OPEC and in the inherently volatile world energy situation. I am confident that the new directions being taken by the Synthetic Fuels Corporation are the right ones and that they will ultimately be successful. I am also confident that, once the Congress understands what the new Board is doing, the Corporation will be given an opportunity to finish this important job.

Again, I appreciate the efforts you and others are making in behalf of the national synthetic fuels program. If there is anything more I or the Corporation can do to help you inform the Congress on our objectives or program, please let us know.

Sincerely,

TOM CORCORAN,
Vice Chairman.●

LABOR RIGHTS VIOLATIONS IN SOUTH KOREA

HON. DONALD J. PEASE

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Monday, July 29, 1985

● Mr. PEASE. Mr. Speaker, with all of the attention focused upon our trade problems with Japan, not enough attention is being paid to the threat posed to American companies and workers from manufactured products made by overworked, underpaid labor in South Korea. Following is testimony given last month by officials of the UAW before the USTR on this challenge:

STATEMENT OF INTERNATIONAL UNION, UAW, TO THE GSP SUBCOMMITTEE OF THE TRADE POLICY STAFF COMMITTEE—JUNE 10, 1985

The UAW has a long history of strenuous efforts to support the internationally recognized workers rights of association, to organize and bargain collectively, to acceptable conditions of work with respect to wages, hours of work and occupational safety and health. Thus, we actively supported making GSP benefits conditioned on workers rights.

We request that the President withdraw the designation of the Republic of Korea as a beneficiary country for the Generalized System of Preferences on the basis of its failure to meet the international labor standards criterion.

Another source of UAW interest in the Republic of Korea is the large investment of American companies in that country and

the large increases in that investment in the past few years, just as labor conditions have worsened. We naturally have a special interest in developments in the automobile and construction equipment industries in particular. The recent announcement of several joint ventures in Korea by U.S. auto companies and Caterpillar gives us greater cause for concern for the labor conditions of Korean workers. A recent strike at Daewoo Motors, which is 50 percent owned by GM, and the arrest of many of those involved has brought home to us the precarious position of workers in the Korean auto industry and the need to take the steps necessary to help support their legitimate efforts to improve their working conditions. The repression of Korean auto workers suppresses the cost of goods exported to the U.S. This seems to us an unfair subsidy with adverse consequences for our members and other American workers.

In the last five years, the rights of Korean workers, in terms of both law and practice, have deteriorated in important ways from an already unsatisfactory state of affairs. From 1971 to 1980, a decree issued under martial law severely limited worker rights, including the ability of workers to bargain collectively, to demonstrate publicly in support of their bargaining demands and the right to strike. Despite these restrictions, the bravery and dedication of Korea's unions and workers led to union membership growth, from under 500,000 in 1970 to over one million in 1979. Demonstrations and strikes were carried out in the face of government repression.

With the adoption of a new Constitution and new labor laws in 1980, union membership declined, many union leaders were removed from their positions by the government, national and regional labor organizations closed or ceased to function effectively and organizing was dramatically inhibited. All of these developments have been directed by the Korean government through the new legislation and the institutions created by it, in direct conflict with internationally accepted labor standards as represented by International Labor Organization (ILO) Conventions No. 87, (concerning Freedom of Association and Protection of the Right to Organize) and No. 98 (concerning the Application of the Principles of the Right to Organize and to Bargain Collectively).

Korea does not comply with the key provisions of ILO Convention No. 87 which has been ratified by nearly one hundred countries and observed by the U.S. This convention states that workers may establish and join organizations of their choosing without previous authorization (Article 2); worker organizations should elect their representatives without interference (Article 3); these organizations shall not be liable to be dissolved or suspended by Administrative authority (Article 4); and these rights should apply to all workers, with the possible exception of the armed forces and police (Article 9).

In Korea, these standards for labor are not met. The 1980 Constitution denies the right of association and collective action to workers employed by the federal government, state or public run enterprises, defense industries, public utilities, or firms with a serious impact on the national economy. This covers a wide swath of the Korean economy. For example, nearly all heavy manufacturing industries, as well as many firms in the clothing and other industries produce goods for military use. Because many of these are considered "defense industries" the workers are denied basic rights. The impact of this legal condition is seen in a statement by a government economist quoted by the Oakland Tribune last year: "the government will simply not allow any [labor] organizing in heavy industries."

The right of association for a large portion of Korean workers is further compromised by a provision in the Labor Union Act, passed in 1980 and amended in 1981, which allows the formation of a local union only on approval of a minimum of 30 employees. This directly conflicts with Article 2 of ILO Convention No. 87. An estimated 80 percent of all workplaces employ fewer than 30 workers. In practice, this provision drastically limits the rights of association for workers in those industries not excluded by the Constitution.

The Labor Union Act also gives administrative authorities the right to dissolve a union or remove its officers if the union is likely to become detrimental to the public interest. This provision of the law violates Article 3, on worker organizations electing representatives without interference. The most egregious example of Korea's disregard for this article occurred in May 1980, when leaders of more than half of the national unions were forced to resign by the government along with thousands of union members and labor federation officials. This type of intervention in internal union affairs clearly abrogates the rights discussed in ILO Convention No. 87. These examples hardly exhaust the variety of ways in which Korean workers are denied the rights and freedom of association and organization addressed by Convention No. 87, but they do indicate how far from this standard Korea remains.

Another area of international labor standards is the right to organize and bargain collectively as incorporated in ILO Convention No. 98. In Article 4, this convention states that measures to promote and encourage machinery for voluntary negotiation between workers' organizations and employers or their organizations "shall be taken." The object of these measures is the regulation of employment terms and conditions by means of collective agreements. The Korean labor laws restrict collective bargaining in many ways. Since 1980, all bargaining must take place at the individual workplace. Unions representing workers throughout an industry or region may not bargain together with a similar association of employers. In addition, the Labor Union Act prohibits any individual not employed by the specific employer, now almost entirely restricted to the individual workplace as well, from representing or even influencing either party in collective bargaining. This provision keeps religious, education, civic and other activists from assisting unions. It also has the effect of keeping national or regional union officials from participating in collective bargaining.

The Labor Dispute Mediation Act places a major constraint or a union's ability to negotiate with an employer by recognizing the legitimacy of disputes only at the workplace. Should an employer lock out the workers, there is no legal place for the union to make its case or picket to inform the public of the dispute.

Another piece of legislation, the Labor-Management Council Act, established a Central Labor-Management Council under the Ministry of Labor. This body, which includes representatives of the "public interest" (the government) as well as representatives of employers and employees, was established to discuss and address important labor issues. This is now another avenue for government intervention in collective bargaining and dispute settlement.

The Labor Committee Law sends disputes not settled by labor and management to provincial and city committees made up of labor, management and public members. These committees give government appointed members an opportunity to settle disputes. If these committees cannot bring about solutions to workplace disputes, the government has been known to use the National Police and other intimidating organizations to "encourage" settlements.

A special law, the Temporary and Special Act Concerning Labor Unions and Mediation of Labor Disputes in Foreign Invested Enterprises, sets up a dispute settlement procedure, for firms with $1 million or more in foreign investment, which allows the Minister of Labor to determine the legality of the dispute. A Mediation Council, with labor, management, public interest and government representatives, is given 20 days to settle the dispute and, failing that resolution, the Central Labor Committee arbitrates the impasse. Strikes are not allowed at these firms.

The government activities established by the labor laws described above all limit the voluntary negotiations of workplace issues between workers and employer representatives. They undermine the right to bargain collectively contained in ILO Convention No. 98. Again, these examples represent only a fraction of all instances where Korean laws and practice deny the internationally accepted standards for collective bargaining rights of workers.

We believe that the policies and practices described here, combined with the evidence of others submitting testimony on the labor practices of the Republic of Korea, are sufficient for the GSP Subcommittee to find that the Republic of Korea does not comply with the internationally recognized rights of association and to organize and bargain collectively and, furthermore, that the legal actions taken since 1980 have moved that country further away from these standards.●

PERSONAL EXPLANATION

HON. TOBY ROTH

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Monday, July 29, 1985

● Mr. ROTH. Mr. Speaker, during the session of Friday, July 26, I was absent for several votes. Had I been present, I would have voted as follows:

Rollcall No. 263. On House Resolution 236, the rule waiving certain points of order against H.R. 3036, Treasury-Postal Service appropriations. "Nay."

Rollcall No. 264. Nelson substitute for the Jacobs amendment to H.R. 3036, reducing appropriations for allowances and staff of former Presidents by $291,400. "Aye."

Rollcall No. 265. Jacobs amendment as amended. "Aye."●

SOVIET JEWRY

HON. ROBERT A. YOUNG

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Monday, July 29, 1985

● Mr. YOUNG of Missouri. Mr. Speaker, Soviet Jews comprise the third largest surviving Jewish community in the world. Soviet Jews have been struggling to achieve basic human rights, including the right to maintain their own religion and culture. The right to leave any country that denies one their heritage is an internationally recognized human right, yet in the Soviet Union permission to emigrate is given arbitrarily.

I believe that it is important that in the face of this wave of anti-Semitism, America must reaffirm our commitment to human rights. The U.S. Congress has been a leading supporter of Soviet Jews in their attempts to study and teach their faith.

We have held "Congressional Prayer Vigils" on behalf of Soviet Jews, but we must be sure that the vigil continues each and every day until the human rights of all Soviet Jews have been restored. I am pleased that the 1985 Congressional Call to Conscience for Soviet Jews has been such a success, and will continue to protest the inhumane treatment that Jews in the Soviet Union are experiencing.

As a Member of Congress and concerned citizen, I have adopted a Soviet Jewish family from the Ukraine to help them fulfill their dream of emigrating to Israel.

Samuel and Manya Klinger have been trying unsuccessfully, for a number of years, to emigrate to Israel. Samuel Klinger is an agronomist from Dnepropetrovsk in the Ukraine. He and his wife, a nurse by profession, have been repeatedly denied exit visas since 1970. The only reason given by Soviet authorities has been a lack of consent from Manya's parents, who have not seen their daughter in many years. Manya, a mother herself, recently celebrated her 50th birthday.

The Klinger situation is quite pressing in that they are the only family in Dnepropetrovsk awaiting exit visas. Recently, a defamatory letter was printed in a local newspaper about the family—prompting Samuel to immediately send a letter of protest to the editor. The result was the printing of another anti-Semitic article in the same paper.

We have asked the Soviet Government to grant this family permission to emigrate, but have received no response. There can be no doubt that by not allowing the Klingers to leave the Soviet union, the Soviet Government is in clear violation of the Helsinki Final Act, the Universal Declaration of Human Rights, as well as their Soviet Constitution.

Surely the emigration of the Klinger family would pose no threat to the security of the Soviet Union, and instead would be a humanitarian gesture. Yet permission to leave is continually denied.

As the leader in the free world, the United States must do all that we can to protect the human rights of all people. And I urge my colleagues to continue to protest the blatant violations of human rights occuring each day in the Soviet Union.●

CONGRESSMAN GEORGE MILLER SALUTES CONTRA COSTA JACL

HON. GEORGE MILLER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, July 29, 1985

● Mr. MILLER of California. Mr. Speaker, on September 7, 1985, the Contra Costa County chapter of the Japanese American Citizens League will celebrate its 50th anniversary.

I know that all Members of the House of Representatives will want to join me in saluting the JACL in commemorating the founding of its Contra Costa chapter and in honoring all its members.

The JACL is one of the outstanding organizations in my district. The JACL offers a wide range of activities and programs to serve the local Japanese American community. These efforts include programs to preserve Japanese cultural heritage, and scholarships to promote educational opportunities for third- and fourth-generation Japanese Americans. The local JACL also takes an active interest in the needs of the elderly.

This is the kind of organization which we all should admire. For the JACL shows us how a tight-knit community can preserve its historical legacy, promote the healthy development of its younger members, and respect and care for the elderly through cooperation and voluntary contributions. We vitally need this type of community-based volunteer commitment to help provide dignity and essential services to people throughout our Nation, and the JACL serves as an exemplary illustration of how community organizations can achieve.

I have been pleased to work together with the JACL, both in Contra Costa and nationally, in efforts to assure equality of opportunity for Japanese Americans and all Asian Americans. The work of this great organization has helped all of us to better appreciate Japanese culture and history, and has made us all more sensitive to the need to protect our constitutional guarantees of equality of opportunity and civil liberty. By strengthening our understanding of those rights, the JACL has well served not only its own members, but all Americans, whether of Asian descent or not.

Mr. Speaker, as the JACL has served Japanese Americans in Contra Costa for five decades, it has been a leading partner in the building of our county and our community. I am proud to call the members of the JACL my close friends, and I wish them an outstanding celebration at their anniversary banquet.●

ROBERT B. ANDERSON

HON. JOSEPH J. DioGUARDI

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Monday, July 29, 1985

● Mr. DioGUARDI. Mr. Speaker, I was pleased recently to sponsor an appearance by Secretary Robert B. Anderson before the freshman Members of Congress. Secretary Anderson is one of the few Secretaries of the Treasury who has ever balanced the books. As a Certified Public Accountant, that means a lot to me. He is also founder of the Global Economic Action Institute, which monitors the international monetary system.

That morning, we heard an eloquent, powerful message detailing the possibilities of a global monetary emergency evolving from the current international banking and domestic fiscal crises. I have taken the liberty of inserting his remarks in the CONGRESSIONAL RECORD because his thoughts merit the attention of all Members of Congress. Those remarks will follow my statement.

I wish to add just one point to those offered by Secretary Anderson. What we heard from him concerning our national debt, believe it or not, was only the good news. The bad news is that the debt Secretary Anderson discussed only reflects that which appears on the books. What's off the books is triple that! When you take account of the unfunded pensions, unrecorded liabilities, off balance sheet and off budget items, you begin to realize the gravity of our present situation.

If a public corporation used the accounting methods and the accounting system that are used by the Federal Government, the executives responsible could be literally put under arrest. While I am not advocating that we arrest several hundred bureaucrats, I intend to use my 22 years of experience as a CPA to help resolve this dilemma.

One of my top priorities is to send each Member my assessment of the true financial condition of the United States of America. There exists a report, and I am waiting for the new numbers, that is put out by the Secretary of the Treasury and the Comptroller General that conforms the fi-

nancial statements of this Government to a minimally acceptable accounting basis. My former firm, Arthur Andersen Co., prepared the first as a pro bono gesture in 1975. I have the 1983 statement, and when the 1984 statement arrives, I will analyze the statement for you in laymen's language so my distinguished colleagues can begin to understand whether or not they are truly accountable to the public.

This is still the greatest country in the world. However, we must understand that the enemy we are facing is not necessarily the Soviet Union. That one we can see; We have sophisticated intelligence capabilities to monitor their actions. The one I'm concerned about is the enemy from within; our Government's inability to manage and plan efficiently. Our fiscal problems result from the Federal Government's penchant for wasteful programs and an apparent lack of acocuntability for such decision. What we have to do is raise our level of intelligence gathering to do battle with this enemy. Like in the television program "Mission Impossible," I choose to take the mission, and expect that my distinguished colleagues will join me in this effort.

The remarks follow:

REMARKS BY ROBERT B. ANDERSON, FORMER SECRETARY OF THE TREASURY, AND THE NAVY

Ladies and Gentlemen, I truly feel this morning that I'm talking to some of the most important people in the world today. Those of you who are sitting in this room, those who are members of the freshman class of Congress this year, could very well represent the difference in the passage or failure of legislation which, in my judgment, is going to represent some of the most critical decision making ever made by any Congress.

Today, every central bank in the world, without any exception, issues its money against dollars. There may be a little gold, or a little something else in some of the central banks, but basically every currency in the world is dependent on this one.

Take that dollar bill out of your pocket one day and look at it. It says on one side "This note is legal tender for all debts public and private"; the other side says "In God we trust." It doesn't promise anything to anybody anywhere.

It's that fragile piece of paper that's in your pocket that promises nothing, that measures the value of everything you own, the value of everything everyone else owns, and the value of every currency in the world. Ladies and Gentlemen, when you touch that dollar, in any way whatsoever, you are affecting every human being and his finances worldwide.

Let us look for a moment at the private banking system. The debts of Mexico, Central America, and South America, exceed the value of the stock of 14,500 banks in the United States if they sold it at market value. And add to it all the banks of Canada and 20 percent of all the banks in Europe. I visited these countries, every one of them in the last two years, and I can tell you quite frankly that those debts will never be paid in your lifetime or mine. You will be fortunate if they can pay the interest.

We have the problem of the possibility of losing confidence in money and in banks at the same time. I try to keep in the back of my mind that there is no patriotism of loyalty with money. . . anybody's money. Money has only three rules: It must be safe, it must be welcome, and it must be profitable. Nobody violates those rules: not the Federal Reserve System, not this Congress, not any other Congress. No nation can violate those rules.

I think that we have here the makings of what could be the most disastrous economic peril that this nation has ever faced. It is truly a matter of confidence and if we impaired that confidence—either directly or indirectly, either intentionally or unintentionally—we could bring about a collapse of both the international banking system and the banking system of this country.

Keep in mind that 83 percent of what you collect in this country generally goes to transfer payments, social security and medical care, interest on the debt and military. If we look at the military, which probably has the most elasticity of the four items, if we pass no new legislation and create no new military debts, we have already signed contracts for over a trillion, four hundred billion dollars of hardware in the next five years. Having been the Deputy Secretary of Defense, I can tell you that every time you spend a dollar on hardware, you should set aside an additional two dollars for maintenance and operation.

I simply want to point out to you in these brief few minutes that every time this Congress considers any type of appropriations, it ought to ask itself if this dollar is better spent for defense (or for something else), or would this dollar serve the confidence of the world better if it goes into the central bank to reduce the debts or reduce the deficit.

The crisis facing this country is really going to come when the foreigners decide that they don't want to buy our debt. We sell ours primarily to people abroad. If foreigners decide they don't want to buy our notes, we would then have to print money in order to pay for the deficit, which would start a form of inflation that would not be easy to stop.

So, you are in Congress at one of the most critical periods in our history. All I can tell you is that Congress ultimately has to accept the responsibility of any kind of a budget. The only way that money can be appropriated and spent is to go to Congress and ask for it. Only Congress can turn down appropriations that are unwise. Only Congress can take the action necessary to restore fiscal responsibility and maintain the confidence the world now has in our currency.●

U.N. ASSOCIATION TO STUDY UNITED NATIONS MANAGEMENT

HON. DANTE B. FASCELL

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Monday, July 29, 1985

● Mr. FASCELL. Mr. Speaker, this year marks the 40th anniversary of the founding of the United Nations. It provides an opportunity not merely to praise the creation of the organization, but to review its purposes, achievements, and short-comings. Such a review can help shape its direction in the future. It seems appropriate that the U.N. Association of the United States is now proposing a comprehensive study of U.N. management and decisonmaking. This 27-month project, to begin in October, will take a critical look at the international body, and assess a range of management, personnel and budgetary challenges to the organization. Over the years the UNA has made a significant contribution to the understanding of the United Nations in the United States and has been a focal point for constructive criticism of the U.N. system.

Congress has expressed concern over a variety of management and financial-related questions which confront the United Nations. The management problems which beset the United Nations must be addressed. In spite of all its imperfections, the United Nations is an organization of value and of even greater potential. As I noted several months ago in an interview for the U.N. publication "The Interdependent," "The United Nations represents the real world, and the United States, unless we're prepared to go to war with everybody, has to live in the real world."

This proposed study affords an opportunity for critical review and future reform. The project, to be headed by a blue-ribbon panel, will be oriented toward analyzing and streamlining the U.N. system for greater efficiency and effectiveness. It will seek a balanced and objective analysis with broad-based input from member states, diplomatic representatives, and the U.N. Secretariat. A final report of recommendations will be issued, with various issue briefs and research papers on U.N. administration and finance published in the interim. I strongly endorse the purposes of the proposed project, and commend the U.N. Association for its timely initiative.●

AMNESTY INTERNATIONAL DESCRIBES SYSTEMATIC TORTURE AND KILLING IN EAST TIMOR

HON. TONY P. HALL

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Monday, July 29, 1985

● Mr. HALL of Ohio. Mr. Speaker, recently 130 of my colleagues and I sent a letter to the President in which we expressed our concern about the plight of the people of East Timor. East Timor is the former Portuguese colony which was invaded by Indonesia on December 7, 1975.

Indonesia has occupied East Timor since 1975, and has attempted to make the territory one of its provinces. At least 100,000 people have died in East

Timor from the combined effects of the Indonesian invasion.

The concern of many of my colleagues and I about developments in East Timor has been sustained by the release on June 25, 1985 of the report of Amnesty International entitled, "East Timor Violations of Human Rights."

Mr. Speaker, this 92-page report by this reputable international human rights organization provides specific, detailed documentation of human rights violations against the people of East Timor. The report focuses on extrajudicial executions, disappearances, torture, and political imprisonment.

Based upon the information gathered, Amnesty International's report concludes: "Since the invasion of December 1975 Indonesian troops have systematically and persistently violated human rights in East Timor."

I would urge my colleagues to contact the Washington office of Amnesty International to obtain a copy of the report on East Timor. The Amnesty International report provides a timely challenge to the conscience of the outside world to respond to the ongoing suffering of the Timorese people.

For the benefit of my colleagues, a summary of the report follows, as well as a statement on East Timor by John G. Healey, the executive director of Amnesty International USA:

AMNESTY INTERNATIONAL DESCRIBES SYSTEMATIC TORTURE AND KILLING IN EAST TIMOR

Indonesian forces have systematically tortured and killed people in East Timor since they invaded the island territory in 1975, Amnesty International said in a detailed new report today (Tuesday, June 25, 1985).

Stressing the tight restrictions on information imposed by the Indonesian authorities, the worldwide human rights movement called on the authorities to account for past victims and investigate reports of abuses. It urged them to allow independent observers freer access so that the world could judge if the pattern of gross human rights violations was continuing.

The report cited evidence of prisoners who were shot, died after torture, or "disappeared" in custody. It covered the period from the Indonesian invasion of December 1975, following the withdrawal of Portuguese forces from the former colony, through 1984. Indonesian officials repeatedly declared during this period that conditions had returned to normal—but each time, it was later learned that abuses were continuing, Amnesty International said.

Access by outside observers has been limited and irregular since the invasion, Amnesty International pointed out. The report included testimony describing warnings to interpreters not to pass on unfavorable information, threats intended to silence East Timorese who travelled abroad, and the blocking of free movement by visitors.

The 92-page report traced waves of abuses which peaked during heightened military action against pro-independence Fretilin forces.

After the 1975 invasion, eyewitnesses testified to mass executions of civilians and systematic torture.

In late 1978 and 1979, hundreds were reported to have been executed or "disappeared" during "operation clean-up."

In 1980, many people "disappeared" or are known to have been killed, some of them systematically beaten to death, in reprisal for a Fretilin attack.

In 1981, a security sweep included thousands of civilians as a human "fence" by advancing Indonesian troops. People who refused to cooperate were reported to have been arrested and tortured.

In 1983, "operation clean-sweep," aimed at the elimination of Fretilin, brought hundreds more "disappearances" and deaths in custody.

Between and since these waves, abuses continued, according to consistent reports reaching Amnesty International. The report details the killing of prisoners who surrendered after being promised amnesty, and the arrest, torture and imprisonment of people merely suspected of disloyalty to Indonesian rule.

Beatings, electric shock, burning with lighted cigarettes, and sexual abuse were reportedly inflicted on victims from a wide range of backgrounds: subsistence farmers, students, teachers, workers and local government officials.

The report described prisoners held without trial in inhuman conditions in earlier years. Amnesty International pointed out that although the authorities had started bringing political prisoners to trial in the last two years, they had not allowed independent observers to attend such trials.

EAST TIMOR: A CURTAIN OF SILENCE

(Statement of John G. Healey, Executive Director, AIUSA)

It is nearly ten years since the Indonesian armed forces invaded East Timor. Today Amnesty International is releasing a report documenting systematic human rights violations committed by Indonesian forces in East Timor. We are calling for the curtain of silence to be lifted so that these abuses can be stopped.

The people of East Timor have been the victims of torture, "disappearance," killings and political imprisonment. Some have been systematically beaten to death. Others have been tortured with electric shocks or burned with lighted cigarettes. Abuses peak during periods of heightened Indonesian military activity. But even when the government has claimed that conditions were "normal," these abuses have continued.

The Indonesian government has allowed only limited and irregular access to East Timor by individual journalists and international organizations. It is a human tragedy in a forgotten place.

To stop the pattern of repression, Amnesty International is appealing for urgent action by the Indonesian government. We are also calling on the United States government to use its influence for the protection of human rights.

Torture and arbitrary killing by Indonesian troops are clearly at variance with publicly stated Indonesian policy. Yet Amnesty International has received military manuals distributed in East Timor which make it clear that force, threats, and torture may be used during interrogation. We have received reports of torture and ill-treatment inflicted on victims from a wide section of society: farmers, teachers, and local government officials.

We call upon the Indonesian government to investigate fully all reports of torture and to institute safeguards for the treatment of prisoners taken into custody.

Amnesty International has received reports of hundreds of "disappearances" and extrajudicial executions in East Timor. These are listed in the appendix to today's report. The Indonesian government has a responsibility to investigate reports of abuses and to discipline or prosecute those who commit abuses. To our knowledge, no such investigations or prosecutions have taken place.

Independent observers should be allowed to attend the political trials that have been going on in East Timor for the past year and a half. Amnesty International has requested and has been denied permission to observe these trials.

The United States government can play a critical role in helping to lift the curtain of silence. We urge the Congress to hold full-scale hearings into the reports of human rights violations in East Timor. It is now time for an in-depth investigation into the arrests, torture, "disappearances," and killings.

We appeal to President Reagan and Secretary of State Shultz to use their influence with the Indonesian government. Last July, at the request of 123 members of Congress, Secretary Shultz expressed concern about East Timor during a visit to Indonesia. Much more needs to be done.

As required by the Congressional Resolution against torture signed into law by President Reagan last fall, the Secretary of State has instructed United States ambassadors to focus on the practice of torture. The State Department should direct the United States ambassador in Jakarta to examine specific allegations of torture and to express concern about cases of arrest and "disappearance." The embassy should send fully qualified observers to the political trials in East Timor. The United States government should raise questions about human rights conditions in East Timor during upcoming meetings of the United Nations and in other appropriate forums.

Torture, political imprisonment, "disappearances" and killings are occurring today. That fact cannot be ignored.●

WYNNE JAMES

HON. PETER H. KOSTMAYER

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Monday, July 29, 1985

● Mr. KOSTMAYER. Mr. Speaker, Wynne James, Jr., three times a candidate for the U.S. House of Representatives from the Eighth District of Pennsylvania, died Sunday, July 21, in Doylestown, PA.

Wynne was 82 years old and had for more than half a century maintained real estate and law offices just across the street from the Bucks County Courthouse in Doylestown.

Although Wynne was an opponent of mine in the 1976 Democratic primary, I have only the warmest memories of him. He was an imaginative, kind, and gentle man whose roots in Bucks County, PA, go back to 1711, when John and Elizabeth James first settled in New Britain Township.

Wynne attended Princeton University when Woodrow Wilson was president of that university before he became Governor of New Jersey, and subsequently President of the United States. He graduated in 1924 with a bachelor of arts in history. Wynne didn't attend law school at first, but rather read law and passed the bar examination in Bucks County 3 years after his graduation from Princeton. In 1933, 8 years after he passed the bar, he received his law degree from Temple University in Philadelphia.

Frankly, Wynne wasn't much interested in the law and once said he didn't care much for what lawyers did because he didn't like to read and he didn't like to argue. Despite this, the Bucks County Bar Association cited him for 50 years in the practice for law.

Wynne was more interested in speculating in real estate and was quite successful at it. To this day, his son Tom, who is a friend of mine, maintains an active and thriving real estate business in central Bucks County. During the 1950's Wynne served as president of the Bucks County Board of Realtors.

Mr. Speaker, without meaning to be partisan, I want to mention that Wynne James was a lifelong Democrat and a strong supporter of the late Franklin D. Roosevelt and his programs.

In 1948, Wynne James won the Democratic primary for Congress and when Harry Truman's campaign train arrived in Allentown, PA, Wynne was on the platform with him. However, according to local observers, at 6 feet 5 inches, he was simply too tall and his face was hidden by a canope hanging from the train.

Three more times he ran for the Democratic Party's nomination; in 1964, 1966, and against me in 1976, although he was never again to be the nominee.

The last time I saw Wynne James was in 1982 when I was scouting around for a campaign headquarters in Doylestown. He owned a vacant building I was interested in and so I went to visit with him to discuss it. He was as warm and friendly as usual and seemed indifferent to those things that most of us would regard as the more materialistic aspects of life. He seemed to know what was truly important and what wasn't.

I was honored to have known him, Mr. Speaker.●

HOPKINS ACADEMY BASEBALL TEAM

HON. SILVIO O. CONTE

OF MASSACHUSSETTS

IN THE HOUSE OF REPRESENTATIVES

Monday, July 29, 1985

● Mr. CONTE. Mr. Speaker, it is my pleasure to take this opportunity to honor the Hopkins Academy baseball team of Hadley, MA. This year, the Hopkins Hawks have illustrated a proud tradition of athletic excellence. This season, the Hawks, under the expert coaching of Mr. Ron Barestka, captured the title due to them as a team of talented and hardworking individuals. Western Massachusetts is honored to have a State division III baseball title brought home by the Hopkins Academy baseball team. It truly was a grand finale to a fine season.

These young men have shown drive and desire to excel. This desire has in part been instilled by Coach Barestka and I sadly say so long and thank you to him as he retires after 21 years of service to the young men of Hadley. I also say goodbye to seniors Paul Ciaglo, Mike MacKay, Mike Sienkiewicz, and Ron Pelletier. Their talents and energy will not be lost, however, I know they have bright futures ahead of them. I am happy to note that several of the Hawks players will be returning next year to work toward another State championship. Doug Baj, Bob MacKay, Mark Peabody, Paul Styspeck, Kevin Hallock, Steve Mowduk, Greg Haas, Dave Barrett, Mark Palmisano, Steve Latham, Hank Cook, John Earle, Steve Feldman, Donald Hilton, Tim Bishko, Billy Kelley, and assistant coach Marty Sanderson will carry the torch toward a promising baseball future.

Hadley is proud of its 1985 baseball team and so am I. Coachability, discipline, and talent are key ingredients to make a successful team and I am happy to say that those ingredients led the Hopkins Hawks to become a successful team of champions.●

ADMINISTRATION IN CHAOS OVER MICRONESIA COMPACT

HON. JIM LEACH

OF IOWA

IN THE HOUSE OF REPRESENTATIVES

Monday, July 29, 1985

● Mr. LEACH of Iowa. Mr. Speaker, this House ought to be alerted to the fact that one of the most profound agreements the United States has ever negotiated in the Pacific is in serious jeopardy.

On Thursday of last week, the House adopted House Joint Resolution 355, which embodies the Compact of Free Association between the United States and two Pacific Island States: the Marshall Islands and the Federated States of Micronesia.

This legislation is unprecedented. The compact, like all negotiated agreements, involves quid pro quos. The United States receives vital national security rights under the compact and in turn agrees to provide the freely associated states with a mixed package of tax and trade benefits along with certain grant and program assistance.

From the time of its earliest consideration in the House this year, it was clear that conflict would occur as a result of overlapping committee jurisdictions. This could have been expected. But what was not expected was the division and chaos which has marked the administration's approach to this legislation. It now threatens to undercut one of the significant foreign policy initiatives of the decade.

Last week, in adopting House Joint Resolution 355, the House accepted an 11th-hour compromise worked out with the Ways and Means Committee on the tax and trade provisions of the compact, but with the express understanding that the administration would be seeking further changes in that package of amendments when the House would go to conference with the Senate. However, in the intervening couple of days, the Department of the Treasury and other elements of the administration appear rather extraordinarily to have continued to march at cross purposes.

The issue is not whether the position of the Ways and Means Committee or the Treasury Department is more persuasive in the abstract. The issue is whether the parties involved will recognize that the compact represents a carefully negotiated document which must either be generally accepted or rejected, but which we in Congress unilaterally modify at substantial risk.

My own view is that the administration served well the national interest in extending to the freely associated states certain trade and tax incentives which provide the prospect of binding these island states economically as closely as possible to the United States rather than to our trade rivals or strategic adversaries. If the compact were to be subjected to reopened negotiations as a result of congressional diminution of existing provisions, it would undercut the President's negotiating position and quite likely result in either a mired deadlock or end up costing the taxpayers significantly more.

It is one thing for reasonable differences of opinion to surface in the Congress. It is quite another in a matter of serious foreign policy for the administration to march to a discordant theme.

Last week the administration gave conflicting signals to the Congress, with one White House spokesman telling the House that the administration could support the House bill with the reservation that it would seek changes during the House-Senate conference to reflect more closely previously negotiated tax and trade benefits, and another White House spokesman telling Members of the other body that the administration could flatly accept

the House-passed provisions on tax and trade.

It should be noted that the 11th-hour compromise in the House was reached late Thursday afternoon with the involvement of the chairmen of most of the principal House committees and subcommittees involved. Minority Members of this body were excluded from those deliberations. Members of the minority, like myself and the gentleman from Minnesota [Mr. FRENZEL], objected to the procedures when the bill came to the floor. However, those of us that favored language closer to that of the original compact were assured that the administration's position would prevail in the Senate, and House conferees could then defer to the Senate in conference.

It appears now that this perspective represented undue confidence that the administration would present a consistent perspective to the Senate and that its views would prevail in the other body. But this morning the Treasury testified in support of the House passed rather than White House position, which means the compact, negotiated under four administrations of both political parties, and which in some areas of the Micronesia territory was approved with relatively thin margins of support, is suddenly in jeopardy.

Given the sensitivity of the issues, it is not clear a new compact could be easily negotiated nor would it be as likely to contain provisions as favorable to the United States as those in the present compact.

The question must be asked: Can the administration get its act in order in time to straighten out the diplomatic embarrassment that is in the making? Is it not time to bring in the larger perspective and larger administration factors to resolve a foreign policy issue of substantial import?

The area under consideration, after all, is the size of the continental 48 States. Forty years ago thousands of Americans lost their lives in the region to defend the principles of democracy and self-determination. To honor those principles today and reduce the prospect of military reengagement, let's not in Congress muddy up a carefully honed agreement.

It is simply unprecedented for one part of an administration (in this instance, the Department of the Treasury) to undercut a treaty approach drafted by another part of the same administration. It is even more so for a Congress to turn upside down an approach that is of such extraordinary significance.

It would be more prudent for Members of Congress to express dissent by voting "no" on the compact, if that is indeed their position, than for Congress to throw so much pepper into the soup that it becomes unpalatable to all parties. Greater wisdom is to recognize that this agreement is in the interest of all parties and deserves strong support in Congress as well as the executive branch.●

THE REVEREND BILLY KYLES HONORED FOR 26 YEARS OF SERVICE

HON. HAROLD E. FORD

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Monday, July 29, 1985

● Mr. FORD of Tennessee. Mr. Speaker, we in the Memphis community are extremely honored to have in our midst the Reverend Billy Kyles, pastor of the Monumental Baptist Church for the past 26 years.

On Saturday July 27, his family, parishioners, friends, and community leaders gathered together in order to express their appreciation for the work Reverend Kyles has performed in making the lives of people in and around Memphis more meaningful.

His work has touched the core of the community's social conscience, and will thereby affect the lives of many for years to come. His voice of compassion has always spoken out in an unyielding manner for the community's less fortunate. Under his guidance, Monumental Baptist Church has emerged as a forerunner in the defense of individual rights.

Thanks to Reverend Kyles' insistence, Monumental is headquarters for the local chapter of Operation PUSH.—People United to Save Humanity. His leadership of this group, along with his aggressiveness in working to eliminate the injustices present in the lives of many of the people in the community, has served as an inspiration to us all. Reverend Kyles' commitment to christian ideals serves as a shining example of what can be done when one sets aside his selfish appetence.

However, none of this could have been accomplished without the assistance of his loyal staff and loving family, who have proven to be pillars of support in his time of need. His family's understanding, patience, and unselfish love are significant reasons for his many successes.

His helping to bring about needed reform within the community, his leadership as the head of a truly great institution, and his voice of commitment for the community's less fortunate will forever be remembered. You are to be admired for your contributions and accomplishments.

Mr. Speaker, I commend Reverend Kyles for his dynamic leadership in the city of Memphis, and for the work he has done in making his goals a living reality for many people.●

LABOR RIGHTS VIOLATIONS IN CHILE

HON. DONALD J. PEASE

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Monday, July 29, 1985

● Mr. PEASE. Mr. Speaker, the trade union movement in Chile was once one of the most vibrant in the Western Hemisphere. The following testimony bears witness to how the Pinochet regime has systematically trampled upon the most basic rights of Chilean workers. One wonders why we should reward such a government with duty-free access to the American marketplace.

LABOR RIGHTS IN CHILE

(Statement of Lance Compa)

My name is Lance Compa. I am Washington Representative of the United Electrical, Radio & Machine Workers of America (UE). Our union represents manufacturing workers in a variety of companies and industries including General Electric, Westinghouse, American Standard, Allen-Bradley, Litton Industries, TRW, Rockwell and others.

UE opposes the granting of GSP trade benefits to Chile for the reasons set forth below. I also have a personal interest in this matter, and would like to discuss it at the outset.

I lived in Chile in 1972 and studied changes in labor law and collective bargaining structures under the Popular Unity government. I attended union meetings, management conferences and bargaining sessions, and met privately with union leaders, union members and management officials.

I want to leave aside the question of economic difficulties in the Allende years and the degree to which they stemmed from the Nixon-Kissinger plan to "make the economy scream" after the failure of U.S. corporation-backed efforts to block Allende's assuming the presidency. The question before us is labor rights—the freedoms of working people to form organizations and choose leaders, to meet in democratic assembly to develop principles and policies and proposals on wages, hours and working conditions, and to carry the needs and interests of workers to their employers through good faith collective bargaining.

In 1972 I found a labor movement in the front ranks of those that enjoy such freedoms. In only two years of the Popular Unity government the number of workers who joined unions rose from about one-third of the workforce to nearly one-half. Labor law reform brought industry-wide bargaining for minimum wage and benefit standards, aiding thousands of workers in small enterprises.

Unlike most European and Latin American labor movements which are divided among different federations reflecting different political philosophies, the Chilean CUT—the national labor federation—was a unitary body. Christian Democrats, communists, socialists, liberals and conservatives all participated and held office in the CUT and in its various union affiliates. They were open and often disputatious about their political differences, but they subsumed them under agreed trade union principles.

In contrast to our own system of designating national union leaders here in the

United States, the top national leaders of CUT and the union affiliates were elected in a nationwide secret ballot of rank and file union members. These voting procedures were treated by the labor membership and the public as respectfully and attentively as national government elections.

Our own National Labor Relations Act charges the U.S. federal government with "encouraging the practice and procedure of collective bargaining"—a principle honored more in the breach than the observance nowadays. The Chilean Popular Unity government carried out these policies, seeking to help workers who tried to organize and bargain with their employers. Workers saw the government as an ally—a sentiment that may rankle advocates of government neutrality in labor management relations, but one that reflects the reality of a country with a history of government intervention weighing heavily—often in the form of strikebreaking troops and police actions that killed union members—on the side of the employers.

Worker support for the Popular Unity government was confirmed in the 1973 legislative elections when government coalition parties won 44% of the vote. It was the first time in history that an incumbent government gained ground in mid-term elections. According to polls at the time, most of the government's support came from working class, heavily-unionized sectors of the population.

Popular Unity had been elected in 1970 with 36% of the vote in a three-way race. Both the 1964-70 Christian Democratic government of Eduardo Frei and the conservative Jorge Allesandri administration of 1958-64 had been elected with equivalent votes in a three-way race, but each of them then lost support in their mid-term elections. In 1973 the right-wing parties hoped that Popular Unity would fall below one-third of the vote, allowing the Right to override any Allende veto of conservative legislation. When the election results instead showed growing support for the Popular Unity government and the prospect of an absolute majority in the next election, the military coup d'etat moved to the top of the right wing agenda.

The terrible events following the brutal military takeover of September, 1973 have been widely recounted. Most union leaders and union activist were imprisoned or killed for their trade union roles. On a personal note, the atrocities included the murder of my Santiago housemate and friend, Frank Teruggi, one of two Americans killed in the aftermath of the coup.

The Pinochet regime's continuing cycle of brutality against trade unionists, most lately in the state of siege imposed last year, carry on the repression of labor rights launched in the 1973 takeover. Trade union leaders have continued to be rounded up, tortured and killed or exiled for their union activities.

Moreover, Chilean unions are now forced to operate under a 1979 labor code imposed over their objections by the military government. That code violates nearly every agreed upon standard of labor rights. Collective bargaining is limited to the level of the single workplace, barring company-wide or industry-wide bargaining and thus giving employers an insurmountable advantage in bargaining strength.

Local union leaders are required to have five years' seniority in the workplace, and cannot have any record of political involvement. This guts the workers' right to choose their leaders and invites employers to fire effective shop floor spokespersons when they near five years' service.

Strike votes must be taken in the presence of a magistrate or the police, without a secret ballot so that strike supporters are readily identifiable to the authorities. The chilling effect here needs no discussion. Even if workers vote for a strike under these conditions, the stike may only last sixty days after which the striking employees must accept the employer's latest offer or abandon their jobs. This just invites companies to wait out the sixty days instead of bargaining in good faith. Obviously, when the outcome of a strike is predetermined in such a way it negates the right to strike.

In contrast to the vibrant, growing, confident labor movement that represented nearly one-half the workforce in 1972, the Chilean labor movement today has been ground to a weakened fifteen percent of the workforce. Unions face employers in collective bargaining—if it can still be called that—with their hands tied by the labor laws and with the backdrop of thousands of unemployed workers desperate for jobs.

Under these conditions it is remarkable, even heroic, that a Chilean labor movement has survived and continues to function. But much more must be done to restore even a minimum of respected labor rights in Chile. The United States government, with its history of seeking to oust the Popular Unity government and its pattern of support for the Pinochet Military dictatorship, bears a heavy responsibility for the repressed state of the Chilean labor movement. One place to begin righting our accounts with the people of Chile is to deny GSP benefits to the brutal regime that violates internationally accorded labor standards.●

SENATE COMMITTEE MEETINGS

Title IV of Senate Resolution 4, agreed to by the Senate on February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference. This title requires all such committees to notify the Office of the Senate Daily Digest—designated by the Rules Committee—of the time, place, and purpose of the meetings, when scheduled, and any cancellations or changes in the meetings as they occur.

As an additional procedure along with the computerization of this information, the Office of the Senate Daily Digest will prepare this information for printing in the Extensions of Remarks section of the CONGRESSIONAL RECORD on Monday and Wednesday of each week.

Any changes in committee scheduling will be indicated by placement of an asterisk to the left of the name of the unit conducting such meetings.

Meetings scheduled for Tuesday, July 30, 1985, may be found in the Daily Digest of today's RECORD.

MEETINGS SCHEDULED

JULY 31

9:00 a.m.
Foreign Relations
Near Eastern and South Asian Affairs Subcommittee
To hold hearings on the nominations of John G. Dean, of New York, to be Ambassador to India, and James W. Spain, of California, to be Ambassador to the Democratic Socialist Republic of Sri Lanka, and to serve concurrently as Ambassador to the Republic of Maldives.
SD-419

9:30 a.m.
*Banking, Housing, and Urban Affairs
To resume oversight hearings on the deposit insurance system.
SD-538

Energy and Natural Resources
Business meeting, to consider pending calendar business.
SD-366

Finance
Business meeting, on pending calendar business.
SD-215

Select on Intelligence
To hold closed hearings on intelligence matters.
SH-219

10:00 a.m.
Agriculture, Nutrition, and Forestry
Business meeting, on S. 501 and S. 616, bills to expand export markets for United States agricultural commodities, provide price and income protection for farmers, assure consumers an abundance of food and fiber at reasonable prices, and continue low-income food assistance programs, and related measures.
SR-328A

Environment and Public Works
Transportation Subcommittee
To resume hearings on proposed legislation authorizing funds for the Federal Aid Highway Program.
SD-406

Foreign Relations
To resume hearings to review the services trade between the United States and Japan.
SD-419

Judiciary
To resume oversight hearings on private civil suits which have been filed under the Racketeer Influenced and Corrupt Organizations Act (RICO).
SD-106

Judiciary
Criminal Law Subcommittee
To hold hearings on S. 1090, to eliminate the use of cable television and interstate telephone service for the transmission of obscene and indecent material.
SD-226

11:30 a.m.
Select on Intelligence
Closed briefing on worldwide intelligence matters.
SH-219

2:00 p.m.
Governmental Affairs
Oversight of Government Management Subcommittee
Business meeting, to mark up S. 992, to discontinue or modify certain requirements for agency reports to Congress, and S. 1134, to permit Federal agen-

cies to impose monetary penalties on individuals or companies which submit certain false claims to the government.
SD-342

Judiciary
To hold hearings on pending nominations.
SD-226

3:00 p.m.
Foreign Relations
European Affairs Subcommittee
To hold hearings on the nomination of Frank Shakespeare, of Connecticut, to be Ambassador to the Republic of Portugal.
SD-419

AUGUST 1

9:30 a.m.
Commerce, Science, and Transportation
To hold hearings on the nomination of Anthony J. Calio, of Maryland, to be Administrator of the National Oceanic and Atmospheric Administration.
SR-253

Energy and Natural Resources
Business meeting, to consider pending calendar business.
SD-366

10:00 a.m.
Agriculture, Nutrition, and Forestry
Business meeting, on S. 501 and S. 616, bills to expand export markets for United States agricultural commodities, provide price and income protection for farmers, assure consumers an abundance of food and fiber at reasonable prices, and continue low-income food assistance programs, and related measures.
SR-328A

Foreign Relations
To hold hearings on the Supplemental Extradition Treaty Between the United States of America and the United Kingdom of Great Britain and Northern Ireland, with Annex (Treaty Doc. 99-8), signed at Washington, D.C., on June 25, 1985.
SD-419

Judiciary
Business meeting, on pending calendar business.
SD-226

*Labor and Human Resources
Education, Arts, and Humanities Subcommittee
To hold joint hearings with the House Committee on Education and Labor on the problems of illiteracy.
2175 Rayburn Building

Joint Economic
Agriculture and Transportation Subcommittee
To hold hearings to review the growing spread between retail and live cattle prices.
SD-562

AUGUST 2

9:30 a.m.
Joint Economic
To hold hearings on the employment/unemployment situation for July.
2359 Rayburn Building

10:00 a.m.
Judiciary
To hold hearings on issues surrounding Joseph Mengele.
SD-226

SEPTEMBER 5

10:00 a.m.
*Commerce, Science, and Transportation
Communications Subcommittee
To hold hearings on competitiveness in the long-distance telephone markets.
SD-628

SEPTEMBER 9

9:30 a.m.
Finance
Health Subcommittee
To hold hearings on S. 1265, to provide compensation for workers injured by exposure to asbestos.
SD-215

SEPTEMBER 10

9:30 a.m.
Labor and Human Resources
Labor Subcommittee
To resume oversight hearings on the impact of the Supreme Court's ruling in Garcia vs. San Antonio Metropolitan Transit Authority on the coverage of state and local government employees under the Fair Labor Standards Act.
SD-430

SEPTEMBER 11

9:30 a.m.
Commerce, Science, and Transportation
Business meeting, to consider proposals relating to the future of Washington National Airport and Washington Dulles International Airport.
SR-253

Labor and Human Resources
To hold hearings on United States' relations with the International Labor Organization (ILO).
SD-430

10:00 a.m.
*Select on Indian Affairs
To hold hearings on S. 1396, to settle unresolved claims relating to certain allotted Indian lands on the White Earth Indian Reservation in Minnesota.
SD-628

1:00 p.m.
Commerce, Science, and Transportation
Communications Subcommittee
To continue hearings on competitiveness in the long-distance telephone markets.
SR-253

SEPTEMBER 12

10:00 a.m.
Labor and Human Resources
Education, Arts, and Humanities Subcommittee
To hold hearings on proposed legislation authorizing funds for programs of the Higher Education Act.
SD-430

SEPTEMBER 17

10:00 a.m.
Labor and Human Resources
Education, Arts, and Humanities Subcommittee
To resume hearings on proposed legislation authorizing funds for programs of the Higher Education Act.
SD-430

SEPTEMBER 18

10:00 a.m.
Judiciary
Juvenile Justice Subcommittee
To hold hearings on S. 985, to protect the rights of victims of child abuse.
SD-226

SEPTEMBER 19

9:30 a.m.
Banking, Housing, and Urban Affairs
To hold hearings on S. 812, to authorize the President to control loans and other transfers of capital to any or all of the Soviet bloc countries.
SD-538

10:00 a.m.
Labor and Human Resources
Education, Arts, and Humanities Subcommittee
To resume hearings on proposed legislation authorizing funds for programs of the Higher Education Act.
SD-430

SEPTEMBER 24

10:00 a.m.
Labor and Human Resources
Education, Arts, and Humanities Subcommittee
To hold hearings on the problem of illiteracy in America.
SD-430

SEPTEMBER 26

10:00 a.m.
Labor and Human Resources
Education, Arts, and Humanities Subcommittee
To resume hearings on the problem of illiteracy in America.
SD-430

SEPTEMBER 30

9:30 a.m.
Finance
Taxation and Debt Management Subcommittee
To hold hearings on proposed revisions in subchapter C of the Internal Revenue Code relating to corporate taxation.
SD-215

OCTOBER 1

11:00 a.m.
Veterans' Affairs
To hold hearings to review the legislative priorities of the American Legion.
SD-106

CANCELLATIONS

JULY 30

10:00 a.m.
Governmental Affairs
Intergovernmental Relations Subcommittee
To continue hearings to examine the role of tax-exempt bonds in intergovernmental finance and the implications of the Department of Treasury's tax reform proposal to eliminate the tax-exempt status of "private purposes" bonds.
SD-342

JULY 31

9:30 a.m.
Labor and Human Resources
To hold hearings to examine certain barriers to health care.
SD-430

10:00 a.m.
Foreign Relations
To hold hearings to review current U.S. financing of foreign military exports.
SD-419
